The Proposed Project consists of various multi-purpose improvement opportunities that are identified in an effort to transform the SAR corridor and portions of the existing Santa Ana River Trail (SART). The OC River Walk Engineering Feasibility Study first identified these various improvement opportunities, which are described below and are organized into three (3) categories representative of the main goals of the OC River Walk experience: 1) Active Transportation (AT); 2) River Activation (RA); and 3) Community Amenities (CA).

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
