

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Crown Point Drive Roundabouts & Storm Drain Improvements

Lead Agency: City of San Diego

Contact Name: Jeffrey Szymanski

Email: jszymanski@sandiego.gov

Phone Number: 619 446-5324

Project Location: San Diego/San Diego

City

County

Project Description (Proposed actions, location, and/or consequences).

The project would provide traffic calming and pedestrian safety improvements along Crown Point Drive at its intersections with Moorland Drive and La Cima Drive. The project would include installation of a 55-foot x 75-foot-wide roundabout at Crown Point Drive and La Cima Drive and a 50 x 67-foot-wide roundabout at Crown Point Drive and Moorland Drive with truck aprons, curb extensions, raised medians, sidewalk, curb and gutter, curb ramps, continental crosswalks, and flashing beacons at each crosswalk. Additionally, south of the entrance to Crown Point Park's southern parking lot, between Crown Point Drive and Corona Oriente Road, the project would remove and replace approximately 175 feet of corrugated aluminum storm drainpipes (24 inch and 18 inch diameter) with new 24 inch reinforced concrete pipe (RCP), and install two cleanouts, one curb inlet, a low-flow interceptor, and two storm water biofiltration basins.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The City of San Diego conducted an Initial Study which determined that the proposed project could have a significant environmental effect in the following areas(s): Historical Resources (Archaeology) and Tribal Cultural Resources. Subsequent revisions in the project proposal create the specific mitigation identified in Section V of this Mitigated Negative Declaration. The project as revised now avoids or mitigates the potentially significant environmental effects previously identified, and the preparation of an Environmental Impact Report will not be required.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No concerns have been raised at this time

Provide a list of the responsible or trustee agencies for the project.
