June 9, 2021
Project No. 2759-CR

JPM Investments, LLC
556 South Fair Oaks Avenue, #337
Pasadena, California 91105

Attention: Mr. Paul Onufer

Subject: Phase I Environmental Site Assessment
Accessors Parcel Numbers (APNs) 330-230-023 and -024
Sun City area of Menifee, Riverside County, California 92585

Dear Mr. Onufer:

GEO TEK, INC. (GEO TEK) is pleased to present this Phase I Environmental Site Assessment for the above-referenced subject Site. Services were conducted in substantial conformance with the scope and limitations of the American Society of Testing and Materials E 1527-13, “*Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*,” which is approved to meet the requirements of the federal All Appropriate Inquiries (AAI) standards as set forth in the Code of Federal Regulations, Title 40, Section 312 (40 CFR 312), and GEO TEK’s Proposal No. P-0303421-CR, dated March 11, 2021.

This Phase I Environmental Site Assessment has not revealed evidence of a recognized environmental condition or concern in connection with the subject Site. No further investigation is recommended.

We appreciate this opportunity to be of service. If you have any questions, or if we can be of further service, please contact us at (951) 710-1160.

Sincerely,
GEOTEK, INC.

Edward H. LaMont
Principal Geologist, CEG 1892
Expires 07/31/2022

J. Michael Batten, CEM, REPA
Environmental Services Manager
Registered Environmental Property
Assessor No. 113162
Expires 06/15/2022

Franklin Sullivan
Staff Environmentalist

I.0 EXECUTIVE SUMMARY

GEO TEK, INC. (GEO TEK) has performed a Phase I Environmental Site Assessment (ESA) for APNs 330-230-023 and 330-230-024 (the “Site”), located in Sun City area of Menifee, Riverside County, California. Our services were conducted in substantial conformance with the scope and limitations of the American Society of Testing and Materials (ASTM) E 1527-13, “*Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*”, which is approved to meet the requirements of the federal All Appropriate Inquiries (AAI) standards as set forth in the Code of Federal Regulations, Title 40, Section 312 (40 CFR 312), and GEO TEK Proposal No. P-0303421-CR, dated March 11, 2021. Any additions or deletions from our scope of services are discussed in the appropriate sections of this assessment.

A representative of GEO TEK conducted a Site reconnaissance on June 8, 2021. The weather was warm and the sky was clear. The rectangular shaped Site is currently comprised of two (2) parcels (Riverside County Assessor’s Parcel Numbers 330-230-023 and -024) and encompasses a total of approximately 27.5 acres. The Site can generally be accessed from Buyers Road to the east and Troy Lane to the north.

The Site is currently vacant land. Visual evidence of hazardous substances and wastes were not observed during our Site reconnaissance. No visual indication of spills or leaks were observed. No pungent or acrid odors were observed emanating from the Site.

The Site is in an area largely characterized by residential development and vacant land. The Site is bounded by Troy Lane, followed by graded but vacant land to the north; Buyers Road, followed by residential structures and vacant land to the east; vacant land to the south; and graded but vacant land, followed by Goetz Road to the west.

Based on readily available historic information, the parcels appear to have been vacant land from at least 1938 until present day. The surrounding properties appear to historically have been vacant land and residential development since at least 1938. Residential structures can first be observed to the northeast in the 1984 aerial photograph. The aerial photograph dated 1989 depicts residential development to the east and adjacent to the Site. Grading for residential construction can first be observed to the north, west and south of the Site in the aerial photograph dated 2002 until present day. The current configuration of the Site and surrounding properties can be observed in the 2016 and 2020 aerial photographs.

The Site does not appear on the environmental database report obtained for this assessment. None of the adjacent properties appear on the database report. There are three (3) facilities listed on the database report within the various search distances specified by ASTM E 1527-13.

None of these facilities represent environmental concerns to the Site due to their distances, locations hydrogeologically downgradient, or their “Case Closed” regulatory status.

This Phase I Environmental Site Assessment has not revealed evidence of a recognized environmental condition or concern in connection with the subject Site. No further investigation is recommended.

This executive summary does not contain all the information that is found in the full report. The report should be read in its entirety to obtain a more complete understanding of the information provided and to aid in any decisions made or actions taken based on this information.

2.0 INTRODUCTION

GEO TEK, INC. (GEO TEK) has performed a Phase I Environmental Site Assessment (ESA) APNs 330-230-023 and -024 (the “Site”), located in the Sun City area of Menifee, Riverside County, California.

2.1 PURPOSE

The purpose of this Phase I ESA was to identify and evaluate actual and potential environmental conditions involving the subject Site. It was not the purpose of this assessment to determine the degree or extent of contamination, if any, but rather the potential for contamination.

2.2 SCOPE OF WORK

The Phase I ESA is a general characterization of environmental concerns based on reasonably ascertainable information and observations. GEO TEK performed the Phase I ESA in substantial accordance with ASTM E 1527-13. The following services were provided for the assessment:

- A reconnaissance of the Site and surrounding properties to visually assess current utilization and indications of potential surface contamination. This was accomplished by driving the Site boundaries, and then traversing the Site until the entire Site had been surveyed.
- A reconnaissance of the surrounding area for approximately one-half mile was conducted, without entering the properties, making observations concerning property uses, conditions, and housekeeping.
- A review of the geologic and hydro-geologic settings was conducted using reasonably ascertainable public records and documents.
- An environmental database report was obtained from a data service provider. This database report compiles and locates documented “hazardous waste” facilities within specific minimum search distances as defined by ASTM E 1527-13. If necessary, additional information on identified facilities was gathered by a file review at the appropriate federal, state, local, and/or tribal regulatory agency.
- A review of reasonably ascertainable historical records (including aerial photographs, topographic maps, building records, and city directories) was conducted to assess the

historical land utilization and indications of potential contamination or sources of contamination for the Site.

- This report was prepared, which relates the findings of this study and presents our conclusions and recommendations.

Specific items not included in this Scope of Services are soil analysis, water analysis, asbestos containing materials analysis, radon analysis, lead-based paint analysis, lead in drinking water, wetlands, regulatory compliance, cultural and historic resources, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality, vapor intrusion testing, high voltage power lines, and other items not within the scope of ASTM E 1527-13.

2.3 SIGNIFICANT ASSUMPTIONS

Specific assumptions by GEOTEK for this assessment include:

- GEOTEK had permission to access the Site grounds;
- The client has provided GEOTEK with available geotechnical or environmental reports for the Site;
- The client has provided GEOTEK with known current or historic uses of hazardous materials at the Site, or with other specialized knowledge of the environmental history of the Site and surrounding area;
- The client is not the sole and absolute source of information;
- Seller has provided proper and complete access to their knowledge, both written and verbal, and GEOTEK can rely on the information.

2.4 LIMITATIONS AND EXCEPTIONS

GEOTEK conducted a Phase I Environmental Site Assessment in substantial accordance with ASTM E 1527-13 and as authorized by Beazer Homes. This study does not include sampling of soil, groundwater and/or materials on-site for environmental testing. This report is intended for the use of Beazer Homes. The contents should not be relied upon by any party other than the aforementioned without the express written consent of GEOTEK.

The findings, conclusions, and recommendations made in this report are based on the information that was made available to GEOTEK, in most instances from public records. The information is relevant to the date of our site work and should not be relied on to represent conditions at any later date. The opinions and conclusions expressed herein are based on information obtained during our assessment and on our experience and current standards of technical practice. GEOTEK makes no other warranties, either express or implied, concerning the completeness of the data furnished to us. GEOTEK cannot be responsible for conditions or consequences arising from relevant facts that were concealed, withheld, or not fully disclosed at the time our assessment was undertaken. GEOTEK is not responsible, nor liable for work, testing or recommendations performed or provided by others. This Phase I Environmental Site Assessment is not and should not be construed as a warranty or guarantee about the presence or absence of environmental hazards or contaminants, which may affect the subject site. Facts, conditions, and acceptable risk factors change with time; accordingly, this report should be viewed within this context.

Specific limitations to the scope of ASTM E 1527-13 due to contract limitations, availability of resources, and/or encountered Site conditions are discussed in the appropriate section(s) of this report.

2.5 SPECIAL TERMS AND CONDITIONS

This assessment report is presented as fulfilling the standard requirements of most financial institutions, governmental regulatory agencies, ASTM, and generally accepted industry standards and practices. Please refer to GEOTEK Proposal No. P-0303421-CR for complete terms and conditions for this assessment.

2.6 RELIANCE

This assessment has been prepared for the exclusive use and may be relied upon by JPM Investors, LLC and their successors and assignees. Third party reliance letters may be issued upon request and upon the payment of the, then current, fee for such letters. All third parties relying on this report, by such reliance, agree to be bound by the General Conditions and Limitations agreed to by Beazer Homes. No reliance by any party is permitted without such agreement, regardless of the content of the reliance letter itself.

3.0 DESCRIPTION OF SITE AND SURROUNDING AREA

The objective of describing the Site and surrounding area is to document current conditions as observed and to obtain information which would indicate the likelihood of a recognized environmental condition in connection with the Site. A representative of GEOTEK conducted a Site reconnaissance on June 8, 2021. The weather was warm and the sky was clear. The Site can generally be accessed from Buyers Road to the east and Troy Lane to the north.

3.1 SITE LOCATION AND LEGAL DESCRIPTION

The Site is located west of Buyers Road and south of Troy Lane in Sun City area of Menifee, Riverside County, California. According to the U.S. Geological Survey (USGS) Romoland and Perris Quadrangle topographic map sheets (7.5-minute series), the Site is located in Section 17, Township 5 South, Range 3 West, San Bernardino Baseline and Meridian. The Site is also known as APNs 330-230-023 and -024. Additional legal descriptions for the Site are included in the *Amended Preliminary Report* (Fidelity National Title Company, 2021) included in Appendix B.

3.2 SITE AND VICINITY GENERAL CHARACTERISTICS

The Site is currently vacant land. The Site is in an area largely characterized by residential development and vacant land.

3.3 CURRENT PROPERTY USE

The Site is currently vacant land.

3.4 SITE IMPROVEMENTS

The Site is currently vacant land. Photographs of the Site are included in Appendix C.

