

NOTICE OF AVAILABILITY

NOTICE is hereby given that a Final Supplemental Environmental Impact Report (FSEIR) has been prepared by the County of Sacramento, State of California, and is available for public review pursuant to State of California, California Environmental Quality Act (CEQA) Guidelines.

TITLE: SACRAMENTO COUNTY WATTEV INNOVATIVE FREIGHT TERMINAL (SWIFT) PROJECT

CONTROL NUMBER: PLER2023-00069

STATE CLEARINGHOUSE NUMBER: 2023080394

LOCATION:

The Sacramento International Airport (SMF) is located approximately 10 miles northwest of downtown Sacramento. SMF is generally bounded by Power Line Road to the east, Garden Highway to the west, Interstate-5(I-5)/Sacramento River to the west and south, and West Elverta Road to the north. The project site is located within the Taylor Monument U.S. Geological Service quadrangle: Townships 9 and 10 N, Range 3 and 4 East, Sections 13, 18, 19, 24, 25, 30, 31, 36, and 6.

APN: 225-0010-003, -035, -036, -006

GENERAL DESCRIPTION:

The project would provide a publicly-accessible Electric Vehicle (EV) charging facility that would be built on a 110-acre parcel of land adjacent to Interstate 5 (I-5 and proximate to State Route 99 (SR-99), both major freight corridors. Facility development would include the installation of Direct Current Fast chargers (DCFC) and Megawatt Chargers powered by a new solar array (solar fields on 96.5 acres) that would support charging for shippers and transporters as well as public transportation and passenger vehicles. The charging areas and associated support facilities would occupy 13.5 acres of land and would be configured with two truck charging areas with trailer parking stalls, separated by a publicly accessible central plaza. The central plaza will include three buildings - one for operations staff, one trucker refreshment/resting lounge, and one convenience store/restroom and visitor center.

REVIEW:

The FSEIR as well as other project documents and details may be reviewed at the internet and/or physical address below:

The FEIR includes a response to comments received on the Draft EIR. The conclusions of the Draft EIR remain adequate.

The FSEIR identified significant and unavoidable impacts related to agricultural resources (farmland conversion).

The FSEIR identified significant or potentially significant impacts with air quality (short-term construction emissions), biological resources, cultural resources (archaeological resources, including human remains),

transportation (design hazards or incompatible uses), and tribal cultural resources. which could be reduced to a less than significant level through inclusion of recommended mitigation measures.

Impacts associated with aesthetics, air quality (long-term operational emissions, toxic air contaminants, odors), climate change, cultural resources (historic resources), energy, hazards and hazardous materials, hydrology and water quality, land use, noise, transportation (conflict with transportation policies, vehicle miles traveled, emergency access), and utilities are considered less than significant.

The Sacramento County Board of Supervisors will consider the FEIR and the proposed project in a public hearing to be held at 700 H Street, Room 1450 (Board Chambers). The hearing is scheduled for May 21, 2024. Interested individuals may also check the materials for upcoming hearings on the Sacramento County Board of Supervisors website <https://sccob.saccounty.gov/Pages/BOSPublicMeetings.aspx>
