1. EXECUTIVE SUMMARY

A Phase I Environmental Site Assessment has been conducted for the Subject Property. The objective of this Phase I ESA is to identify, to the extent feasible pursuant to the process described in ASTM International Standard E1527-21, recognized environmental conditions (RECs). A summary of the Findings, Opinion, Conclusions and Recommendations are provided below:

FINDINGS:	COMMENTS
Site Description	The Subject Property consists of two parcels located at 1325 and 1347 East Julian Street, San Jose, CA 95116. The Subject Property is identified as APNs 24965060 and 24965061.
Subject Property History	The Subject Property has been used as vacant land since the previously existing buildings were removed between 2013 and 2014. Prior to 2013, the Subject Property appears to have been used as a commercial property dating back to the earliest found aerial photograph from 1948.
Site Observations	The Subject Property is currently used as vacant land. No significant staining was observed throughout the indoor and outdoor grounds of the Subject Property.
Database Findings for the Subject Property	The Subject Property was listed in the Environmental Records Sources searched under the LOP SANTA CLARA, LUST, HAZNET, HIST MANIFEST, FINDS/FRS, C&D DEBRIS RECY, and HAZ GEN databases, and is discussed in Section 5.4.
Database Findings for Adjoining Properties	The Adjoining Properties are listed in the Environmental Records Sources searched, and are discussed in Section 5.5
Database Findings for Surrounding Properties	Surrounding and Unplottable Sites identified as a potential concern are discussed in Sections 5.6 and 5.7.
Local Records	No records were found for the Subject Property with the Santa Clara County Department of Environmental Health. Records were found for the Subject Property with the City of San Jose online permit portal, and are discussed in Section 6.2.

OPINIONS:	IDENTIFIED		COMMENTS
	?		
	Yes	No	
Significant Data Gaps		X	A significant data gap was not identified for the Subject Property.

Business Environmental Risk		X	No Business Environmental Risks were identified.
Recognized Environmental Condition (REC)		X	No RECs were identified.
Historical Recognized Environmental Condition (HREC)	X		The Subject Property was listed in the LUST database. Four leaking USTs were removed from the ground. The site was remediated, the case was closed, and a No Further Action status was granted, which represents an HREC.
Controlled Recognized Environmental Condition (CREC)		X	No CRECs were identified.
Vapor Intrusion Risk		X	A vapor intrusion risk was not identified for the Subject Property.
De Minimis Condition		X	No De Minimis Conditions were identified.

1.1. CONCLUSIONS

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM International Standard Practice E1527-21 of the Subject Property at 1325 and 1347 East Julian Street, San Jose, CA 95116. The Subject Property is identified by its APNs as 24965060 and 24965061. Any exceptions to, or deletions from, this practice are described in the Limitations Section of this report. This assessment has revealed the following recognized environmental conditions, historical recognized environmental conditions, controlled recognized environmental conditions, and/or significant data gaps in connection with the Subject Property:

- The Subject Property was listed in the LUST database. Four leaking USTs were removed from the ground. The site was remediated, the case was closed, and a No Further Action status was granted which represents an HREC.

1.2. RECOMMENDATIONS

ASTM International Standard E1527-21 and AAI represent the minimum level of inquiry necessary to support the LLPs. It is important, however, to understand that additional inquiry ultimately may be necessary or desirable for legal—as well as business—reasons, depending upon the outcome of this Phase I assessment and the particular risk tolerances of a user. For example, such additional

inquiry may assist the user in determining whether he would have continuing obligations in the event he acquires the Property and may also assist the user in defining the scope of future steps to be taken to satisfy the obligation to take reasonable steps. Additionally, a user may be concerned about Business Environmental Risks that do not fall within the definition of a REC. If a Phase I assessment performed to the requirements of the ASTM International Standard E1527-21 identifies the presence of RECs, the user may desire to conduct additional subsurface investigation (commonly referred to as a “Phase II” environmental investigation).

Based on this Phase I Environmental Site Assessment, no further environmental investigation is recommended for the Subject Property at this time.

The statements and recommendations in this report are based upon the findings, opinions, conclusions, and site reconnaissance performed in accordance with ASTM International Standard E1527-21. This recommendation is a non-scope consideration which Enviro Assessment has performed as a courtesy to the client. Enviro Assessment’s work and recommendation have been performed using a degree of skill consistent with that of competent environmental consulting firms performing similar work. Enviro Assessment has considered all reasonably ascertainable data obtained during the Phase I ESA process in the production of this recommendation. Additional research or receipt of information regarding the Subject Property that was not disclosed or available to Enviro Assessment during the assessment may result in revision of the recommendation.

The recommendation in this report should be re-evaluated if site conditions change. This recommendation is not intended to assess the suitability of the Subject Property for any purpose. This recommendation does not preclude the possibility that materials currently, or in the future, defined as hazardous substances are present on the Subject Property. This recommendation is applicable only to the Subject Property investigated during the Phase I Environmental Site Assessment and should not be used for any other property. No expressed or implied warranties are given hereunder with regard to any non-scope considerations Enviro Assessment has provided.

2. INTRODUCTION

2.1. LOCATION AND LEGAL DESCRIPTION

Subject Property Address:	1325 and 1347 East Julian Street, San Jose, CA 95116
Assessor Parcel Number:	24965060 and 24965061

A Vicinity Map and a Topographic Map are located in the Appendix.

2.2. SITE AND VICINITY GENERAL CHARACTERISTICS

The Subject Property is located on the northwest side of East Julian Street, between West Court approximately 200 feet to the northeast, and Wooster Avenue approximately 100 feet to the southwest, within the southern portion of the city of San Jose, California. The surrounding area consists of a mix of commercial, industrial, and residential properties. The city of San Jose is located within the Santa Clara Valley, between the Santa Cruz Mountains to the south, San Francisco Bay to the north, and the Diablo Mountains to the east.

2.3. DESCRIPTION OF IMPROVEMENTS

Property Type	Commercial
Land Area (Acres)/Source:	Approximately 3.22 acres / Google Earth
Number Of Units:	N/A
Number Of Buildings:	None
Year Constructed:	N/A
Building Area (SF)/Source	N/A
Potable Water Supply	City
Domestic Sewage	City sewer

2.4. CURRENT USES OF ADJOINING PROPERTIES

DIRECTION	ADDRESS	TYPE OF USE
Northeast	1349 East Julian Street	Residential
	Parcel 24965058	Parking lot
	331 West Court	Residential
	333 West Court	Residential
	335 West Court	Residential
	337 West Court	Residential
	339 West Court	Residential

	341 West Court 343 West Court 345 West Court 347 West Court 349 West Court 351 West Court 353 West Court 355 West Court 357 West Court 359 West Court	Residential Residential Residential Residential Residential Residential Residential Residential Residential Residential
Southeast	Parcel 4670752 266 28 th Street	Commercial Commercial
Southwest	1315 East Julian Street 350 Wooster Avenue 360 Wooster Avenue 370 Wooster Avenue	Commercial Commercial Commercial Commercial
Northwest	Parcel 24965101	Parking lot

2.5. PURPOSE

The purpose of this Phase I Environmental Site Assessment is to identify, to the extent feasible, Recognized Environmental Conditions (REC) in connection with the Subject Property. The report follows the processes prescribed by the AAI rule and in ASTM International Standard E1527-21, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.

As defined by ASTM International E1527-21, §1.1.1, the term "Recognized Environmental Conditions" refers to:

The presence of hazardous substances or petroleum products in, on, or at the Subject Property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the Subject Property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the Subject Property under conditions that pose a material threat of a future release to the environment. A de minimis condition is not a recognized environmental condition.

As defined by ASTM International E1527-21, §3.2.17, the term "Controlled Recognized Environmental Condition" refers to:

"Recognized environmental condition affecting the Subject Property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations)."

As defined by ASTM International E1527-21, §3.2.39, the term "Historical Recognized Environmental Condition" refers to:

"A previous release of hazardous substances or petroleum products affecting the Subject Property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the Subject Property to any controls (for example, activity and use limitations or other property use limitations)."

2.6. DETAILED SCOPE-OF-SERVICE

The scope of work performed for this Phase I Environmental Site Assessment report includes:

- Collecting and reviewing available environmental related information concerning the Property and other data pertinent to the specific site per the ASTM International Standard E1527-21;
- Conducting a site reconnaissance to observe current Subject Property uses, observe adjacent land use, and gather data on possible spills, or misuse of chemicals that could be considered a REC;
- Contacting appropriate regulatory personnel and reviewing regulatory files regarding the Subject Property in question.

Any additional non-scope considerations per Section 13 of the ASTM International Standard E1527-21 that may be included in this Phase I Environmental Assessment report per the contract would be presented in Section 12 of this report.

2.7. SIGNIFICANT ASSUMPTIONS

No significant assumptions were made in this assessment.

2.8. LIMITATIONS AND EXCEPTIONS

2.8.1. Limitations

This report is applicable only for the Subject Property and site studied. Report findings and statements of professional opinion do not constitute a guarantee or warranty, expressed or implied. This report contains information and data provided by others; Enviro Assessment in no way warrants the accuracy or completeness of the information provided by those sources. Enviro Assessment's services are performed in a manner consistent with the level of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions. This report is prepared using the ASTM International Standard E1527-21 and includes several inherent limitations, including but not limited to: Section 4.5.1 - Uncertainty Not Eliminated, Section 4.5.2 - Not Exhaustive, Section 7.4 - No Sampling, and Section 7.5.2.1 - Reliance. This report was requested to be produced within a specific time frame. Any information received after the completion of the report will not be included in this report. An addendum or update to this report maybe required based on the type and quality of the information received. This could include RECs that were not previously defined.

2.8.2. Exceptions

No exceptions to or deviations from the ASTM International Standard E1527-21 was made during the course of work, with the exception of the following:

- No interviews were conducted with local agencies as part of this assessment. Relevant local agencies for the area have policies of referring requests for interviews to their file review departments.
- A complete list of previous occupants of the Subject Property was not located; therefore, no determination can be made based on every previous use of the Subject Property.
- A complete history in five-year intervals was not reasonably ascertainable.

- All obvious uses of the Subject Property dating back to the first developed use, or back to 1940, were not obtainable for this report using the standard historical sources cited in the ASTM International Standard 1527-21 in Sections 8.3.4.1 through 8.3.4.8.

These limitations are not anticipated to represent a significant data gap for the investigation.

2.9. SPECIAL TERMS AND CONDITIONS

Enviro Assessment has been authorized by Loida Kirkley, on behalf of Roygbiv Real Estate Development, LLC, to perform a Phase I Environmental Site Assessment of the Subject Property. It is Enviro Assessment's understanding that Roygbiv Real Estate Development, LLC will use the information contained in this report for undisclosed purposes. Without prior written consent of the client, Enviro Assessment will keep confidential, and not disclose to any person or entity, any data or information provided by the client or generated in conjunction with the performance of this study, except when required by law. Provisions of confidentiality shall not apply to data or information obtained from the public domain or acquired from third parties not under obligation to the client to maintain confidentiality.

2.10. USER RELIANCE

This report was prepared for the exclusive use of Roygbiv Real Estate Development, LLC. No other person or entity is entitled to rely upon this report without the specific written authorization of Enviro Assessment. Such reliance is subject to the same limitations, terms, and conditions as the original contract with the client. Enviro Assessment specifically disclaims any responsibility for any unauthorized use of this report. Based on the ASTM International Standard, this Phase I report expires 180 days from the date the work was conducted.

3. USER PROVIDED INFORMATION

The “All Appropriate Inquiries” Final Rule (40 C.F.R. Part 312) requires that certain tasks be performed by or on behalf of a party seeking to qualify for an LLP to CERCLA liability. The following items were requested of the client in our provided questionnaire and discussed below:

3.1. TITLE RECORDS

Neither chain of title reports, a Preliminary Title Report, nor a Commitment for Title Insurance were reviewed for pertinent title records and/or judicial records, as no such records were made available for review.

3.2. ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

No Environmental Liens or Activity and No Limitation search results were received from the user during this Assessment in regard to the Subject Property. No environmental liens placed by the federal environmental agency under CERCLA regulations for the Subject Property was/were found during a record search on available government records.

3.3. SPECIALIZED KNOWLEDGE

No information was provided identifying specialized knowledge or experience that is material to Recognized Environmental Conditions in connection with the Subject Property.

3.4. COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION

No information was provided identifying knowledge of commonly known or reasonably ascertainable information related to the Subject Property.

3.5. VALUATION REDUCTION FOR ENVIRONMENTAL ISSUES

No information was provided identifying knowledge of valuation reduction of the Subject Property.

3.6. OWNER, PROPERTY MANAGER, AND OCCUPANT INFORMATION

Information provided by the owner of the Subject Property is discussed in Section 6 of this report.

3.7. REASON FOR PERFORMING PHASE I

The Phase I has been requested by Roygbiv Real Estate Development, LLC for undisclosed purposes.

3.8. OTHER

No other information related to the Subject Property was provided for review.

4. SITE RECONNAISSANCE

A site reconnaissance of the Subject Property was conducted on April 18, 2023 by Mr. Steve Ashe, under the supervision of Mr. Robinson. A site map and photographs of the Subject Property are attached to this report in the Appendix.

4.1. METHODOLOGY AND LIMITING CONDITIONS

The periphery of the Subject Property was inspected. A detailed inspection was conducted of all major site features visible from the public portions of the Subject Property.

4.2. EXTERIOR AND INTERIOR OBSERVATIONS

Observations made during the site visit are summarized in the following table:

SITE VISIT OBSERVATIONS	
Current use(s)/tenants	Vacant lot
Past use(s)	Two former structure foundations located on the southwest and northern portions and an asphalt parking area located on the southeastern portion indicate past use as a commercial property.
Current use of adjoining properties	Northeast: Residential and vacant lot Southeast: Ad-Way Signs Southwest: Sergio's Tires, G and A Automotive, El Sapo Mufflers, Rocket Ship Discovery Prep School Northwest: Hacienda Creek Senior Apartments
Evidence of past use of adjoining properties	None observed
Topography	Flat
Number of structures (include approximate size and # of stories)	N/A
Roads/driveways/parking	Concrete paved driveway and parking areas, East Julian Street along southeastern boundary
Potable water supply	None observed
Solid waste disposal	None observed
Sewer discharge and disposal	City sewer
Surface water drainage	Three surface drains were observed in the northern concrete slab. Two drains are located along the approximate center line of the slab, with the northern drain containing a tree. The

	other drain is smaller and located near the southeast corner of the northern area concrete slab. No staining or evidence of a release was observed in the interior or perimeter of these drains.
Source of heating and cooling	None observed

OBSERVATION CHECKLIST

Type	Observed?		Notes
	Yes	No	
Hazardous materials and petroleum products		X	No significant amounts of hazardous materials or petroleum products were observed on the Subject Property. A used oil filter was observed in the vegetated area of the site.
Storage tanks		X	No aboveground storage tanks, former AST saddles or pads were observed on either parcel of the Subject Property. No underground storage tanks, fill pipes or vents pipes were observed on either parcel of the Subject Property.
Strong, pungent or noxious odors		X	
Standing surface water and pools, or sumps containing liquids likely to be hazardous substances or petroleum products.		X	
Drums, totes, and intermediate bulk containers		X	
Hazardous substance and petroleum product containers not in connection with identified uses		X	
Unidentified substance containers.		X	
Polychlorinated biphenyls (PCBs) (i.e., industrial lighting units, lifts, box crushers, heavy equip....)		X	
Pole- or pad-mounted transformers	X		A pole-mounted electrical transformer is located along the southern boundary of the SP. This transformer was inspected and appeared in good condition. This

			transformer is labeled “No PCBs.”
Stains or corrosion on floors, walls, or ceilings (not from water)		X	
Area drains, floor drains	X		Three surface drains were observed in the northern concrete slab at the SP. Two drains are located along the approximate center line of the slab, with the northern drain containing a tree. The other drain is smaller and located near the southeast corner of the northern area concrete slab. A circular plate is located north of the smaller drain. No staining or evidence of a release was observed in the interior or perimeter of these drains. Additionally, no staining was noted on the concrete pavement that surrounded these drains. The sanitary sewer connections of two former toilets were observed at the southeast corner of the southern concrete slab. No staining was noted on the concrete pavement the surrounded these drains.
Sumps, drywells, catch basins, clarifiers		X	The circular plate located on the southeast portion of the northern concrete slab may be a former sump. The assessor attempted to remove the plate without success. No drywells, catch basins or clarifiers were observed during the site inspection.
Pits, ponds, lagoons		X	
Stained soil or pavement		X	
Stressed vegetation		X	
Water/wastewater or other liquid discharged from or to the Subject Property.		X	
Wells (irrigation wells, injection wells, monitoring wells, abandoned wells, or other wells).		X	
Septic system or cesspools.		X	

5. RECORDS REVIEW

5.1. STANDARD AND ADDITIONAL ENVIRONMENTAL RECORDS

The Environmental Records used for this Phase I ESA were obtained through Environmental Data Resources, Inc. (ERIS[®]) of Austin, Texas. The search radius used for each of the records is listed below and is based on the ASTM International Standard E1527-21, Sections 8.2.2 and Table 2 and Table 3. The date of each of the government records searched and the date ERIS[®] obtained the records are listed in the ERIS[®] Report (attached). In addition to the search results, lists of sites which may be located within the search area but, due to lack of information, cannot be accurately located are provided (Unplottable Sites). This Unplottable Report list was reviewed and all sites which may be included within the search radius have been included in this report.

5.2. DATABASE RESULTS

For the full name, description, and the date each of the databases were last updated, please refer to the Government Records section of the ERIS[®] Report.

5.3. METHODOLOGY OF RECORDS REVIEW

Enviro Assessment conducts *Regulatory Agency File and Records Reviews* in accordance with ASTM International Standard E1527-21, Sections 8.2.3. *The purpose of the regulatory file review is to obtain sufficient information to assist the environmental professional in determining if a recognized environmental condition, historical recognized environmental condition, controlled recognized environmental condition, or a de minimis condition exists at the Subject Property.*

Standard Historical Information Sources (8.3.3) that are *practically reviewable* (3.2.65) and *publicly available* (3.2.69) have been examined by Enviro Assessment, PC personnel. Records that are not *practically reviewable* were not used to determine any professional opinion regarding potential impacts to the Subject Property. This review of the *Standard Historical Information Sources* includes case files that meet the definition requirements of a *recognized environmental condition*, *historical recognized environmental condition*, *controlled recognized environmental condition*, or *a de minimis condition*. Please refer to the ERIS Report and appendices attached to this report for further details (Terms and definitions in italics denote direct references from ASTM International Standard E1527-21).

5.4. SUBJECT PROPERTY

The Subject Property was listed in the ERIS records searched in the following databases: LOP SANTA CLARA, LUST, HAZNET, HIST MANIFEST, FINDS/FRS, C&D DEBRIS RECY, and HAZ GEN.

- The LOP SANTA CLARA listing referred to GEOTRACKER and ENVROSTOR. The Subject Property is listed in GEOTRACKER under the name GUMMOW PROPERTY. A leak of gasoline which affected groundwater was reported on April 8, 1991. The case was assessed, investigated and eventually the case was closed and a No Further Action letter was issued on July 26, 2000. The Subject Property was not listed in ENVROSTOR.
- The LUST database detailed the leak discussed above. The case was closed and a No Further Action letter was issued on July 26, 2000.
- The HAZNET database lists the Subject Property under the name 1X ROYAL FOODS CO INC, created on July 21, 1987 and inactive on December 19, 2000, as a generator with no other pertinent details. It also lists the Subject Property under the name 1X GUMMOW INVESTMENTS, created on April 11, 1989 and inactive on October 25, 2000, as a generator with no other pertinent details. It also lists the Subject Property under the name 1X GUMMOW INVESTMENTS, created on July 2, 1990 and inactive on October 25, 2000, as a generator with no other pertinent details. Finally, it lists the Subject Property under the name LUSAMERICA FOODS INC, created on November 19, 2002 and inactive

on June 30, 2007, as a generator with no other pertinent details.

- The HIST MANIFEST database lists the Subject Property by address with: 0.1-ton of waste code 112 disposed of by method D80 in 1987; 0.62-ton of waste code 223 (unspecified oil-containing waste) disposed of by method R01 in 1990; and 9.5-tons of waste code 512 (other empty containers 30 gallons or more) disposed of by method R01 in 1990.
- The FINDS/FRS database lists the Subject Property under the name GUMMOW PROPERTY. No SIC or NAICS codes were found.
- The C&D DEBRIS RECY database lists the Subject Property under the name VINTAGE ROOF TILE. No other pertinent information is listed.
- The HAZ GEN database lists the Subject Property under the name ECO BOX RECYCLING INC. The listing was issued on February 9, 2009 and became inactive on June 30, 2011. In 2009, 0.15-ton of hydrocarbon solvents, 0.45-ton of latex waste, 0.15-ton of ignitable waste, 0.15-ton of methyl ethyl ketone, 0.15-ton/0.15-ton of non-halogenated solvents (F003 and F005) were disposed on by method H039 and H061. It was also listed under the name GI JULIAN LLC. The listing was issued on September 22, 2014 and became inactive on December 22, 2014. In 2014, 343.85-tons of asbestos containing waste were generated.

5.5. ADJOINING PROPERTIES

The ERIS Report was reviewed for any adjoining sites which may pose a risk of significant environmental concern to the Subject Property. The following sites of potential environmental concern are discussed below:

- ERICH PRINTING & LITHOGRAPHING at 1315 East Julian Street is an adjoining property to the south and was listed in the HAZ GEN and HAZNET databases. This site was listed as a hazardous waste generator three time: issued on May 14, 1993 and inactive on June 30, 2000; issued on January 3, 1997 and inactive on June 12, 2000; issued on May 4, 2012 and inactive on November 1, 2012 and generating 0.11-ton of waste code 343 (unspecified organic liquid mixture) and disposed of by method H061. No impact to the Subject Property is anticipated from this site based on the amount of regulatory oversight.
- G&A TRANSMISSION & AUTOMOTIVE REPAIR (aka: NEW LINE AUTOBODY, FRIENDSHIP AUTO BODY & PAINT) at 350 Wooster Avenue is located 0.01 miles to the

southwest and was listed in the FINDS/FRS, HAZNET, CUPA SANTA CLARA, CERS HAZ, EMISSIONS, and HAZ GEN databases. This site is an automotive repair shop. No SIC codes were returned but a NAICS code of 811121 (automotive body, paint, and interior repair and maintenance) was returned. The site became inactive on the hazardous waste racking system on June 30, 2001 (New Line Autobody) and June 30, 2016 (G&A Motor and Transmission). CERS violations for handling and managing hazardous waste were recorded in 2016 and 2017 and were brought back to compliance. No impact to the Subject Property is anticipated from this site based on the amount of regulatory oversight.

- 1355 East Julian Street is located 0.02 miles to the east and was listed in the CDL database as a location where an illegal drug lab was operated or drug lab equipment and/or materials were stored. No impact to the Subject Property is anticipated from this site based on the regulatory nature of the listing.
- LAUNCHPAD DEVELOPMENT FIVE LLC at 370 Wooster Avenue is located 0.02-miles to the west-northwest and was listed in the SCH and ENVIROSTOR databases. Per the databases, the site *“was formerly a tile and materials storage facility. Potential contaminants of concern included organochlorine pesticides (OCPs) and arsenic from former pesticide use, naturally occurring asbestos (NOA), and petroleum hydrocarbons from stockpiled soil generated from the removal of former gasoline and diesel underground storage tanks (USTs) from an adjacent property. In addition, soil gas and groundwater beneath the site may be impacted by the former USTs from the adjacent property.”* The site was part of a voluntary cleanup program. Investigations determined that VOCs in the groundwater were within acceptable risk ranges. A cap of clean fill, landscaping and hardscaping was placed to manage the naturally occurring asbestos onsite. A No Further Action status was granted on August 16, 2011. No impact to the Subject Property is anticipated from this site based on the No Further Action status and the amount of regulatory oversight.