3.4.1 HAZARDOUS SUBSTANCES

Visual evidence of hazardous substances and/or wastes was not observed during our Site reconnaissance. No visual indication of spills or leaks was observed. No pungent or acrid odors were observed emanating from the Site.

3.4.2 STORAGE TANKS

GEO TEK did not observe evidence of underground or above-ground fuel storage tanks (such as vent pipes, fill pipes, regular-shaped depressions, etc.) on the Site.

3.4.3 POLY-CHLORINATED BIPHENYLS (PCBs)

GEO TEK did not observe suspect equipment (transformers, elevators, hydraulic lift mechanisms, trash compactors, etc.) which may contain PCBs on the Site.

3.4.4 CONTROLLED SUBSTANCES

GEO TEK consulted the U.S. Drug Enforcement Agency (DEA) website to cross-check the Site address against published facilities subject to DEA enforcement. The Site did not appear on the list of published facilities. A copy of the DEA printout is included in Appendix B.

GEO TEK did not observe evidence of illegal or controlled substances being used or manufactured at the Site.

3.4.5 INDICATIONS OF SOLID WASTE DISPOSAL

GEO TEK did not observe trash at the Site. Waste disposal for the Site and Site area is provided by the Waste Management Company.

3.4.6 UTILITY SUPPLY

GEO TEK did not observe utility services at the Site. Water and sewer services for the Site and area are provided by the Eastern Municipal Water District. Electric services for the Site and area are provided by Southern California Edison. Gas services for the Site and area are provided by the Southern California Gas Company.

3.4.7 DRAINAGE

Natural drainage at the Site is generally interpreted to be toward the northeast, conforming to the natural topography in the area. Ponded water was not observed during our Site reconnaissance.

3.4.8 OTHER CONDITIONS OF CONCERN

No visual indication of other conditions of concern (water wells, drywells, cesspools, etc.) that would indicate a recognized environmental condition was observed during the Site reconnaissance.

3.4.9 INTERVIEWS

GEO TEK interviewed the following individuals while performing this assessment, in the form of completing a *User Questionnaire*:

- Mr. Paul Onufer (a representative of the current Site owner) completed a User Questionnaire.

Information from this interview is incorporated into the appropriate sections of this report.

3.5 CURRENT ADJOINING PROPERTY USE

The Site is in an area largely characterized by residential development and vacant land. The Site is bounded by Troy Lane, followed by graded but vacant land to the north; Buyers Road, followed by residential structures and vacant land to the east; vacant land to the south; and graded but vacant land, followed by Goetz Road to the west.

4.0 CLIENT PROVIDED INFORMATION

As a form of interview, Mr. Paul Onufer, a representative of the current Site owner completed a “User Questionnaire” for the Site in accordance with ASTM E 1527-13. A copy of the completed questionnaire is included in Appendix B.

4.1 ENVIRONMENTAL CLEAN UP LIENS

Mr. Onufer is not aware of any environmental clean-up liens at the Site.

4.2 ACTIVITY AND USE LIMITATIONS

Mr. Onufer is not aware of any activity use limitations at the Site.

4.3 SPECIALIZED KNOWLEDGE

Mr. Onufer states that he is in the same line of business as the current owner of the neighboring property and that the only chemical being used on the site, to his knowledge, is fuel for construction equipment.

4.4 PURCHASE PRICE

Mr. Onufer states that the purchase price being paid for the property reasonably reflects the fair market value of the property.

4.5 COMMONLY KNOWN INFORMATION

Mr. Onufer states that he is not aware of commonly known or reasonably ascertainable information for the Site.

4.6 OBVIOUS INDICATORS OF CONTAMINATION

Mr. Onufer states that he is not aware of obvious indicators of a likely environmental impact at the Site.

4.7 OWNER, PROPERTY MANAGER AND OCCUPANT INFORMATION

JPM Investors, LLC currently owns and manages the Site. The Site is currently vacant land.

4.8 REASON FOR PERFORMING PHASE I ESA

This Phase I ESA was performed at the request of JPM Investors, LLC as part of their due diligence for possible future improvements on the Site.

4.9 OTHER USER PROVIDED INFORMATION

GEOTEK was not provided with any additional information for the Site from an environmental perspective by JPM Investments, LLC:

5.0 PROPERTY PHYSICAL SETTING

Surface and subsurface environments are of interest because they control the movement of water-borne contaminants, which could be transported to and from the subject Site. GEOTEK reviewed information regarding the physical setting of the subject Site and immediately surrounding area.

5.1 REGIONAL GEOLOGY

The property is situated in the Peninsular Ranges geomorphic province. The Peninsular Ranges province is one of the largest geomorphic units in western North America. Basically, it extends from the point of contact with the Transverse Ranges geomorphic province, southerly to the tip of Baja California. This province varies in width from about 30 to 100 miles. It is bounded on the west by the Pacific Ocean, on the south by the Gulf of California and on the east by the Colorado Desert Province.

The Peninsular Ranges are essentially a series of northwest-southeast oriented fault blocks. Several major fault zones are found in this province. The Elsinore Fault zone and the San Jacinto Fault zone trend northwest-southeast and are found near the middle of the province. The San Andreas Fault zone borders the northeasterly margin of the province.

5.2 LOCAL GEOLOGIC SETTING AND TOPOGRAPHY

The Site and Site area are understood to be underlain by alluvium (Dibblee, T.W. and Minch, J.A., 2008). Additional data regarding soil survey information for the Site and Site area is also included in Appendix D (environmental database report).

The Site and Site area can be considered as having relatively flat terrain. Based on the USGS topographic map for the area and other documents reviewed for this report, the elevation of the subject Site is approximately 1500 feet above mean sea level.

5.3 VICINITY SURFACE DRAINAGE

Natural drainage at the Site is interpreted to be dominantly directed toward the northeast, conforming to the natural topography in the area. Storm water runoff does not drain towards the Site from the adjacent properties due to existing streets and/or improvements.

According to the Federal Emergency Management Agency (FEMA), the Site is not located in a flood hazard zone. A copy of the FEMA map is included in Appendix B.

5.4 HYDROGEOLOGY

According to a review of historical groundwater data (California Department of Water Resources and California State Water Resources Control Board groundwater well data [<http://wdl.water.ca.gov> and <http://geotracker.waterboards.ca.gov>]) and in-house information, groundwater is approximately 65 feet below ground surface, with a flow estimated to be directed to the northeast.

6.0 ENVIRONMENTAL REGULATORY RECORDS REVIEW

The records review is conducted to help identify known recognized environmental conditions at the Site and/or on adjacent or nearby properties which may have impacted the subject Site.

6.1 ENVIRONMENTAL DATABASE RECORDS SEARCH

GEOTEK obtained and reviewed an environmental database report of the federal and state environmental records specified by ASTM E 1527-13. The database report was provided by Environmental Data Resources, Inc. (EDR) of Shelton, Connecticut. Additionally, orphan or un-mappable sites listed by EDR were reviewed for the approximate minimum search distances noted and included in our discussion, if applicable. Refer to Appendix D for a copy of the database report.

ENVIRONMENTAL DATABASE	MINIMUM SEARCH DISTANCE	SITE	ADJACENT	TOTAL LISTED
U.S. Environmental Protection Agency (EPA) - National Priorities List (NPL), including delisted NPL	1.0 Mile	No	0	0
EPA – Superfund Enterprise Management System (SEMS), including archived sites (formerly CERCLIS)	0.5 Mile	No	0	0

N/A – Not Applicable

6.2 DISCUSSION OF REGULATORY RECORDS

6.2.1 NATIONAL PRIORITY LIST

The National Priority List (NPL) is the EPA's list of confirmed or proposed Superfund sites. Our review of this data includes sites which have been delisted from the NPL. The NPL is searched for a 1.0-mile distance.

The Site does not appear on the NPL. There are no facilities on the NPL within 1.0-mile of the Site.

6.2.2 SUPERFUND ENTERPRISE MANAGEMENT SYSTEM

The Superfund Enterprise Management System (SEMS, formerly CERCLIS) is a compilation of sites that the EPA has investigated or is currently investigating for a release or threatened release of hazardous substances. Our review of SEMS sites includes archive (no further remedial action planned) facilities. The SEMS list is searched for a 0.5-mile distance.

The Site does not appear on the SEMS list. There are no facilities on the SEMS list within 0.5-mile of the Site.

The Site does not appear on the SEMS-ARCHIVE list. There are no facilities on the SEMS-ARCHIVE list within 0.5-mile of the Site.

6.2.3 RESOURCE CONSERVATION AND RECOVERY ACT

The Resource Conservation and Recovery Act compile selective information on facilities which generate, transport, store, treat and or dispose of hazardous waste. RCRA facilities can be listed on one of three databases:

- *Corrective Action Facilities (CORRACTS)* are facilities undergoing corrective action. A corrective action order is issued pursuant to RCRA Section 3008(h) when there has been a release of hazardous waste or constituents into the environment from a RCRA facility. The CORRACTS list is searched for a 1.0-mile distance.

The Site does not appear on the CORRACTS list. There are no facilities on the CORRACTS list within 1.0-mile of the Site.

- *Transportation, Storage, and Disposal Facilities (TSD)* includes facilities that transport, store or dispose of hazardous waste and are not listed on the RCRA Generators list. The TSD is searched for a 0.5-mile distance.

The Site does not appear on the RCRA TSD list. There are no facilities on the RCRA TSD list within 0.5-mile of the Site.

- *Generators List* identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Generators database is a compilation by the EPA of reporting facilities that generate hazardous waste. The RCRA generators list is searched for the Site and adjacent properties.

The Site does not appear on the RCRA Generators list. There are no facilities on the RCRA-SQG Generators list within 1.0-mile of the Site.

6.2.4 EMERGENCY RESPONSE NOTIFICATION SYSTEM

The Emergency Response Notification System (ERNS) is a national database used to collect information on reported releases of oil or hazardous substances. The ERNS list is searched for the Site. The Site does not appear on the ERNS list.

6.2.5 FEDERAL INSTITUTIONAL CONTROL/ENGINEERING CONTROL REGISTRIES

The EPA maintains three (3) databases which list sites that have institutional and/or engineering controls in place as part of their operations. These databases are searched for a 0.5-mile distance.

