environmental review is required because the County finds, based on substantial evidence in the record of proceedings, that: 1) approval of this project is a "later activity" associated with the CLUO EIR, as defined by subsection (c) of Section 15168; 2) no subsequent EIR is required pursuant to CEQA Guidelines Section 15162; and/or the project qualifies for streamlined environmental review pursuant to CEQA Guidelines Section 15183 due to consistency with zoning. All impacts associated with the approval of this project are within the scope of environmental review previously studied, and the requirements and mitigations incorporated into the CLUO adequately serve to mitigate the impacts associated with approval of this project.

This is to certify that the Final EIR including comments and responses, and the record of project approval, including the Program EIR Checklist/Project Initial Study, are available to the general public at the Community Services Department at 292 W. Beamer Street, Woodland, CA 95695, (530) 666-8803, tracy.gonzalez@yolocounty.org.