5.6. SURROUNDING PROPERTIES

The ERIS Report was reviewed for any surrounding sites which may pose a risk of significant environmental concern to the Subject Property. The following sites of potential environmental concern are discussed below:

- LAS PLUMAS WAREHOUSE at 1608 Las Plumas Avenue is located 0.32 miles to the

north and was listed in the CLEANUP SITES, HSOL SANTA CLARA, and DELISTED CLEANUP databases. This site was formerly a manufacturing facility. Spills and leaks from aboveground and underground storage tanks released contaminants to soil and groundwater. The contaminants included gasoline, diesel, and chlorinated VOCs. The site is currently undergoing assessment and monitoring. No impact to the Subject Property is anticipated from this site based on the distance and amount of regulatory oversight.

The remaining cases listed in the ERIS Report were for regulatory database listings, permitted facilities listings, closed/remediated cases, and historical database listings; including sites which, based on indicated groundwater directional flow and their distances, are not anticipated to impact the Subject Property. Please refer to the Appendix for further details on these sites.

5.7. UNPLOTTABLE SITES

- The Unplottable Report was reviewed. On the adjoining railroad tracks near East Julian Street and Wooster Avenue was a train trestle fire in 2016 which resulted in the release of 10-15 gallons of creosote oil from the train trestle wood. The release was into the Silver Creek Canal which leads to Coyote Creek which then leads to the San Francisco Bay. The release released about a gallon per hour. Clean up was managed by the San Jose Fire Department. No impact to the Subject Property is anticipated from this site based on the amount of regulatory oversight.

5.8. PHYSICAL SETTING SOURCES

According to the most recent USGS Topographic maps covering the Subject Property and vicinity, the Subject Property is relatively flat and lies at approximately 87 feet above mean sea-level.

According to ERIS PSR, the Subject Property is mapped as urban land with Still complex, Elpal-oalto complex, and Campbell complex. Soils are clay loams to sandy loams. Slopes are 0 to 2 percent. This component is on alluvial fans, alluvial plains, flood plains. The parent material consists of alluvium derived from metamorphic and sedimentary rock and/or alluvium derived from metavolcanics. The depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water Soil Information movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is high.

5.9. HISTORICAL USE INFORMATION ON THE SUBJECT PROPERTY AND ADJOINING PROPERTIES

5.9.1. Historical Topographic Maps

Topographic maps of the Subject Property were reviewed as part of this investigation. The results are discussed below:

DATE	MAP DESCRIPTION
1943	15 Minute USGS Topo Map. East Julian Street is mapped along the southeastern boundary of the Subject Property, with West Court mapped to the northeast and Hoover Avenue is mapped to the southwest. The Western Pacific Railroad is mapped along the southwestern boundary. Coyote Creek is mapped to the west of the Subject Property, and a branch of the creek is mapped north of the Subject Property, extending to the east. Orchards are mapped to the north, northeast, and southeast. No structures are mapped on the Subject Property, but structures are mapped on some of the surrounding properties.
1961 - Revised 1980	7.5 Minute USGS Topo Map. U.S. Highway 101 is mapped to the northeast, and U.S. Interstate 280 is mapped to the southeast. The creek to the north of the Subject Property is now identified as Miguelita Creek. The orchards on the properties to the north have been removed and replaced with developed streets and structures. A structure is mapped on the Subject Property, and the Subject Property is part of incorporated San Jose.
2021	7.5 Minute USGS Topo Map. This era map does not show structures with the exception of government and institutional; however, all present-day roads are shown. A fire department is mapped to the southeast, and schools are mapped in the surrounding areas.

These maps are included in the Appendix.

5.9.2. Aerial Photographs

Aerial photographs of the Subject Property were reviewed as part of this investigation. The results are discussed below:

DATE	PHOTO DESCRIPTION
1948	<ul style="list-style-type: none"> • Subject Property: Consists of a series of structures covering the majority of the Subject Property. • Adjoining Properties: The adjoining properties to the northeast consist of residential

DATE	PHOTO DESCRIPTION
	<p>properties and undeveloped land. The adjoining properties to the southeast consist of undeveloped land. The properties to the southwest consist of commercial properties and undeveloped land. The adjoining property to the northwest consists of undeveloped land. East Julian Street is visible to the southeast, North 28th Street is visible to the southwest, and the Western Pacific Railroad is mapped to the west.</p> <ul style="list-style-type: none"> Surrounding Area: Old U.S Highway 101 is visible to the northeast, and Lower Silver Creek is visible to the northwest. The surrounding properties consist of a mix of residential, commercial, agricultural, undeveloped, and orchard land.
1954	<ul style="list-style-type: none"> Subject Property: Largely unchanged from previous aerial photograph. Adjoining Properties: Additional single-family residential structures are visible to the northeast. Surrounding Area: Largely unchanged from previous aerial photograph.
1960	<ul style="list-style-type: none"> Subject Property: Largely unchanged from previous aerial photograph. Adjoining Properties: Two structures are visible on the adjoining property to the northwest. East Julian Street has been rerouted further south to allow for exit ramps from U.S. Interstate 101 to the northeast. Surrounding Area: Additional commercial, multi-family residential, and single-family residential structures are visible in the surrounding areas.
1968	<ul style="list-style-type: none"> Subject Property: Largely unchanged from previous aerial photograph. Adjoining Properties: Largely unchanged from previous aerial photograph. Surrounding Area: An additional commercial structure is visible to the northwest.
1974	<ul style="list-style-type: none"> Subject Property: Largely unchanged from previous aerial photograph. Adjoining Properties: Largely unchanged from previous aerial photograph. Surrounding Area: Largely unchanged from previous aerial photograph.
1981	<ul style="list-style-type: none"> Subject Property: The structure on the southeastern portion of the Subject Property has been removed. Adjoining Properties: Additional commercial structures are visible on adjoining properties to the southwest. Surrounding Area: Largely unchanged from previous aerial photograph.
1998	<ul style="list-style-type: none"> Subject Property: Several structures on the northwestern portion of the Subject Property have been removed. Adjoining Properties: Largely unchanged from previous aerial photograph. Surrounding Area: East Julian Street has been rerouted again slightly to the north. Additional commercial and multi-family residential structures are visible to the south, southwest, and west.

DATE	PHOTO DESCRIPTION
2004	<ul style="list-style-type: none"> • Subject Property: Largely unchanged from previous aerial photograph. • Adjoining Properties: The structures on the adjoining property to the northwest have been removed and replaced with a parking lot. • Surrounding Area: An additional multi-family residential structure is visible to the north.
2009	<ul style="list-style-type: none"> • Subject Property: Largely unchanged from previous aerial photograph. • Adjoining Properties: Construction material is visible on one of the properties to the southwest. • Surrounding Area: Additional multi-family residential structures are visible to the northeast.
2014	<ul style="list-style-type: none"> • Subject Property: Most of the structures on the central and northern portion have been removed from the Subject Property. • Adjoining Properties: An additional commercial structure is visible on one of the properties to the southwest. • Surrounding Area: Largely unchanged from previous aerial photograph.
2018	<ul style="list-style-type: none"> • Subject Property: All structures have been removed from the Subject Property. • Adjoining Properties: Largely unchanged from previous aerial photograph. • Surrounding Area: Largely unchanged from previous aerial photograph.
2022	<ul style="list-style-type: none"> • Subject Property: Largely unchanged from previous aerial photograph. • Adjoining Properties: Largely unchanged from previous aerial photograph. • Surrounding Area: Largely unchanged from previous aerial photograph.

These photos are included in the Appendix.

5.9.3. Fire Insurance Maps

An attempt was made by ERIS to obtain Fire Insurance Maps (FIM) for the period covering the years 1866 through the present in order to determine what types of activities were conducted on the Subject Property and on adjoining properties. FIM coverage was available for the Subject Property and surrounding area. The results are discussed below:

DATE	MAP DESCRIPTION
1915	<ul style="list-style-type: none"> • Subject Property: The southern portion of the Subject Property is mapped with a structure identified as “D” for dwelling. McKee Road is mapped along the southeastern boundary.

DATE	MAP DESCRIPTION
	<ul style="list-style-type: none"> • Adjoining Properties: The adjoining properties to the northeast and northwest are not mapped. The adjoining properties to the southeast are mapped, with a structure identified as “D” for dwelling and an unidentified dwelling on one of the properties. The southernmost adjoining property to the southwest is mapped, but no structures are shown. • Surrounding Area: The surrounding areas to the north, northeast, east, west, and northwest are not mapped. Structures are mapped on many of the properties, and are identified as “D” for dwelling and “S” for store. Wooster Avenue is mapped to the west, Owens Avenue and 28th Street are mapped to the southeast, North 27th Street is mapped to the south, and North 26th and North 25th Street are mapped to the southwest.
1950	<ul style="list-style-type: none"> • Subject Property: The entirety of the Subject Property is mapped as a cannery with several structures identified as “W. HO.” for warehouses, “COLD STGE” for cold storage, and “REST” for restaurant. • Adjoining Properties: The properties to the northeast have been mapped, with many of the properties mapped with structures identified as “D” for dwelling, and “A” for garage. West Court is mapped along the northeastern boundaries. The Western Pacific Railroad is mapped between the Subject Property and the properties to the southwest, with a structure identified as “OFF” for office on the southernmost property. • Surrounding Area: Two structures have been mapped to the southeast identified as “SAN JOSE STEEL CO”. The area to the southwest has been mapped with several structures, some of which are identified as “D” for dwelling, and “W. HO” for warehouse. Owens Avenue has been changed to St. James Street.
1969	<ul style="list-style-type: none"> • Subject Property: The Subject Property is mapped, but is mostly redacted. The restaurant on the southeastern portion is now identified as “S” for store. • Adjoining Properties: Additional structures identified as “D” for dwelling and “A” for garage are mapped on properties to the northeast. A structure is visible on a property to the southeast identified as “SIGN MFG” for sign manufacturer. The structure on the southernmost property to the southwest is now identified as “PRTG” for printing. • Surrounding Area: The streets to the east and southeast has been modified, with McKee Road having been renamed East Julian Street. Additional structures identified as “APTS” for apartments are mapped to the southeast and southwest. Gas and oil stations are mapped to the south and southwest.

These maps are included in the Appendix.

5.9.4. City Directories

A search of local historical city directories was conducted by ERIS for the Subject Property. The review included directories in five-year intervals from 1925 to 2022 (as available). The results are discussed below:

No other listings were found for the Subject Property. Please refer to the ERIS City Directory Report in the Appendix for numerous listings of the surrounding properties for more details

5.10. HISTORICAL REVIEW SUMMARY

Based on the aerial photos, topographic maps, Fire Insurance Maps, and City Directory listings of the Subject Property, in addition to information obtained while conducting interviews, the Subject Property has been used for commercial and manufacturing facilities since at least 1950. The Subject Property appears to have been used as residential property dating back to the earliest found

Fire Insurance map from 1915. Historical use of the Subject Property includes, but is not limited to, residential, food canning manufacturer, restaurant, plastics company, drywall supply company, roofing tile company, and a wholesale animal feed business.

6. INTERVIEWS

An attempt has been made to obtain historical as well as current information relative to the Subject Property from several individuals and local agencies. The objective of the interview process is to obtain any information indicating recognized environmental conditions in connection with the Subject Property.

6.1. INTERVIEW WITH OWNER OR SITE MANAGER

An Environmental Questionnaire and Subject Property Boundary Verification Form were sent to Ms. Loida Kirkley, via e-mail.

FORM TITLE	DATE SENT	DATE RECEIVED	COMMENTS
Environmental Questionnaire - Part 1	4/10/2023		Not returned
Environmental Questionnaire - Part 2	4/10/2023		Not returned
Property Boundary Verification Form	4/10/2023		Not returned

6.2. INTERVIEW WITH LOCAL GOVERNMENT OFFICIALS

Santa Clara County Department of Environmental Health

The Santa Clara County Department of Environmental Health was contacted via public records request on April 16, 2023 as part of the records review of the Subject Property. We requested any records pertaining to underground or above-ground storage tanks or hazardous waste issues or contamination of the Subject Property. We received a response via email on April 17, 2023, which stated that no records were found for the Subject Property.

City of San Jose Building Department

The City of San Jose Building Department was contacted via public records request on April 16, 2023 as part of the records review of the Subject Property. We requested a list of building permits with dates issued and violations, in addition to dates and descriptions of any structures built, remodeled or removed from the Subject Property. We received a response via email on April 20,

2023 from the City of San Jose Public Records Center, with the same instructions to access the permit portal as was received from the City of San Jose Fire Department. The documents that were able to be reviewed are listed below under the City of San Jose Fire Department listing.

City of San Jose Fire Department

The City of San Jose Fire Department was contacted via public records request on April 16, 2023 as part of the records review of the Subject Property. We requested any fire department reports related to under/above ground storage tanks or hazardous waste issues (permitting, tank removal, spillage, or contamination), fire code violations and the date of last inspection. We received a response via email on April 19, 2023 from the San Jose Fire Department, Bureau of Fire Prevention, which stated that no open fire code violations were found for the Subject Property. A website link was provided to the San Jose online permit search page. The following documents were able to be viewed:

DOCUMENTS		
ADDRESS	YEAR	PERMIT DESCRIPTION
1347 East Julian Street	1974	Application for plumbing and/or gas piping survey
1347 East Julian Street	1974	Application for plumbing various fixtures
Unidentified	1992	Site plan detailing structures on the southern portion labeled as “G & G International” and “Gypsum Drywall Supply Co”
1347 East Julian Street	1992	Information regarding a conditional use permit for open storage
1325 East Julian Street	1993	Compliance review for an open storage yard
1325 East Julian Street	2005	General plan amendment application from light industrial and medium low density residential to medium high density residential
1325 East Julian Street	2014	Final permit record for the demolished of a fire damaged building
1325 East Julian Street	2014	Plot plan detailing the structures to be demolished

6.3. INTERVIEW WITH OTHERS

No additional interviews were conducted in this assessment.

7. NON-SCOPE SERVICES

No additional services as listed in the ASTM Standard 1527-21 have been requested in writing and placed under contract in regard to this assessment, including, but not limited to, asbestos testing of material at the Subject Property and drug lab uses of the Subject Property.

8. FINDINGS AND OPINION

8.1. FINDINGS

Site Description

The Subject Property is located at 1325 and 1347 East Julian Street, San Jose, CA 95116. The Subject Property is identified by its APNs as 24965060 and 24965061.

Historical Review Summary

Based on the aerial photos, topographic maps, Fire Insurance Maps, and City Directory listings of the Subject Property, in addition to information obtained while conducting interviews, the Subject Property has been used for commercial and manufacturing facilities since at least 1950. The Subject Property appears to have been used as residential property dating back to the earliest found Fire Insurance map from 1915. Historical use of the Subject Property includes, but is not limited to, residential, food canning manufacturer, restaurant, plastics company, drywall supply company, roofing tile company, and a wholesale animal feed business.

Site Observations

Enviro Assessment personnel identified no significant observable contaminated areas on the Subject Property during the site reconnaissance. Floor drains in the slab were observed.

ERIS Report Findings for the Subject Property

The Subject Property was listed in the ERIS Report. Please refer to Section 5.4 of this report for additional details.

Additional ERIS Report Findings

The ERIS Report was reviewed for any adjoining and/or surrounding sites which may pose a risk of significant environmental concern to the Subject Property. Several sites of potential concern were identified in the surrounding area. Please refer to Sections 5.5 and 5.6 of this report for additional details on these sites.

Local Records Review

Interviews were conducted with individuals and local government agencies in an attempt to obtain any information indicating recognized environmental conditions in connection with the Subject Property. Please refer to Section 6 of this report for additional details on these interviews.

8.2. OPINION

Historical Records

All available standard historical sources have been reviewed in an attempt to identify the likelihood of past uses of the Subject Property and surrounding area, having led to Recognized Environmental Conditions (RECs) in connection with the site. No significant environmental concerns have been identified based on the historical use of the Subject Property or surrounding area, with the exception of a gasoline leak which affected the groundwater, as reported on April 8, 1991. The case was assessed, investigated and eventually the case was closed and a No Further Action letter was issued on July 26, 2000.

Site Observations

Enviro Assessment personnel did not observe any visible RECs related to the Subject Property.

ERIS Report Opinion for the Subject Property

The Subject Property was listed in the ERIS Report in the LOP SANTA CLARA, LUST, HAZNET, HIST MANIFEST, FINDS/FRS, C&D DEBRIS RECY, and HAZ GEN databases. A gasoline leak which affected the groundwater was reported on April 8, 1991. The case was assessed, investigated and then the case was closed, and a No Further Action letter was issued on July 26, 2000. This represents an HREC.

Additional ERIS Report Opinion

The ERIS Report was reviewed for any adjoining, surrounding, or Unplottable sites which may pose a risk of significant environmental concern to the Subject Property. Based on the description of the cases, the type of database listings, the amount of past regulatory oversight, and the relative distances to the Subject Property, the sites listed are not anticipated to impact the Subject Property at this time.

Local Records

No significant environmental concerns were identified during the interviews conducted for the Subject Property.

9. CONCLUSIONS

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 of the Subject Property at 1325 and 1347 East Julian Street, San Jose, CA 95116. The Subject Property is identified by its APNs as 24965060 and 24965061. Any exceptions to, or deletions from, this practice are described in the Limitations Section of this report. This assessment has revealed the following recognized environmental conditions, historical recognized environmental conditions, controlled recognized environmental conditions, and/or significant data gaps in connection with the Subject Property:

- The Subject Property was listed in the LUST database. Four leaking USTs were removed from the ground. The site was remediated, the case was closed, and a No Further Action status was granted which represents an HREC.

10. PROFESSIONAL SIGNATURE

According to Code of Federal Regulations C.F.R. - Title 40 §312.10, Environmental Professional is defined as:

"(1) a person who possess sufficient specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding conditions indicative of releases or threatened releases (see §312.1(c)) on, at, in, or to a property, sufficient to meet the objectives and performance factors in §312.20(e) and (f).

(2) Such a person must:

- (i) hold a current professional engineer's or Professional Geologist's license or registration from a state, tribe, or U.S. territory (or the Commonwealth of Puerto Rico) and have the equivalent of three (3) years of full-time relevant experience; or*
- (ii) Be licensed or certified by the federal government, a state, tribe, or U.S. territory (or the Commonwealth of Puerto Rico) to perform environmental inquiries as defined in §312.21 and have the equivalent of three (3) years of full-time relevant experience; or*
- (iii) Have a Baccalaureate or higher degree from an accredited institution of higher education in a discipline of engineering or science and the equivalent of five (5) years of full-time relevant experience; or*
- (iv) Have the equivalent of ten (10) years of full-time relevant experience".*

We declare to the best of our professional knowledge and belief, we have met the definition of Environmental Professional as defined in §312.10 of 40 C.F.R. 312. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Subject Property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 C.F.R. 312.

It has been a pleasure to be of service. If any questions arise, please contact our office.

Sincerely,

ENVIRO ASSESSMENT, PC

James D. Robinson
Environmental Professional

Academic Education

Bachelor of Science, 1997, Geology, California State University, Northridge, California.

Professional History

James Robinson has grown up surrounded by geotechnical engineering, engineering geology, and environmental sciences. He has followed his father (Brian) along with six of his siblings into the field of environmental sciences, engineering and geology. James Robinson has been practicing both engineering geology and environmental since 1992 and has been involved in development of residential, commercial, and industrial properties and helped several school districts through the environmental process. He has investigated many types of chemical contamination, including hydrocarbons, PCEs, DDT, PCBs, and arsenic. James started his own firm in 2008 and currently is Owner and President of Enviro Assessment, PC. Enviro Assessment, PC offers environmental site assessments, soils and groundwater investigations, industrial wastewater systems, vapor mitigation foundation designs, and manager over publication of NEPA and CEQA Initial Studies.

Professional History

Brian Robinson and Associates (1997-2000) -Staff Geologist
Applied Engineering and Geology (2000-2002) – Project Geologist
Wiebe Environmental (2003-2004) – Canadian Firm – Professional Geologist
Neil Anderson and Associates, Inc (2005-2008) – Environmental Division Manager
JR Squared Consulting (2008-2010) – Principal Geologist

ENVIRO ASSESSMENT, PC (2010-PRESENT)

James currently is the principal Geologist and Civil Engineer at Enviro Assessment, PC. James oversees the production of the Phase I ESAs, Phase II ESAs, NEPA/CEQA, and Soils and Geology Reports. James is licensed in multiple states allowing him to provide this service for larger national clients which need services in multiple states.

13. DEFINITIONS

Significant Data Gaps

Data Gaps are a lack of—or inability to—obtain information required by this practice, despite good faith efforts by the environmental professional to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to, site reconnaissance. Data gaps are only significant if other information and/or professional experience raises reasonable concerns involving the data gaps. Significant data gaps may not include the exceptions identified in Section 2.4 of this report (Limitations and Exceptions).

Business Environmental Risks

A Business Environmental Risk (BER) is a risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of commercial real estate and is not an issue required to be investigated based on the ASTM International E1527-21 Standard.

Recognized Environmental Conditions

A Recognized Environmental Condition (REC) is (1) The presence of hazardous substances or petroleum products in, on, or at the Subject Property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the Subject Property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the Subject Property under conditions that pose a material threat of a future release to the environment. A de minimis condition is not a recognized environmental condition.

Historical Recognized Environmental Conditions

An Historical Recognized Environmental Condition (HREC) is a past release of any hazardous substances or petroleum products that has occurred in connection with the Subject Property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the Subject Property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).

Controlled Recognized Environmental Conditions

A Controlled Recognized Environmental Condition (CREC) is a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action (NFA) letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place, subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).

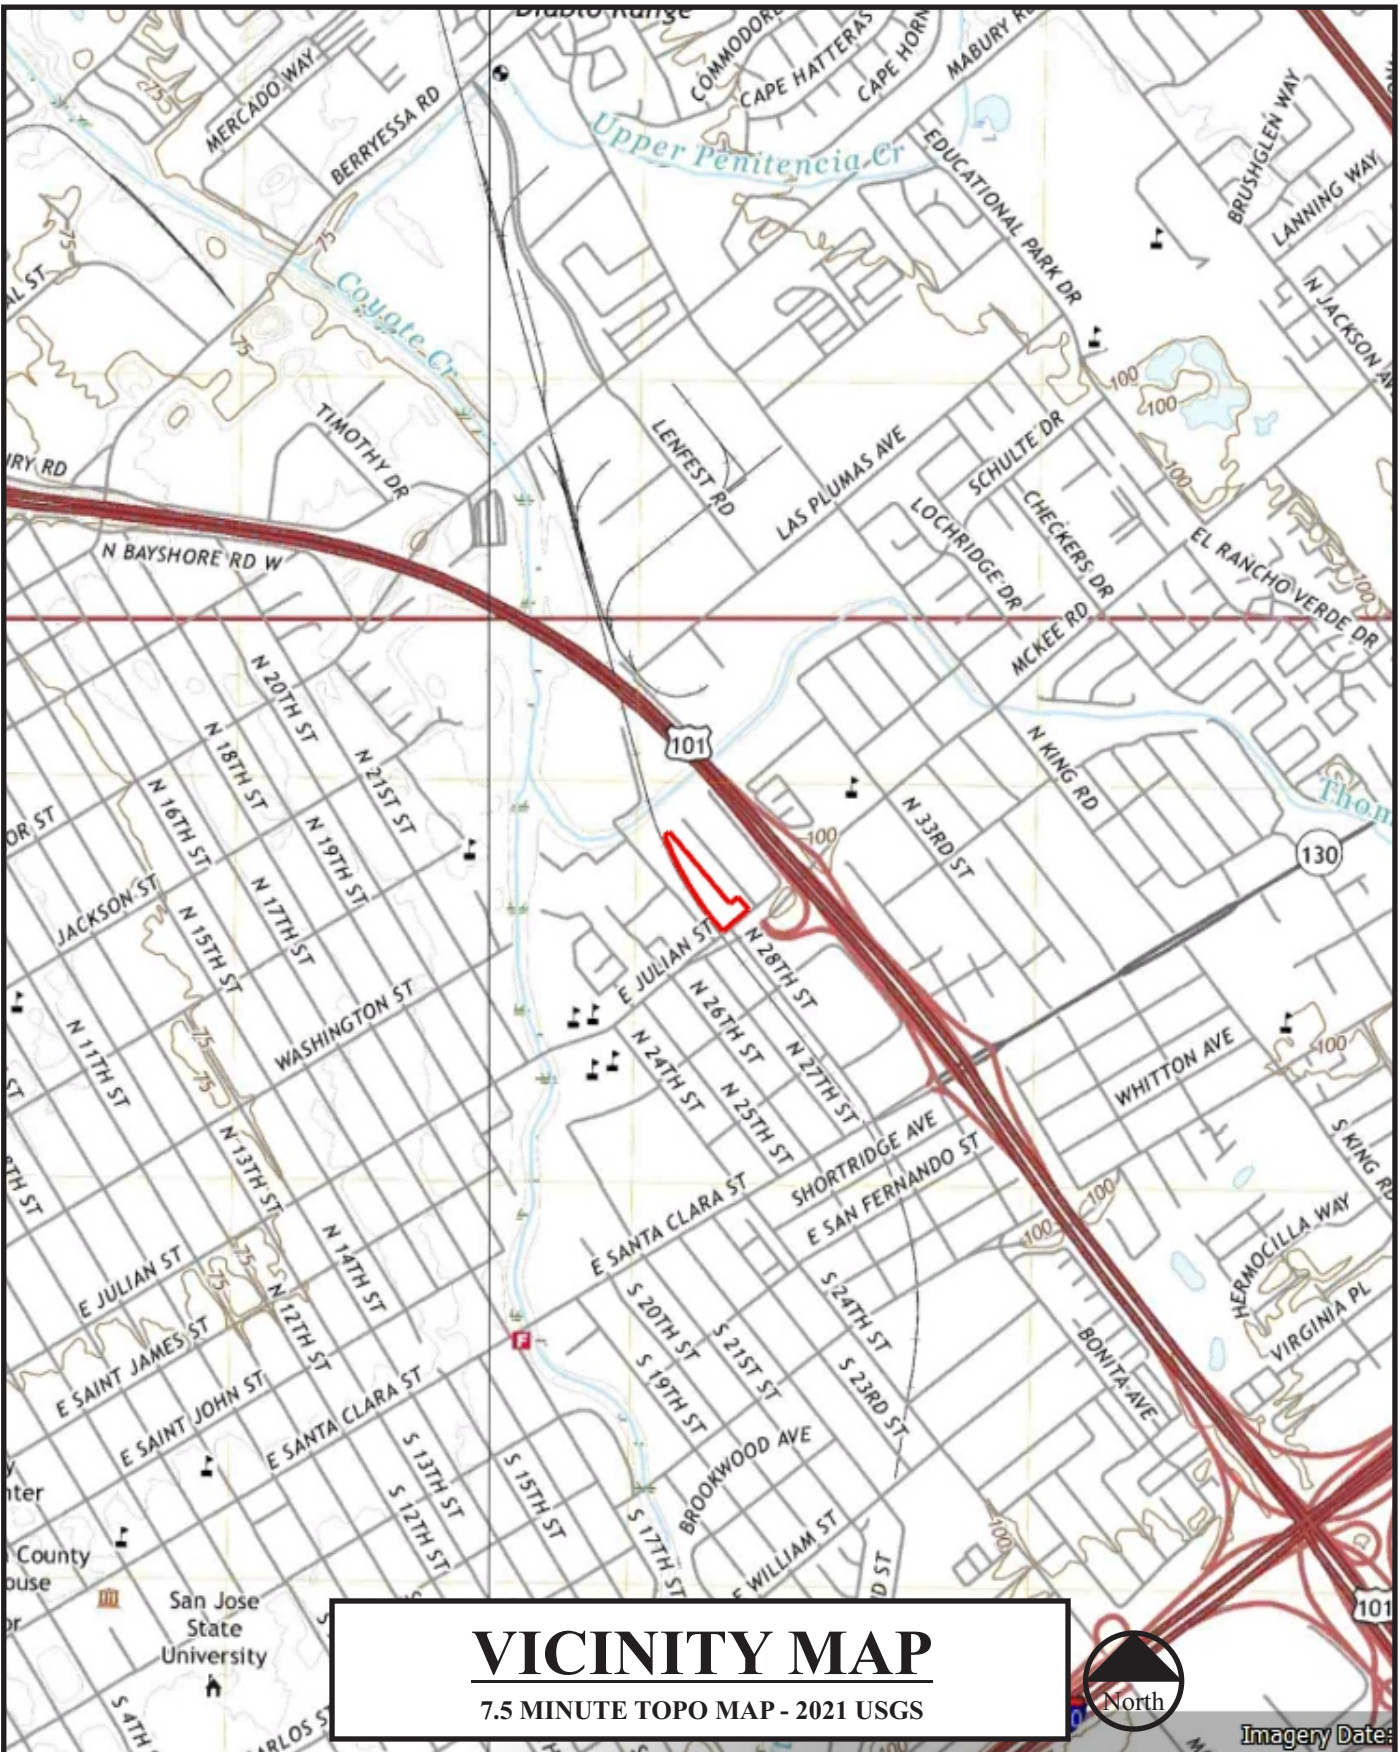

Vapor Intrusion

For the purposes of this Phase 1 ESA, hazardous substances, or petroleum products in several forms, including solid and liquid at the surface or subsurface, and vapor in the subsurface were evaluated for possible impacts to the Subject Property. Any likely impacts to the Subject Property in these forms (for example soil vapor intrusion) are identified in this report.

This report was produced in accordance with the American Society for Testing and Materials (ASTM) International Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM International E1527-21) and is compliant with the All Appropriate Inquiries (AAI) rule.

Site Facility Type: LUST CLEANUP SITE
Cleanup Status: COMPLETED - CASE CLOSED
Address: 1325 E JULIAN AVE
City: SAN JOSE
Zip: 95116
County: SANTA CLARA
Report Link: https://geotracker.waterboards.ca.gov/profile_report?global_id=T0608501142
Cleanup Status Detail: COMPLETED - CASE CLOSED AS OF 7/26/2000
Project Status:
Cleanup History Link: https://geotracker.waterboards.ca.gov/profile_report_include?global_id=T0608501142&tabname=regulatoryhistory
Potential COC: GASOLINE
Potential Media of Concern: OTHER GROUNDWATER (USES OTHER THAN DRINKING WATER)
File Location: ALL FILES ARE ON GEOTRACKER OR IN THE LOCAL AGENCY DATABASE
User Defined Beneficial Use:
Designated Beneficial Use: MUN, AGR, IND, PROC
DWR GW Sub Basin: Santa Clara Valley - Santa Clara (2-009.02)
Calwater Watershed Name: Santa Clara - Coyote Creek (205.30)
Post Closure Site Management:
Future Land Use:
Cleanup Oversight Agencies: SANTA CLARA COUNTY LOP (LEAD)
 CASEWORKER: DEH CASEWORKER
 SAN FRANCISCO BAY RWQCB (REGION 2)
 CASEWORKER: Regional Water Board
 SANTA CLARA VALLEY WATER DISTRICT - CASE #: 07S1E04F02f

EI ID:	10637650	EI Description:	Hazardous Waste Generator
EI ID:	10637650	EI Description:	Chemical Storage Facilities

Violations

Violation Date:	11/29/2016	Violation Source:	CERS
Violation Program:	HW	Violation Division:	Santa Clara County Environmental Health
Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)		
Violation Notes:			

Returned to compliance on 05/24/2017. The following containers had faded hazardous waste markings: 2 x 55 gallon drums of used oil 1 x 55 gallon drum of waste coolant The following containers were missing hazardous waste markings: 3 x 5 gallon containers of used oil

Violation Description:

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 11/29/2016 **Violation Source:** CERS
Violation Program: HW **Violation Division:** Santa Clara County Environmental Health
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Notes:

Returned to compliance on 05/24/2017. 1 x 55 gallon drum of used oil was open during inspection

Violation Description:

Failure to meet the following container management requirements:

- (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
- (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violations

Violation Date: 11/29/2016 **Violation Source:** CERS
Violation Program: HW **Violation Division:** Santa Clara County Environmental Health
Citation: HSC 6.5 25250.22 - California Health and Safety Code, Chapter 6.5, Section(s) 25250.22
Violation Notes:

Returned to compliance on 05/24/2017. Per Mr. Guzman, metal collector/scrap metal recyclers pick up used oil filters. No records were available for review.

Violation Description:

Failure to properly manage used oil and/or fuel filters in accordance with the requirements.

Violations

Violation Date: 11/29/2016 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** Santa Clara County Environmental Health
Citation: HSC 6.95 25505.1 - California Health and Safety Code, Chapter 6.95, Section(s) 25505.1
Violation Notes:

Returned to compliance on 05/24/2017. Facility did not notify the property owner that they are subject to HMBP requirements.

Violation Description:

Failure to provide a copy of the business plan to the owner or the owner's agent within five working days after receiving a request for a copy from the owner or the owner's agent.

Violations

Violation Date: 11/29/2016 **Violation Source:** CERS
Violation Program: HW **Violation Division:** Santa Clara County Environmental Health
Citation: HSC 6.5 25250.22 - California Health and Safety Code, Chapter 6.5, Section(s) 25250.22
Violation Notes:

Returned to compliance on 05/24/2017. 1 x 55 gallon container of used oil filters was missing the markings: "DRAINED USED OIL FILTERS" and the start date.

Violation Description:

Failure to properly manage used oil and/or fuel filters in accordance with the requirements.

Violations

Violation Date: 11/29/2016 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** Santa Clara County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 05/24/2017. Facility failed to submit Hazardous Materials Business Plan (HMBP) when storing or handling hazardous materials at or above HMBP Reporting thresholds. You may submit a HMBP electronically at [https:// frontcounter.sccgov.org/scc/frontcounter.html](https://frontcounter.sccgov.org/scc/frontcounter.html) by completing the following sections: - Regulated Activities - Owner Operator ID - Chemical Inventory - Emergency Response and Training Plan - Facility Maps (template available by request) If you would like assistance with submitting you HMBP, you may contact either of our Hazardous Materials Technicians, Michelle Santos at (408) 918-1981, michelle.santos@cep.sccgov.org or Myra Reichardt at (408) 918-1984, myra.reichardt@cep.sccgov.org.

Violation Description:

Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violations

Violation Date: 11/29/2016 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** Santa Clara County Environmental Health
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Notes:

Returned to compliance on 05/24/2017. No annual training in safety procedures has taken place. Ensure that annual training for employees covers all the content in the Hazardous Materials Business Plan and is documented.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Evaluations

Eval Date: 11/29/2016
Violations Found: Yes
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Santa Clara County Environmental Health
Eval Program: HW
Eval Source: CERS
Eval Notes:

On site to conduct a routine hazardous waste inspection. Facility consists of 1 large warehouse and a smaller office. Observed the following wastes on site: 2 x 55 gallon drums of used oil 1 x 55 gallon drum of waste coolant (point of generation) 1 x 55 gallon drum of used oil filters 3 x 5 gallon containers of used oil Fire extinguishers have had annual maintenance Spill control is available on site No brake lathe on site Rags are managed by Aramark Battery cores are exchanged when a new one is purchased Container areas are inspected weekly Mr. Guzman has had hazardous waste management training Solvent is added to parts washer on site when needed Disposal records were reviewed and in good order EPA ID# CAL000409530 is active The following violations were corrected on site: Emergency information was not posted. Emergency Procedures template was filled out and posted during inspection.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Date: 11/29/2016
Violations Found: Yes
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency

VOLATILE ORGANICS (8260B VOCS)

SITE HISTORY:

State funds are not being used for this project and so DTSC oversight is not required. However, the project proponent entered into a Voluntary Cleanup Agreement with DTSC as the project lender is requesting DTSC oversight and concurrence of the investigation and mitigation work. Site was formerly a tile and materials storage facility. Potential contaminants of concern included organochlorine pesticides (OCPs) and arsenic from former pesticide use, naturally occurring asbestos (NOA), and petroleum hydrocarbons from stockpiled soil generated from the removal of former gasoline and diesel underground storage tanks (USTs) from an adjacent property. In addition, soil gas and groundwater beneath the site may be impacted by the former USTs from the adjacent property.

Prior to coming to DTSC, the project proponent conducted a Phase I/Phase II investigation of the site which included the collection and analysis of soil samples for NOA, OCPs, arsenic, and petroleum hydrocarbons (Arcadis U.S., Inc. - September 30, 2010). Based on the results of the Phase I/Phase II investigation, additional sampling was conducted (soil and groundwater) and is documented in the Phase I/Phase II Addendum (Arcadis U.S., Inc. - February 24, 2011). Finally, a Cap Design letter was developed to address naturally occurring asbestos at the Site (Arcadis U.S., Inc. - March 18, 2011). Based on a review of these three documents, DTSC directed that a soil gas investigation be conducted to characterize impacts to soil gas beneath the site and so complete characterization of the site. Results of the soil gas investigation indicated levels of VOCs in soil gas at both 5.5-feet and just above groundwater to be within the acceptable range of risk (1E-6) for cumulative cancer risk. As presented in the Phase I/II report and Phase I/II Addendum, residual concentrations of arsenic and OCPs remain in site soils which slightly exceed acceptable risk ranges. However, the site will be capped to address NOA as presented in the Cap Design Letter, and on August 3, 2011, DTSC concurred with the conclusion that direct exposure to NOA as well as OCPs and arsenic will be mitigated by the use of hardscape and in landscape areas with a one to two foot clean fill cap over a warning barrier. DTSC further recommended that long-term operation and maintenance of the cap be implemented concurrent with DTSC's Interim Guidance Naturally Occurring Asbestos at School Sites, revised in 2004.

On August 16, 2011, DTSC reviewed EnviroStor to ensure it's completeness and issued a memo to DTSC's Cost Recovery Unit to close the project billing.

Violations

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

Violation Date:	04/15/2021	Violation Source:	CERS
Violation Program:	UST	Violation Division:	Santa Clara County Environmental Health
Citation:	23 CCR 16 2636(f)(1) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(1)		
Violation Notes:			

Returned to compliance on 04/15/2021. TANK 91 STP SENSOR FAILED TO PROVIDE AN AUDIBLE/VISUAL AND PUMP SHUT DOWN WHEN A LEAK WAS SIMULATED. THE TECHNICIAN REPLACED THE SENSOR LIKE-FOR-LIKE, RETESTED THE SENSOR AND VERIFIED THE SIMULATED LEAK PROVIDED AN AUDIBLE/VISUAL AND PUMP SHUT DOWN.

Violation Description:

Failure of the double-walled pressurized piping to be continuously monitored with a system that activates an audible and visual alarm or stops flow at the dispenser when a leak is detected.

Violations

Violation Date:	04/15/2021	Violation Source:	CERS
Violation Program:	UST	Violation Division:	Santa Clara County Environmental Health
Citation:	HSC 6.7 25284.2 - California Health and Safety Code, Chapter 6.7, Section(s) 25284.2		
Violation Notes:			

Returned to compliance on 04/15/2021. TANK 91 SPILL CONTAINER TESTED HYDROSTATICALLY FOR 60 MINUTES, FAILED TO RETAIN WATER LEVEL FOR THE TEST DURATION.

Violation Description:

"Failure to meet one or more of the following requirements:

Install or maintain a liquid-tight spill container.

Have a minimum capacity of five gallons.

Have a functional drain valve or other method for the removal of liquid from the spill container.

Be resistant to galvanic corrosion.

Perform a tightness test at installation, every 12 months thereafter, or within 30 days after a repair to the spill container.

Tested using applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer.

Tested by a certified UST service technician.

Maintain records of spill containment testing for 36 months.

"

Eval Notes:

On-site to conduct a UST compliance inspection. The annual monitoring system test was performed by Service Station Systems in April 2020 during the time our agency was not conducting inspections due to Covid-19. Mr. Alex Leyva of Service Station Systems was on-site today to open all sumps and dispensers covers. A visual inspection was then performed of these areas with no issues observed. The following records were reviewed on-site: -DUSTO inspection reports (along with associated work orders for any alarms) and training log, monitoring system certification and secondary containment test reports, and alarm history and system set-up. The following records were reviewed electronically: -A complete UST CERS submittal made and reviewed by our agency. NOTES: -Annual monitoring system (AMC) test report was provided to our agency within 30 days as required. According to AMC test report, all leak sensors functioned as required.; Note: data in [EVAL Notes] field for some records is truncated from the source.

ON SITE TO WITNESS THE MONITORING SYSTEM CERTIFICATION WITH RICHARD RUIZ A CALIFORNIA ICC CERTIFIED TECHNICIAN WITH SERVICE STATION SYSTEMS. MR. RUIZ'S CERTIFICATION WERE VERIFIED TO BE CURRENT, ICC (EXP:2/1/2023), VEEDER-ROOT (EXP: 7/11/2021), AND FRANKLIN FUELING (12/31/2021). THE UNDERGROUND STORAGE TANK SYSTEM CONSISTS OF THREE TANKS(REGULAR-MAIN, REGULAR-AUX AND 91) WITH FOUR UNDER DISPENSER CONTAINERS. THE FOLLOWING COMPONENTS WERE TESTED AND FOUND TO BE OPERABLE: -ANNULAR LIQUID SENSORS, TRIGGERED AN AUDIBLE AND VISUAL ALARM WHEN A LEAK WAS SIMULATED. -STP LIQUID SENSORS, TRIGGERED AN AUDIBLE, VISUAL ALARM AND SHUT DOWN THE PUMP WHEN A LEAK WAS SIMULATED. -UNDER DISPENSER SENSORS, TRIGGERED AN AUDIBLE, VISUAL ALARM AND SHUT DOWN THE PUMP WHEN A LEAK WAS SIMULATED. -SPILL CONTAINER FOR 87-MAIN AND 87-AUX WERE TESTED HYDROSTATICALLY FOR 60 MINUTES WITHOUT WATER LOSS. -ELECTRONIC LINE LEAK DETECTOR FOR 87-MAIN AND 91, TESTED AT 3.0 GPH AT 10 PSI. -SENSOR [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

A Monitoring System Equipment Certification was performed today by Service Station Systems, Inc. Technician Jesse Rodriguez (ICC# 8024952-UT Exp. 10/23/17, Veeder Root (VR) #B37358 Level 4 Technician Exp. 1/13/17, VMI MLLD #2659 Exp. 4/3/18, VMI LDT-890 Tester #2660 Exp. 4/3/18). The underground storage tank (UST) system is comprised of three (3) double walled fiberglass motor vehicle fuel tanks (Two 10,000 gallon tanks storing regular unleaded gasoline and one 10,000 gallon tank storing premium unleaded gasoline). Piping is double walled fiberglass. Per information reported to CERS on 4/15/2016, all three tanks were installed on 9/1/1988. *Note: This site has rebranded to MOBIL. The site name is now "TESORO (MOBIL) 63175" per CERS submittal made on 4/15/2016. Station ownership remains the same. A new permit will be issued to reflect the name change. Components tested today, 4/20/2016: -3 UST Annular space sensors (VR-407) -3 STP Sump sensors (VR-208); Positive [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

On-site to witness an overfill prevention equipment test. All tanks are equipped with Franklin Fueling Defender series drop tubes and flapper valves. Today's test was performed by Mr. Marcus Garcia of Service Station Systems who has the required certification for this equipment (FFS EVR Phase I Systems -VR-101). During the test, the following was observed: -Drop tubes were removed and measured using the procedure specified in the Defender Series Overfill Prevention Valve Installation Guide. Measurements showed that all valves were positioned below 95%. -Flapper valves were manually activated and functioned as designed. NOTES: -Provide a copy of today's test report to our agency within 30 days.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Notes:

On-site to conduct a UST compliance inspection. Annual monitoring system testing was performed by UST service technician Richard Ruiz. Mr. Ruiz had all of the required certifications. During testing of monitoring equipment the following was observed: -All spill buckets were hydrostatically tested with 5 gallons of water for 60 minutes. -Fail-safe and sensor out conditions were demonstrated on all tanks. -All STP sump sensors were tested in water and triggered an audible and visual alarm at the monitoring panel as well as positive shutdown of the turbines. -All annular sensors were tested in water and produced an audible and visual alarm at the monitoring panel. -Electronic line leak detectors were tested with a VMI test system (was marked as having been calibrated) to simulate a 3 gallon per hour leak at 10 psi which stopped product flow and triggered a gross line fail at the monitoring panel. -All UDC sensors were tested in water and produced an audible and alarm [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Violations

Violation Date: 06/30/2021
Violation Program: CalARP
Citation: 19 CCR 4.5 2760.2(a) - California Code of Regulations, Title 19, Chapter 4.5, Section(s) 2760.2(a)
Violation Source: CERS
Violation Division: Santa Clara County Environmental Health
Violation Notes:

Returned to compliance on 11/05/2022. Facility Hazard Analysis was of insufficient complexity to identify hazards of the process. Facility failed to include the HPL room, and Production areas in the 2021 seismic assessment revalidation, because these areas were not accessible to the assessor. In addition, the report notes for the East Refrigeration Machinery Room that, "A storage box prevented reviewer from observing back corner anchorage pad and bolt. Remove box and review repair if necessary" 1. Provide a date that all equipment noted above will be inspected for a seismic assessment. The 2016 seismic assessment report notes that the Northfield Spiral Freezer and coil were inaccessible and could not be inspected. However, this area is not clearly noted as being inspected in the 2021 walkthrough. 2. Provide further information on the locations of this equipment, and if it was included in the 2021 assessment walkthrough. If the equipment was not included, provide a date that it will be assessed. PHA [Truncated]

Violation Description:

Failure to perform a Process Hazard Analysis that is appropriate to the complexity of the process and identifies, evaluates, and controls the hazards involved in the process.

Violations

Violation Date: 02/09/2021
Violation Program: HMRRP
Citation: HSC 6.95 25510(a) - California Health and Safety Code, Chapter 6.95, Section(s) 25510(a)
Violation Source: CERS
Violation Division: Santa Clara County Environmental Health
Violation Notes:

Returned to compliance on 02/16/2021. Facility incident reports state that release occurred at 2:21 PM, and reports from San Jose Fire Department indicate that the fire department was notified of the release at 3:41 PM. Facility did not report the release to CalOES or the CUPA. Facility did not report the release to the NRC until 3:40 PM.

Violation Description:

Failure to report a release or threatened release of a hazardous material to the unified program agency and to OES.

Violations

Violation Date: 04/09/2014
Violation Program: HMRRP
Citation: HSC 6.95 Multiple - California Health and Safety Code, Chapter 6.95, Section(s) Multiple
Violation Source: CERS
Violation Division: Santa Clara County Environmental Health
Violation Notes:

Returned to compliance on 05/09/2014. Facility failed to include in the following in the hazardous materials inventory: 2x55 gal fiber drums of Security Floor Treatment (contains concentrated Sodium Percarbonate, a strong oxidizer). Product is located in the "boneyard". Also the compressed gases identified below were all observed at amounts greater than 200 cubic ft or greater than 1000 cubic ft for simple asphyxiants; include these in the hazardous materials inventory. Nitrogen Acetylene Argon Oxygen

Violations

Violation Date: 06/30/2021
Violation Program: CalARP
Citation: 19 CCR 4.5 2750.1 - California Code of Regulations, Title 19, Chapter 4.5, Section(s) 2750.1
Violation Source: CERS
Violation Division: Santa Clara County Environmental Health
Violation Notes:

Violation Notes:

Returned to compliance on 07/30/2021. The facility's Hazard Assessment includes information on estimating a worst case and alternate release scenario for an indoor release, however, the section clearly states that this guidance assumes that the release would not occur in an area where ammonia could escape the building. Given the location of the roll-up door at the location of the release, release scenarios provided in the RMP are insufficient and have not taken into account release pathways from the building (adjacent exterior doors and windows surrounding the release area). While calculations to support the worst-case scenario were provided, no such calculations were provided to support the estimates made for the alternative release scenario. See Appendix E, page 5 for more details on these calculations. NOTE: Facility is due to complete RMP updates (due on or before 7/22/2021) following the reportable release that occurred on 1/22/2021. The 5-year accident history and any identified failure scenarios must [Truncated]

Violation Description:

Failure to comply with any of the following:

1. Offsite Consequence Analysis Parameters. (19 CCR 4.5 2750.2)
2. Worst-Case Release Scenario Analysis. (19 CCR 4.5 2750.3)
3. Alternative Release Scenario Analysis. (19 CCR 4.5 2750.4)

Violation Notes:			

Facility failed to ensure action items identified in PHAs were resolved in the required time period (2.5 years). March 2018 PHA notes that action items identified during the 2016 seismic assessment were not yet addressed. This issue was also noted in the 2019 compliance audit. Per page 190 of the seismic assessment, equipment requires repairs, the action registers provided show that repairs were not scheduled to be completed until 9/30/2021. Facility also failed to correct issues noted on previous seismic assessment report in 2016. Pages 1-2 of the 2021 report denotes recommendations from previous reports, stating the following: "RR-1 the last Seismic Assessment Report identified numerous areas that need wire brushing and painting. These may or may not have been done but they certainly need it again." "RR-3 the last Seismic Assessment identified many areas of housekeeping neglect primarily by storage of loose boxes, ladders etc. near the equipment. This [Truncated]

Violation Description:

Failure to address the following in the Process Hazard Analysis:

1. Establish a system to address the teams findings and recommendations;
2. Assure that the recommendations are resolved and documented;
3. Document what actions are to be taken;
4. Develop a written schedule of when these actions are to be completed;
5. Complete these actions on a timetable agreed upon with the UPA, or within two and one-half (2.5) years of performing the PHA, or the next planned

Citation: 19 CCR 4.5 2760.8(d) - California Code of Regulations, Title 19, Chapter 4.5, Section(s) 2760.8(d)
Violation Notes:

Returned to compliance on 07/30/2021. The following issues noted in the December 2019 compliance audit were not corrected within 1.5 years as required. In addition, both open and closed action items in the register list a deadline, but do not specify the date of resolution for closed items. Audit Item: "• §68.65(d)(1)(v) Ventilation in the Engine rooms does not meet the requirements outlined in IIAR 9. There is no intake air in the East Engine room to support emergency ventilation. Additionally, use of the scrubber in the East and West Engine rooms for emergency ventilation reduces airflow significantly below required air flows. Emergency ventilation is used in place of continuous ventilation as there is no additional ventilation source other than emergency ventilation." "Perform a thorough ventilation study for all the ammonia rooms and implement all the recommendations, ensuring they address all the following known issues: -There is no intake air in the East Engine room to support emergency ventilation. [Truncated]

Violation Description:

Failure to:

1. Promptly determine and document an appropriate response to each of the findings of the compliance audit;
2. Enter into an agreement with the UPA on a timetable for resolution of these findings. Otherwise these responses shall be completed one and one-half (1.5) years after performing the compliance audit, or the next planned turnaround for items requiring a turnaround (these timelines shall not apply to any compliance audit completed prior to January 1, 2015);
3. Document the actual completion dates when deficiencies were corrected.

Violation Notes:

Returned to compliance on 03/14/2022. Employees were not adequately trained to use and maintain ammonia wearable sensors in accordance with manufacturers requirements. Inspector notified facility during the 2/9/2021 onsite walkthrough that ammonia sensor manuals list a requirement for daily bump testing, but employees could not communicate how this testing was done, and results were not logged for completion of testing or training related to this requirement. On 2/16/2021, facility developed a procedure to complete bump testing and trained the refrigeration tech team onsite. Facility had another formal training with the ammonia contractor from CTI in March. Since 2/16/2021, employees have been conducting and logging results of daily bump tests of ammonia sensors before starting their shift. Current procedure requires use of a rag wetted with ammonia-based cleaning liquid. 1. Provide documentation of how use of this liquid meets manufacturers requirements for daily bump testing. 2. Provide documentation of [Truncated]

Violation Description:

Failure to train each employee involved in maintaining the on-going integrity of process equipment on the following:
1. Overview of the process and its hazards.
2. Procedures applicable to the employee's job tasks to assure that the employee can perform the job tasks in a safe manner.

Violation Source: CERS
Violation Division: Santa Clara County Environmental Health
Violation Notes:

Returned to compliance on 10/11/2022. SENSOR CALIBRATIONS Facility failed to calibrate ammonia sensor in accordance with manufacturers recommendations. Ammonia sensors were not calibrated in accordance with required schedules. Calibration logs in October 2020, January 2021 and February 2021 show that the Mod 1 Pump Room sensor 1 could not be accessed for testing. The 7/2/19 calibration record shows that 6 sensors were not tested due to limited lift access (Serial # 908821, 878507, 880554, 888598, 880546, 880558). Calibration on sensors in the Storage Warehouse (s & N), Penthouse (W & E), Marsh Area, and West Engine Room (1 & 2) were not completed on 7/22/20 due to insufficient electrolyte. Between 4/22/20 and 10/06/20, these sensors were not calibrated. 1. Provide written explanation of how facility will ensure testing of all sensors within required time periods. 2. Provide documentation that demonstrates that all sensors listed above have been properly calibrated. In addition, ammonia sensors in [Truncated]

Violation Description:

Failure to ensure the following:
1. Inspections and tests are performed on process equipment;
2. Inspection and testing procedures follow recognized and generally accepted good engineering practices;
3. The frequency of inspections and tests of process equipment is consistent with applicable manufacturers' recommendations and good engineering practices, and more frequently if determined to be necessary by prior operating experience;
4. Each inspection or test that has been performed on process equipment is documented and includes the date of inspection or test, name of the person who performed the inspection or test, serial number or other identifier of the equipment inspected or tested, description of the inspection or test

Violation Notes:

Returned to compliance on 08/18/2022. Facility restarted plant operations after the 1/22/2021 ammonia release without conducting a thorough investigations of equipment to ensure proper and safe operations of equipment. Per the incident investigation report, the ammonia system was started up at 20:45, several hours after the initial release at 14:15. However, the ammonia scrubber did not activate at the time of the release, and facility resumed operations before determining the cause of the scrubber system failure (on 1/26/2021), or before ensuring that ammonia sensors were operable. Incident investigation report notes that ammonia sensors were tested, however sensors and strobes were not all functional upon arrival of the HMCD inspector the following week. Per the Telstar field report from 1/26/2021, Sensors 1 and 2 in the West Engine Room were not responsive when tested on 1/26/2021. Facility MOC forms for 5/18/2021 noted damage to "electrical switch gear and copper wiring in MCC's, transformers, and motor [Truncated]

Violation Description:

Failure to prepare a report at the conclusion of the investigation which includes at a minimum:
1. Date the investigation began;
2. A description of the incident, including all of the data required under 2750.9(b); and,
3. Recommendations resulting from the investigation.

----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

Violation Notes:

Returned to compliance on 07/30/2021. Facility waited to notify the fire department and emergency responders immediately upon determining that there was a release. The release occurred at 14:15 but was not reported to the NRC until 15:28. The San Jose Fire Department was not called in to respond until 15:37, even though Eggo has no internal emergency response teams and per the RMP, relies fully on the Fire Department for emergency response. Facility emergency action plan was not sufficient to ensure timely notification of an ammonia release to emergency responders. CalOES is not included in the list of immediate contacts, but the NRC and local CUPA are included. Facility failed to coordinate closely with onsite emergency responders, per the Hazardous Materials Response Team Incident form. 1. Provide an updated emergency action plan to HMCD that corrects the deficiencies noted above. 2. Ensure coordination with the local emergency responders, and document efforts to coordinate. 3. Provide training to [Truncated]

Violation Description:

Failure of owner or operator of a stationary source whose employees will not respond to accidental releases of regulated substances to meet the following:

1. For stationary sources with any regulated toxic substances held in a process above the threshold quantity, the stationary source is included in the community emergency response plan developed under Section 11003 of Title 42 of the United States Code (USC), is included in the city or county Hazardous Materials Area plans, and/or is included in the business plan program, pursuant to Section 25507 of the Health & Safety Code. The owner or operator must document that response actions have been coordinated with the local fire department and hazardous materials response agencies;
2. For stationary sources with only regulated flammable substances held in a process above the threshold quantity, the owner or operator must document that response actions have been coordinated with the local fire department and hazardous materials response agencies; and,
3. Appropriate mechanisms and written procedures are in place to notify emergency responders when there is a need for a response.

Violation Source: CERS
Violation Division: Santa Clara County Environmental Health
Violation Notes:

Returned to compliance on 07/30/2021. Facility could not provide adequate records to demonstrate that ammonia contractors working onsite are adequately trained. Incidents in 2019 and 2021 both involved onsite contractors that were not adequately trained. Training records for ammonia contractor (Stellar and Telstar) were not available at the time of inspection, and contractors were not able to answer specific questions about the ammonia system and operations onsite (see Notice of Inspection issued on 2/9/2021).

Violation Description:

Failure to perform the following:

1. Obtain and evaluate information regarding the contract owner or operator's safety performance and programs when selecting a contractor.
2. Inform the contract owner or operator of the known potential fire, explosion, or toxic release hazards related to the contractor's work and the process.
3. Explain to the contract owner or operator the applicable provisions of Article 7 (Emergency Response Program).
4. Develop and implement safe work practices consistent with the Section 2760.3(d) (operating procedures), to control the entrance, presence, and exit of the contract owner or operator and contract employees in covered process areas.

Violation Source: CERS
Violation Division: Santa Clara County Environmental Health
Violation Notes:

Returned to compliance on 07/30/2021. Complete and up-to-date copies of the RMP could not be provided to the CUPA upon request. Per page 4 and 5 of the 2019 compliance audit, the facility also previously failed to keep up-to-date copies of the RMP, even after last update on 5/28/2019. When a copy was requested by HMCD following the January 2021 ammonia release, the facility failed to provide a complete and updated version three times (see 2/9/21 report for additional details on submittals). Copy of the RMP dated as revised on 5/24/2019 did not include a certification, executive summary, and 5-year accident history. It also included an incomplete copy of the EPA Registration form (every other page was missing). Copy of the RMP dated 4/10/2018 did not include required attachments, such as all appendices. 1. Ensure that a complete and updated RMP is maintained onsite and submitted to HMCD as required. 2. Ensure that the next submitted RMP includes all required components and attachments.

Violation Description:

Failure to submit an RMP which includes all requirements described in section 2745.3 through 2745.9.

Violation Notes:

Returned to compliance on 07/30/2021. Observed numerous inconsistencies and inaccuracies in records kept between 2018 and 2021 (see examples below). Numerous records were not made available when requested, or were not being kept prior to the January ammonia release. Facility failed to retain or provide a full set of records from 2018-2021 for items marked with an * in the comments section. Observed that facility has begun tracking time of exposure for refrigeration techs to determine when ammonia respirator filters require change out. Facility employees track exposure time on a log based on the number of hours working in areas with ammonia. Noted that one log for Genero Renteria was started on 2/16/2021, however the other log onsite did not contain an employee name. (No other refrigeration techs have started logs to date). Observed that records for eyewash inspections were missing exact dates and 2018-2019 inspection forms were missing pages. June 2019 form was missing an inspector name. PM work order [Truncated]

This inspection began on 7/13/18 and concluded today. Onsite on 7/13/18 for a routine APSA inspection along with Ruben Williams and Matt Burge of Santa Clara County. A facility walk-through was completed on 7/13/18 escorted by Susan Peterson, Kellogg's EHS Manager. All petroleum-filled operating equipment and containers/drums were inspected during the walk-through. (See list below.) All tanks/containers were fitted with spill response equipment or had secondary containment. There were no signs of leaks or spills from the primary or secondary containment of the petroleum filled operating equipment and containers/drums. Emergency spill response equipment was staged at critical locations where petroleum products and petroleum filled equipment are located. The parking lot storm drain system included flow shut-off valves that remain closed to control possible releases. The storm drain system is routinely inspected and logs are kept. The facility is secured with a [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

THE EGGO COMPANY IS A CALIFORNIA ACCIDENTAL RELEASE PROGRAM 3 FACILITY FOR THE REGULATED SUBSTANCE ANHYDROUS AMMONIA. THE FACILITY HAS A 16,000 POUND ANHYDROUS AMMONIA RECEIVER TANK. THE PHYSICAL SITE INSPECTION WAS CONDUCTED ON APRIL 27, 2015 AND A DOCUMENTATION REVIEW WAS CONDUCTED ON NOVEMBER 17, 2015. WITH THE NOTICE OF INSPECTION WAS ISSUED ON NOVEMBER 17, 2015. THE FACILITY FILED AN UPDATE CERTIFICATION ELECTRONICALLY WITH THE FEDERAL EPA REGION 9 USING RMP*^e SUBMIT ON AUGUST 10, 2015 AND PROVIDED A COPY TO THE LOCAL CERTIFIED UNIFIED PROGRAM AGENCY (CUPA). A FACILITY WALK THROUGH WAS CONDUCTED WITH MR. MATTHEW WOLFINGER-EHS MANAGER. THE AMMONIA RECEIVER AND ALL ASSOCIATED ANHYDROUS AMMONIA PROCESS EQUIPMENT WAS INSPECTED AND FOUND SATISFACTORY. ALL AMMONIA COMPRESSOR AND REFRIGERATION ROOMS WERE INSPECTED AND FOUND SATISFACTORY. EMERGENCY RESPONSE EQUIPMENT IS INSPECTED ON A MONTHLY BASIS AND THE INSPECTIONS ARE DOCUMENTED BY FACILITY MAINTENANCE [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

TELE: This limited inspection commenced on 1/25/2021 and concluded today. The inspection was conducted in response to a reported release (CO0150393). RECOMMENDATIONS: RECOMMENDATION 1: Ensure adequate aisle space throughout the facility by relocating metal staircase outside HPR shed. RECOMMENDATION 2: Strongly recommend adding CalOES to the list of immediate emergency contacts for contacts in the Emergency Action Plan. RECOMMENDATION 3: Strongly recommend reformatting the Emergency Action Plan Sensitive Receptor table to be more useful in the event of an emergency. Current table is not organized by distance from facility or correlated with a map showing their relative locations. RECOMMENDATION 4: Strongly recommend providing manufacturer training courses to all relevant employees on use and troubleshooting of all ammonia sensors used onsite. ACTION ITEMS: ACTION ITEM 1 : An updated incident report report must be completed in accordance with requirements [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

NARRATIVE OF EVENTS: Inspection commenced on 8/15/2022 with an onsite inspection and concluded today with issuance of the inspection report. Onsite to witness functional testing of ammonia sensors after completion of ventilation system changes, as required by the written agreement with this facility. The following individuals were onsite for the inspection: Alma Zavala, HazMat Inspector II for San Jose Fire Department Lamar Washington, EHS Manager for Kellogg's Christopher Padua, Maint. Manager, CMRP for Kellogg's Hatem Marmosh, STSC Construction Manager for CSM Group The following individuals joined the inspection part-way through testing: Jean Nguyen, HazMat Specialist II for HMCD Firman Tchiengue Dingue, Fac. Supervisor for Kellogg's All maintenance and testing work was completed by the following individuals: Nelson Bettencourt, Sr. Service Technician for Stellar Kory Johnston, Field Service Manager for Stellar Genero Renteria, Ammonia Service [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Performed a routine hazardous waste inspection. Facility generates <100kg/month RCRA+Universal waste and is not subject to certain universal waste management (eg. labeling, accumulation times). Please note if in any month you generate more than 100kg of RCRA+Universal Waste, all universal waste generated that month is subject to universal waste management standards including labeling, proper containerization, and accumulation times. Most hazardous waste was removed from the site prior to the scheduled inspection. Upon termination of the "walk-through" portion of the inspection, the following paperwork was reviewed: Uniform Hazardous Waste Manifests Consolidated Manifests Bills of Lading (used for Universal waste etc.) Weekly Container Inspection Records Environmental permits including conditions of industrial waste water permit Waste profiles Safety Data Sheets; Note: data in [EVAL Notes] field for some records is truncated from the source.

Inspection commenced on 3/14/2022 and concluded today with issuance of the inspection report. Onsite on 3/14/2022 to witness limited testing of ammonia sensor system. The following individuals were onsite for the ammonia sensor testing: Venkata Snidhan Gollapudi, Plant Director Steve Child, Corporate Project Manager Gloria Costa, EHS Technician Firman Dingue, Facilities and Engineering Supervisor Lamar Washington, EHS Manager Onsite pre-briefing included a safety briefing and discussion of planned testing. Mr. Child stated that the facility did not have enough calibration gas on hand to test all sensors as was originally planned. To accommodate this limitation, a selection of sensors were chosen by the inspector for testing and the facility contacts agreed to test as many as possible before the calibration gas ran out. Facility now has 23 ammonia gas sensors. Mr. Child and Mr. Washington explained that all sensors were tested in February and that a gap [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Regulated Programs

EI ID: 10348783 **EI Description:** Hazardous Waste Generator

Violations

Violation Date: 02/20/2014 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** Santa Clara County Environmental Health
Citation: 19 CCR 4 2729.5 - California Code of Regulations, Title 19, Chapter 4, Section(s) 2729.5
Violation Notes:

Returned to compliance on 03/20/2014. Facility has not certified inventory since 11-10-11. DISREGARD CORRECTIVE ACTION TEXT BELOW REGARDING SUBMITTAL OF HARD COPY FORMS. SEE www.EHinfo.org/hazmat FOR DETAILS REGARDING ELECTRONIC REPORTING REQUIREMENTS. A FACILITY RECORD FOR THIS SITE HAS ALREADY BEEN CREATED ON THE CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS) WEBSITE AT <http://cers.calepa.ca.gov>. REQUEST ACCESS TO THAT CERS RECORD AND SUBMIT A CURRENT HMBP WITHIN 30 DAYS.

Violation Description:

Failure to submit inventory reports (Activities, Owner/Operator, Hazardous Materials Descriptions and Map pages, if required). Documentation must be resubmitted (for facilities which exceed EPCRA thresholds) or re-certified (for facilities which do not exceed EPCRA thresholds) by March 1.

Violations

Violation Date: 02/20/2014 **Violation Source:** CERS
Violation Program: HW **Violation Division:** Santa Clara County Environmental Health
Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)
Violation Notes:

Returned to compliance on 03/20/2014. Observed the following containers of hazardous waste stored beyond their accumulation times: 1x55 gal used antifreeze -accumulating since 9-17-10. 1x55 gal drained used oil filters - accumulating since 10-11-11.

Violation Description:

Failure to dispose of hazardous waste within 180 days (or 270 if waste is transported over 200 miles) for the generator who generates less than 1000 kilogram per month, but more than 100 kilograms per month.

Violations

Violation Date: 02/20/2014 **Violation Source:** CERS
Violation Program: HW **Violation Division:** Santa Clara County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 03/20/2014. Observed the following containers of hazardous waste insufficiently marked: 1x55 gal used antifreeze - lacking hazardous properties 1x55 gal drained used oil filters - lacking hazardous properties and physical state 1x30 gal waste absorbent - lacking hazardous waste marking. Additionally labels are on wall and not on individual containers. Per state and federal law place labels directly on corresponding hazardous waste container.

Violation Description:

Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Evaluations

Eval Date:	02/20/2014
Violations Found:	Yes
Eval General Type:	Compliance Evaluation Inspection
Eval Type:	Routine done by local agency
Eval Division:	Santa Clara County Environmental Health
Eval Program:	HMRRP
Eval Source:	CERS
Eval Notes:	

Facility intends to reduce quantities to 30 gal containers per waste type. Will notify department when change is implemented in facility. EFFECTIVE JANUARY 1, 2013, STATE LAW REQUIRES THAT HAZARDOUS MATERIALS BUSINESS PLAN (HMBP) BE SUBMITTED ELECTRONICALLY VIA THE CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS) WEBSITE AT <http://cers.calepa.ca.gov>. HARD COPIES ARE NO LONGER ALLOWED FOR THOSE SUBMITTALS, SO PLEASE DISREGARD ANY PRE-PRINTED CORRECTIVE ACTION TEXT IN THIS NOTICE OF INSPECTION REGARDING HARD COPY FORMS. FACILITY RECORDS HAVE ALREADY BEEN CREATED IN CERS FOR MANY BUSINESSES. PLEASE SEARCH CERS AND REQUEST ACCESS TO THAT RECORD BEFORE CREATING A NEW FACILITY RECORD. SEE www.EHinfo.org/hazmat FOR MORE DETAILS REGARDING ELECTRONIC REPORTING REQUIREMENTS.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Hazardous Waste Handler Details

Sequence No: 1
Receive Date: 20010131
Handler Name: FIVE STAR PAINTING INC
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Notification

Waste Code Details

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: D035
Waste Code Description: METHYL ETHYL KETONE

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Site History:

The Dap site was built in 1963. Prior to 1963 the area was used for agricultural purposes. Dap, Inc manufactured a variety of caulking and glazing compounds. When Dap operated the facility they handled and stored numerous chemicals, solvents and gasoline. Dap, Inc ceased manufacturing in 1993 and continued to use the facility to store chemical products from 1993 to 1997.

Title: Site Inspection Report

Title Link:
 Area Name:
 Area Link:

Sub Area:
 Sub Area Link:

Document Type: *Site Inspection (SI) Report
 Date Completed: 10/21/1988

Comments: Completed SI. In August 1986, while transferring solvent from one subsurface underground tank to another, about 260 gallons solvent (Hi Sol #10) spill occurred in the underground storage tank (UST) farm. The subsequent investigation found levels of total hydrocarbons in the soil (7600 ppm) at the site and in the groundwater (56 ppb) below the site. SF Regional Water Quality Control Board (RWQCB) issued Cleanup and Abatement Order (CAO) No. 87-004 to Dap. Starting in August 1988, seven USTs and contaminated soil were removed. The soil analyses results showed ethyl benzene (5 to 14 ppb), 1,4-dichlorobenzene (15 ppb), toluene (0.8 to 20 ppb) and xylene (15 to 150 ppb).

Evaluations

Eval Date: 08/26/2021
Violations Found: Yes
Eval General Type: Other/Unknown
Eval Type: Other, not routine, done by local agency
Eval Division: Santa Clara County Environmental Health
Eval Program: APSA
Eval Source: CERS
Eval Notes:

While onsite for an HMBP inspection, two aboveground diesel tanks with a combined storage capacity of more than 1,320 gallons were observed. This facility meets the applicability criteria for the Aboveground Petroleum Storage Act (APSA) but does not have an APSA permit with our office. Based on this information your facility will be permitted for APSA. An invoice for the APSA permit fee will be generated and sent to your facility. Additionally, an inspector from our office will return to complete a routine APSA inspection. Observed the following petroleum stored in aboveground tanks: Diesel fuel, 2 x 1000 gallons Actions needed: 1)Update your HMBP submittal on the California Environmental Reporting System (CERS) at <https://cers.calepa.ca.gov> with the following information: On the Business Activities Page, scroll down to the Aboveground Petroleum Storage section and change your answer from "No" to "Yes" to accurately reflect that you do have a total storage [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Date: 08/26/2021
Violations Found: Yes

Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Santa Clara County Environmental Health
Eval Program: HMRRP
Eval Source: CERS
Eval Notes:

On-site to conduct a routine Hazardous Materials Business Plan (HMBP) inspection of Security Contractors with Hazardous Materials Supervisor, Joanne Tracey. This inspection began on 8.20.21 and concluded today. Facility walk through inspection was done with Isaac Mairena, Staff Lead. FACILITY OVERVIEW: -Facility is large metal fencing operation in San Jose, CA. Facility business activities include fencing assembly and rentals. HazMat materials onsite are utilized for vehicle fleet and forklifts. -Previous online HMBP submittals done through FrontCounter. Future HMBP updates and certification must be made through CERS at <https://cers.calepa.ca.gov/>. REPORTABLE HAZMAT: Observed the following hazardous materials at reportable thresholds: 1) Diesel- 2000 gal (2x 1000 gal tank) 2) Propane- 1028 gal gas (1x 1000 propane tank + 4x 7 gal propane cylinders for 4 forklifts) (add to inventory) NOTABLE HAZMAT BELOW THRESHOLD: 1) Diesel Exhaust Fluid- 110 gals (2x 55 [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Notes:

EFFECTIVE JANUARY 1, 2013, STATE LAW REQUIRES THAT HAZARDOUS MATERIALS BUSINESS PLAN (HMBP) BE SUBMITTED ELECTRONICALLY VIA THE CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS) WEBSITE AT <http://cers.calepa.ca.gov>. HARD COPIES ARE NO LONGER ALLOWED FOR THOSE SUBMITTALS, SO PLEASE DISREGARD ANY PRE-PRINTED CORRECTIVE ACTION TEXT IN THIS NOTICE OF INSPECTION REGARDING HARD COPY FORMS. FACILITY RECORDS HAVE ALREADY BEEN CREATED IN CERS FOR MANY BUSINESSES. PLEASE SEARCH CERS AND REQUEST ACCESS TO THAT RECORD BEFORE CREATING A NEW FACILITY RECORD. SEE www.EHinfo.org/hazmat FOR MORE DETAILS REGARDING ELECTRONIC REPORTING REQUIREMENTS.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Qty Rlsd Gallons:	0
Facility Project Sub Type:	
Calenviroscreen 3 Score:	86-90%
Calenviroscreen 4 Score:	85-90%
Site History:	

Site History: The site use is currently a gasoline service station. The former USTs were removed in 1990, and contaminated soil was subsequently over-excavated. Elevated soil concentrations remain immediately below the former UST(s), but the lateral extent is defined. Groundwater and soil gas were monitored over the course of 25 years and 8 years, respectively. Case closure was previously considered in 2015. DEH received public comments from the neighbor who owns 1564 and 1570 McKee Road, requesting additional soil gas assessment. The assessment was targeted to evaluate potential off-site impact to the two referenced properties. Following additional assessment, DEH believes that the plume has been adequately assessed and satisfies all LTCP criteria. Site Management Requirements: Residual contamination in soil, groundwater, and soil vapor remains at the site that could pose an unacceptable risk under certain site development activities such as, but not limited to, site grading, excavation, or the installation of water wells. Therefore, the impact of the disturbance of any residual contamination or the installation of water well(s) in the vicinity of the residual contamination shall

<i>Map Key</i>	<i>Number of Records</i>	<i>Direction</i>	<i>Distance (mi/ft)</i>	<i>Elev/Diff (ft)</i>	<i>Site</i>	<i>DB</i>
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

be assessed and appropriate action taken so that there is no significant impact to human health, safety, or the environment. This could necessitate additional sampling, health risk assessment, and mitigation measures. DEH and the appropriate planning and building department shall be notified prior to any changes in land use, grading activities, excavation, and installation of water wells. This notification shall include a statement that residual contamination exists on the property and list all mitigation actions, if any, necessary to ensure compliance with this site management requirement. The levels of residual contamination and any associated site risk are expected to reduce with time.

