Description of Nature, Purpose and Beneficiaries of Project:

San Joaquin Field Division staff plans to repair several erosions along pool 27 of the State Water Project California Aqueduct. To repair erosions, craftworkers will use a backhoe to fill in erosions. A dump truck will be used to haul in base material. A water truck will be used to control dust and to aid in compaction. A wacker packer or compaction wheel may be used to aid in compaction. All staging will take place on and along the aqueduct access roads, and all work will take place within the DWR right-of-way. This work is necessary to maintain the structural integrity of the access roads and the California aqueduct.
