Project Location: Lodi, California San Joaquin
City *County*

Project Description (Proposed actions, location, and/or consequences).

This project is an Administrative Use Permit application for the storage of agricultural equipment utilizing a 3-acre outdoor storage area surfaced in gravel. No structures are proposed with this application. No employees are proposed on-site. Access is proposed from North Tecklenburg Road. The project site is not under a Williamson Act contract. (Use Type: Industry-Agricultural)

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Natural Diversity Database lists the vernal pool tadpole shrimp (*Lepidurus packardii*) and the midvalley fairy shrimp (*Branchinecta mesoamericana*) as endangered, or threatened species located on or near the project area. Referrals have been sent to the San Joaquin Council of Governments (SJCOG) for review. SJCOG has determined that the applicant is subject to the San Joaquin Multi-Species Habitat Conservation and Open Space Plan (SJMSCP), and the applicant has confirmed participation. The applicant will be required to provide proof of participation prior to issuance of a grading permit. As a result, the proposed project is consistent with the SJMSCP, as amended, as reflected in the conditions of project approval for this proposal. Pursuant to the *Final EIR/EIS for San Joaquin County Multi-Species Habitat Conservation and Open Space Plan (SJMSCP)*, dated November 15, 2000, and certified by SJCOG on December 7, 2000, implementation of the SJMSCP is expected to reduce impacts to biological resources resulting from the proposed project to a level of less-than-significant.