Violations

Violation Date:	01/27/2022	Violation Source:	CERS
Violation Program:	UST	Violation Division:	Santa Clara County Environmental Health
Citation:	23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(e)		
Violation Notes:			

The monthly DUSTO inspections for the last 12 months list the wrong date for the last SB989 inspection. The last SB989 inspection occurred on 8/21/2020 but the DUSTO reports list it as 8/21/2021. Additionally, the DUSTO inspections are not occurring at least every 30 days as required. The following DUSTO inspection dates have greater than 30 days between them: 1/7/2021 - 2/12/2021, 4/5/2021-5/17/2021-6/19/2021, 8/12/2021-9/15/2021, and 11/8/2021-12/9/2021. Update the DUSTO inspection reports with the correct date of the last SB989 and ensure that DUSTO inspections are occurring at least once every 30 days. This violation was also cited during the 2021 AMC inspection.

Violation Description:

For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO.
 Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy.
 Inspect for the presence of liquid/debris in spill containers.
 Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly.
 Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit.
 Check that all testing and maintenance has been completed and documented.
 Verify that all facility employees have been trained in accordance with 23 CCR 2715(c).
 For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.

Violations

Violation Notes:			

Facility failed to have the second round of overfill prevention equipment inspected by the deadline of 10/31/2021. Ensure that overfill prevention equipment is inspected as soon as possible and within 30 days. Provide at least 48 hour notification to our office through USTinspector@deh.sccgov.org, prior to testing.

Violation Description:

Failure to comply with one or more of the following overfill prevention equipment requirements:
 Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or
 Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or
 Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or
 Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling.

Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018.

For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter.

For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter.

Inspected within 30 days after a repair to the overfill prevention equipment.

Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer.

Inspected by a certified UST service technician.

Maintain records of overfill prevention equipment inspection for 36 months.

On site 1590 McKee, for follow-up to the outstanding UST system secondary containment testing in 2012. John Winner, UST Service Tech, Self Service Petroleum, Facility DUSTO, on site to facilitate access and additional diagnostics and testing. Brian Dunahay, UST Service Tech, Epic Compliance, on site to confirm secondary pipe integrity/failure throughout system ICC #00214102, exp. 2/15/2015. 3 UST with flex piping to 6 dispensers. All piping sections from tanks to dispensers, 6 lines, have failed to hold any pressure. Tested in 8/22/2011 and failed. No repairs have been made since that time. Tested and failed in 8/14/2014. No repairs have been made at this time. All segments of piping between dispensers are being tested today. Segments between dispensers 1/2 and 3/4 are unable to hold pressure. Segments from 5/6/ and 7/8 and segments from 9/10 and 11/12 are to be tested today.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Violations Found: Yes
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Santa Clara County Environmental Health
Eval Program: UST
Eval Source: CERS
Eval Notes:

ALL UST SYSTEM LEAK DETECTION EQUIPMENT WAS TESTED TODAY BY UST SERVICE TECHNICIAN JOHN B. "JACK" WINNER OF SELF SERVE PETROLEUM, INC. AND FUNCTIONED PROPERLY EXCEPT AS NOTED ABOVE. MR. WINNER HAS CURRENT ICC UST SERVICE TECHNICIAN CERTIFICATION (EXP. 7/29/2015), VEEDER-ROOT LEVEL 4 CERTIFICATION (EXP. 5/8/2015), FRANKLIN FUELING SYSTEMS FE PETRO (LINE LEAK DETECTOR) CERTIFICATION (EXP. 2/14/2014), AND VMI LDT-890 LINE LEAK DETECTOR TESTING CERTIFICATION (EXP. 4/4/2015), AND IS A CSLB-LICENSED CONTRACTOR (A LICENSE #824489 EXP. 10/31/2015). THE 3 MECHANICAL LINE LEAK DETECTORS WERE TESTED WITH SIMULATED 3.0 g.p.h. LEAKS USING VMI LDT-890 TEST APPARATUS. LDT-890 HAS CURRENT FACTORY CALIBRATION (12/23/2013). LIQUID SENSORS WERE TESTED USING WATER. THE 3 UST FILL SPILL BUCKETS WERE HYDROSTATICALLY TESTED FOR 1

Eval Program: UST
Eval Source: CERS
Eval Notes:

On site to witness Overfill Prevention Equipment inspection with Robert Neimeyer of Self Serve Petroleum. Mr. Neimeyer's certifications were verified and current. Shutoff percentage for the OPW61SO(87 & 91) and OPW71SO(diesel) Series overfill prevention valves were calculated using a manufacturer worksheet and a Modern Welding 20,000 gallon tank chart. Based on measurements and calculations, overfill prevention valves provide shutoff at the following height: 20,000 gallon 87 tank: full volume = 20,086. Mechanical overfill prevention valve is set to shut off at 113.0" or 18,823 gallons = 93.7% 20,000 gallon 91 tank: full volume = 20,086. Mechanical overfill prevention valve is set to shut off at 109.5" or 18,355 gallons = 91.1% 20,000 gallon Diesel tank: full volume = 20,086. Mechanical overfill prevention valve is set to shut off at 114.5" or 19,010 gallons = 94.6% Mechanical overfill prevention valves were tested to show functionality. Submit a copy of [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Program: UST
Eval Source: CERS
Eval Notes:

On site for 6 month Secondary Containment Testing, post new construction, installation of piping, 3 UST systems. John "Jack" Winner, Self Service Petroleum and DUSTO on site to allow facility access. Cal Phase Construction had done the installation work and permit testing under SR0846206, on 7/14/2015. Today, Brian Dunahay, EPIC Compliance Systems, Inc. is on site to conduct the testing. ICC# 8021436 Serv Tech Expires 2/14/2017 Caldwell - Expires 4/1/2017 Piping (3), tested to 5.1 psi, 60 minutes, no drops observed. (3) OK Sumps (3), tested, water, to above all piping penetrations. All OK UDCs (6), tested, to above all piping penetrations. All OK NOTE: Submit the Secondary Containment Testing Report to this office within 30 days.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Calenviroscreen 4 Score:	70-75%
Site History:	

This site contains a warehouse and stone-working shop. On May 2005, one 2,000 gallon UST used to store gasoline was removed from the site. Confirmation soil samples collected beneath the tank indicated gasoline has been release and report showed TPHg 1.5 ppm and MTBE 1.9 ppm. Subsurface investigations were conducted at the site in July and September 2006. A total of 11 temporary borings were advanced at the site, The investigaiton findings indicated that impacts to soil were restricted to the immediate vicinity of the former UST, however petroleum hydrocarbon impacts to groundwater appeared to extend southward beneath Five Wounds Lane, In June 2007 six borings at the site were advanced. Results of the investigation indicated that contaminants had migrated south-southeast beneath Five Wounds Lane and MTBE concentrations in groundwater appeared to increase with distance from the former UST excavation. In September 2007 five wells were constructed, one within the boundaries of the former UST and four ofsite within the public right-of-way of Five Wounds Lane. the lateral extent of the plume west of MW-3 and south of MW-4 was not defined and additional investigation was assessed. In February 2008, grab groundwater samples from three borings located west of MW-3 and southwest of MW-4 indicated that the non=detect plume boundary exists somewhere within 50 feet west-southwest of Mw-3. TPHg and MTBE were both reported at c concentration of 69 ppb in the grab groundwater sample. Site access to the Five Wounds Catholic School property to advance a boring south of MW-4 was not obtained. On October 2008, three additional MW were installed. Last sampling event took place October 2008 and resulted in the following highest concentrations: TPHg 290 ppb and MTBE 276 ppb. Workplan to define the lateral extent and to conduct soil gas survey was requested in May 2009.

LUST Cleanup Sites from GeoTracker Cleanup Sites Data Download - Facilities Detail

CUF Case: YES
Lead Agency: SANTA CLARA COUNTY LOP
Case Worker:
Local Agency:
RB Case No: 06-088
Local Case No: 07S1E04G01f
File Location: All Files are on GeoTracker or in the Local Agency Database
Potential COC: MTBE / TBA / Other Fuel Oxygenates, Gasoline
Potential Media of Concern: Indoor Air, Other Groundwater (uses other than drinking water), Soil Vapor
Begin Date: 9/26/1984
How Discovered: Tank Closure
How Discovered Description: Fire Department noted a relaease when USTs were removed.
Stop Method: Close and Replace Tank
Stop Description:
Calwater Watershed Name: Santa Clara - Coyote Creek (205.30)
DWR GW Subbasin Name: Santa Clara Valley - Santa Clara (2-009.02)
Disadvantaged Community: Disadvantaged Community
CalEnvScreen Score:
Coordinate Source: Google Map Move
Discharge Cause: Unknown
Discharge Source: Tank
EPA Region: 9
Leak Reported Dt: 1984-09-21 00:00:00
Military DoD Site: No
No Further Action Dt: 2016-09-15 00:00:00
Qty Risd Gallons: 0
Facility Project Sub Type:
Calenviroscreen 3 Score: 91-95%
Calenviroscreen 4 Score: 85-90%
Site History:

As of October 6, 2012- Based on the current trends of contaminants of concern and due to low residual concentrations of petroleum compounds in soil and groundwater at this site as documented in the most recent groundwater monitoring report dated March 19, 2010, and in the supplemental soil and groundwater investigation report dated August 31, 2011, this case qualifies for low-threat regulatory closure.

Sites from GeoTracker Search - Cleanup Action Report (as of Jan 25, 2023)

Action Type: EXCAVATION
Begin Date: 9/28/1984
End Date: 9/28/1984
Phase: Soil, Water
Contaminant Mass Removed:
Description: 60 cubic yards of soil and 3,400 gallons of contaminated liquid were removed from the site at the time that the USTs were replaced in September 1984. MTBE is also a COC, but presumably not addressed by the 1984 remedial action.

SITE HISTORY:

The approximately 3.3-acre site is currently occupied by elementary school buildings and residential homes, surrounded by residential development and a city park. Prior to the current development, the site was occupied by residential structures and a small equipment repair shop. Prior to 1900, it was utilized as a dump for general refuse. Additionally, an underground storage tank was removed from one of the parcels.

This site is being addressed as part of the Watson Park Project.

LEAD
POLYNUCLEAR AROMATIC HYDROCARBONS (PAHS)

Site History:

The site is a City of San Jose park with a community center, dog park, children's playground, soccer fields and community garden. The site was a former burn dump and City incinerator in the 1920's, and was abandoned in the 1930's. The site was developed into a park and an elementary school in the 1960's. The site is bordered by residential housing, Empire Gardens Elementary School, Coyote Creek, an orchard and Highway 101.

Sub Area Link:						
Document Type:		Removal Action Completion Report				
Date Completed:		11/25/2009				
Comments:		The removal action consisted of additional excavation of lead-contaminated soil around the fences and other selected locations in the backyards of the Terrace Drive properties. A slurry seal was placed in the crawl spaces of the foundations over the exposed lead-contaminated soil for 450 and 456 Terrace Drive to prevent contact with the soil. A total of 160 cubic yards of lead- contaminated soil was removed and placed on Watson Park in the area designated for the soil cap and land use covenant.

Document Type:					Remedial Investigation Report	
Date Completed:					12/11/2006	
Comments:					Investigations at the site have determined that contamination above screening levels (primarily lead) exists in soil in the southern portion of Watson Park, under Empire Gardens Elementary School and on some adjacent residential properties along Terrace Drive. Contamination was not found in the Dog Park, the Soccer Bowl, in Coyote Creek or along 21st Street or Jackson Avenue. Contamination above screening levels was also not found in ground water or surface water at the Site.

LEAD
POLYNUCLEAR AROMATIC HYDROCARBONS (PAHS)

Site History:

The site is a City of San Jose park with a community center, dog park, children's playground, soccer fields and community garden. The site was a former burn dump and City incinerator in the 1920's, and was abandoned in the 1930's. The site was developed into a park and an elementary school in the 1960's. The site is bordered by residential housing, Empire Gardens Elementary School, Coyote Creek, an orchard and Highway 101.

Status: ACTIVE - LAND USE RESTRICTIONS
Program Type: VOLUNTARY CLEANUP
CalEnviroScreen Score: 70-75%
Summary Link: https://www.envirostor.dtsc.ca.gov/public/profile_report?global_id=70000112

Land Use Restrictions

Site Management Requirements: NO EXCAVATION OF CONTAMINATED SOILS WITHOUT AGENCY REVIEW AND APPROVAL
 NO EXCAVATION OR ACTIVITIES WHICH DISTURB THE SOIL BELOW A SPECIFIED DEPTH (SEE COVENANT FOR DEPTH) WITHOUT AGENCY REVIEW AND APPROVAL OF A SOIL MANAGEMENT PLAN
 NOTIFY AFTER CHANGE OF PROPERTY OWNER
 NOTIFY PRIOR TO SUBSURFACE WORK
 REQUIRES SURFACE COVERS

Date Completed:					12/11/2006	
Comments:					Investigations at the site have determined that contamination above screening levels (primarily lead) exists in soil in the southern portion of Watson Park, under Empire Gardens Elementary School and on some adjacent residential properties along Terrace Drive. Contamination was not found in the Dog Park, the Soccer Bowl, in Coyote Creek or along 21st Street or Jackson Avenue. Contamination above screening levels was also not found in ground water or surface water at the Site.

Sub Area Link:						
Document Type:					Removal Action Completion Report	
Date Completed:					11/25/2009	
Comments:					The removal action consisted of additional excavation of lead-contaminated soil around the fences and other selected locations in the backyards of the Terrace Drive properties. A slurry seal was placed in the crawl spaces of the foundations over the exposed lead-contaminated soil for 450 and 456 Terrace Drive to prevent contact with the soil. A total of 160 cubic yards of lead- contaminated soil was removed and placed on Watson Park in the area designated for the soil cap and land use covenant.

POLYNUCLEAR AROMATIC HYDROCARBONS (PAHS)

Site History:

The site is a City of San Jose park with a community center, dog park, children's playground, soccer fields and community garden. The site was a former burn dump and City incinerator in the 1920's, and was abandoned in the 1930's. The site was developed into a park and an elementary school in the 1960's. The site is bordered by residential housing, Empire Gardens Elementary School, Coyote Creek, an orchard and Highway 101.

Status: ACTIVE - LAND USE RESTRICTIONS
Program Type: VOLUNTARY CLEANUP
CalEnviroScreen Score: 70-75%
Summary Link: https://www.envirostor.dtsc.ca.gov/public/profile_report?global_id=70000112

Fuel leak case closed 6/29/95. During construction, petroleum hydrocarbon soil was removed in association with trenching for a storm drain. This work was conducted following fuel leak case closure and was handled by the County of Santa Clara Hazardous Materials Compliance Division through their Voluntary Cleanup Program (VCP). All electronic files for the VCP cleanup have been uploaded to Geotracker.

RB Case No:
Local Case No: 07S1E04Q03s
Begin Date: 3/4/2015
Lead Agency: SANTA CLARA COUNTY LOP
Local Agency: SANTA CLARA COUNTY LOP
CUF Case: NO
CalEnvScreen Score:
EPA Region: 9
Qty Risd Gallons:
Potential COC: Tetrachloroethylene (PCE), Trichloroethylene (TCE)
How Discovered: Site Assessment/Site Investigation
Stop Method: Change Operating Procedures
Stop Description: operations ceased
Case Worker: GOR
Military DoD Site: No
Leak Reported Dt: 2015-03-04 00:00:00
No Further Action Dt:
Potential Media of Concern: Other Groundwater (uses other than drinking water), Soil, Soil Vapor
How Discovered Description:
Calwater Watershed Name: Santa Clara - Coyote Creek (205.30)
DWR GW Subbasin Name: Santa Clara Valley - Santa Clara (2-009.02)
Disadvantaged Community: Disadvantaged Community
Coordinate Source:
Discharge Cause: Unknown
Discharge Source: Other
Facility Project Sub Type:
Calenviroscreen 3 Score: 76-80%
Calenviroscreen 4 Score: 70-75%
File Location: All Files are on GeoTracker or in the Local Agency Database
Site History:

Subsurface investigations have revealed that PCE, as well as other Volatile Organic Chemicals (VOCs) are present beneath the site. PCE was likely released to the subsurface during the operations of a dry cleaning business which historically operated at the site. The PCE has impacted soil, soil vapor, and groundwater beneath the property. Residential properties located downgradient of the site. Additional sampling in and around the site will be required to develop a comprehensive plan to remediate the contamination to acceptable levels. Once the contaminant plume is adequately delineated, full scale implementation of a remediation system is expected to take several months and may operate for several years.

Cleanup Program Sites from GeoTracker Search - Regulatory Profile

Project Status:
Cuf Claim No:
CUF Priority Assign:
CUF Amount Paid:
Composting Method:
Facility Type:
WDR Place Type:
WDR File No:
WDR Order No:
File Location: ALL FILES ARE ON GEOTRACKER OR IN THE LOCAL AGENCY DATABASE
User Defined Beneficial Use:
Designated Beneficial Use: MUN, AGR, IND, PROC
Designated Beneficial Use Desc: Municipal and Domestic Supply, Agricultural Supply, Industrial Service Supply, Industrial Process Supply
Project Oversight Agencies:
Report Link: https://geotracker.waterboards.ca.gov/profile_report?global_id=T10000006973
Cleanup Status Detail: OPEN - REMEDIATION AS OF 8/12/2019
Potential COC: TETRACHLOROETHYLENE (PCE), TRICHLOROETHYLENE (TCE)
Potential Media of Concern: OTHER GROUNDWATER (USES OTHER THAN DRINKING WATER), SOIL, SOIL VAPOR
Groundwater Monitoring Freq:
DWR GW Sub Basin: Santa Clara Valley - Santa Clara (2-009.02)
CalWater Watershed Name: Santa Clara - Coyote Creek (205.30)
Post Closure Site Management:
Future Land Use:
Cleanup Oversight Agencies: SANTA CLARA COUNTY LOP (LEAD) - CASE #: 07S1E04Q03s
CASEWORKER: Gerald O'Regan
SAN FRANCISCO BAY RWQCB (REGION 2)
CASEWORKER: RON GOLOUBOW
Cleanup History Link: https://geotracker.waterboards.ca.gov/profile_report_include?global_id=T10000006973&tabname=regulatoryhistory

Site History:

Subsurface investigations have revealed that PCE, as well as other Volatile Organic Chemicals (VOCs) are present beneath the site. PCE was likely released to the subsurface during the operations of a dry cleaning business which historically operated at the site. The PCE has impacted soil, soil vapor, and groundwater beneath the property. Residential properties located downgradient of the site. Additional sampling in and around the site will be required to develop a comprehensive plan to remediate the contamination to acceptable levels. Once the contaminant plume is adequately delineated, full scale implementation of a remediation system is expected to take several months and may operate for several years.

Sites from GeoTracker Search - Regulatory Activities (as of Jan 25, 2023)

Site History:

On May 29, 1990 a (vadose) monitoring well was installed in the former waste oil tank backfill to comply with the City of San Jose's local hazardous materials ordinance. A soil sample collected at the bottom of the borehole at eight feet (ft) below ground surface (bgs) contained 190 milligrams per kilogram (mg/kg) of total petroleum hydrocarbons in the gasoline range (TPHg); 49 mg/kg of total petroleum hydrocarvon compounds in the diesel fuel range (TPHd); and 64 mg/kg total petroleum hydrocarbon compounds in the motor oil range (TPHmo). These results were transmitted to the City of San Jose Fire Department on August 14, 1990 by D&D Management Consultants Inc.

Facility Project Sub Type:
Calenviroscreen 3 Score: 56-60%
Calenviroscreen 4 Score: 55-60%
Site History:

April 2008 - 6 soil borings (B1 through B6) were advanced onsite to depths of 20-25 feet below the ground surface (ft bgs). Soil samples were reported to have low concentrations of TPHg, TPHd, and TPHmo. Toluene, Ethylbenzene and Xylenes were reported at very low concentrations in the sample collected at 9.5 ft bgs in boring B3; all other soil samples were not reported to have detectable concentrations above the laboratory reporting limits. Grab groundwater samples were collected from borings B1 through B3 and were reported to have maximum concentrations of 670 ppb TPHg, 720 ppb TPHd, 2,800 ppb TPHmo, and 1.5 ppb Toluene. September 2008 - 5 borings (B7 through B11) were advanced onsite. Soil samples were reported to have low to non-detectable concentrations of the Constituents of Concern (COCs). Grab groundwater samples were and reported to have maximum concentrations of 81 ppb TPHg, 370 ppb TPHd, and 3,200 ppb TPHmo. October 2009 - 3 monitoring wells were installed (MW1 through MW3). Will monitor groundwater for one hydrologic cycle.