The Site does not appear on the U.S. Engineering Controls databases. There are no facilities on these databases within 0.5-mile of the Site.

6.2.6 STATE RESPONSE SITES

The State Response Sites (RESPONSE) records are the state equivalent to the federal National Priorities List (NPL) database. The RESPONSE database is searched for a 1.0-mile distance.

The Site does not appear on the RESPONSE database. There are no RESPONSE facilities listed within 1.0-mile of the Site.

6.2.7 ENVIROSTOR DATABASE

The EnviroStor Database (EnviroStor, formerly CALSITES) records are the state equivalent to the federal SEMS database. EnviroStor is searched for a 0.5-mile distance.

The Site does not appear on the EnviroStor database.

There is one (1) Envirostor facility listed within 0.5-mile distance.

The facility is listed as Elementary School No. 14 and is located at the intersection of Fencepost Drive and Ram Drive. The facility is 0.125 to 0.25 (0.231) mile southwest of the Site. The status of the facility is listed as “Inactive – Withdrawn”. The contaminants of concern were

DDT, DDE and DDD. The potentially affected media was listed as soil. There were no confirmed contaminants of concern. Due to its distance, status, and the nature of this listing, this facility is not considered an environmental concern to the Site.

6.2.8 CALIFORNIA HAZARDOUS MATERIAL INCIDENT REPORT SYSTEM

The California Hazardous Material Incident Report Systems (CHMIRS) is a state database used to collect information on reported hazardous materials incidents (accidental leaks and spills). The CHMIRS list is searched for a 0.25-mile distance.

The Site does not appear on the CHMIRS list. There are no CHMIRS facilities located within 0.25-mile of the Site.

6.2.9 SOLID WASTE FACILITIES LIST

The Solid Waste Fill/Landfill (SWF/LF), Waste Management Unit Database System (WMUDS)/Solid Waste Assessment Test (SWAT), and Solid Waste Recycling Facilities (SWRCY) databases (collectively the “SWLF databases”) includes information pertaining to closed and open solid waste facilities operating in the state of California. The SWLF, WMUDS/SWAT and SWRCY databases are searched for a 0.5-mile distance.

The Site does not appear on the SWLF databases. There are no facilities on the SWLF databases within 0.5-mile of the Site.

6.2.10 LEAKING UNDERGROUND STORAGE TANKS LIST

The California Leaking Underground Storage Tanks (LUST) list is a compilation of petroleum storage tank sites that have reported a release. The LUST list is searched for a 0.5-mile distance.

The Site does not appear on the LUST list. There are no LUST facilities within a 0.5-mile distance of the Site.

6.2.11 UNDERGROUND STORAGE TANKS LIST

The California Underground Storage Tank (UST) lists are a compilation of petroleum storage tank sites that are registered with the state of California. Our review included the historic UST

database and the CERES UST database (collectively the “UST lists”). The UST lists are searched for the Site and adjacent properties.

The Site does not appear on the UST lists. There are no UST facilities located within 0.5-mile distance of the Site.

There are no HIST UST facilities within 0.5-mile distance of the Site.

6.2.12 SPILLS, LEAKS, INVESTIGATION AND CLEANUP COST RECOVERY LISTING (SLIC)

The SLIC database is compiled by the CEPA California Regional Water Quality Control Board, Santa Ana Region. It is designed to protect and restore water quality from spills, leaks, and similar discharges. The SLIC is searched for a 0.5-mile distance.

The Site does not appear on the SLIC database. There are no SLIC facilities within a 0.5-mile distance of the Site.

6.2.13 STATE INSTITUTIONAL CONTROL/ENGINEERING CONTROL REGISTRIES

The State of California maintains institutional and engineering control databases or registries. This lists sites with engineering or institutional controls in place. Institutional controls include administrative measures intended to prevent exposure to contaminants remaining on site. Engineering controls include various forms of caps, building foundations, liners, and treatment methods. The State Institutional Control/Engineering Control Registries is searched for the Site.

The subject Site does not appear on the State Institutional Control/Engineering Control Registries.

6.2.14 TRIBAL DATABASES

Tribal governments are under the jurisdiction of the EPA for environmental concerns. Currently, the EPA Region 9 publishes LUST and UST information for tribes in Arizona, California, Hawaii, Nevada, and the Pacific Territories. The LUST database is searched for 0.5 mile, and the UST database is searched for 0.25 mile.

The Site does not appear on the Tribal LUST or UST databases. No facilities were identified on the Tribal LUST or UST databases within 0.5 mile of the Site.

6.2.15 OTHER DATABASES

EDR compiles information from multiple federal, state, local, and proprietary databases. Most are secondary or tertiary or redundant. Facilities compiled on these other databases are evaluated based on the severity of the listing, distance, and location.

The Site does not appear on the environmental database report obtained for this assessment.

There are three (3) listings within the appropriate search distances specified by ASTM E 1527-13.

There is one (1) facility listed with the Resource Conservation and Recovery Act (Non Generators) list database (RCRA NonGen/ NLR).

There are two (2) facilities listed with the State Clearing House (SCH) database.

There is one (1) facility listed with the California Reporting System (CERS) database.

Due to either their distance, "proximity" implies near, "distance" implies far away from the Site or status, these facilities do not represent environmental concerns to the Site.

6.2.16 DRYCLEANERS

The DRYCLEANERS list is compiled and provided by EDR. The DRYCLEANER database is searched for a 0.25-mile distance.

The Site does not appear on the DRYCLEANER list. There are no DRYCLEANER facilities listed within 0.25-mile of the Site.

6.2.17 UNMAPPABLE FACILITIES

GEO TEK reviewed the listing of "orphan" or unmappable facilities in the database report.

There are no unmapped facilities on the report.

6.3 LOCAL REGULATORY AGENCY RECORDS

GEO TEK contacted the Riverside County Fire Department and the City of Menifee Police Department regarding underground or above ground storage tanks, hazardous material permits

or business plans, emergency responses, spills, inspections, or other information of an environmental or hazardous nature. Neither of these agencies had any information for the Site.

7.0 VAPOR ENCROACHMENT SCREENING

The purpose of a Vapor Encroachment Screen (VES) is to identify, to the extent feasible, if a Vapor Encroachment Condition (VEC) exists at the Site.

A Vapor Encroachment Screen Report was generated for the Site and Site area utilizing EDR's Vapor Encroachment Worksheet (see Appendix E).

It was determined that there are no historical dry cleaners or auto stations located within 600 feet and/or up gradient from the Site.

It is our opinion that a VEC is not likely to exist at the subject Site. The Vapor Encroachment Screen report is included in Appendix E.

8.0 SITE AND SURROUNDING AREA HISTORY

In order to construct the history of the Site and the surrounding area, GEOTEK reviewed reasonably ascertainable public documents, including aerial photographs, topographic maps, building records, city directories, fire insurance maps, and county assessor history records.

8.1 HISTORICAL SITE USAGE

8.1.1 AERIAL PHOTOGRAPH REVIEW

GEOTEK reviewed aerial photographs dated 1938, 1949, 1953, 1961, 1967, 1974, 1978, 1985, 1989, 1994, 1997, 2002, 2006, 2009, 2012, 2016 and 2020 (see Appendix B).

The Site appears to be vacant land in the aerial photographs dated from 1938 until 2002.

In the 2006 aerial photograph, dirt roads can be observed transecting the Site. The Site remains vacant land.

From the aerial photograph dated 2009 until present day, the Site appears unremarkable aside from vegetative growth at the surface.

A 2020 aerial photograph is utilized for Figure 2 (Appendix A).

8.1.2 TOPOGRAPHIC MAP REVIEW

GEOTEK reviewed the Elsinore Quadrangle (30-minute series), dated 1901; the Murrieta and Perris Quadrangle (15-minute series), dated 1942; the Murrieta and Perris Quadrangles (15-minute series), dated 1943; the Murrieta Quadrangles (15-minute series), dated 1947; the Romoland and Perris Quadrangle (7.5-minute series), dated 1953; the Perris and Romoland Quadrangle (7.5-minute series), dated 1973; the Perris and Romoland Quadrangle (7.5-minute series), dated 1979; and the Perris and Romoland Quadrangles (7.5-minute series), dated 2012 (see Appendix B).

The Site appears to be vacant land from the topographic map sheets dated 1901 until 1979.

A 2012 topographic map sheet is utilized for Figure 1 (Appendix A).

8.1.3 BUILDING DEPARTMENT RECORDS

Building department records were not obtained from and not provided by EDR for this assessment as the Site has historically been vacant land.

8.1.4 CITY DIRECTORY REVIEW

GEO TEK obtained The EDR – City Directory Image Report, as obtained from and provided by EDR, and included in Appendix B. Due to the Site not having an address, there are no listings for the Site. A copy of the City Directory Image Report is included in Appendix B.

8.1.5 SANBORN MAP REVIEW

Sanborn Fire Insurance Maps for the parcel were requested from EDR-Sanborn, which owns and maintains the largest and most complete collection of the maps. Source sheets were not available for the Site. The Sanborn Map Report is included in Appendix B.

8.1.6 CHAIN OF TITLE

GEO TEK has not received nor been authorized to obtain Chain-of-Title documents for the Site.

8.2 HISTORICAL IMMEDIATELY SURROUNDING PROPERTY USAGE

8.2.1 AERIAL PHOTOGRAPH REVIEW

GEO TEK reviewed aerial photographs dated 1938, 1949, 1953, 1961, 1967, 1974, 1978, 1985, 1989, 1994, 1997, 2002, 2006, 2009, 2012, 2016 and 2020 (see Appendix B).

The surrounding properties appear to be vacant in the aerial photographs dated from 1938 until 1978.

Residential structures can be observed on the properties to the northeast and to the east of the Site in the aerial photograph dated 1985.

In the aerial photograph dated 1989, residential development can be observed in the properties to the east and northeast of the Site.

In the 1994 and 1997 aerial photographs, a neighborhood can be observed to the east and northeast as well as to the far southeast of the Site.

In the 2002 aerial photograph, residential structures can be observed to the far northwest of the Site.

