Reasons why project is exempt:

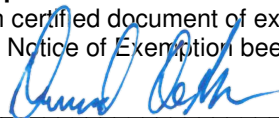

Caltrans determined that the work within the right-of-way is categorically exempt in accordance with Section 15304 (Minor Alterations to Land) Class 4 (i) – Minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry or agricultural purposes. Examples include fuel management activities within 30 feet of structures to reduce the volume of flammable vegetation, provided that the activities will not result in the taking of endangered, rare, or threatened plant or animal species or significant erosion and sedimentation of surface waters. This exemption shall apply to fuel management activities within 100 feet of a structure if the public agency having fire protection responsibility for the area has determined that 100 feet of fuel clearance is required due to extra hazardous fire conditions. Work within Caltrans' right-of-way would not have a significant effect on the environment.
