

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: TBD

Project Title: Ramona Water System Improvement Project

Lead Agency: Riverside County TLMA, Planning Department

Contact Name: Kathleen Mitchell

Email: kmitchell@rivco.org Phone Number: 951.955.6836

Project Location: Unincorporated Anza Riverside  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

Residents within the Ramona Water System service area in Anza do not have a reliable integrated potable water storage and delivery system. There are currently 96 connections to the system, serving 280 residents. The Ramona Water System (RWS) is in significant disrepair and requires a substantial upgrade to establish a higher quality, more reliable potable water source, storage, and distribution system. The existing RWS does not currently have the ability to provide safe and sustainable potable water to all of its existing customers.

The applicant has applied to the Regional Water Quality Control Board for Clean Water State Revolving Fund (CWSRF) funding for the planning design and construction of the water system improvement project. Project design features include the following components: wells, tanks, pipelines and pump stations.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

See attached Initial Study.

Potential significant effects to aesthetics, biological resources, cultural resources and noise all mitigated to less than significant levels.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None.

Provide a list of the responsible or trustee agencies for the project.

California Department of Fish and Wildlife  
Regional Water Quality Control Board