In the 2006, 2009, 2012 and 2016 aerial photographs, the adjacent properties to the north, west and southwest appear to be graded for residential development. There is also increased residential development to the southeast of the Site.

The 2020 aerial photograph depicts the current configuration of the surrounding properties.

8.2.2 TOPOGRAPHIC MAP REVIEW

GEOTEK reviewed the Elsinore Quadrangle (30-minute series), dated 1901; the Murrieta and Perris Quadrangle (15-minute series), dated 1942; the Murrieta and Perris Quadrangles (15-minute series), dated 1943; the Murrieta Quadrangles (15-minute series), dated 1947; the Romoland and Perris Quadrangle (7.5-minute series), dated 1953; the Perris and Romoland Quadrangle (7.5-minute series), dated 1973; the Perris and Romoland Quadrangle (7.5-minute series), dated 1979; and the Perris and Romoland Quadrangles (7.5-minute series), dated 2012 (see Appendix B).

The topographic map sheet dated 1901 depicts several structures in the properties surrounding the Site.

The 1942, 1943 and 1947 topographic map sheets depict structures primarily to the northeast, east and southeast of the Site.

No structures can be observed on the topographic map sheet dated 1953. However, two wells can be seen on the properties to the east of the Site.

What appears to be residential development can be observed to the southeast of the Site on the topographic map sheets dated 1973 and 1979.

The 2012 maps show little detail other than streets in the vicinity. The 2012 map is presented as Figure 1 in Appendix A.

8.2.3 CITY DIRECTORIES

GEO TEK has reviewed a City Directory Image report obtained from and provided by EDR for the Site and surrounding property addresses. The City Directory Image report provides information on a several nearby property addresses. The named facilities do not currently represent an environmental concern to the Site. A copy of the City Directory Image Report is included in Appendix B.

8.2.4 SANBORN MAP REVIEW

Sanborn Maps for the Site were requested from EDR-Sanborn, which owns and maintains the largest and most complete collection of the maps. Source sheets were not available for the Site. The Sanborn Map Report is included in Appendix B.

8.3 HISTORICAL USE SUMMARY

Based on readily available historic information, the parcels appear to have been vacant land from at least 1938 until present day. The surrounding properties appear to historically have been vacant land and residential development since at least 1938. Residential structures can first be observed to the northeast in the 1984 aerial photograph. The aerial photograph dated 1989 depicts residential development to the east and adjacent to the Site. Grading for residential construction can first be observed to the north, west and south of the Site in the aerial photograph dated 2002 until present day. The current configuration of the Site and surrounding properties can be observed in the 2016 and 2020 aerial photographs.

Data gaps exist from 1901 to 1938 and 1967 to 1974 due to the limited records which are reasonably ascertainable in the local area. However, it is our opinion that additional historic information, if it were to become available, is not likely to change the conclusions or recommendations of this assessment.

9.0 SIGNIFICANT DATA GAPS

No significant data gaps were discovered while performing this Phase I Environmental Site Assessment. Therefore, it is our opinion that sufficient information was obtained to identify current Site conditions and past Site usage.

Minor data gaps include:

- Gaps in the historic records 1901 to 1938 and 1967 to 1974;
- GEOTEK has not received nor reviewed Chain-of-Title documents for the Site.

It is our opinion that additional information, if it were to become available, is not likely to change the conclusions or recommendations of this assessment.

10.0 CONCLUSIONS AND RECOMMENDATIONS

GEOTEK has performed a Phase I Environmental Site Assessment (ESA) for the subject Site in substantial conformance with the scope and limitations of ASTM E 1527-13 and GEOTEK Proposal No. P-0303421-CR, dated March 11, 2021. Any exceptions to, or deletions from, this practice are described in the appropriate sections of this report.

This Phase I Environmental Site Assessment has not revealed evidence of a recognized environmental condition or concern in connection with the subject Site. No further investigation is recommended.

11.0 CERTIFICATIONS

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject Site. I have developed and performed all the appropriate inquiries in conformance with the standards and practices set forth in 40 CFR 312.

The qualifications of the Project Team are included in Appendix F.

We appreciate this opportunity to be of service. If you have any questions, or if we can be of further service, please contact us at (951) 710-1160.

Sincerely,
GEOTEK, INC.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Geotek were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Geotek were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDR's Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Search Results:**Coordinates:**

Proposal No. P-0303421-CR

JPMB Investments, LLC
556 South Fair Oaks Avenue, #337
Pasadena, California 91105

Attention: Mr. Paul Onufer

Subject: Proposal for a Phase I Environmental Site Assessment
Assessor's Parcel Numbers (APNs) 330-230-023 and -024
Menifee, Riverside County, California

Dear Mr. Onufer:

As requested, we are pleased to present this proposal to perform a Phase I Environmental Site Assessment (ESA) for the subject Site. The Phase I ESA is intended to provide information of current and past Site use with regard to the presence of hazardous materials, generation of hazardous waste, and the presence of off-site contamination sources.

SCOPE OF SERVICES

GEOTEK will conduct the proposed ESA in general accordance with the American Society of Testing and Materials (ASTM) Standard E 1527-13, "*Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*" (ASTM E 1527-13), which is approved to meet the requirements of the federal All Appropriate Inquiries (AAI) standards (40 CFR 312). The proposed project will be supervised by a qualified environmental professional as defined by AAI. Generally, and for the purposes of this proposal, the GEOTEK Scope of Services will consist of the following:

1. Records Review. The purpose of this task is to obtain and review records that will help identify recognized environmental conditions in connection with the subject property. This information will be acquired from a data service provider and publicly available sources that can provide information within a reasonable time period. The minimum search distances specified in ASTM E 1527-13 for the various published databases will be used. The agencies that will provide data for review include, but are not limited to, the U.S. Environmental Protection Agency (USEPA), the Building and Safety Department and the Fire Department. Interviews with appropriate regulatory agency personnel are included in this task.
2. Environmental Setting Review. This task will research published data on the geology, hydrology, and hydrogeology of the Site vicinity. This information is useful in evaluating the potential migration of contaminants onto or off of the Site. The agencies that will provide data for review include, but are not limited to, the Federal Emergency Management Agency (FEMA), the U.S. Geological Survey (USGS) and the Natural Resources Conservation Service (NRCS).
3. Historical Records Review. This task will utilize historical aerial photographs, topographic maps, city directories, interviews, buildings department records, fire insurance maps, and any other readily available historic documents for the Site and vicinity.

This proposal does not include the cost of obtaining a Chain-of-Title report. If a Chain-of-Title report is provided to GEOTEK, we will incorporate it into our report. GEOTEK can obtain and include Chain-of-Title information for an additional fee. Please be aware that certain information required by ASTM E-1527-13 and AAI (specifically environmental liens and use limitations) are best obtained from reviewing Chain-of-Title documents and place the responsibility to review on these on the "user" of an ESA, not the environmental professional. If you would like, we can obtain this information for an additional fee. If you choose to provide the Chain-of-Title documents, please be aware that GEOTEK will not begin preparation of the written report until we have received this information.

4. Site Reconnaissance. GEOTEK will perform a Site reconnaissance for visual indications on the ground surface of hazardous materials and waste handling. This includes observations of drum storage and chemical use areas, noxious odors, discolored ground surfaces, wells, underground storage tanks, sumps, electrical transformers, areas of solid waste disposal, and potential contamination from immediately adjacent properties. Land use of adjoining properties will also be evaluated. Interviews with the current owners of the Site, adjacent property owners, and client representatives are included in this task.
5. Report Preparation. A report presenting our findings, conclusions, and recommendations, including applicable photographs, drawings, and supporting documentation will be prepared and submitted. Two (2) copies are included in this scope of services. Additional copies will be charged at the current rate detailed on the attached Work Authorization and Agreement and Schedule of Fees.

Specific items not included in this Scope of Services are soil analysis, water analysis, asbestos containing materials analysis, radon analysis, lead-based paint analysis, lead in drinking water, regulatory compliance, cultural and historic resources, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality, high voltage powerlines, and other items not within the scope of ASTM E 1527. Any of these items can be included in this study for an additional fee.

If, at any time during the study, conditions are disclosed that require a change in the scope of work, project work may be temporarily halted, and our findings will be discussed with you. Additional work will not be performed until a modification in the Scope of Services and fees are approved in writing.

CLIENT INPUT AND COOPERATION

Both ASTM E 1527-13 and the AAI standard require input from the client (or "user") for a complete Phase I ESA. The attached questionnaire, which is taken from the ASTM standard, is designed to elicit the user input that the standards require. Please fill out the questionnaire and return it to us at your earliest convenience. Please be aware that GEOTEK will not begin preparation of the written report until the completed questionnaire is received from you.

In addition, both ASTM E 1527-13 and the AAI standard require GeoTek to interview past or present owners, as well as current occupants of the Site. GEOTEK requests your assistance in arranging access to the appropriate individuals. If these persons cannot be interviewed, this will be noted as a data gap in our final report.

SCHEDULE

GEOTEK is prepared to begin the proposed ESA immediately upon receipt of your written authorization to proceed. We anticipate a duration of 10-15 working days to complete the assignment. However, please be aware that the processing time for information from regulatory agencies, lenders, and other third parties is beyond our control, and may delay completion of the report. ASTM E 1527-13 stipulates 20 calendar days as a "reasonable time" when attempting to obtain certain information.

FEES AND CONDITIONS

GEOTEK proposes to perform this study on a fixed fee basis for the amount of **\$2,400.00**. If post-report consultation is needed, it will be provided at an additional fee on a time-and-materials basis in accordance with the attached "Work Authorization and Agreement" form. This fee is valid for a period of 90 days from the date of this proposal.

This proposal and the work tasks detailed herein are presented as fulfilling the standard requirements of most financial institutions, governmental regulatory agencies, ASTM, and generally accepted industry standards and practices. The Client should advise GEOTEK if they have any specific guidelines or requirements furnished to them which are different than those listed in this proposal. Occasionally an agency will request additional requirements, not

covered by this proposal, to be included in the preparation of the Phase I ESA. If this were to happen, GEOTEK would advise the Client of this request and provide a supplemental proposal covering the additional costs.

