Project Title: Beach Club Road Low Water Crossing

Project Applicant: Southern California Edison

Project Location – Specific: 33.384520° N, -117.574279 °W

Project Location – City: MCB Camp Pendelton

Project Location: San Diego, CA

Description of Nature, Purpose, and Beneficiaries of Project: The purpose of the Project is to provide continuous access between Basilone Road and the Camp Pendleton Beach Club. This Project will minimize road flooding, debris accumulation, and the road becoming impassible for long periods of time. The existing Beach Club Road crossing of San Onofre Creek is an Arizona type crossing (at grade). The existing Beach Club Road is paved with asphalt and has a concrete dip section at San Onofre Creek. Water flows over the road in the rainy season and sediment and debris build up in the roadway making the road unusable even after the creek has stopped flowing.

The Project Applicant proposes to replace the existing Arizona crossing at San Onofre Creek, at Beach Club Road, by raising the elevation of the road, installing three 8'x 5' box culverts and installing rip rap protection upstream and downstream of the culverts to prevent erosion and scour. Improvements upstream and downstream of the road will be minimal and include wingwalls and riprap, extending approximately 20 feet upstream and downstream of the roadway improvements.

Name of Public Agency Approving Project: California Regional Water Quality Control Board

Name of Persons or Agency Carrying Out Project: Southern California Edison

Exempt Status (check one):

- Ministerial (Sec. 21080(b)(1); 15268).
- Declared Emergency (Sec. 21080(b)(3); 15269(a)).
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c)).
- Categorical Exemption. State type and section number: Class 2, Section 15302
- Statutory Exemption. State code number: _____

Reason why project is exempt: This project consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced.

Lead Agency

Contact Person: George Geatz

Area Code/Telephone/Extension: 619-521-5895

If filed by applicant:

1. Attach certified document of exemption finding.
2. Has a Notice of Exemption been filed by the public agency approving the project?
_ Yes or _ No
