Project Title: TASMAN KOYOM 1

Project Location: The project is located at an unnamed tributary to Yellow Creek in the County of Plumas, State of California; Section 7, Township 27N, Range 6E of the Humbug 7.5 minute USGS Quadrangle. Latitude 40° 7'50.01"N, Longitude 121° 14'48.58"W. Assessor's Parcel Number [APN] 02-060-019-000.Plumas County.

Project Description: The California Department of Fish and Wildlife has proposed a culvert replacement in Plumas County.

The project is limited to the replacement of a damaged 12" Corrugated Metal Culvert (CMP) with a 20" x 40' CMP culvert in a Class III waterway (tributary to Yellow Creek) within a meadow. The current CMP was damaged by equipment during suppression of the 2021 Dixie Fire. An existing overflow dip will be rocked with 3" diameter rock and the existing culvert replaced.

The installation will temporarily impact an approximately 300 sq. ft. area. An additional 20 cubic yards (CY) area will be permanently impacted from the increased culvert size and addition of the 3" rock. All work will be done during the dry season when no water is present. The Inside ditch will be maintained by the Permittee.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

Person or Public Agency Carrying out Project: Sierra Cascade Land Stewards, Inc.

Exempt Status: Categorical Exemption. Type – Class (4) California Code of Regulations, title 14, sections (15304)

Reasons why project is exempt: The project will have only minor alterations to land and water and will not have a significant impact on fish and wildlife habitats.
