Present Land Use/Zoning/General Plan Designation:

R-2, R-3, R-4, MUO/ Low Density Residential, Medium Density Residential, High Density Residential

Project Description: *(please use a separate page if necessary)*

The City of Arvin proposes a General Plan Amendment and Development Code Text Amendment to allow ministerial approval of multi-family residential uses within R-2, R-3, R-4, and MUO districts. The project also proposes to increase the zoning density for 3 zone districts, R-2, R-3 and R-4, to address the need for housing and amend discrepancies within the General Plan. Specifically, the Project would increase the residential density of Medium and High Density Residential designations from 16-21 du/ac and 21-24 du/ac to 16-24 du/ac and 21-30 du/ac. The Project also proposes a Medium Low Density designation that would allow 10-16 du/ac. This designation will be consistent with R-2. The proposed text amendment will also make other changes within the City of Arvin zoning ordinance (Title 17 of the Arvin Municipal Code AMC), including establishing objective design standards. However, these other modifications will not alter uses permitted and will not result in any increase in the intensity or density of any land use above what us currently allowed. Allowing the ministerial approval of these uses already permitted by the AMC will also not result an increase in the intensity or density of residential uses within the City of Arvin.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X". If you have already sent your document to the agency please denote that with an "S".
