Project Description

San Francisco Municipal Transportation Agency (SFMTA) proposes to implement transportation safety improvements for pedestrians and bicyclists on Bayshore Boulevard between Silver and Oakdale avenues as part of the Bayshore Boulevard Quick-Build Project. Bayshore Boulevard between Silver and Oakdale avenues is part of San Francisco's Vision Zero High Injury Network. The proposed project would create safer conditions for pedestrians and bicyclists by installing pedestrian and bicycle facilities along the project area. The existing Class II bike lanes would be upgraded from a Class II bikeway to a Class IV bikeway. Proposed pedestrian improvements include advance limit lines, curb ramps, traffic signal timing improvements to give pedestrians a head start to cross the intersection, daylighting for improved visibility (red curbs/no parking at

intersection approaches), and a painted safety zone. The proposed project is intended to help meet the City's adopted Vision Zero policy, which seeks to eliminate all traffic-related fatalities by 2024.

Determination

The City and County of San Francisco decided to carry out or approve the project on May 1, 2023, when the City Traffic Engineer approved the project. The project was officially approved on June 6, 2023, when no appeal of the statutory exemption was filed during the 30-day appeal period. A copy of the documents may be examined at the Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103 in file no. 2022-010932ENV.
