This includes approximately 6.0 gross acres (4.6 net acres) of existing vineyard that was installed without benefit of an approved erosion control plan; additionally, portions of that existing vineyard and existing driveway would be removed from the stream setback and the area would be revegetated with a native seed blend. PRELIMINARY DETERMINATION:

The Napa County Director of the Department of Planning, Building and Environmental Services has tentatively determined that the project analyzed in the attached initial study checklist would not have a significant effect on the environment provided mitigation measures are included, and the County intends to adopt a mitigated negative declaration. Copies of the proposed mitigated negative declaration and all documents referenced are available for review at the offices of the Napa County Department of Planning Building and Environmental Services, 1195 Third St., Suite 210, Napa, CA 94559 between the hours of 8:00 AM and 5:00 PM Monday through Friday (excepting holidays), or at the Napa County Current Project Explorer website (www.countyofnapa.org/2876/Current-Projects-Explorer).
