Project Title: Cooperative Services Agreement and Annual Work/Financial Plan Between USDA and Sutter County

Project Applicant: Sutter County Agricultural Department

Project Location - Specific:

Unincorporated Sutter County - Countywide

Project Location - City: None Project Location - County: Sutter County

Description of Nature, Purpose and Beneficiaries of Project:

Renewal of cooperative services agreement between Sutter County and USDA to continue countywide wildlife management services program, which began in 1924 and has occurred continuously since 1988, and approval of annual work/financial plan for services to be provided. The Agreements to maintain an integrated Wildlife Damage Management (IWDM) program in Sutter County to protect residents, property, livestock, crops, and natural resources from damage caused by predators and other nuisance wildlife.

Name of Public Agency Approving Project: Sutter County

Name of Person or Agency Carrying Out Project: USDA and Sutter County

Exempt Status: (check one):

- Ministerial (Sec. 21080(b)(1); 15268);
Declared Emergency (Sec. 21080(b)(3); 15269(a));
Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
Categorical Exemption. State type and section number: Section 15307 and 15308
Statutory Exemptions. State code number:

Reasons why project is exempt:

The agreement is an action by a regulatory agency to protect natural resources and the environment by managing and providing owners with preventative management education regarding nuisance wildlife and damage or threaten flood control facilities, agricultural levies, waterways, and soil stability. The program protects residents, crops, and livestock from predators and other nuisance wildlife, and protects forests, threatened and endangered species and wetlands. Guidelines Section 15061(b)(3); based on the record of Sutter County's continuous 32-year program with USDA Wildlife Services, and the assessments on this and similar programs throughout the Northern District (including Sutter County) and the resulting conclusions of the USDA Wildlife Services, US Department of Fish and Wildlife and California Department of Fish and Wildlife, it can be seen with certainty that continuation of the program, if carried out in a manner consistent with past practice and current standards as proposed, would not result in adverse impacts to the environment.
