Project Title: Mad River Slough Shellfish Nursery

Project Location: Tidelands in Arcata Bay, CA (APN 506-291-013).

Project Description: The proposed project involves restarting operation of a shellfish nursery utilizing existing and newly constructed mariculture equipment. The nursery would culture four shellfish species: Pacific oysters (Crassostrea gigas), Kumamoto oysters (Crassostrea sikimeia), native "Olympia" oyster (Ostrea lurida) and Manila clams (Venerupis philippinarum). The existing equipment includes an upland shellfish larvae setting facility and upwelling tanks. The newly constructed equipment will include a floating upwelling system ("FLUPSY") and water intake rafts, both being anchored in Mad River Slough. The water intake raft would use pipes to transfer bay water to the existing upland larvae setting facility and upwelling tanks. The bay water would then be discharged to an existing ditch located directly adjacent to the slough.

This is to advise that the HBHRCD, as Lead Agency, has approved the above described project on Sept. 14th, 2023 and made the following determinations:
