Present Land Use/Zoning/General Plan Designation:

Public, Quasi Public, or Recreation (B) / General Plan Designation of Very Low Density Residential

Project Description: (please use a separate page if necessary)

The proposed project would remove an existing church and accessory structures and landscaping from the project site and construct 22, two-story residential units at a density of 8.9 dwelling units per acre. The church is locally eligible as a historic resource. Each unit would include a two to three car garage. Additionally, the project site would include a landscaped paseo at the middle of the site that would provide access to the sidewalk on Pruneridge Avenue. Access to the project site would be provided by an ingress/egress driveway at the east end of the project site. The driveway would connect to a drive aisle which separates the units on the north and south sides of the project site. Three of the residential units would be affordable units compliant with the City of Santa Clara Affordable Housing program. The proposed project would include the planting of approximately 79, 24- to 36- inch box trees throughout the site and would feature drought tolerant, low water use landscaping in the common areas and yards of the residential units. The proposed project would include a rezoning of the project site from Public, Quasi Public, or Recreation (B) to Planned Development (PD). Stained glass windows on site would be preserved for future use.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
