Present Land Use/Zoning/General Plan Designation:

GPLU=Agriculture (AG)/Zoning=Agricultural Intensive (A-N)

Project Description: (please use a separate page if necessary)

The project consists of modifying an existing irrigation channel adjacent to Tule Canal to avoid fish entrainment, installing a new fish-friendly water intake structure within Tule Canal, and installing a new pump site west of Tule Canal that would pull water from the proposed water intake screens through buried irrigation pipes beneath an agricultural pasture to an improved holding reservoir to the west. The water held in the reservoir would be available for diversion north from the reservoir for use within irrigated fields.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
