DATE: September 29, 2023

SUBJECT: **NOTICE OF INTENT TO ADOPT THE PROPOSED MITIGATED NEGATIVE DECLARATION**

PROJECT: **LADERA AQUIFER STORAGE AND RECOVERY WELL PROJECT**

The Carmichael Water District (CWD) has completed preparation of an Initial Study/proposed Mitigated Negative Declaration (IS/MND) for the Ladera Aquifer Storage and Recovery Well Project (Project) and intends to adopt the MND as part of project review.

The IS/MND are now available for a 30-day public review and comment period. **The comment period is from September 29, 2023 to October 30, 2023.**

You may obtain a copy of the IS/MND at 7837 Fair Oaks Boulevard, Carmichael, CA, between 9:00 AM and 3:30 PM (except holidays). The IS/MND may also be reviewed at: <https://carmichaelwd.org/>.

The proposed project would be located within the CWD at 4501 Ladera Way, Carmichael, CA, Assessor's Parcel Number (APN) 247-0060-032. The Ladera aquifer storage and recovery (ASR) well site is located near the intersection of Borrego Road and Ladera Way.

The proposed project includes construction of a new water supply well with ASR capacity. The Ladera ASR well would produce approximately 1,500 gpm and have a recharge capacity of approximately 750 gpm. The project would include associated aboveground improvements, including a fenced perimeter, site paving, installation of a pedestal to rest the motor on, installation of a pump, and constructing a small (8- by 12-foot) prefabricated building to house hypochlorite disinfecting solution and associated equipment, a pad to rest electrical equipment and instrumentation controls cabinet and a small shade structure to protect it. The new well and associated aboveground improvements would be within the school's grass field area and immediately adjacent to the existing CWD facility.

All comments regarding the IS/MND should be received **NO LATER THAN 5:00 p.m., on October 30, 2023.** Written comments should be submitted to:
