

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: "B" Line Pipeline Replacement Project

Lead Agency: Beaumont-Cherry Valley Water District

Contact Name: Mark Swanson

Email: mark.swanson@bcvwd.org

Phone Number: (951) 845 - 9581

Project Location: Beaumont-Cherry Valley, Riverside County

*City*

*County*

Project Description (Proposed actions, location, and/or consequences).

The proposed Project would consist of the replacement of approximately 3,000 feet of 10-inch riveted steel water pipeline. The pipeline would be replaced with a 12-inch ductile iron pipe (DIP). The existing pipeline would be abandoned in place and the new pipeline would be constructed within the existing District access road. The Project pipeline replacement runs through Edgar Canyon Road, a District access road, within the unincorporated community of Oak Glen in San Bernardino County and through the unincorporated community of Cherry Valley in Riverside County.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Mitigation measures BIO-1. Implement MSHCP Standard Best Management Practices (Volume I, Appendix C); BIO-2. Prevent Entrapment of Wildlife; BIO-3. Construction Staging Away from Little San Gorgonio Creek; BIO-4. Conduct Nesting Bird Surveys; CULT-1. Archeological Resources; CULT-2. Human Remains; GEO-1. Prepare and Implement Storm Water Pollution Prevention Plan (SWPPP); GEO-2. Paleontological Resources; HAZ-1. Spill Prevention and Clean-up Best Management Practices; and HAZ-2. Fire Prevention Best Management Practices would reduce impacts from the Project to a less than significant level, and as a result, would not result in any significant Project or cumulative environmental impacts to biological or cultural resources.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Provide a list of the responsible or trustee agencies for the project.
