Project Title: Truckee Riverbank Stabilization and Access Improvements (Lake and Streambed Alteration Agreement EPIMS Notification No. NEV-30686-R2)

Project Location: The project is located at the Truckee River, in the County of Nevada, State of California; Latitude 39.438053, Longitude -120.020684; Near a large pullout on eastbound Interstate 80 roughly 1.4 miles east of the Farad exit; Assessor's Parcel Number: 048-040-002-000.

Project Description: The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement EPIMS Notification Number NEV-30686-R2, pursuant to Section 1602 of the Fish and Game Code to the project Applicant, California Trout.

The project is limited to the stabilization of the steep and eroding bank of the Truckee River with a series of small terraces comprised of logs and boulders and backfilled with native material generated from onsite. Each terrace will include between four to six 2-foot diameter (1/2-ton) boulders and the bottom step along the edge of water will have four 3-foot diameter (1-ton) boulders. The side slopes will be graded between 2:1 and 3:1. Side slopes will be revegetated with willow pole plantings and a native seed mix.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

Person or Public Agency Carrying out Project: California Trout

Exempt Status:

- Categorical Exemption. Type – Classes (1 & 4); California Code of Regulations, title 14, sections 15301 & 15304.

Reasons why project is exempt: This project is class 1 exempt because it involves the maintenance, minor alteration, and rehabilitation of existing public deteriorated topographical features. This project involves negligible expansion of use. This project is class 4 exempt because it involves the minor alterations in the condition of public land, water, and vegetation which do not involve removal of healthy, mature, scenic trees.
