Present Land Use/Zoning/General Plan Designation:

Agriculture/A-40Ac-sr (Agriculture, 40 acre minimum, scenic road)/Large Scale Agriculture

Project Description: *(please use a separate page if necessary)*

The project is a Building Site Approval application to construct an approximately 1,782-square-foot, single-story, single-family residence with an attached garage, 386-square-foot front porch, 148-square-foot front porch, and 207-square-foot rear deck. Associated improvements include a new onsite wastewater treatment system (OWTS), water tanks, a wharf hydrant, and minor improvements to the existing driveway. While not part of the project, the eventual permitting for this project will also legalize an existing chain-link fence along Pacheco Pass Highway. Existing development that will remain includes a well, barn, shed, and fencing. An existing metal carport will be removed. Total grading quantities for the proposed development include 143 cubic yards of cut and 63 cubic yards of fill, with a maximum cut depth of 2 feet. No trees are proposed for removal.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
