Project Title: Fogl Seawall (Lake Alteration Agreement EPIMS Notification No. LAK-42696-R2)

Project Location: The project is located at Clear Lake, in the County of Lake, State of California; Latitude 38.99732, Longitude -122.70695 (WGS 84 datum, decimal degrees) 10827 & 10829 Lakeshore Drive, Clearlake, CA, 95422; Assessor's Parcel Number 036-271-022-000.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement EPIMS Notification Number LAK-42696-R2, pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Johanna Fogl.

The project is limited to the installation of a 114-foot steel sheet pile seawall to fortify the existing shoreline. The new seawall will be approximately 12 feet high and consist of approximately 60 sheet piles. The new seawall will be constructed directly in front of the existing cinderblock seawall and approximately 105 yards of light lava rock will be backfilled behind the wall. Construction will be completed via a 40-foot by 65-foot barge equipped with a hydraulic vibrohammer. The Muller-Vibrator MS-4 vibrohammer will drive individual piles to a specified engineered depth of 12 feet below the lakebed. No demolition of the existing cinderblock seawall will occur. Materials and equipment will be floated to the project location on the barge. No native trees or vegetation will be removed as a result of project activities. In-water Project activities shall not take place outside of the CLH work window (October 15 - December 31) unless otherwise approved by CDFW in writing.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

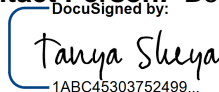

Person or Public Agency Carrying out Project: Johanna Fogl

Exempt Status:

- Categorical Exemption. Type – Class 1, 2 and 4; California Code of Regulations, title 14, sections (15301, 15302 and 15304)

Reasons why project is exempt: Class 1 because the repair and maintenance involves negligible or no expansion of existing or former use. Class 2 because the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity. Class 4 because the project is a minor alteration to Clear Lake and does not involve the removal of healthy, mature, or scenic trees.
