

## Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Use Permit Application No. PLN2023-0042 - Aemetis Biogas LLCLead Agency: Stanislaus CountyContact Name: Emily Basnight, Assistant PlannerEmail: planning@stancounty.comPhone Number: 209-525-6330Project Location: 7123, 7190 and 7215 S. Prairie Flower Road, Stanislaus County*City**County*

Project Description (Proposed actions, location, and/or consequences).

Request to establish a biogas facility on a 157.56± acre parcel located in the Gen. Ag. (A-2-40) zoning district. The project site is comprised of one legal parcel currently being assessed under two separate APNs 057-014-001 and 057-013-015. The facility will take manure waste from existing dairies and capture the biogas that is produced in the break down process within a covered anaerobic digester. The digester will serve as a hub to process manure wastewater from the on-site dairy as well as three off-site dairies located in Stanislaus County within 1± mile of the project site. As part of this request, a 9.3± acre covered anaerobic digester, a 4,800± square-foot pretreatment skid including a fiberglass tank system, chiller, and compressor are proposed to be installed on APN: 057-013-015, which is 78.78± acres in size. After the digester captures biogas by-products, it will be sent through a pretreatment skid on-site and subsequently transferred via private pipeline off-site to the Aemetis Advanced Fuels Keyes facility, where it will be processed and upgraded to compressed natural gas (CNG). For additional details, see the full Project Description in the Early Consultation Form.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

This is the first circulation of the project. No significant effects are known at this time.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

This is the first circulation of the project; no areas of controversy have been identified with respect to the proposed project.

Provide a list of the responsible or trustee agencies for the project.

See distribution list in Early Consultation Form.
