RE: Proposed 85' (90' top of branches) Sabre Monopine at TI-OPP-18825/SC06114 Arc  
Library, 4626 Auburn Blvd., Sacramento, CA 95841

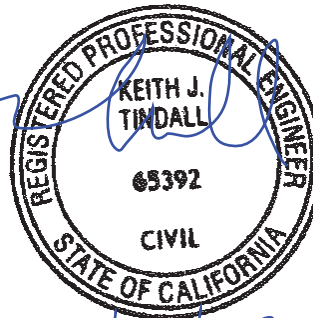

Dear Ms. Reeves,

Upon receipt of order, we propose to design and supply an 85' monopine for the above referenced site. The monopine will be designed to support three wireless carriers' equipment at the 75', 64' and 53' levels. Faux pine branches will be installed from 15' to 90' above grade.

The monopine will be designed for a basic wind speed of 94 mph, Risk Category II, Exposure Category B and Topographic Category 1, as well as seismic requirement for the site, in accordance with ANSI/TIA-222-H and the 2019 California Building Code.

Sincerely,

Keith J. Tindall, P.E.  
Vice President, Telecom Engineering