Site History:						

Three USTs were present at site when Ultramar acquired the subject property in 1990. All three USTs were used for the storage of gasoline. The USTs were installed prior to 1984; the exact date of installation is unknown. In May 1986, the original three single-wall USTs were replaced with three new 10,000-gallon double-walled fiberglass-coated steel USTs. During the UST replacement activities, approximately 660 cubic yards of soil were excavated, and removed from the site for disposal. An unknown amount of groundwater was also extracted from the tank pit excavation, and removed from the site for disposal. Remedial investigations began in June 1987 with the installation of groundwater monitoring wells MW-1, MW-2 and MW-3 by Groundwater Technology Inc (GTI). After detecting separate-phase hydrocarbons (SPH) in all three monitoring wells, an additional two onsite wells (MW-4 and MW-5) and three offsite wells (MW-7, MW-8 and MW-9) were installed by GTI in 1991, and an additional offsite well (MW-11) was installed by AMvD in 1994. Analytical results from samples taken from these groundwater monitoring wells indicated elevated concentrations of total petroleum hydrocarbons as gasoline (TPHg) and benzene in both soil and groundwater. A groundwater monitoring program began in September 1987, and a program of manual hand-bailing removed SPH from wells MW-1, MW-2 and MW-3 between December 1988 and May 1991. A ground water extraction and treatment system (GWTS) was installed by Acton, Mickelson, van Dam Inc. (AMvD) in 1992 and began full-time operation in January 1993. Between January 1993 and February 1997, approximately 553,638 gallons of groundwater was extracted and treated through the GWTS. The GWTS was shut down because of a failed bioassay test. In July 1996, the original dispensers and fuel distribution piping were replaced with new dispenser pans and double-walled piping. During the upgrade activities, approximately 210 cubic yards of soil were excavated, and removed from the site for disposal. In 1999 and 2000, Horizon Environmental Inc. (Horizon) advanced and sampled 20 direct-push borings along the northern and western site areas to evaluate the lateral and vertical extent of impacted soil and groundwater. Analytical results from samples taken from these borings indicated elevated concentrations of TPHg, BTEX and MTBE in both soil and groundwater at or beyond the site boundaries. In 2001, Horizon installed a deeper B zone well (MW-15B) in the center of the site to evaluate the next groundwater zone at depths of approximately 35 to 40 feet below surface grade (bsg). In 2003, Alisto installed offsite wells MW-10 and MW-10B, and in 2005, Delta installed offsite wells MW-12B and MW-14B at depths of approximately 35 to 40 feet bsg. Analytical results from samples taken from these B zone wells indicated minor dissolved impacts of TPHg, BTEX and MTBE in the deeper groundwater. The B zone wells were destroyed in October 2007. In 2007, Horizon conducted ozone-sparging remediation pilot testing. The results of the pilot testing indicated ozone- and/or oxygen-sparging as feasible remedial alternatives. In 2008, Horizon submitted a Corrective Action Plan that recommended installation of an In-Situ Bioremediation by Oxygen (ISBO) system. In 2009, Horizon oversaw the installation of oxygen injection points OIP-1 through OIP-10 along the western and northern areas of the site. In April 2010, the ISBO system began operation. Between April 2010 and September 2013, approximately 2,671 pounds of hydrocarbon mass was calculated to have been remediated beneath the site by the onsite ISBO system. Periodic offsite oxygen injections into wells MW-7 and MW-11 across Alum Rock Avenue were performed between September 2010 and May 2012 to treat offsite dissolved impacts. Approximately 333 pounds of hydrocarbon mass was calculated to have been remediated by the offsite ISBO work. The ISBO system was shut down for post-remedial monitoring. In January 2011, Tesoro's construction contractor installed two new 20,000-gallon double-walled fiberglass USTs, new piping, and fuel dispensers. Approximately 880 tons of soil and pea gravel were excavated and removed offsite for disposal during the replacement activities. Analytical results of soil samples collected from the various excavations indicated that a majority of the remaining impacted soils had been removed. In July 2013, Horizon submitted a Conceptual Site Model (CSM) report that recommended Site Closure under the State's Low Threat Closure (LTC) Policy. The CSM report indicated a dissolved hydrocarbon plume that is adequately defined for Benzene and MTBE but only partially defined for TPHg and TBA. Hydrocarbon concentrations in groundwater have been slow to reach water quality goals due to the fine-grained interbedded soils and semi-confined groundwater zones beneath the Site. However, through source removal, active remediation, and natural attenuation processes, the dissolved hydrocarbon plume beneath the Site has steadily decreased in magnitude. In 2014, Horizon advanced and sampled three offsite borings across Alum Rock Avenue to evaluate the extent of offsite impacted groundwater, especially for dissolved TPHg and TBA. Analytical results of groundwater samples collected from these borings indicated no concentrations of TPHg, BTEX, MTBE and TBA in groundwater, except for a trace amount of 0.051 part per billion of toluene in one sample.

Three USTs were present at site when Ultramar acquired the subject property in 1990. All three USTs were used for the storage of gasoline. The USTs were installed prior to 1984; the exact date of installation is unknown. In May 1986, the original three single-wall USTs were replaced with three new 10,000-gallon double-walled fiberglass-coated steel USTs. During the UST replacement activities, approximately 660 cubic yards of soil were excavated, and removed from the site for disposal. An unknown amount of groundwater was also extracted from the tank pit excavation, and removed from the site for disposal.

Remedial investigations began in June 1987 with the installation of groundwater monitoring wells MW-1, MW-2 and MW-3 by Groundwater Technology Inc (GTI). After detecting separate-phase hydrocarbons (SPH) in all three monitoring wells, an additional two onsite wells (MW-4 and MW-5) and three offsite wells (MW-7, MW-8 and MW-9) were installed by GTI in 1991, and an additional offsite well (MW-11) was installed by AMvD in 1994. Analytical results from samples taken from these groundwater monitoring wells indicated elevated concentrations of total petroleum hydrocarbons as gasoline (TPHg) and benzene in both soil and groundwater. A groundwater monitoring program began in September 1987, and a program of manual hand-bailing removed SPH from wells MW-1, MW-2 and MW-3 between December 1988 and May 1991.

A ground water extraction and treatment system (GWTS) was installed by Acton, Mickelson, van Dam Inc. (AMvD) in 1992 and began full-time operation in January 1993. Between January 1993 and February 1997, approximately 553,638 gallons of groundwater was extracted and treated through the GWTS. The GWTS was shut down because of a failed bioassay test.

In July 1996, the original dispensers and fuel distribution piping were replaced with new dispenser pans and double-walled piping. During the upgrade activities, approximately 210 cubic yards of soil were excavated, and removed from the site for disposal.

In 1999 and 2000, Horizon Environmental Inc. (Horizon) advanced and sampled 20 direct-push borings along the northern and western site areas to evaluate the lateral and vertical extent of impacted soil and groundwater. Analytical results from samples taken from these borings indicated elevated concentrations of TPHg, BTEX and MTBE in both soil and groundwater at or beyond the site boundaries.

In 2001, Horizon installed a deeper B zone well (MW-15B) in the center of the site to evaluate the next groundwater zone at depths of approximately 35 to 40 feet below surface grade (bsg). In 2003, Alisto installed offsite wells MW-10 and MW-10B, and in 2005, Delta installed offsite wells MW-12B and MW-14B at depths of approximately 35 to 40 feet bsg. Analytical results from samples taken from these B zone wells indicated minor dissolved impacts of TPHg, BTEX and MTBE in the deeper groundwater. The B zone wells were destroyed in October 2007.

In 2007, Horizon conducted ozone-sparging remediation pilot testing. The results of the pilot testing indicated ozone- and/or oxygen-sparging as feasible remedial alternatives. In 2008, Horizon submitted a Corrective Action Plan that recommended installation of an In-Situ Bioremediation by Oxygen (ISBO) system. In 2009, Horizon oversaw the installation of oxygen injection points OIP-1 through OIP-10 along the western and northern areas of the site.

In April 2010, the ISBO system began operation. Between April 2010 and September 2013, approximately 2,671 pounds of hydrocarbon mass was calculated to have been remediated beneath the site by the onsite ISBO system. Periodic offsite oxygen injections into wells MW-7 and MW-11 across Alum Rock Avenue were performed between September 2010 and May 2012 to treat offsite dissolved impacts. Approximately 333 pounds of hydrocarbon mass was calculated to have been remediated by the offsite ISBO work. The ISBO system was shut down for post-remedial monitoring.

In January 2011, Tesoro's construction contractor installed two new 20,000-gallon double-walled fiberglass USTs, new piping, and fuel dispensers. Approximately 880 tons of soil and pea gravel were excavated and removed offsite for disposal during the replacement activities. Analytical results of soil samples collected from the various excavations indicated that a majority of the remaining impacted soils had been removed.

In July 2013, Horizon submitted a Conceptual Site Model (CSM) report that recommended Site Closure under the State's Low Threat Closure (LTC) Policy. The CSM report indicated a dissolved hydrocarbon plume that is adequately defined for Benzene and MTBE but only partially defined for TPHg and TBA. Hydrocarbon concentrations in groundwater have been slow to reach water quality goals due to the fine-grained interbedded soils and semi-confined groundwater zones beneath the Site. However, through source removal, active remediation, and natural attenuation processes, the dissolved hydrocarbon plume beneath the Site has steadily decreased in magnitude.

In 2014, Horizon advanced and sampled three offsite borings across Alum Rock Avenue to evaluate the extent of offsite impacted groundwater, especially for dissolved TPHg and TBA. Analytical results of groundwater samples collected from these borings indicated no concentrations of TPHg, BTEX, MTBE and TBA in groundwater, except for a trace amount of 0.051 part per billion of toluene in one sample.

Action Type: IN SITU BIOLOGICAL TREATMENT
Begin Date: 4/13/2010
End Date:
Phase: Water
Contaminant Mass Removed:
Description: oxygen injection system onsite. From 11/1/10-4/25/11 - periodic oxygen injection into offsite wells MW7 and MW11

Action Type: EXCAVATION
Begin Date: 5/19/1986
End Date: 5/19/1986
Phase: Soil
Contaminant Mass Removed:
Description: Kettleman Hills - UST replacement

Action Type: PUMP & TREAT (P&T) GROUNDWATER
Begin Date: 1/11/2011
End Date: 3/25/2011
Phase: Water
Contaminant Mass Removed:
Description: pumped from excavation, stored onsite in storage tank and discharged to sanitary sewer.

Action Type: FREE PRODUCT REMOVAL
Begin Date: 1/4/1989
End Date: 10/3/1990
Phase: Liquid Waste
Contaminant Mass Removed:
Description: MW1, MW2, and MW3

Action Type: PUMP & TREAT (P&T) GROUNDWATER
Begin Date: 2/15/1993
End Date: 2/25/1997
Phase: Water
Contaminant Mass Removed: 11 Pounds
Description:

Action Type: EXCAVATION
Begin Date: 7/18/1996
End Date: 7/26/1996
Phase: Soil
Contaminant Mass Removed:
Description: Vasco Road Landfill

Action Type: EXCAVATION
Begin Date: 1/11/2011
End Date: 3/25/2011
Phase: Soil
Contaminant Mass Removed:
Description: 878.5 tons of soil and pea gravel were removed from the site and taken to Kirby Canyon Landfill

Permitting

Site Code:	22040, 520039	Assembly District:	25
Program Type:	HAZARDOUS WASTE FACILITY	Senate District:	15
Facility Type:	HIST PERMITTED	Census Tract:	6085503601
Calenviro Screen Percentile Sc:	85-90%		
Site Facility Type:	CLOSED - PERMIT AUTHORITY: Standardized		
Facility History:			

Clean Harbors San Jose, LLC operates a rail spur transfer facility at 660 Lenfest Road in San Jose for bulk liquid which includes both hazardous wastes and hazardous substances. The type of hazardous wastes allowed at the facility is Oily Water, Lean Water, Fuels, Aqueous Solution and Recyclable Liquids.

DTSC issued a Standardized Hazardous Waste Facility Permit on October 26, 2007. The Permit became effective on November 27, 2007 and expires on November 26, 2017. The maximum hazardous waste transfer and storage capacity at the Lenfest Facility at any given time is 56,500 gallons.

The Lenfest Facility only accepts bulk liquid hazardous wastes originating from Clean Harbors San Jose, LLC, located at 1021 Berryessa Road, San Jose, California (Berryessa Facility). The Berryessa Facility has a Hazardous Waste Facility Permit for treatment and storage of hazardous waste and provides the staff, supervision and management for the Lenfest Facility. The Berryessa Facility also provides Lenfest Facility with registered hazardous waste transporters or licensed third party haulers to transport hazardous wastes in closed tanker trucks or vacuum trucks from the Berryessa Facility to the Lenfest Facility. Both the Berryessa Facility and Lenfest Facility are operated by Clean Harbors San Jose LLC, located at 1021 Berryessa Road, San Jose, California. The distance between the Berryessa Facility and the Lenfest Facility is approximately one mile.

The Lenfest Facility has one permitted Transfer and Storage Unit for transfer and storage of hazardous waste. There are four rail tank cars stationed at the rail spur at any given time. Each rail tank car has a rail track pan for collecting drips and possible spills. Two of the rail track pans connected by a collection header or drain pipe to an open sump. Transfer of hazardous waste from the tanker truck or vacuum truck parked on a concrete pad into the rail tank car is only allowed at rail tank cars that have rail track pans connected to the open sump. Transfer of hazardous waste from the tanker truck or vacuum truck is not allowed at the other two rail tank cars whose rail track pans are not connected to the open sump. Hazardous waste in each rail tank is stored at this facility up to ten days prior to shipment to various treatment, storage, recycling, or disposal facilities throughout the country.

Document Type:		Preliminary Endangerment Assessment Report				
Date Completed:		9/27/2021				
Comments:		The Report presents the history of the Site, evaluates nature and extent of chemicals of concern (COCs), calculates the risks to current and future users and workers of the Site, evaluates the need for remedial actions necessary to reduce or eliminate potential risks to human health and/or the environment and outlines a remediation strategy to allow for Site industrial redevelopment. The Report recommends preparing a Removal Action Workplan to mitigate the potential risks from COCs in soil and soil vapor.

Site History:

The 9.48 acre property encompasses three sites which are located at 686 North King Road, 670 North King Road, and one abandoned railroad parcel in San Jose. The Site is controlled by San Jose Transit Village Partners, LLC. Reports, containing the results of environmental media sampling conducted at the Site, indicate that the soil and groundwater beneath the Site may be contaminated with potentially hazardous substances, including petroleum products, arsenic, and other metals.

The Site is improved with several building and associated paving and minimal landscaping. One of the parcels is a former rail spur alignment. The areas surrounding the Site are generally residential and light-industrial. The Site properties were first developed between the 1960s and 1970s with the current structures, prior to which the land was either vacant or under agricultural use. Current and historical Site activities have included warehousing, manufacturing and assembly, automotive repair related operations, and other light industrial activities. Known hazardous material and petroleum products at the sites have included plating chemicals and petroleum fuels and oils.

Past Use that Caused Contam:	AGRICULTURAL - ORCHARD, METAL PLATING - OTHER					
Potential Media Affected:	SOIL					
Site History:						

The Site contains a multi tenant single story building, divided into 7 separate tenant areas with each area having both office and warehouse space. There is an asphalt parking lot and landscaping surrounding the building.

Prior to 1986 the area was occupied by orchards, farm land, vacant property, and industry. From approximately 1986 to 1998, spaces 1677 and 1679 were occupied by one company, Exion Technology Inc./Pico Media, Inc., performing manufacturing processes for the semiconductor industry. One aspect of their processing included nickel plating operations.

BENZO[A]PYRENE
METALS
TRICHLOROETHYLENE (TCE)

Site History:

Site History: The facility is located at 1009 Timothy Drive, in the City of San Jose, Santa Clara County. Surrounding properties consist of commercial and industrial developments. Prime Plating is comprised of a single building structure of approximately 33,000 square feet. The building is further subdivided into different rooms for different operations. The entire property is 90,000 square feet. The facility has been operating in its current location for the past 38 years, prior to that the land was undeveloped. The Facility contact person is Mr. Edward Pease, the Chemical Engineer who has been with the Facility for the past 6 years. The President of the facility is Mr. Barraco.

The operations at the Facility include metal plating and finishing, metal forming, precision machining, photochemical machining, metal etching, metal to ceramic brazing, lamination and assembly, sintering and heat treatment. Elcon specialized in base materials such as nickel, gold, kovar, molybdenum, tungsten, silver, stainless steel, beryllium copper, tungsten copper, copper, and brass. Metal etching and plating tend to be on a small scale for biomedical, aerospace and electronic processes.

Document Type:			Land Use Restriction Monitoring Report			
Date Completed:			2/22/2017			
Comments:			As required by Section 4.5 of the Land Use Covenant, CB&I performed an annual site inspection on behalf of RE Diversified Holding LLC, the site owner, to verify compliance with the restrictions and requirements of the Land Use Covenant. CB&I concluded in the site inspection report that that no prohibited use of the site was observed and the site is in compliance with the Land Use Covenant.

 TETRACHLOROETHYLENE (PCE)

Site History:

Site History: The site is located at 1875 Dobbin Drive in the City of San Jose in Santa Clara County. The driveway to the facility is at the very end of Dobbin Drive. The site is about 4 acres and includes one building of approximately 2.55 acres. The immediate surrounding area is predominantly developed as residential, warehouses and small businesses. Touche Manufacturing Company also known as Serra Corporation had occupied the building since the mid 1980's. Operation at the site included metal cutting, welding, detailing, metal finishing, plating and painting.

According to the Final Closure Report dated March 2006 prepared by Chemical Solutions Inc., the operation was ceased at the site in 2003 and nearly all of the equipments were removed from the building. Remaining in the facility were the non-operational paint booths and the plating shop including numerous plating tanks and a waste treatment system. The plating tanks contained plating chemicals and wastes remaining after operations were stopped. In 2004, plating tanks, the chemicals in the plating tanks, and the waste treatment tanks were removed from the property. The final closure began in 2005 under the oversight of the San Jose Fire Department and the County of Santa Clara Department of Environmental Health. The closure plan included sampling of the plating shop for metals, pH, total cyanide and VOC's. Sampling was conducted by Aqua Science Engineers, Inc. in October of 2005 and the Report of Soil and Concrete sampling was completed in November of 2005. Based on the Soil and Concrete Sampling Report, there were 18 samples taken at the depth of 3 feet below grounds from the metal finishing room and one sample of the background out side to the west of the building. The metal finishing room makes up approximately 1/15 of the entire building at the site. Out of the total samples, all were analyzed for metals, 10 for pH, 5 for total cyanide and two for VOC's.

On September 18, 2006, DTSC received a referral letter form the County of San Jose Department of Environmental Health, referring the property located at 1875 Dobbin Drive in San Jose to DTSC for further investigation and corrective action. Based on the referral and the Soil and Concrete Sampling Report dated November 2005, there are detectable levels of hazardous constituents exceeding Environmental Screening Levels.

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB
Date Completed:		9/21/2017				
Comments:		The Land Use Covenant was recorded with Santa Clara County and includes restrictions on the type of residential land use on the Site. A portion of the Site has soil vapor impacted with volatile organic compounds, primarily tetrachloroethene. This portion of the Site is identified in the Covenant as the VOC-Affected Area and there is a restriction in the Covenant that no structures may be built on this area without a vapor intrusion mitigation system approved by DTSC.

Sub Area Link:						
Document Type:		Supplemental Site Investigation Workplan				
Date Completed:		4/14/2017				
Comments:		The Work Plan describes additional sampling to be performed to characterize the residual volatile organic compounds (VOCs) in soil gas within an affected area that was identified during previous Site investigations. The soil gas sampling results will be used to assess whether there remains an unacceptable risk to human health via the vapor intrusion pathway and whether the residential buildings that are to be constructed in the VOC-affected area require a vapor intrusion mitigation system as recommended by the Preliminary Endangerment Assessment Report.

Document Type:		Technical Report				
Date Completed:		12/15/2015				
Comments:		The soil vapor report presents the results of soil gas sampling at three locations along the northeastern site boundary that was performed to assess the lateral extent of tetrachloroethylene (PCE) in soil gas. The sampling showed that the PCE in soil gas does not extend to the northeastern site boundary. PCE and other volatile organic compounds were not detected, except at one location where PCE was detected at a concentration of 4.2 micrograms per cubic meter, which was below the residential screening level of 480 micrograms per cubic meter

Comments:			A series of subsurface investigations and limited remedial work was performed at the site from 2005 to 2008. Because the site development was put on hold due to real estate economic conditions, data evaluation and reporting was not performed. The Site Status Update was submitted prior to preparing the Preliminary Endangerment Assessment Report in order to obtain a determination from DTSC on whether additional sampling was needed. The Site Status Update summarized sampling activities performed as part of the Preliminary Endangerment Assessment investigation and presented a synopsis of the sample analytical data. DTSC identified additional areas where sampling was needed in the letter it sent in response.

Description: RP States: A train trestle fire occurred which resulted in the release of 10-15 gallons of creosote oil from the train trestle wood. The release is into the Silver Creek Canal which leads to Coyote Creek then leads to the San Francisco Bay. The release is not contained and is releasing about a gallon per hour. Clean up is currently underway by San Jose Fire HIT 29.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13 and E1527-21, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

Formerly Utilized Sites Remedial Action Program:

[DOE FUSRAP](#)

The U.S. Department of Energy (DOE) established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from the Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations. The DOE Office of Legacy Management (LM) established long-term surveillance and maintenance (LTS&M) requirements for remediated FUSRAP sites. DOE evaluates the final site conditions of a remediated site on the basis of risk for different future uses. DOE then confirms that LTS&M requirements will maintain protectiveness.

Government Publication Date: Mar 4, 2017

National Priority List:

[NPL](#)

Sites on the United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Jan 25, 2023

National Priority List - Proposed:

[PROPOSED NPL](#)

Sites proposed by the United States Environmental Protection Agency (EPA), the state agency, or concerned citizens for addition to the National Priorities List (NPL) due to contamination by hazardous waste and identified by the EPA as a candidate for cleanup because it poses a risk to human health and/or the environment. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Jan 25, 2023

Deleted NPL:

[DELETED NPL](#)

Sites deleted from the United States Environmental Protection Agency (EPA)'s National Priorities List. The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Jan 25, 2023

SEMS List 8R Active Site Inventory:

[SEMS](#)

The U.S. Environmental Protection Agency's (EPA) Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted. This data includes SEMS sites from the List 8R Active file as well as applicable sites from the SEMS GIS/REST file layer obtained from EPA's Facility Registry Service.

Government Publication Date: Jan 25, 2023

Inventory of Open Dumps, June 1985:

[ODI](#)

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

SEMS List 8R Archive Sites:

[SEMS ARCHIVE](#)

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. This data includes sites from the List 8R Archived site file.

Government Publication Date: Jan 25, 2023

Comprehensive Environmental Response, Compensation and Liability Information System -

[CERCLIS](#)

CERCLIS:

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

EPA Report on the Status of Open Dumps on Indian Lands:

[IODI](#)

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

CERCLIS - No Further Remedial Action Planned:

[CERCLIS NFRAP](#)

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens:

[CERCLIS LIENS](#)

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA). This database was provided by the United States Environmental Protection Agency (EPA). Refer to SEMS LIEN as the current data source for Superfund Liens.

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action:

[RCRA CORRACTS](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: Jan 23, 2023

RCRA non-CORRACTS TSD Facilities:

[RCRA TSD](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by RCRA.

Government Publication Date: Jan 23, 2023

RCRA Generator List:

[RCRA LQG](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

Government Publication Date: Jan 23, 2023

RCRA Small Quantity Generators List:

[RCRA SQG](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

Government Publication Date: Jan 23, 2023

RCRA Very Small Quantity Generators List:

[RCRA VSQG](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Very Small Quantity Generators (VSQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

Government Publication Date: Jan 23, 2023

RCRA Non-Generators:

[RCRA NON GEN](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: Jan 23, 2023

RCRA Sites with Controls:

[RCRA CONTROLS](#)

List of Resource Conservation and Recovery Act (RCRA) facilities with institutional controls in place. RCRA gives the U.S. Environmental Protection Agency (EPA) the authority to control hazardous waste from the "cradle-to-grave." This includes the generation, transportation, treatment, storage, and disposal of hazardous waste. RCRA also set forth a framework for the management of non-hazardous solid wastes. The 1986 amendments to RCRA enabled EPA to address environmental problems that could result from underground tanks storing petroleum and other hazardous substances.

Government Publication Date: Jan 23, 2023

Federal Engineering Controls-ECs:

[FED ENG](#)

This list of Engineering controls (ECs) is provided by the United States Environmental Protection Agency (EPA). ECs encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. The EC listing includes remedy component data from Superfund decision documents issued in fiscal years 1982-2020 for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Feb 23, 2023

Federal Institutional Controls- ICs:

FED INST

This list of Institutional controls (ICs) is provided by the United States Environmental Protection Agency (EPA). ICs are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site. The IC listing includes remedy component data from Superfund decision documents issued in fiscal years 1982-2020 for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Feb 23, 2023

Land Use Control Information System:

LUCIS

The LUCIS database is maintained by the U.S. Department of the Navy and contains information for former Base Realignment and Closure (BRAC) properties across the United States.

Government Publication Date: Sep 1, 2006

Institutional Control Boundaries at NPL sites:

NPL IC

Boundaries of Institutional Control areas at sites on the United States Environmental Protection Agency (EPA)'s National Priorities List, or Proposed or Deleted, made available by the EPA's Shared Enterprise Geodata and Services (SEGS). United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. Institutional controls are non-engineered instruments such as administrative and legal controls that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy.

Government Publication Date: Jan 25, 2023

Emergency Response Notification System:

ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986

Emergency Response Notification System:

ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989

Emergency Response Notification System:

ERNS

Database of oil and hazardous substances spill reports made available by the United States Coast Guard National Response Center (NRC). The NRC fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. These data contain initial incident data that has not been validated or investigated by a federal/state response agency.

Government Publication Date: Jan 16, 2023

The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database:

FED BROWNFIELDS

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This data is provided by the United States Environmental Protection Agency (EPA) and includes Brownfield sites from the Cleanups in My Community (CIMC) web application.