We request that the following information be provided to GEOTEK:

- Reports of previous geotechnical or environmental-related investigations of the Site.
- The names, addresses and phone numbers of the current and past owners and/or lessees of the subject Site.
- Chain of Title documents for names of previous owners of the Site, use restrictions, and environmental liens.
- A disclosure statement describing known onsite uses of hazardous materials.
- Any documents or information regarding the current or historical uses of the Site.
- A statement from the Client indicating the purchase price for the Site is reflective of the fair market value of the Site.
- Any specialized knowledge or experience pertaining to potential environmental conditions or concerns at the Site.

Failure to provide this information may prevent the Client from qualifying for innocent landowner protections under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

Third party reliance letter(s), if needed, will be charged to this work authorization at a rate of \$500.00 per request. Verbal authorization from you will be necessary for the completion of such third party reliance. A Change Order for this service will be issued at the time of request.

AUTHORIZATION

If this proposal is acceptable, please sign and return the attached "Work Authorization and Agreement" form as our authorization to proceed. Work will be scheduled upon receipt of your authorization. Also, please return the "User Questionnaire" at your earliest convenience.

If GEOTEK receives a request to proceed (whether verbal, in writing, or in the form of a Work Order or Purchase Order) with any or all of the services described in this proposal prior to receiving a signed copy of the attached Work Authorization and Agreement, and GEOTEK provides any or all of the services, GEOTEK and you expressly agree that the terms of this proposal, the attached fee schedule, and the terms and conditions set forth in the attached Work Authorization and Agreement form shall govern all the services performed, except to the extent such terms are superseded by an executed agreement.

We appreciate this opportunity to be of service to you. If you have any questions, or if we can be of further service, please contact us at (951) 710-1160.

Respectfully submitted,
GEOTEK, INC.

Work Authorization and Agreement

USER QUESTIONNAIRE

INTRODUCTION

In order to qualify for one of the *Landowner Liability Protections* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2002, the user must provide the following information (if available) to the *environmental professional*. Failure to provide this information could result in a determination that "*all appropriate inquiry*" is not complete.

(1) Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law?

CIRCLE YES or NO

If yes, please explain in detail.

(2) Are you aware of any Act Use Limitations (AUL), such as *engineering controls*, land use restrictions or *institutional controls* that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

YES or NO

If yes, please explain.

(3) As the user of this Environmental Site Assessment (ESA) do you have any specialized knowledge or familiarity related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the *property* or its neighboring *property*, so that you may have specific knowledge of the chemicals and processes used by this type of business?

YES or NO Same line of business as the current owner of neighboring property. Only chemicals would be fuel for construction equipment

If yes, please explain.

(4) Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*?

YES or NO

If you believe that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

YES or NO

If yes, please explain.

(5) Are you aware of commonly known or *reasonably* ascertainable information that would help the *environment professional* to identify conditions pinpointing releases or threaten releases of hazardous materials and/ or chemicals? For example, as user,

(a.) Do you know of any past uses of the *property*? YES or NO

(b.) Do you know of specific chemicals that are present or once were present at the *property*? YES or NO

(c.) Do you know of any chemical spills or any other chemical releases that have taken place at the *property*? YES or NO

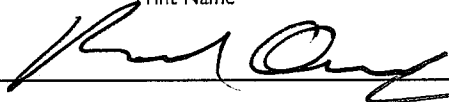

(d.) Do you know of any environmental cleanups that have taken place at the *property*? YES or NO

If any yes, please explain.

(6) As the user of this Environmental Site Assessment (ESA), based on your knowledge and experience related to the *property* are there any *obvious* indicators that point to the presence or likely presence of a contamination at the *property*?

YES or NO

If yes, please explain.

TERMS AND CONDITIONS

1) **AGREEMENT.** This Work Authorization and Agreement together with the proposal P-0303421-CR (the "Proposal"), the terms of which are incorporated herein by reference and made a part of this Agreement (defined below) will constitute the agreement between Client, as identified above, and GeoTek, Inc., a Nevada Corporation ("GeoTek") for performance of the professional services outlined in the Proposal, ("Services"). GeoTek is willing to provide the Services for consideration and upon the terms set forth in the Proposal and hereinafter stated. This Work Authorization and Agreement and the Proposal will be referred to collectively hereinafter as the "Agreement". Any future work performed for Client will be under the terms of this Agreement unless a new agreement is executed in writing by both parties.

2) **FEES/QUOTATIONS.** Unless otherwise specified, the Proposal will define the: (1) Services to be provided, (2) the estimated fee and expense amount(s) for such Services, and (3) the billing type or method (e.g. time and materials, lump sum, fixed fee to a maximum, etc.). Client agrees to pay GeoTek its quoted rates for the Services and any Additional Services (as defined below) and products provided subject to changes in pricing from time to time. Any quotation will be good for a period of thirty (30) days from the date of the quotation. Quotation(s) of fees and expenses are estimates only. The actual fees and expenses will be shown when the final invoice is tendered.

3) **BILLING AND PAYMENT.** Invoices will be submitted on a progress basis for all Services performed during the term of the project. All invoices are due and payable upon receipt. Any and all invoices or any portion thereof, outstanding after thirty (30) days will accrue interest at 1.5% per month but in no event more than the maximum rate permissible by law from the original date of the invoice until paid.

4) **CHANGE ORDERS.** Client acknowledges that it is impossible to predict with certainty what changes to the Services will be necessary as requirements for changes come from many sources beyond GeoTek's control. In the event changes become necessary, any services that are not specifically set forth in either GeoTek's proposal or this Agreement but are requested by Client, its agents, representatives, or designees, either verbally or in writing, will be considered "Additional Services". If Client, its agents, representatives, or designees request any Additional Services, GeoTek will issue Client a Change Order for Additional Services ("Change Order") confirming Client's authorization to proceed with such Additional Services. Within twenty-four (24) hours of receipt of a Change Order, Client must notify GeoTek of any disagreements with or amendments to any of the terms of the Change Order. Client's failure to provide GeoTek with such timely notice will constitute acceptance of the terms of the Change Order and Client will be responsible for all additional charges, costs, fees and expenses incurred by GeoTek for such Additional Services. Due to the need for rapid decisions, fax transmissions and email are acceptable modes of confirmation. The Terms and Conditions of this Agreement and most recent fee schedule will apply to all Additional Services.

5) **RIGHT OF ENTRY.**

a) Client hereby grants GeoTek the right of entry to the job site to permit GeoTek to perform the work under this Agreement. Client warrants that it has the authority to grant such right of entry.

b) Client acknowledges that excavations or destructive testing may be required to perform portions of the Services. Excavations will be backfilled in a prudent manner but cannot be returned to the previous condition. Damage to landscaping or natural vegetation may result. Client will indemnify and hold GeoTek harmless from any and all damages to persons or property caused by or to GeoTek or third parties as a result of the Services.

6) **PERFORMANCE.**

a) Governmental rules and regulations are subject to interpretations. GeoTek will prepare all reports with a view toward complying with governmental rules and regulations, but no guarantee is given that any or all reports will be approved by the applicable governmental agency.

b) GeoTek is relying entirely on plans and maps given to GeoTek by the Client or Client's agents, representatives or designees. Client will indemnify and hold GeoTek harmless from any and all damages to person or property caused by or to GeoTek or third parties resulting from undisclosed underground conditions or errors or inaccuracy of plans, maps or any other information provided by the Client or Client's agents, representatives or designees to GeoTek.

c) GeoTek will not be responsible for delays or its failure to perform as a result of inclement weather, accidents, acts of God, public insurrection, war, labor difficulties, riots, interference by governmental agencies, or any other act reasonably beyond GeoTek's control.

d) Client will disclose in writing to GeoTek any and all known or suspected hazardous or toxic conditions or materials present at the job site and will indemnify, defend and hold GeoTek harmless from and against any and all liability, costs, attorneys or expert fees or damage to person or property arising from hazardous or toxic conditions or materials present at the job site.

7) **HAZARDOUS MATERIALS.** GeoTek is not a generator, transporter and does not store or dispose of hazardous waste or non hazardous waste. Client will be responsible for the proper management, storage and disposal of hazardous waste or non hazardous waste present on the site and that may be encountered whether or not identified during GeoTek's evaluation.

8) **PROFESSIONAL OPINION.** GeoTek's professional services will be performed, findings obtained, and recommendations prepared in accordance with generally accepted engineering practices in effect at the time and place the services are performed. The professional opinions of GeoTek will be based upon conditions revealed at exploration locations and reconnaissance of surrounding terrain or through research efforts. The services on any given site are limited. It is agreed that GeoTek is not responsible for the affect that unknowns such as acts of others on adjacent properties, variables of nature including, but not limited to, earthquakes, the works of man, Acts of God, and other variables beyond the control of GeoTek may have on any opinion rendered hereunder. No opinions of any kind are given by GeoTek except those expressly stated in GeoTek's written reports. GeoTek does not warrant (either expressed or implied) or guarantee any of its recommendations, opinions or Services.

9) **INSURANCE.** GeoTek maintains worker's compensation and public liability insurance policies for bodily injury and property damage. Certificates of insurance will be furnished upon request. With regard to property claims, GeoTek will not be responsible for damage beyond those amounts paid under the policies. GeoTek will not be responsible for any consequential, lost profits, business interruption, or other damages claimed by Client. Requests for waivers of subrogation or other endorsements are subject to a 5% fee surcharge.

