### Present Land Use/Zoning/General Plan Designation:

Public Facilities

**Project Description:** *(please use a separate page if necessary)*

The proposed Project involves construction of an underground infiltration system, biofiltration systems, two hydrodynamic separators, and a concrete-lined flood control channel to reduce on-campus flooding and improve water quality. The proposed Project would be constructed generally in the southwest corner of the LAHC campus in the baseball field, adjacent to Campus Drive, and to the west of Campus Drive, south of Harbor Park Golf Course. The proposed Project would address flooding in the western portion of LAHC during storm events, reduce sediment accumulation in the West Drainage channel, provide stormwater capture, and improve stormwater runoff quality.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