Government Publication Date: Sep 13, 2022

FEMA Underground Storage Tank Listing:

FEMA UST

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: Dec 31, 2017

Facility Response Plan:

[FRP](#)

List of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

Government Publication Date: Dec 31, 2021

Delisted Facility Response Plans:

[DELISTED FRP](#)

Facilities that once appeared in - and have since been removed from - the list of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

Government Publication Date: Dec 31, 2021

Historical Gas Stations:

[HIST GAS STATIONS](#)

This historic directory of service stations is provided by the Cities Service Company. The directory includes Cities Service filling stations that were located throughout the United States in 1930.

Government Publication Date: Jul 1, 1930

Petroleum Refineries:

[REFN](#)

List of petroleum refineries from the U.S. Energy Information Administration (EIA) Refinery Capacity Report. Includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year located in the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, and other U.S. possessions. Survey locations adjusted using public data.

Government Publication Date: Aug 30, 2022

Petroleum Product and Crude Oil Rail Terminals:

[BULK TERMINAL](#)

List of petroleum product and crude oil rail terminals made available by the U.S. Energy Information Administration (EIA). Includes operable bulk petroleum product terminals located in the 50 States and the District of Columbia with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil that were active between 2017 and 2018. Petroleum product terminals comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings. Survey locations adjusted using public data.

Government Publication Date: Jun 29, 2022

LIEN on Property:

[SEMS LIEN](#)

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) provides Lien details on applicable properties, such as the Superfund lien on property activity, the lien property information, and the parties associated with the lien.

Government Publication Date: Jan 25, 2023

Superfund Decision Documents:

[SUPERFUND ROD](#)

This database contains a list of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include completed Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD) for active and archived sites stored in the Superfund Enterprise Management System (SEMS), along with other associated memos and files. This information is maintained and made available by the U.S. Environmental Protection Agency.

Government Publication Date: Dec 22, 2022

State

State Response Sites:

[RESPONSE](#)

A list of identified confirmed release sites where the Department of Toxic Substances Control (DTSC) is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk. This database is state equivalent NPL.

Government Publication Date: Feb 6, 2023

EnviroStor Database:

[ENVIROSTOR](#)

The EnviroStor Data Management System is made available by the Department of Toxic Substances Control (DTSC). Includes Corrective Action sites, Tiered Permit sites, Historical Sites and Evaluation/Investigation sites. This database is state equivalent CERCLIS.

Government Publication Date: Feb 6, 2023

Delisted State Response Sites:

[DELISTED ENVIS](#)

Sites removed from the list of State Response Sites made available by the EnviroStor Data Management System, Department of Toxic Substances Control (DTSC).

Government Publication Date: Feb 6, 2023

Solid Waste Information System (SWIS):

[SWF/LF](#)

The Solid Waste Information System (SWIS) database made available by the Department of Resources Recycling and Recovery (CalRecycle) contains information on solid waste facilities, operations, and disposal sites throughout the State of California. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites.

Government Publication Date: Feb 9, 2023

Solid Waste Disposal Sites with Waste Constituents Above Hazardous Waste Levels:

[SWRCB SWF](#)

This is a list of solid waste disposal sites identified by California State Water Resources Control Board with waste constituents above hazardous waste levels outside the waste management unit.

Government Publication Date: Sep 20, 2006

Waste Management Unit Database:

[WMUD](#)

The Waste Management Unit Database System tracks and inventories waste management units. CCR Title 27 contains criteria stating that Waste Management Units are classified according to their ability to contain wastes. Containment shall be determined by geology, hydrology, topography, climatology, and other factors relating to the ability of the Unit to protect water quality. Water Code Section 13273.1 requires that operators submit a water quality solid waste assessment test (SWAT) report to address leak status. The WMUDS was last updated by the State Water Resources control board in 2000.

Government Publication Date: Jan 1, 2000

EnviroStor Hazardous Waste Facilities:

[HWP](#)

A list of hazardous waste facilities including permitted, post-closure and historical facilities found in the Department of Toxic Substances Control (DTSC) EnviroStor database.

Government Publication Date: Feb 6, 2023

Sites Listed in the Solid Waste Assessment Test (SWAT) Program Report:

[SWAT](#)

In a 1993 Memorandum of Understanding, the State Water Resources Control Board (SWRCB) agreed to submit a comprehensive report on the Solid Waste Assessment Test (SWAT) Program to the California Integrated Waste Management Board (CIWMB). This report summarizes the work completed to date on the SWAT Program, and addresses both the impacts that leakage from solid waste disposal sites (SWDS) may have upon waters of the State and the actions taken to address such leakage.

Government Publication Date: Dec 31, 1995

Construction and Demolition Debris Recyclers:

[C&D DEBRIS RECY](#)

This listing of Construction and Demolition Debris Recyclers is maintained by the California Intergrated Waste Management Board-common C&D materials include lumber, drywall, metals, masonry (brick, concrete, etc.), carpet, plastic, pipe, rocks, dirt, paper, cardboard, or green waste related to land development.

Government Publication Date: Jun 20, 2018

Recycling Centers:

[RECYCLING](#)

This list of Certified Recycling Centers that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Jan 12, 2023

Listing of Certified Processors:

[PROCESSORS](#)

This list of Certified Processors that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Jan 12, 2023

Listing of Certified Dropoff, Collection, and Community Service Programs:

[CONTAINER RECY](#)

This list of Certified Dropoff, Collection, and Community Service Programs (non-buyback) operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Jan 13, 2023

Land Disposal Sites:

LDS

Land Disposal Sites in GeoTracker, the State Water Resources Control Board (SWRCB)'s data management system. The Land Disposal program regulates of waste discharge to land for treatment, storage and disposal in waste management units. Waste management units include waste piles, surface impoundments, and landfills.

Government Publication Date: Feb 27, 2023

Leaking Underground Fuel Tank Reports:

LUST

List of Leaking Underground Storage Tanks within the Cleanup Sites data in GeoTracker database. GeoTracker is the State Water Resources Control Board's (SWRCB) data management system for managing sites that impact groundwater, especially those that require groundwater cleanup (Underground Storage Tanks, Department of Defense and Site Cleanup Program) as well as permitted facilities such as operating Underground Storage Tanks. The Leak Prevention Program that overlooks LUST sites is the SWRCB in California's Environmental Protection Agency.

Government Publication Date: Feb 27, 2023

Delisted Leaking Storage Tanks:

DELISTED LST

List of Leaking Underground Storage Tanks (LUST) cleanup sites removed from GeoTracker, the State Water Resources Control Board (SWRCB)'s database system, as well as sites removed from the SWRCB's list of UST Case closures.

Government Publication Date: Mar 10, 2023

Permitted Underground Storage Tank (UST) in GeoTracker:

UST

List of Permitted Underground Storage Tank (UST) sites made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA).

Government Publication Date: Jan 17, 2023

Proposed Closure of Underground Storage Tank Cases:

UST CLOSURE

This listing includes Proposed Closure of Underground Storage Tank (UST) Cases which are being considered for closure by either the State Water Resources Control Board at a Future Board Meeting or the Executive Director that have been posted for a 60-day public comment period, and Closure of UST Cases with Closure Denials and Approved Orders. The lists are provided by the California Water Boards.

Government Publication Date: Mar 10, 2023

Historical Hazardous Substance Storage Information Database:

HHSS

The Historical Hazardous Substance Storage database contains information collected in the 1980s from facilities that stored hazardous substances. The information was originally collected on paper forms, was later transferred to microfiche, and recently indexed as a searchable database. When using this database, please be aware that it is based upon self-reported information submitted by facilities which has not been independently verified. It is unlikely that every facility responded to the survey and the database should not be expected to be a complete inventory of all facilities that were operating at that time. This database is maintained by the California State Water Resources Control Board's (SWRCB) Geotracker.

Government Publication Date: Aug 27, 2015

Statewide Environmental Evaluation and Planning System:

UST SWEEPS

The Statewide Environmental Evaluation and Planning System (SWEEPS) is a historical listing of active and inactive underground storage tanks made available by the California State Water Resources Control Board (SWRCB).

Government Publication Date: Oct 1, 1994

Aboveground Storage Tanks:

AST

A statewide list from 2009 of aboveground storage tanks (ASTs) made available by the Cal FIRE Office of the State Fire Marshal (OSFM). This list is no longer maintained or updated by the Cal FIRE OSFM.

Government Publication Date: Aug 31, 2009

SWRCB Historical Aboveground Storage Tanks:

AST SWRCB

A list of aboveground storage tanks made available by the California State Water Resources Control Board (SWRCB). Effective January 1, 2008, the Certified Unified Program Agencies (CUPAs) are vested with the responsibility and authority to implement the Aboveground Petroleum Storage Act (APSA).

Government Publication Date: Dec 1, 2007

Oil and Gas Facility Tanks:

TANK OIL GAS

Locations of oil and gas tanks that fall under the jurisdiction of the Geologic Energy Management Division of the California Department of Conservation (CalGEM) (CCR 1760). CalGEM was formerly the Division of Oil, Gas, and Geothermal Resources (DOGGR).

Government Publication Date: Jan 9, 2023

Delisted Storage Tanks:

[DELISTED TNK](#)

This database contains a list of storage tank sites that were removed by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA) and the Cal FIRE Office of State Fire Marshal (OSFM).

Government Publication Date: Jan 17, 2023

California Environmental Reporting System (CERS) Tanks:

[CERS TANK](#)

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

Government Publication Date: Jan 10, 2023

Delisted California Environmental Reporting System (CERS) Tanks:

[DELISTED CTNK](#)

This database contains a list of Aboveground Petroleum Storage and Underground Storage Tank sites that were removed from in the California Environmental Protection Agency (CalEPA) Regulated Site Portal.

Government Publication Date: Jan 10, 2023

Historical Hazardous Substance Storage Container Information - Facility Summary:

[HIST TANK](#)

The State Water Resources Control Board maintained the Hazardous Substance Storage Containers listing and inventory in the 1980s. This facility summary lists historic tank sites where the following container types were present: farm motor vehicle fuel tanks; waste tanks; sumps; pits, ponds, lagoons, and others; and all other product tanks. This set, published in May 1988, lists facility and owner information, as well as the number of containers. This data is historic and will not be updated.

Government Publication Date: May 27, 1988

Site Mitigation and Brownfields Reuse Program Facility Sites with Land Use Restrictions:

[LUR](#)

The Department of Toxic Substances Control (DTSC) Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents land use restrictions that are active. Some sites have multiple land use restrictions.

Government Publication Date: Feb 6, 2023

CALSITES Database:

[CALSITES](#)

This historical database was maintained by the Department of Toxic Substance Control (DTSC) for more than a decade. CALSITES contains information on Brownfield properties with confirmed or potential hazardous contamination. In 2006, DTSC introduced EnviroStor as the latest Brownfields site database.

Government Publication Date: May 1, 2004

Hazardous Waste Management Program Facility Sites with Deed / Land Use Restrictions:

[HLUR](#)

The Department of Toxic Substances Control (DTSC) Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Government Publication Date: Feb 18, 2021

Deed Restrictions and Land Use Restrictions:

[DEED](#)

List of Deed Restrictions, Land Use Restrictions and Covenants in GeoTracker made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency. A deed restriction (land use covenant) may be required to facilitate the remediation of past environmental contamination and to protect human health and the environment by reducing the risk of exposure to residual hazardous materials.

Government Publication Date: Feb 27, 2023

Voluntary Cleanup Program:

[VCP](#)

List of sites in the Voluntary Cleanup Program made available by the Department of Toxic Substances and Control (DTSC). The Voluntary Cleanup Program was designed to respond to lower priority sites. Under the Voluntary Cleanup Program, DTSC enters site-specific agreements with project proponents for DTSC oversight of site assessment, investigation, and/or removal or remediation activities, and the project proponents agree to pay DTSC's reasonable costs for those services.

Government Publication Date: Feb 6, 2023

GeoTracker Cleanup Program Sites:

[CLEANUP SITES](#)

A list of Cleanup Program sites in the state of California made available by The State Water Resources Control Board (SWRCB) of the California Environmental Protection Agency (EPA). SWRCB tracks leaking underground storage tank cleanups as well as other water board cleanups.

Government Publication Date: Feb 27, 2023

Delisted Cleanup Program Sites:

[DELISTED CLEANUP](#)

A list of Cleanup Program sites which were once included - and have since been removed from - the list of Cleanup Program Sites in GeoTracker. GeoTracker is the State Water Resource Control Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

Government Publication Date: Feb 27, 2023

Delisted County Records:

[DELISTED COUNTY](#)

Records removed from county or CUPA databases. Records may be removed from the county lists made available by the respective county departments because they are inactive, or because they have been deemed to be below reportable thresholds.

Government Publication Date: Apr 3, 2023

Tribal

Leaking Underground Storage Tanks on Tribal/Indian Lands:

[INDIAN LUST](#)

This list of leaking underground storage tanks (LUSTs) on Tribal/Indian Lands in Region 9, which includes California, is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Nov 23, 2022

Underground Storage Tanks on Tribal/Indian Lands:

[INDIAN UST](#)

This list of underground storage tanks (USTs) on Tribal/Indian Lands in Region 9, which includes California, is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Nov 23, 2022

Delisted Tribal Leaking Storage Tanks:

[DELISTED INDIAN LST](#)

Leaking Underground Storage Tank (LUST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian LUST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Nov 23, 2022

Delisted Tribal Underground Storage Tanks:

[DELISTED INDIAN UST](#)

Underground Storage Tank (UST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian UST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Nov 23, 2022

County

Santa Clara County - Historic Solvent Case Listing:

[HSOL SANTA CLARA](#)

The Santa Clara Valley Water District was responsible for the oversight of solvent and toxic release cases and maintained a list of historic solvent cases in Santa Clara County.

Government Publication Date: Aug 22, 2016

Santa Clara County - Local Oversight Program Listing:

[LOP SANTA CLARA](#)

A list of Leaking Underground Storage Tanks (LUST) facilities in Santa Clara County Provided by Santa Clara Department of Environmental Health (DEH). Since July 1, 2004 the DEH has served as the oversight agency for investigations and clean-up of petroleum releases from underground storage tanks through implementation of the Local Oversight Program (LOP) contract with the State Water Resources Control Board.

Government Publication Date: Jun 14, 2017

Santa Clara County - Underground Storage Tanks:

[UST SANTA CLARA](#)

List of underground storage tanks made available by the County of Santa Clara's Hazardous Materials Compliance Division.

Government Publication Date: Jan 24, 2023

Santa Clara County - CUPA Facilities List:

[CUPA SANTA CLARA](#)

A list of facilities associated with various Certified Unified Program Agency (CUPA) programs in Santa Clara County. This list is made available by Santa Clara County Department of Environmental Health (DEH). DEH's Hazardous Materials Compliance Division (HMCD) is CUPA for the county with jurisdiction within the Cities of Los Altos Hills, Monte Sereno, and Saratoga; and in all unincorporated areas of Santa Clara County, including Moffett Field, San Martin, and Stanford.

Government Publication Date: Mar 13, 2021

Santa Clara County - City of San Jose Hazardous Material Facilities:

[HAZ SANJOSE](#)

A list of facilities with hazardous materials, including underground and aboveground tanks. This list is maintained by the City of San Jose Fire Department.

Government Publication Date: Oct 15, 2020

Santa Clara County - Gilroy City CUPA Facilities List:

[CUPA GILROY](#)

The Gilroy City Fire Marshal's office maintains a list of CUPA Facilities located in Gilroy City.

Government Publication Date: Jun 3, 2022

Santa Clara County - Sunnyvale City CUPA List:

[CUPA SUNNYVALE](#)

A list of facilities associated with various Certified Unified Program Agency (CUPA) programs in Sunnyvale City, Santa Clara County. This list is made available by the Fire Prevention & Hazardous Materials division of the Sunnyvale Department of Public Safety.

Government Publication Date: Jun 10, 2022

Additional Environmental Record Sources

Federal

Facility Registry Service/Facility Index:

[FINDS/FRS](#)

The Facility Registry Service (FRS) is a centrally managed database that identifies facilities, sites, or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, and data collected from EPA's Central Data Exchange registrations and data management personnel. This list is made available by the Environmental Protection Agency (US EPA).

Government Publication Date: Aug 18, 2022

Toxics Release Inventory (TRI) Program:

[TRIS](#)

The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.

Government Publication Date: Aug 24, 2021

PFOA/PFOS Contaminated Sites:

[PFAS NPL](#)

List of National Priorities List (NPL) and related Superfund Alternative Agreement (SAA) sites where PFOA or PFOS contaminants have been found in water and/or soil. The site listing is provided by the Federal Environmental Protection Agency (EPA).

Government Publication Date: Dec 28, 2022

Federal Agency Locations with Known or Suspected PFAS Detections:

[PFAS FED SITES](#)

List of Federal agency locations with known or suspected detections of Per- and Polyfluoroalkyl Substances (PFAS), made available by the U.S. Environmental Protection Agency (EPA) in their PFAS Analytic Tools data. EPA outlines that these data are gathered from several federal entities, such as the Federal Superfund program, Department of Defense (DOD), National Aeronautics and Space Administration, Department of Transportation, and Department of Energy. Sites on this list do not necessarily reflect the source/s of contamination and detections do not indicate level of risk or human exposure at the site. Agricultural notifications in this data are limited to DOD sites only. At this time, the EPA is aware that this list is not comprehensive of all Federal agencies.

Government Publication Date: Jun 30, 2022

SSEHRI PFAS Contamination Sites:

[PFAS SSEHRI](#)

This PFAS Contamination Site Tracker database is compiled by the Social Science Environmental Health Research Institute (SSEHRI) at Northeastern University. According to the SSEHRI, the database records qualitative and quantitative data from each known site of PFAS contamination, including timeline of discovery, sources, levels, health impacts, community response, and government response. The goal of this database is to compile information and support public understanding of the rapidly unfolding issue of PFAS contamination. All data presented was extracted from government websites, news articles, or publicly available documents, and this is cited in the tracker. Disclaimer: The source conveys this database undergoes regular updates as new information becomes available, some sites may be missing and/or contain information that is incorrect or outdated, as well as their information represents all contamination sites SSEHRI is aware of, not all possible contamination sites. This data is not intended to be used for legal purposes. Limited location details are available with this data. Access the following for the most current informations <https://pfasproject.com/pfas-contamination-site-tracker/>

Government Publication Date: Dec 12, 2019

National Response Center PFAS Spills:

[ERNS PFAS](#)

National Response Center (NRC) calls from 1990 to the most recent complete calendar year where there is indication of Aqueous Film Forming Foam (AFFF) usage. NRC calls may reference AFFF usage in the "Material Involved" or "Incident Description" fields. Data made available by the US Environmental Protection Agency (EPA). Disclaimer: dataset may include initial or misidentified incident data not yet validated or investigated by a federal/state response agency.

Government Publication Date: Feb 23, 2022

PFAS NPDES Discharge Monitoring:

[PFAS NPDES](#)

This list of National Pollutant Discharge Elimination System (NPDES) permitted facilities with required monitoring for Per- and Polyfluoroalkyl (PFAS) Substances is made available via the U.S. Environmental Protection Agency (EPA)'s PFAS Analytic Tools. Any point-source wastewater discharger to waters of the United States must have a NPDES permit, which defines a set of parameters for pollutants and monitoring to ensure that the discharge does not degrade water quality or impair human health. This list includes NPDES permitted facilities associated with permits that monitor for Per- and Polyfluoroalkyl Substances (PFAS), limited to the years 2007 - present. EPA further advises the following regarding these data: currently, fewer than half of states have required PFAS monitoring for at least one of their permittees, and fewer states have established PFAS effluent limits for permittees. For states that may have required monitoring, some reporting and data transfer issues may exist on a state-by-state basis.

Government Publication Date: Feb 19, 2023

Perfluorinated Alkyl Substances (PFAS) from Toxic Release Inventory:

[PFAS TRI](#)

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a Per- or polyfluorinated alkyl substance (PFAS) included in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances. The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment.

Government Publication Date: Aug 24, 2021

Perfluorinated Alkyl Substances (PFAS) Water Quality:

[PFAS WATER](#)

The Water Quality Portal (WQP) is a cooperative service sponsored by the United States Geological Survey (USGS), the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC). This listing includes records from the Water Quality Portal where the characteristic (environmental measurement) is in the Environmental Protection Agency (EPA)'s consolidated Master List of PFAS Substances.

Government Publication Date: Jul 20, 2020

PFAS TSCA Manufacture and Import Facilities:

[PFAS TSCA](#)

The US Environmental Protection Agency (EPA) issued the Chemical Data Reporting (CDR) Rule under the Toxic Substances Control Act (TSCA) requiring facilities that manufacture or import chemical substances to report to EPA. This list is specific to TSCA Manufacture and Import Facilities with reported per- and poly-fluoroalkyl substances (PFAS). Data file made available by the EPA and includes CDR/Inventory Update Reporting data from 1998 up to 2020. EPA makes notes the following about these data: this data file includes production and importation data for chemicals identified in EPA's CompTox Chemicals Dashboard list of PFAS without explicit structures and list of PFAS structures in DSSTox. Note that some regulations have specific chemical structure requirements that define PFAS differently than the lists in EPA's CompTox Chemicals Dashboard. Reporting information on manufactured or imported chemical substance amounts should not be compared between facilities, as some companies claim Chemical Data Reporting Rule data fields for PFAS information as Confidential Business Information.

Government Publication Date: Jun 20, 2022

Hazardous Materials Information Reporting System:

[HMIRS](#)

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

Government Publication Date: Sep 1, 2020

National Clandestine Drug Labs:

[NCDL](#)

The U.S. Department of Justice ("the Department"), Drug Enforcement Administration (DEA), provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Aug 30, 2022

Toxic Substances Control Act:

[TSCA](#)

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

Government Publication Date: Apr 11, 2019

Hist TSCA:

[HIST TSCA](#)

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing:

[FTTS ADMIN](#)

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing:

[FTTS INSP](#)

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

Potentially Responsible Parties List:

[PRP](#)

Early in the site cleanup process, the U.S. Environmental Protection Agency (EPA) conducts a search to find the Potentially Responsible Parties (PRPs). The EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site. This listing contains PRPs, Noticed Parties, at sites in the EPA's Superfund Enterprise Management System (SEMS).

Government Publication Date: Jan 25, 2023

State Coalition for Remediation of Drycleaners Listing:

[SCRD DRYCLEANER](#)

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin. Since 2017, the SCRCD no longer maintains this data, refer to applicable state source data where available.

Government Publication Date: Nov 08, 2017

Integrated Compliance Information System (ICIS):

[ICIS](#)

The U.S. Environmental Protection Agency's Enforcement and Compliance History Online system incorporates data from the Integrated Compliance Information System - National Pollutant Discharge Elimination System (ICIS-NPDES). ICIS-NPDES is an information management system maintained by the Office of Compliance to track permit compliance and enforcement status of facilities regulated by the NPDES under the Clean Water Act. This data includes permit, inspection, violation and enforcement action information for applicable ICIS records.

Government Publication Date: Oct 15, 2022

Drycleaner Facilities:

[FED DRYCLEANERS](#)

A list of drycleaner facilities from Enforcement and Compliance History Online (ECHO) data as made available by the U.S. Environmental Protection Agency (EPA), sourced from the ECHO Exporter file. The EPA tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: Dec 11, 2022

Delisted Drycleaner Facilities:

DELISTED FED DRY

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

Government Publication Date: Dec 11, 2022

Formerly Used Defense Sites:

FUDS

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DOD) is responsible for an environmental restoration. The FUDS Annual Report to Congress (ARC) is published by the U.S. Army Corps of Engineers (USACE). This data is compiled from the USACE's Geospatial FUDS data layers and Homeland Infrastructure Foundation-Level Data (HIFLD) FUDS dataset.

Government Publication Date: Jul 12, 2022

Former Military Nike Missile Sites:

FORMER NIKE

This information was taken from report DRXTH-AS-IA-83A016 (Historical Overview of the Nike Missile System, 12/1984) which was performed by Environmental Science and Engineering, Inc. for the U.S. Army Toxic and Hazardous Materials Agency Assessment Division. The Nike system was deployed between 1954 and the mid-1970's. Among the substances used or stored on Nike sites were liquid missile fuel (JP-4); starter fluids (UDKH, aniline, and furfuryl alcohol); oxidizer (IRFNA); hydrocarbons (motor oil, hydraulic fluid, diesel fuel, gasoline, heating oil); solvents (carbon tetrachloride, trichloroethylene, trichloroethane, stoddard solvent); and battery electrolyte. The quantities of material a disposed of and procedures for disposal are not documented in published reports. Virtually all information concerning the potential for contamination at Nike sites is confined to personnel who were assigned to Nike sites. During deactivation most hardware was shipped to depot-level supply points. There were reportedly instances where excess materials were disposed of on or near the site itself at closure. There was reportedly no routine site decontamination.