10) INDEMNIFICATION and LIMITATION OF LIABILITY.

a) GeoTek agrees, subject to the limitations herein, to indemnify and hold harmless Client from and against damages, liability and reasonable costs arising from the negligent acts of GeoTek in the performance of its Services under this Agreement, to the extent that GeoTek is responsible for such damages, liability and reasonable costs on a comparative fault basis. Notwithstanding the foregoing agreement to indemnify Client, the parties expressly agree that GeoTek has no duty to defend Client from or against any claims, damages, liabilities, judgments, demands, causes of action, costs, expenses, or proceedings of any kind. GeoTek will not be obligated to indemnify Client for Client's own negligence or the negligence of others.

b) Client agrees, subject to limitations herein, to indemnify and hold harmless GeoTek from and against damages, liability, and reasonable costs arising from the negligent acts of Client related to any work performed under this Agreement to the extent that Client is responsible for such damages, liability, and reasonable costs on a comparative fault basis. Notwithstanding the foregoing agreement to indemnify GeoTek, the parties expressly agree that the Client has no duty to defend GeoTek from or against any claims, damages, liabilities, judgments, demands, causes of action, costs, expenses, or proceedings of any kind. Client will not be obligated to indemnify GeoTek for GeoTek's own negligence or the negligence of others.

c) Client acknowledges that it is aware of the risks involved in construction, limitations inherent to the contract Services, and variations that can exist from the conditions identified. Client agrees to limit any liability, claim for damages to person or property, attorneys fees, expert fees or other costs of defense, or expenses (collectively "Claims") to be levied against GeoTek arising out of or relating to any design defect, error, omission, professional negligence or other promise of GeoTek (collectively "Liabilities") to the amount of GeoTek's fees paid under the Agreement. This limitation will apply regardless of the cause of action or legal theory pled or asserted. The fee charged Client for the Services to be rendered pursuant to this Agreement has been established with regard to the legal effect of this Limitation of Liability section. Increased limits of liability can be negotiated for an increased fee.

d) Except for work performed or provided by those subcontractors or subconsultants retained directly by GeoTek for whom GeoTek is legally liable, GeoTek assumes no responsibility or liability for work, testing, design(s) or recommendations performed or provided by others including, without limitation, other contractors, subcontractors, or consultants of any tier.

e) The parties understand and agree that Client's sole and exclusive claim, demand, suit, judgment and/or remedy for any claims arising from or in any way related to the performance of the Services provided under this Agreement will be directed and/or asserted only against GeoTek and not against any of GeoTek's shareholders, engineers, employees, officers, or directors.

f) Notwithstanding any other provision of this Agreement, neither the Client nor GeoTek, their respective officers, directors, partners, employees, contractors or subconsultants will be liable to the other or will make any claim for any incidental, indirect or consequential damages arising out of or connected in any way to the Project or to this Agreement. This mutual waiver of consequential damages will include, but is not limited to, loss of use, loss of profit, loss of business, loss of income, loss of reputation and any other consequential damages that either party may have incurred from any cause of action including negligence, strict liability, breach of contract and breach of strict or implied warranty. Both the Client and GeoTek will require similar waivers of consequential damages protecting all the entities or persons named herein in all contracts and subcontracts with others involved in this project.

11) **DISPUTE RESOLUTION.** In an effort to resolve any conflicts that arise during the design and construction of the project or following the completion of the project the Client and GeoTek agree that all disputes between them arising out of or relating to this Agreement or the project will be submitted to non binding mediation unless the parties mutually agree otherwise.

12) **JOBSITE SAFETY.** Neither the professional activities of GeoTek nor the presence of GeoTek or its employees and subconsultants at a construction/project site, will relieve the General Contractor of its obligations, duties and responsibilities including, but not limited to, construction means, methods, sequence, techniques or procedures necessary for performing, superintending and coordinating the Work in accordance with the contract documents and any health or safety precautions required by any regulatory agencies. GeoTek and its personnel have no authority to exercise any control over any construction contractor or its employees in connection with their work or any health or safety programs or procedures. The Client agrees that the General Contractor will be solely responsible for Jobsite safety, and warrants that this intent will be carried out in the Client's contract with the General Contractor. The Client also agrees that the Client, GeoTek and GeoTek's subconsultants will be indemnified by the General Contractor and will be made additionally insured under the General Contractor's policies of general liability insurance.

13) **OWNERSHIP OF INSTRUMENTS OF SERVICE.** All reports, drawings, specifications, computer files, field data, notes and other documents and instruments prepared by GeoTek as instruments of service will remain the property of GeoTek. GeoTek will retain all common law, statutory and other reserved rights, thereto. All documents prepared by GeoTek under this Agreement for a particular project are not intended and not represented to be suitable for reuse by Client or others on any other project. Any such reuse without written authorization from GeoTek will be without liability to GeoTek and Client agrees to indemnify, defend, and hold harmless GeoTek from and against any and all losses, claims, damages and expenses (including attorney's fees) arising out of or resulting there from.

14) **FORCE MAJEURE.** Force Majeure as used in this Article will mean an act of God, strike, lockout, or other industrial disturbance, act of public enemy, war, blockage, public riot, lightning, fire, flood, explosion, earthquake, failure to timely receive necessary governmental approvals government restraint, unavailability of equipment, and any other cause, whether of the kind specifically enumerated above or otherwise, other than financial liability, which is not reasonably within the control of the party claiming suspension. If either party is rendered unable, wholly or in part, by Force Majeure to carry out their obligations under this Agreement, other than the obligation to make money payments, such party will give to the other party prompt written notice of the Force Majeure with reasonably full particulars concerning it; thereupon, the obligations of the party giving notice, so far as they were affected by the Force Majeure, will be suspended during, but no longer than, the continuance of the Force Majeure. The affected party will use all possible diligence to remove the Force Majeure as quickly as possible.

15) **TERMINATION.**

a) In the event of termination of this Agreement by either party for any reason, the Client will within fifteen (15) calendar days of termination pay GeoTek for all Services rendered and all reimbursable costs incurred by GeoTek up to the date of termination, in accordance with the payment provisions of this Agreement.

b) The Client may terminate this Agreement for the Client's convenience and without cause upon giving GeoTek not less than seven (7) calendar days written notice.

c) Either party may terminate this Agreement for cause upon giving the other party not less than seven (7) calendar days written notice for any of the following reasons:

i.) Failure by the other party to materially perform in accordance with the terms of this Agreement and through no fault of the terminating party;

ii.) Assignment of this Agreement or transfer of the Project by either party to any other entity without the prior written consent of the other party;

iii.) Material changes in the conditions under which this Agreement was entered into, the scope of Services or the nature of the Project, and the failure of the parties to reach agreement on the compensation and schedule adjustments necessitated by such changes.

d) In the event of any termination that is not the fault of GeoTek, Client will pay GeoTek, in addition to payment for services rendered and reimbursable costs incurred, for all expenses reasonably incurred by GeoTek in connection with the orderly termination of this Agreement, including without limitation, demobilization, reassignment of personnel, overhead costs and all other expenses directly resulting from the termination.

16) **SUSPENSION OF SERVICES.**

a) If the Project or GeoTek's Services are suspended by the Client for more than thirty (30) calendar days, consecutive or in the aggregate, over the term of this Agreement, GeoTek will be compensated for all Services performed and reimbursable expenses incurred prior to the receipt of notice of suspension. In addition, upon resumption of Services, the Client will compensate GeoTek for expenses incurred as a result of the suspension and resumption of its Services, and GeoTek's schedule and fees for the remainder of the Project will be equitably adjusted.

b) If GeoTek's Services are suspended for more than ninety (90) days, consecutive or in the aggregate, GeoTek may terminate this Agreement upon giving not less than five (5) calendar days written notice to the Client.

c) If the Client is in breach of the payment terms or otherwise is in breach of this Agreement, GeoTek may, at its sole discretion, suspend performance of services and/or withhold any and all reports and work product. In the event GeoTek suspends performance and/or withholds reports and work product pursuant to this provision, GeoTek will not be in default of this Agreement and GeoTek will have no liability to the Client. Client agrees to make no claim against GeoTek for any delay or damage as a result of such suspension and/or withholding of reports and work product and agrees to defend and indemnify GeoTek from and against any and all claims for damages including, without limitation, claims for delay, lost profit, business interruption, consequential or any other damages resulting from the suspension of services and/or withholding of any report and work product. Upon receipt of payment in full of all outstanding sums due from the Client, or curing of such other breach which caused GeoTek to suspend Services and/or withhold reports and work product, GeoTek will resume Services and/or provide Client with the applicable reports and work product and there will be an equitable adjustment to the remaining project schedule and fees as a result of the suspension.

17) **MISCELLANEOUS.**

a) All terms of this Agreement will be governed by and construed under the law of the State in which the Services are provided. Diversity of the parties will not determine jurisdiction.

b) No provision of this Agreement will be interpreted for or against any party because that party or its legal representative drafted the provision.

c) In the event that legal action is taken to enforce the terms of this agreement or resolve a dispute the prevailing party will be entitled to reasonable attorney's fees and costs incurred.

d) Failure by a party to exercise any right, remedy, or option in this Agreement or delay by a party in exercising the same will not operate as a waiver. No waiver will be effective unless it is in writing.

e) Every provision of this Agreement is intended to be severable. If any term or provision hereof is declared by a court of competent jurisdiction to be illegal, invalid or unenforceable for any reason whatsoever, such illegality, invalidity or unenforceability will not affect the balance of the terms and provisions hereof, which terms and provisions will remain in full force and effect.

f) This Agreement may be executed at different times and in multiple counterparts, including, without limitation, facsimile counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument.

g) Client may not assign its rights or obligations under this Agreement without the express written consent of GeoTek. GeoTek may assign its rights and obligations under this Agreement to any of its affiliate companies without Client's consent upon written notice to Client. In the event of such an assignment, the assignee will assume the obligations of GeoTek under this Agreement as though such assignee had been an original party to this Agreement.

18) **AMENDMENTS.** Except as specifically provided herein, no addition(s) to or modification(s) of this Agreement will be binding on either party unless made in writing and executed by GeoTek and Client.

By Signing below, the parties accept the services outlined in the proposal, the rates indicated on any attached fee schedule, and all the terms and conditions contained within each page of this Agreement, including but not limited to attachments and exhibits.

