**Re: 2023040690, Sywest Industrial Building located at 907 S. Kellogg Goleta CA 93117, Santa Barbara County**

Dear Mr. Hiefield:

The California Department of Transportation, Division of Aeronautics has reviewed the Notice of Preparation of a Draft EIR for the project Sywest Industrial Building located at 907 S. Kellogg. One of the goals of the California Department of Transportation (Caltrans), Division of Aeronautics (Division), is to assist cities, counties, and Airport Land Use Commissions or their equivalent (ALUC), to understand and comply with the State Aeronautics Act pursuant to the California Public Utilities Code (PUC), Section 21001 et seq. Caltrans encourages collaboration with our partners in the planning process and thanks you for including the Division in the review of the Notice of Preparation.

The Site of the proposed Project is in Zone 2 of the defined safety zones of the Santa Barbara Municipal Airport and therefore must adhere to the safety criteria and restrictions defined in the Airport Land Use Compatibility Plan formed by the ALUC pursuant to the PUC, Section 21674.

Caltrans advises the City of Goleta to submit its plans upon completion to the ALUC to determine if the plans or projects are consistent or not with the ALUCP according to the State Aeronautics Act's statutory procedure. An ALUCP is crucial in minimizing noise nuisance and safety hazards around airports while promoting the orderly development of airports, as declared by the California Legislature. A responsibility of the ALUC is to assess potential risk to aircraft and persons in airspace and people occupying areas within the vicinity of the airport.

If you have any questions or need additional information, please contact me at my email address: [tiffany.martinez@dot.ca.gov](mailto:tiffany.martinez@dot.ca.gov).
