Present Land Use/Zoning/General Plan Designation:

Zoning: Community Facility, General Plan: Other Community Facilities

Project Description: *(please use a separate page if necessary)*

EVMWD is proposing to implement new treatment facilities at the Canyon Lake Water Treatment Plant (CLWTP) to address current capacity and water quality issues. The project would demolish the existing intake pump station, static mixers, clarifier, and chemical feed area. The project would construct a new intake pump station at the lake; new static mixers and sedimentation/flocculation basins; new equipment for per- and polyfluoroalkyl substances, taste, and odor treatment; new booster and backwash pump stations; and chemical and maintenance buildings. The proposed improvements, as well as construction staging areas, would be located within the boundary of the existing CLWTP.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
