Project Title: McNear Park Recreational Dock Replacement

Project Applicant: Friends of the Petaluma River, Kallie Kull, 625 2nd St, Suite 107, Petaluma, CA 94952
stephanie@friendsofthepetalumariver.org

Project Location: Steamer Landing Park, 100 E. D Street, Petaluma, Sonoma County, CA.

Project Description: The project includes the replacement of an existing wooden dock, damaged in 2020 during the Petaluma River dredging operation. The project will install a low profile, floating dock, 916 sq. ft. in area, constructed of prefabricated materials. Three 16" fiberglass covered steel guide-type pilings will be driven into the river bottom, to anchor the dock. A 40' gangway will be installed from the top of bank out to the dock platform, which will be located offshore. A concrete footing will be poured to anchor the gangway to the upper bank. Two paths will be built leading down to the gangway. One will be the redefinition of a short existing path from the barn to the gangway entrance. The second path will be a five-foot wide, 40' ramp with a gradient of <5% to meet ADA standards. Upon installation of the dock, the area will be re-seeded/landscaped with native riparian and wetland plants appropriate to the site.

Reasons why project is exempt: The project is eligible for categorical exemptions under Section 15301 (Class 1), which applies to projects consisting of repair and maintenance of existing structures, Section 15302 (Class 2), which applies to projects consisting of replacement or reconstruction of existing structures where the new structure will be located on the same site and will have substantially the same purpose as the structure being replaced. There is negligible or no expansion of use beyond what currently exists and there are no cumulative impacts, unusual circumstances or other factors that would make the exemption inapplicable.
