

## MEMORANDUM

State Clearinghouse  
1400 Tenth Street  
Sacramento, CA 95814

### **RE: 2023040385 – EIR – OLC3 Commercial Warehouse Project**

The City is respectfully requesting that new attachments be added to the OLC3 Commercial Warehouse Project Public Review Draft EIR published on September 9, 2023 with a public review period ending October 22, 2023. The new attachments (provided to OPR via email) include detailed model outputs for air quality, health risk, energy, greenhouse gases, and transportation that were not attached to the previously uploaded Appendices. These new attachments do not change any of the analysis reported within the body of the technical reports or EIR and simply provide more detailed model outputs should anyone wish to review the information during the public review period. The new attachments supplement the following previously uploaded Appendices:

B – Air Quality Report  
C – HRA Report  
I – EA Report  
L – GHG Report  
S – TA Report

The files are provided in the attachment provided within the e-mail.

Thank you

*Mathew Evans*
