Description of Nature, Purpose and Beneficiaries of Project:

Under grant agreement PIR-23-001, the California Energy Commission (CEC) will provide a grant of \$1,535,556 to the Electric Power Research Institute, Inc. to demonstrate and evaluate the cost-effectiveness and benefits of an interior-mounted, energy-efficient, high-performance secondary window retrofit system. This minimally-invasive secondary window retrofit system technology will be demonstrated at elementary schools in a low-income/disadvantaged community.

The project will result in benefits to the school district and other future users of this technology, because this technology would save energy without requiring removal and replacement of the original windows.