BASIS OF CHARGES

Description	Unit Rate	Unit
Work from 0-4 hours		4-Hour Minimum Billing
Work from 4-8 hours		8-Hour Minimum Billing
Project Management as Project Engineer/Geologist		1- Hour Minimum weekly
Work over 8 hours per day, or on Saturdays		Time and One-Half
Work over 12 hours per day		Double Time
Work on Sundays/Holidays		Double Time
Show-Up Time		2-Hour Minimum Billing
Laboratory Testing - Rush Fee		Add 50% to Testing Cost
Outside Services/Reimbursables		Cost + 20%
Shipping Charges		Cost + 20%
Parking/Tolls		At Cost
Certified Payroll Compliance		\$100 per month
Deputy Inspectors (If applicable)		
Travel Time (Beyond 75-Mile Radius of Project Site)	\$ 71.00	Hour
Per-diem, including Lodging (Beyond 100-Mile Radius)		Quote Upon Request

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

TARGET PROPERTY INFORMATION

ADDRESS

VALLEY BOULEVARD/TROY LANE
SUN CITY, CA 92585

COORDINATES

Latitude (North): 33.7308920 - 33° 43' 51.21"
Longitude (West): 117.2171060 - 117° 13' 1.58"
Universal Transverse Mercator: Zone 11
UTM X (Meters): 479887.2
UTM Y (Meters): 3732146.0
Elevation: 1518 ft. above sea level

2	ELEMENTARY SCHOOL NO	FENCE POST DRIVE/RAM	ENVIROSTOR, SCH	Higher	1221, 0.231, SW
3	MONUMENT RANCH SITE	GOETZ ROAD / ETHANAC	ENVIROSTOR, SCH, CERS	Lower	4148, 0.786, NNW

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/25/2021 has revealed that there are 2 ENVIROSTOR sites within approximately 1 mile of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>ELEMENTARY SCHOOL NO</i> Facility Id: 60000776 Status: Inactive - Withdrawn	<i>FENCE POST DRIVE/RAM</i>	<i>SW 1/8 - 1/4 (0.231 mi.)</i>	<i>2</i>	<i>11</i>
<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>MONUMENT RANCH SITE</i> Facility Id: 70000024 Status: No Further Action	<i>GOETZ ROAD / ETHANAC</i>	<i>NNW 1/2 - 1 (0.786 mi.)</i>	<i>3</i>	<i>13</i>

EXECUTIVE SUMMARY

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Hazardous waste / Contaminated Sites

SCH: This category contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. In some cases, these properties may be listed in the CalSites category. depending on the level of threat to public health and safety or the environment they pose.

A review of the SCH list, as provided by EDR, and dated 01/25/2021 has revealed that there is 1 SCH site within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
ELEMENTARY SCHOOL NO Facility Id: 60000776 Status: Inactive - Withdrawn	FENCE POST DRIVE/RAM	SW 1/8 - 1/4 (0.231 mi.)	2	11

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

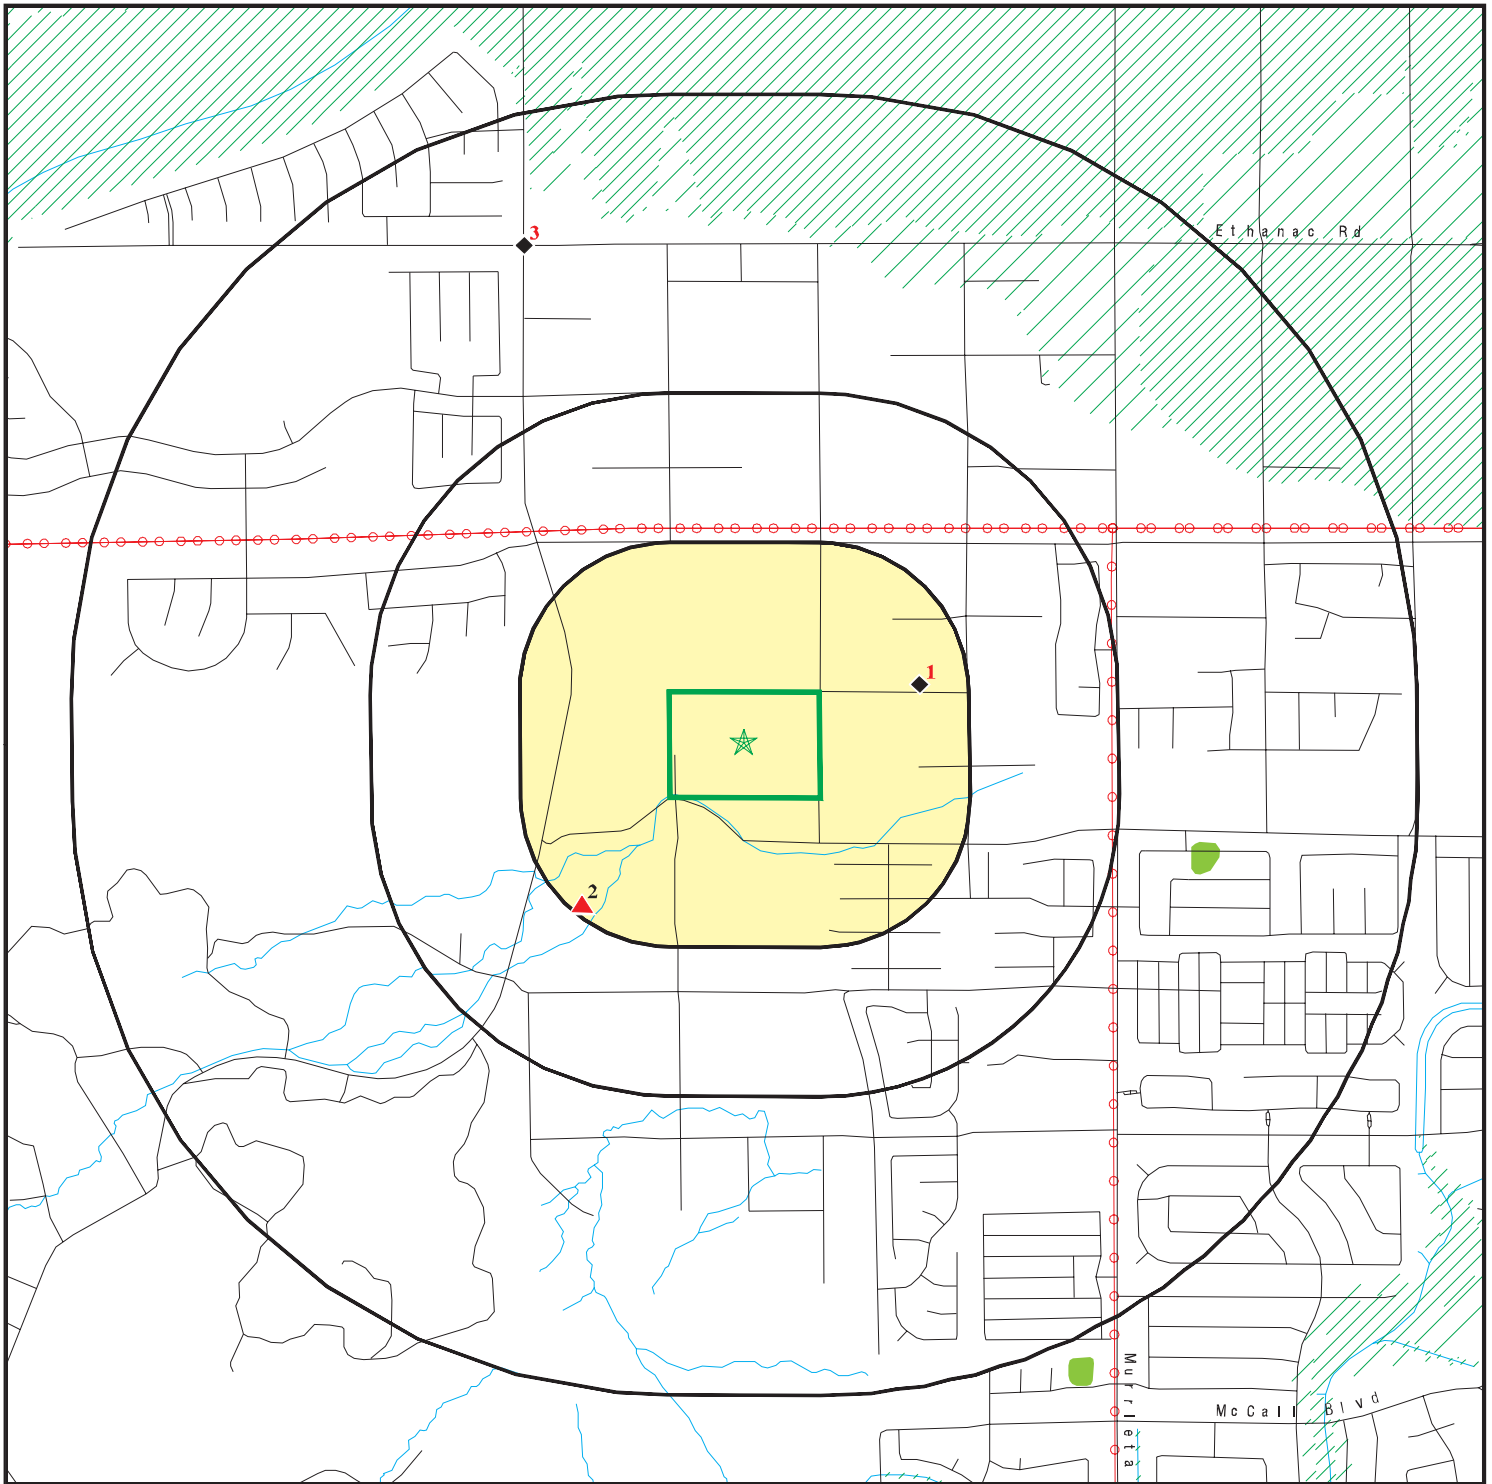

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/22/2021 has revealed that there is 1 RCRA NonGen / NLR site within approximately 0.25 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
BOWMAN, ALLAN EPA ID:: CAC002988394	25702 TROY LANE	ENE 1/8 - 1/4 (0.168 mi.)	1	9

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/27/2021	Source: EPA
Date Data Arrived at EDR: 05/03/2021	Telephone: N/A
Date Made Active in Reports: 05/19/2021	Last EDR Contact: 05/03/2021

	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 04/27/2021

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 04/27/2021	Source: EPA
Date Data Arrived at EDR: 05/03/2021	Telephone: 800-424-9346

	Data Release Frequency: Quarterly

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

UST CLOSURE: Proposed Closure of Underground Storage Tank (UST) Cases

UST cases that are being considered for closure by either the State Water Resources Control Board or the Executive Director have been posted for a 60-day public comment period. UST Case Closures being proposed for consideration by the State Water Resources Control Board. These are primarily UST cases that meet closure criteria under the decisional framework in State Water Board Resolution No. 92-49 and other Board orders. UST Case Closures proposed for consideration by the Executive Director pursuant to State Water Board Resolution No. 2012-0061. These are cases that meet the criteria of the Low-Threat UST Case Closure Policy. UST Case Closure Review Denials and Approved Orders.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/21/2014	Telephone: 617-520-3000

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 09/30/2017	Source: Environmental Protection Agency

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 10/05/2020

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health
Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics
Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

GEOCHECK[®] - PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

MENIFEE 27.5
VALLEY BOULEVARD/TROY LANE
SUN CITY, CA 92585

TARGET PROPERTY COORDINATES

Latitude (North):	33.730892 - 33° 43' 51.21"
Longitude (West):	117.217106 - 117° 13' 1.58"
Universal Tranverse Mercator:	Zone 11
UTM X (Meters):	479887.2
UTM Y (Meters):	3732146.0
Elevation:	1518 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	5641314 ROMOLAND, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General NE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
06065C2055H	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>
Not Reported	

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
NOT AVAILABLE	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: AULD

Soil Surface Texture: clay

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	27 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	Not reported	Max: 0.42 Min: 0	Max: Min:
2	27 inches	44 inches	loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	Not reported	Max: 0.42 Min: 0	Max: Min:
3	44 inches	48 inches	weathered bedrock	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	Not reported	Max: 0.42 Min: 0	Max: Min:

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Map ID: 2

Soil Component Name: AULD

Soil Surface Texture: clay

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	27 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	Not reported	Max: 0.42 Min: 0	Max: Min:
2	27 inches	44 inches	loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	Not reported	Max: 0.42 Min: 0	Max: Min:
3	44 inches	48 inches	weathered bedrock	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	Not reported	Max: 0.42 Min: 0	Max: Min:

Soil Map ID: 3

Soil Component Name: WYMAN

Soil Surface Texture: loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	14 inches	loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 4 Min: 1.4	Max: 8.4 Min: 6.6
2	14 inches	35 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 4 Min: 1.4	Max: 8.4 Min: 6.6

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: Department of Fish and Wildlife

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program

State Water Resources Control Board

Telephone: 916-341-5577

The GAMA Program is California's comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Health Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations

Source: Dept of Conservation, Geologic Energy Management Division

Telephone: 916-323-1779

Oil and Gas well locations in the state.

California Earthquake Fault Lines

Source: California Division of Mines and Geology

The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon

APPENDIX F

PROJECT TEAM QUALIFICATIONS

Edward H. LaMont, CEG, PG

Branch Manager

Areas of Expertise

Geotechnical Field Investigations
Grading and Earthwork Construction
Industry Standard of Care
Hillside, Liquefaction, Seismic Hazard,
Fault Analyses and Forensic Studies.

Education

Bachelor of Science in Geology, Cal
State University, Northridge

Registrations

Registered Geologist, PG 6025
Certified Engineering Geologist, CEG
1892

Certifications

OSHA 40-Hr HAZWOPER Training
OSHA 8-Hour Refresher
First Aid/CPR

Professional Affiliations

Association of Engineering Geologist
South Coast Geological Society
San Diego Association of Geologist
Inland Geological Society
BIA Riverside
BIA San Diego

Professional Experience

Mr. LaMont has been involved with numerous public works, residential and commercial earthwork projects across the southern California area. Many residential, commercial and public works projects have been successfully completed across southern and central California. Projects include liquefaction and subsidence studies, fault evaluations, commercial, residential, federal, FEMA levee certifications and military construction projects. These projects have generally included preliminary geotechnical evaluations, slope stability studies, review and design recommendations, street improvements construction and testing services, and project management.

In addition, Mr. LaMont has performed governmental review of geotechnical reports for the County of Orange. Mr. LaMont has also completed geotechnical studies for the Riverside County Flood Control and Cities of Banning, Chino, Corona, Palm Springs, Lancaster and Victorville, to name a few.

Representative Project Experience

Project experience has included residential and commercial developments, for various land developers including Melia Homes, Meritage Homes, Frontier Enterprises, D·R·Horton, Beazer Homes, KB Home, Integral Communities, IntraCorp, Shopoff, Shea Homes, etc. Mr. LaMont has also completed geotechnical investigations and performed project management for numerous residential tracts and commercial facilities all across Southern California.

Professional History

Branch Manager/Principal Geologist - Riverside GeoTek, Inc.,
2004 to present

Vice President, Principal Geologist - GeoSoils, Inc., Santa Ana,
2003 to 2004

Geotechnical Reviewer, Engineering Geologist - County of
Orange, 2001 to 2003.

Project Geologist - GeoSoils, Inc., Santa Ana, California, 1994 to
2001.

Staff/Project Geologist - GeoSoils, Inc., Carlsbad, California, 1988
to 1994.

J. MICHAEL BATTEN, CAC, CEM, REPA

Principal Environmental Services Manager

Education

BS in Geology, California State University, Fresno 1988

Registrations

- Certified Asbestos Consultant (CA #95-1721)
- Licensed Asbestos Abatement Consultant (NV #IJPM0655)
- Certified Environmental Manager (NV #1782)
- Asbestos Professional Inspector (IL #100-11092)
- Registered Environmental Property Assessor (#113162)
- Certified Lead Inspector Assessor (CA #4358)
- Certified Lead Inspector (EPA #LBP-I-1162326-1)
- Certified Lead Risk Assessor (EPA #LBP-R-1162326-1)

Certifications

- AHERA Certified Asbestos Building Inspector, Management Planner, Project Designer, & Contractor/Supervisor
- EPA Accredited Lead-based Paint Inspector & Risk Assessor
- OSHA HAZWOPER certified worker & supervisor
- OSHA Construction Safety & Health (10-Hour)

Affiliations

- American Society of Testing and Materials
- National Registry of Environmental Professionals

Professional Experience

Mr. Batten has over 30 years of environmental experience, throughout which he has conducted and managed numerous environmental investigations, assessments, and remediations. He has prepared several NEPA assessments, USEPA EIS, and CEQA EIR reports. In addition, Mr. Batten has extensive experience in conducting asbestos and lead-based paint surveys and preparing management plans, including remediation design, for asbestos and lead present in buildings.

Project Experience

- **Phase I Environmental Site Assessments:** Mr. Batten has conducted more than 2,000 Phase I Environmental Site Assessments in 27 states, including Brownfield studies under USEPA grants.
- **Phase II Environmental Site Assessments:** Mr. Batten has conducted more than 150 Phase II Environmental Assessments, including Brownfield studies under USEPA grants.
- **Site Characterizations and Remediations:** Mr. Batten has experience conducting numerous site characterizations and remediations, including obtaining regulatory closure.
- **NEPA Studies:** Mr. Batten has conducted more than 200 NEPA studies, including Environmental Assessments, Environmental Impact Reports/Environmental Impact Studies, in eight states. The agencies involved include USEPA, FCC, BLM, National Park Service, and California EPA.
- **Asbestos Services:** Mr. Batten has conducted over 600 asbestos surveys in several states. He has also prepared numerous Asbestos Management Plans, prepared design plans, and monitored numerous abatement projects.
- **Lead-Based Paint Services:** Mr. Batten has conducted numerous Lead-Based Paint surveys.
- **Landfills:** Mr. Batten has conducted investigations and overseen remediations on landfills in Fresno, California and Henderson, Nevada.
- **Other Services:** Mr. Batten has been called upon to conduct less usual services on occasion, including mold consultation and investigation, radon studies, vapor intrusion studies, and indoor air quality studies.

J. MICHAEL BATTEN, continued...

Professional History

Environmental Services Manager. GeoTek, Inc., 2001 to present.

Director of Environmental Services. ATC Associates, Inc., 1999 to 2001.

Director of Operations. Hygienetics Environmental Services, Inc., 1997 to 1999.

Project Manager. AllWest Environmental, Inc., 1996 to 1997.

Project Manager. Citadel Environmental Services, Inc., 2/1996 to 9/1996.

Project Manager. Boelter Environmental consultants, 3/1995 to 9/1995.

Senior Staff Geologist. Converse Consultants, 1992 to 1995.

Staff Geologist. Converse Environmental West, 1991 to 1992.

Project Geologist. Krazan and Associates, 1990 to 1991.

Environmental Technician. Krazan and Associates, 1989 to 1990.

National Registry of Environmental Professionals

For
Environmental Certifications

This is to Certify that

Michael J Batten

having successfully demonstrated to the Academic Board of this organization the required level of knowledge and ability, is here by awarded the distinction of

Registered Environmental Property Assessor

together with all rights, benefits and privileges attached thereto and that the name and title of the aforementioned registrant is today placed upon the register of the organization.

Given under our hands on this 15 day of June, 2013.

Richard G. Young
Executive Director

113162

Registrant Number

United States Environmental Protection Agency

This is to certify that

J M Batten

has fulfilled the requirements of the Toxic Substances Control Act (TSCA) Section 402, and has received certification to conduct lead-based paint activities pursuant to 40 CFR Part 745.226 as:

Inspector

In the Jurisdiction of:

All EPA Administered Lead-based Paint Activities Program States, Tribes and Territories

This certification is valid from the date of issuance and expires March 14, 2022

LBP-I-1162326-2

Certification #

December 08, 2018

Las Vegas NV 89139

Dear Certified Asbestos Consultant or Technician:

Enclosed is your certification card. **To maintain your certification, you must abide by the rules printed on the back of the certification card.**

Your certification is valid for a period of one year. If you wish to renew your certification, you must apply for renewal at least 60 days before the expiration date shown on your card. [8 CCR 341.15(h)(1)].

Please hold and do not send copies of your required AHERA refresher renewal certificates to our office until you apply for renewal of your certification.

Certificates must be kept current if you are actively working as a CAC or CSST. The grace period is only for those who are not actively working as an asbestos consultant or site surveillance technician.

Please notify our office via U.S. Postal Service or other carrier of any changes in your mailing or work address within 15 days of the change.

Sincerely,

Jeff Ferrell
Senior Safety Engineer