Government Publication Date: Dec 2, 1984

PHMSA Pipeline Safety Flagged Incidents:

PIPELINE INCIDENT

A list of flagged pipeline incidents made available by the U.S. Department of Transportation (US DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA regulations require incident and accident reports for five different pipeline system types.

Government Publication Date: Mar 31, 2021

Material Licensing Tracking System (MLTS):

MLTS

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: May 11, 2021

Historic Material Licensing Tracking System (MLTS) sites:

HIST MLTS

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Mines Master Index File:

MINES

The Master Index File (MIF) is provided by the United State Department of Labor, Mine Safety and Health Administration (MSHA). This file, which was originally created in the 1970's, contained many Mine-IDs that were invalid. MSHA removes invalid IDs from the MIF upon discovery. MSHA applicable data includes the following: all Coal and Metal/Non-Metal mines under MSHA's jurisdiction since 1/1/1970; mine addresses for all mines in the database except for Abandoned mines prior to 1998 from MSHA's legacy system (addresses may or may not correspond with the physical location of the mine itself); violations that have been assessed penalties as a result of MSHA inspections beginning on 1/1/2000; and violations issued as a result of MSHA inspections conducted beginning on 1/1/2000.

Government Publication Date: Nov 7, 2022

Surface Mining Control and Reclamation Act Sites:

SMCRA

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by the Office of Surface Mining Reclamation and Enforcement (OSMRE) to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of Abandoned Mine Land (AML) impacts, as well as information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

Mineral Resource Data System:

[MRDS](#)

The Mineral Resource Data System (MRDS) is a collection of reports describing metallic and nonmetallic mineral resources throughout the world. Included are deposit name, location, commodity, deposit description, geologic characteristics, production, reserves, resources, and references. This database contains the records previously provided in the Mineral Resource Data System (MRDS) of USGS and the Mineral Availability System/Mineral Industry Locator System (MAS/MILS) originated in the U.S. Bureau of Mines, which is now part of USGS. The USGS has ceased systematic updates of the MRDS database with their focus more recently on deposits of critical minerals while providing a well-documented baseline of historical mine locations from USGS topographic maps.

Government Publication Date: Mar 15, 2016

DOE Legacy Management Sites:

[LM SITES](#)

The U.S. Department of Energy (DOE) Office of Legacy Management (LM) currently manages radioactive and chemical waste, environmental contamination, and hazardous material at over 100 sites across the U.S. The LM manages sites with diverse regulatory drivers (statutes or programs that direct cleanup and management requirements at DOE sites) or as part of internal DOE or congressionally-recognized programs, such as but not limited to: Formerly Utilized Sites Remedial Action Program (FUSRAP), Uranium Mill Tailings Radiation Control Act (UMTRCA Title I, Title II), Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Resource Conservation and Recovery Act (RCRA), Decontamination and Decommissioning (D&D), Nuclear Waste Policy Act (NWPA). This site listing includes data exported from the DOE Office of LM's Geospatial Environmental Mapping System (GEMS). GEMS Data disclaimer: The DOE Office of LM makes no representation or warranty, expressed or implied, regarding the use, accuracy, availability, or completeness of the data presented herein.

Government Publication Date: Dec 1, 2022

Alternative Fueling Stations:

[ALT FUELS](#)

This list of alternative fueling stations is sourced from the Alternative Fuels Data Center (AFDC). The U.S. Department of Energy's Office of Energy Efficiency & Renewable Energy launched the AFDC in 1991 as a repository for alternative fuel vehicle performance data, which provides a wealth of information and data on alternative and renewable fuels, advanced vehicles, fuel-saving strategies, and emerging transportation technologies. The data includes Biodiesel (B20 and above), Compressed Natural Gas (CNG), Electric, Ethanol (E85), Hydrogen, Liquefied Natural Gas (LNG), Propane (LPG) fuel type locations.

Government Publication Date: Jan 3, 2023

Superfunds Consent Decrees:

[CONSENT DECREES](#)

This list of Superfund consent decrees is provided by the Department of Justice, Environment & Natural Resources Division (ENRD) through a Freedom of Information Act (FOIA) applicable file. This listing includes Consent Decrees for CERCLA or Superfund Sites filed and/or as proposed within the ENRD's Case Management System (CMS) since 2010. CMS may not reflect the latest developments in a case nor can the agency guarantee the accuracy of the data. ENRD Disclaimer: Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA; response is limited to those records that are subject to the requirements of the FOIA; however, this should not be taken as an indication that excluded records do, or do not, exist.

Government Publication Date: Jan 11, 2023

Air Facility System:

[AFS](#)

This EPA retired Air Facility System (AFS) dataset contains emissions, compliance, and enforcement data on stationary sources of air pollution. Regulated sources cover a wide spectrum; from large industrial facilities to relatively small operations such as dry cleaners. AFS does not contain data on facilities that are solely asbestos demolition and/or renovation contractors, or landfills. ECHO Clean Air Act data from AFS are frozen and reflect data as of October 17, 2014; the EPA retired this system for Clean Air Act stationary sources and transitioned to ICIS-Air.

Government Publication Date: Oct 17, 2014

Registered Pesticide Establishments:

[SSTS](#)

List of active EPA-registered foreign and domestic pesticide-producing and device-producing establishments based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that facilities producing pesticides, active ingredients, or devices be registered. The list of establishments is made available by the EPA.

Government Publication Date: Mar 30, 2022

Polychlorinated Biphenyl (PCB) Transformers:

[PCBT](#)

Locations of Transformers Containing Polychlorinated Biphenyls (PCBs) registered with the United States Environmental Protection Agency. PCB transformer owners must register their transformer(s) with EPA. Although not required, PCB transformer owners who have removed and properly disposed of a registered PCB transformer may notify EPA to have their PCB transformer de-registered. Data made available by EPA.

Government Publication Date: Oct 15, 2019

Polychlorinated Biphenyl (PCB) Notifiers:

[PCB](#)

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: Nov 3, 2022

State

Dry Cleaning Facilities:

[DRYCLEANERS](#)

A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial, linen supply, commercial laundry, dry cleaning and pressing machines - Coin Operated Laundry and Dry Cleaning. This is provided by the Department of Toxic Substance Control.

Government Publication Date: Dec 20, 2021

Delisted Drycleaners:

[DELISTED DRYCLEANERS](#)

Sites removed from the list of drycleaner related facilities that have EPA ID numbers, made available by the California Department of Toxic Substance Control.

Government Publication Date: Jan 31, 2022

Non-Toxic Dry Cleaning Incentive Program:

[DRYC GRANT](#)

A list of grant recipients of the Non-Toxic Dry Cleaning Incentive Program made available by the California Air Resources Board (CARB). The program provides grants to eligible dry cleaning businesses to assist them in transitioning away from PERC machines to alternative non-toxic and non-smog forming technologies.

Government Publication Date: Jan 31, 2022

Per- and Polyfluoroalkyl Substances (PFAS):

[PFAS](#)

List of FAA Part 139 Airports, Selected Landfills, and Chrome Plating Facilities from California Water Boards PFAS Investigations, as well as sites from the State Water Resources Control Board (SWRCB)'s GeoTracker at which one or more of the potential contaminants of concern are in the PFAS Master List of PFAS Substances made available by the Environmental Protection Agency (US EPA).

Government Publication Date: Feb 15, 2022

PFOA/PFOS Groundwater:

[PFAS GW](#)

A list of water wells from the Groundwater Ambient Monitoring and Assessment Program (GAMA) Groundwater Information System with the groundwater chemical perfluorooctanoic acid (PFOA) (NL = 0.014 UG/L) or perfluorooctanoic sulfonate (PFOS) (NL = 0.013 UG/L). The GAMA Groundwater Information System search is made available by California Water Boards.

Government Publication Date: Feb 4, 2023

Hazardous Waste and Substances Site List - Site Cleanup:

[HWSS CLEANUP](#)

The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements in providing information about the location of hazardous materials release sites. This list is published by California Department of Toxic Substance Control.

Government Publication Date: Nov 2, 2022

Toxic Pit Cleanup Act Sites:

[TOXIC PITS](#)

The Toxic Pits Cleanup Act (TPCA) list identifies sites suspected of containing hazardous substances where cleanup has not yet been completed. This list was maintained by the State Water Resources Control Board (SWRCB), is not longer maintained, and updates are not planned.

Government Publication Date: Jul 1, 1995

List of Hazardous Waste Facilities Subject to Corrective Action:

[DTSC HWF](#)

This is a list of hazardous waste facilities identified in Health and Safety Code (HSC) § 25187.5. These facilities are those where Department of Toxic Substances Control (DTSC) has taken or contracted for corrective action because a facility owner/operator has failed to comply with a date for taking corrective action in an order issued under HSC § 25187, or because DTSC determined that immediate corrective action was necessary to abate an imminent or substantial endangerment.

Government Publication Date: Jul 18, 2016

EnviroStor Inspection, Compliance, and Enforcement:

[INSP COMP ENF](#)

A list of permitted facilities with inspections and enforcements tracked by the California Department of Toxic Substance Control's (DTSC) EnviroStor data management system.

Government Publication Date: Oct 24, 2022

School Property Evaluation Program Sites:

SCH

A list of sites registered with The Department of Toxic Substances Control (DTSC) School Property Evaluation and Cleanup (SPEC) Division. SPEC is responsible for assessing, investigating and cleaning up proposed school sites. The Division ensures that selected properties are free of contamination or, if the properties were previously contaminated, that they have been cleaned up to a level that protects the students and staff who will occupy the new school.

Government Publication Date: Feb 6, 2023

California Hazardous Material Incident Report System (CHMIRS):

CHMIRS

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS). This list has been made available by the California Office of Emergency Services (OES).

Government Publication Date: Nov 18, 2022

Historical California Hazardous Material Incident Report System (CHMIRS):

HIST CHMIRS

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS) prior to 1993. This list has been made available by the California Office of Emergency Services (OES).

Government Publication Date: Jan 1, 1993

Handlers from Hazardous Waste Manifest Data:

HAZNET

A list of handlers not otherwise classified as Treatment, Storage, Disposal facilities (TSDF) or generators from the facilities and manifests data made available by the California Department of Toxic Substances Control (DTSC) in their Hazardous Waste Tracking System (HWTS).

Government Publication Date: Oct 24, 2016

Generators from Hazardous Waste Manifest Data:

HAZ GEN

List of handlers listed as having generated waste from the facilities and manifests data made available by the California Department of Toxic Substances Control (DTSC) in their Hazardous Waste Tracking System (HWTS).

Government Publication Date: Dec 31, 2017

TSDF from Hazardous Waste Manifest Data:

HAZ TSD

List of Treatment, Storage, and Disposal Facilities (TSDFs) from the facilities and manifests data made available by the California Department of Toxic Substances Control (DTSC) in their Hazardous Waste Tracking System (HWTS).

Government Publication Date: Dec 31, 2017

Historical Hazardous Waste Manifest Data:

HIST MANIFEST

A list of historic hazardous waste manifests received by the Department of Toxic Substances Control (DTSC) from year the 1980 to 1992. The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

Government Publication Date: Dec 31, 1992

DTSC Registered Hazardous Waste Transporters:

HW TRANSPORT

The California Department of Toxic Substances Control (DTSC) maintains this list of Registered Hazardous Waste Transporters.

Government Publication Date: Mar 23, 2023

Registered Waste Tire Haulers:

WASTE TIRE

This list of registered waste tire haulers is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Oct 11, 2022

California Medical Waste Management Program Facility List:

MEDICAL WASTE

This list of Medical Waste Management Program Facilities is maintained by the California Department of Public Health. The Medical Waste Management Program (MWMP) regulates the generation, handling, storage, treatment, and disposal of medical waste by providing oversight for the implementation of the Medical Waste Management Act (MWMA). The MWMP permits and inspects all medical waste off-site treatment facilities, medical waste transporters, and medical waste transfer stations. This list contains transporters, treatment, and transfer facilities.

Government Publication Date: Jan 9, 2023

Historical Cortese List:

[HIST CORTESE](#)

List of sites which were once included on the Cortese list. The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements for providing information about the location of hazardous sites.

Government Publication Date: Nov 13, 2008

Cease and Desist Orders and Cleanup and Abatement Orders:

[CDO/CAO](#)

The California Environment Protection Agency "Cortese List" of active Cease and Desist Orders (CDO) and Cleanup and Abatement Orders (CAO). This list contains many CDOs and CAOs that do NOT concern the discharge of wastes that are hazardous materials. Many of the listed orders concern, as examples, discharges of domestic sewage, food processing wastes, or sediment that do not contain hazardous materials, but the Water Boards' database does not distinguish between these types of orders.

Government Publication Date: Dec 6, 2021

California Environmental Reporting System (CERS) Hazardous Waste Sites:

[CERS HAZ](#)

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

Government Publication Date: Feb 8, 2023

Delisted Environmental Reporting System (CERS) Hazardous Waste Sites:

[DELISTED HAZ](#)

This database contains a list of sites that were removed from the California Environmental Protection Agency (CalEPA) in the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator.

Government Publication Date: Nov 29, 2018

Sites in GeoTracker:

[GEOTRACKER](#)

GeoTracker is the State Water Resource Control Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater. This is a list of sites in GeoTracker that aren't otherwise categorized as LUST, Land Disposal Sites (LDS), Cleanup Sites, or sites having Waste Discharge Requirements (WDR). This listing includes program types such as Underground Injection Control (UIC), Confined Animal Facilities (CAF), Irrigated Lands Regulatory Program, plans, and non-case information.

Government Publication Date: Feb 27, 2023

Mines Listing:

[MINE](#)

This list includes mine site locations extracted from the Mines Online database, maintained by the California Department of Conservation. Mines Online (MOL) is an interactive web map designed with GIS features that provide information such as the mine name, mine status, commodity sold, location, and other mine specific data. Please note: Mine location information is provided to assist experts in determining the location of mine operators in accordance with California Civil Code section 1103.4 and reflects information reported by mine operators in annual reports provided under Public Resources Code section 2207. While the Division of Mine Reclamation (DMR) attempts to populate MOL with accurate location information, the DMR cannot guarantee the accuracy of operator reported location information.

Government Publication Date: Dec 19, 2022

Recorded Environmental Cleanup Liens:

[LIEN](#)

The California Department of Toxic Substance Control (DTSC) maintains this list of liens placed upon real properties. A lien is utilized by the DTSC to obtain reimbursement from responsible parties for costs associated with the remediation of contaminated properties.

Government Publication Date: Aug 3, 2022

Waste Discharge Requirements:

[WASTE DISCHG](#)

List of sites in California State Water Resources Control Board (SWRCB) Waste Discharge Requirements (WDRs) Program in California, made available by the SWRCB via GeoTracker. The WDR program regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

Government Publication Date: Feb 27, 2023

Toxic Pollutant Emissions Facilities:

[EMISSIONS](#)

A list of criteria and toxic pollutant emissions data for facilities in California made available by the California Environmental Protection Agency - Air Resources Board (ARB). Risk data may be based on previous inventory submittals. The toxics data are submitted to the ARB by the local air districts as requirement of the Air Toxics "Hot Spots" Program. This program requires emission inventory updates every four years.

Government Publication Date: Dec 31, 2020

Clandestine Drug Lab Sites:

[CDL](#)

The Department of Toxic Substances Control (DTSC) maintains a listing of drug lab sites. DTSC is responsible for removal and disposal of hazardous substances discovered by law enforcement officials while investigating illegal/ clandestine drug laboratories.

Government Publication Date: Jan 19, 2021

Tribal

No Tribal additional environmental record sources available for this State.

County

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

RE: CITY DIRECTORY RESEARCH
East Julian Street
San Jose, CA 95116

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:

1200-1400 of E Julian St
all of West Ct

Summary.....	18
Detail Report.....	46
Radon Information.....	613
Appendix.....	614
Liability Notice.....	616

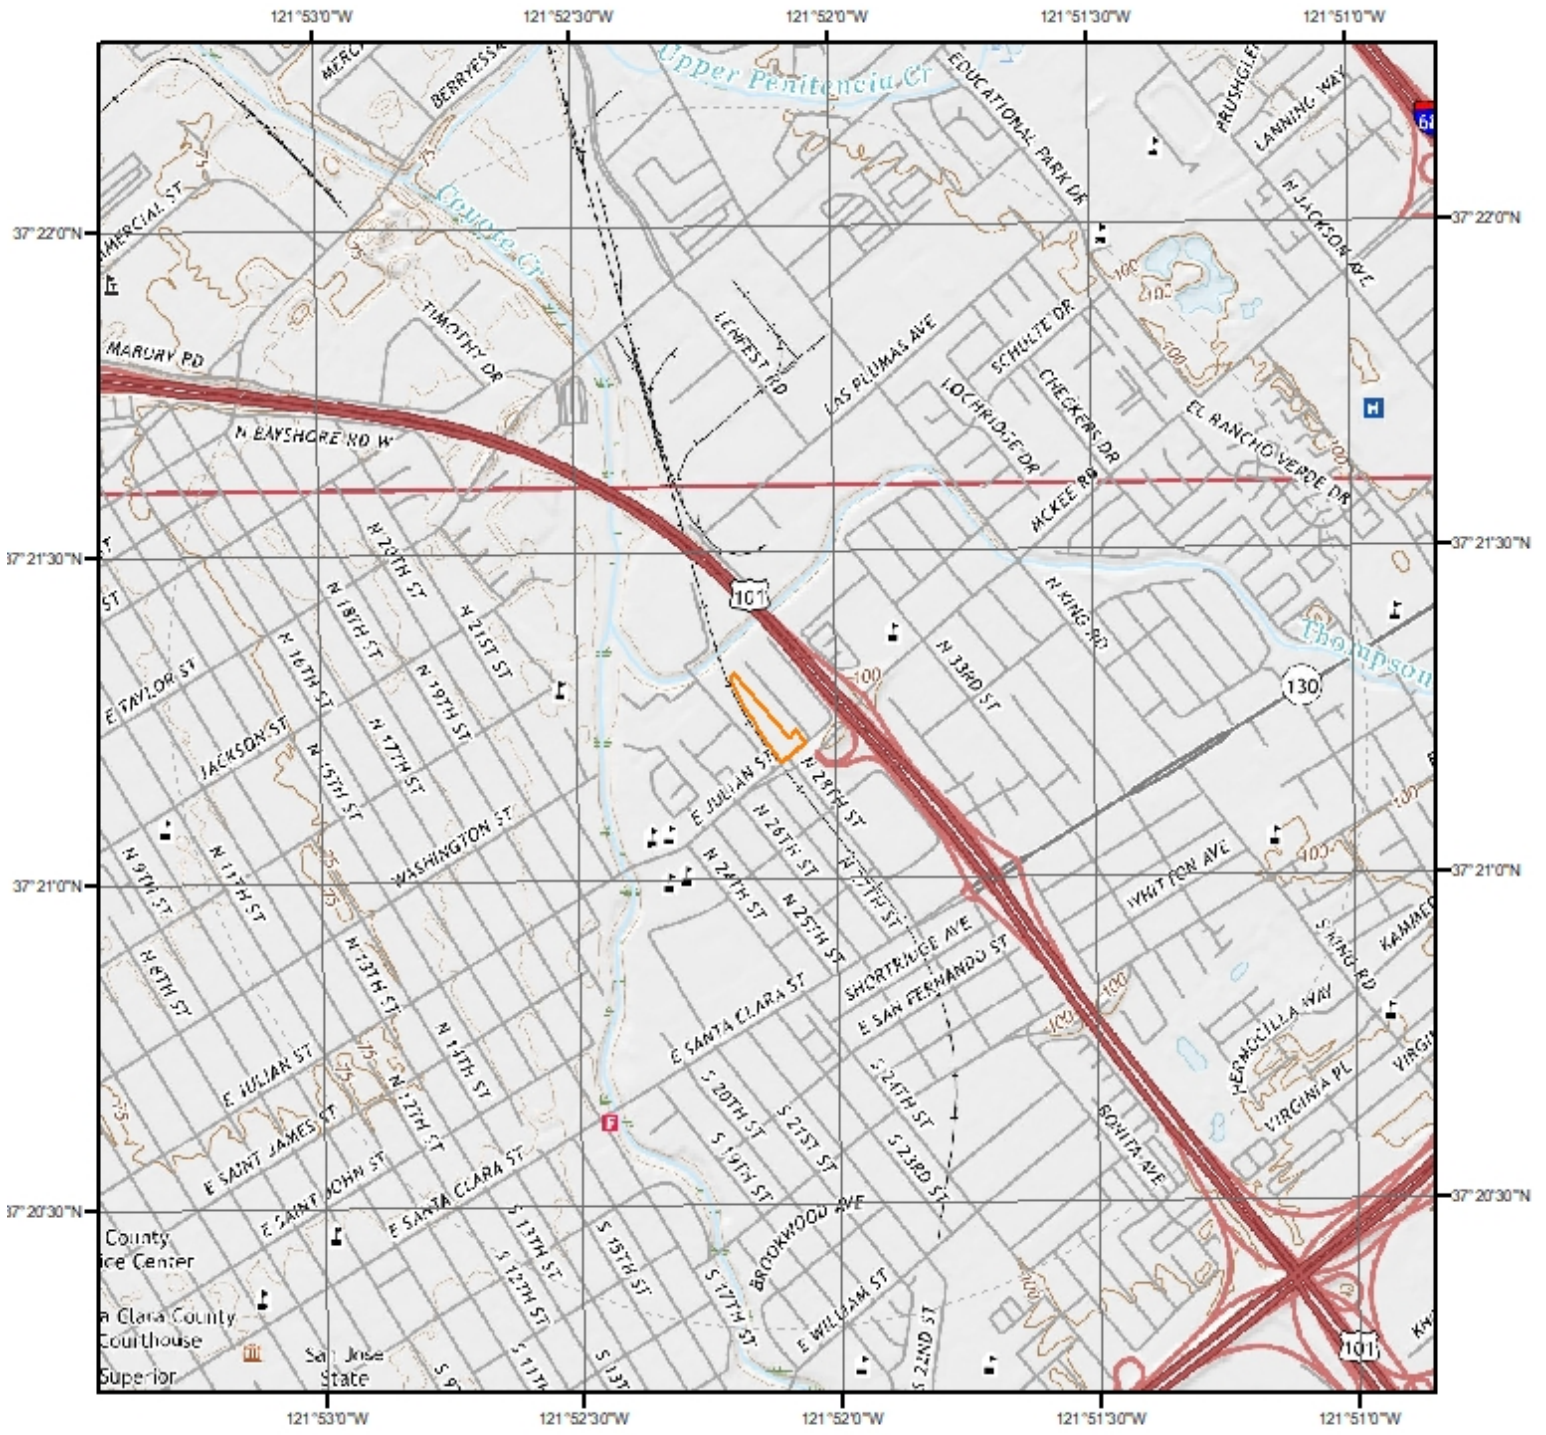

The ERIS **Physical Setting Report - PSR** provides comprehensive information about the physical setting around a site and includes a complete overview of topography and surface topology, in addition to hydrologic, geologic and soil characteristics. The location and detailed attributes of oil and gas wells, water wells, public water systems and radon are also included for review.

The compilation of both physical characteristics of a site and additional attribute data is useful in assessing the impact of migration of contaminants and subsequent impact on soils and groundwater.

Disclaimer

This Report does not provide a full environmental evaluation for the site or adjacent properties. Please see the terms and disclaimer at the end of the Report for greater detail.

Topographic Information

Current USGS Topo (2021)

Quadrangle(s): San Jose West, CA; San Jose East, CA

Source: USGS 7.5 Minute Topographic Map

Topographic Information

The previous topographic map(s) are created by seamlessly merging and cutting current USGS topographic data. Below are shaded relief map(s), derived from USGS elevation data to show surrounding topography in further detail.

Topographic information at project property:

Elevation: 87.28 ft
Slope Direction: N

Hydrologic Information

Source: Esri, Maxar, Earthstar Geographics, and the GIS User Community

Wetland

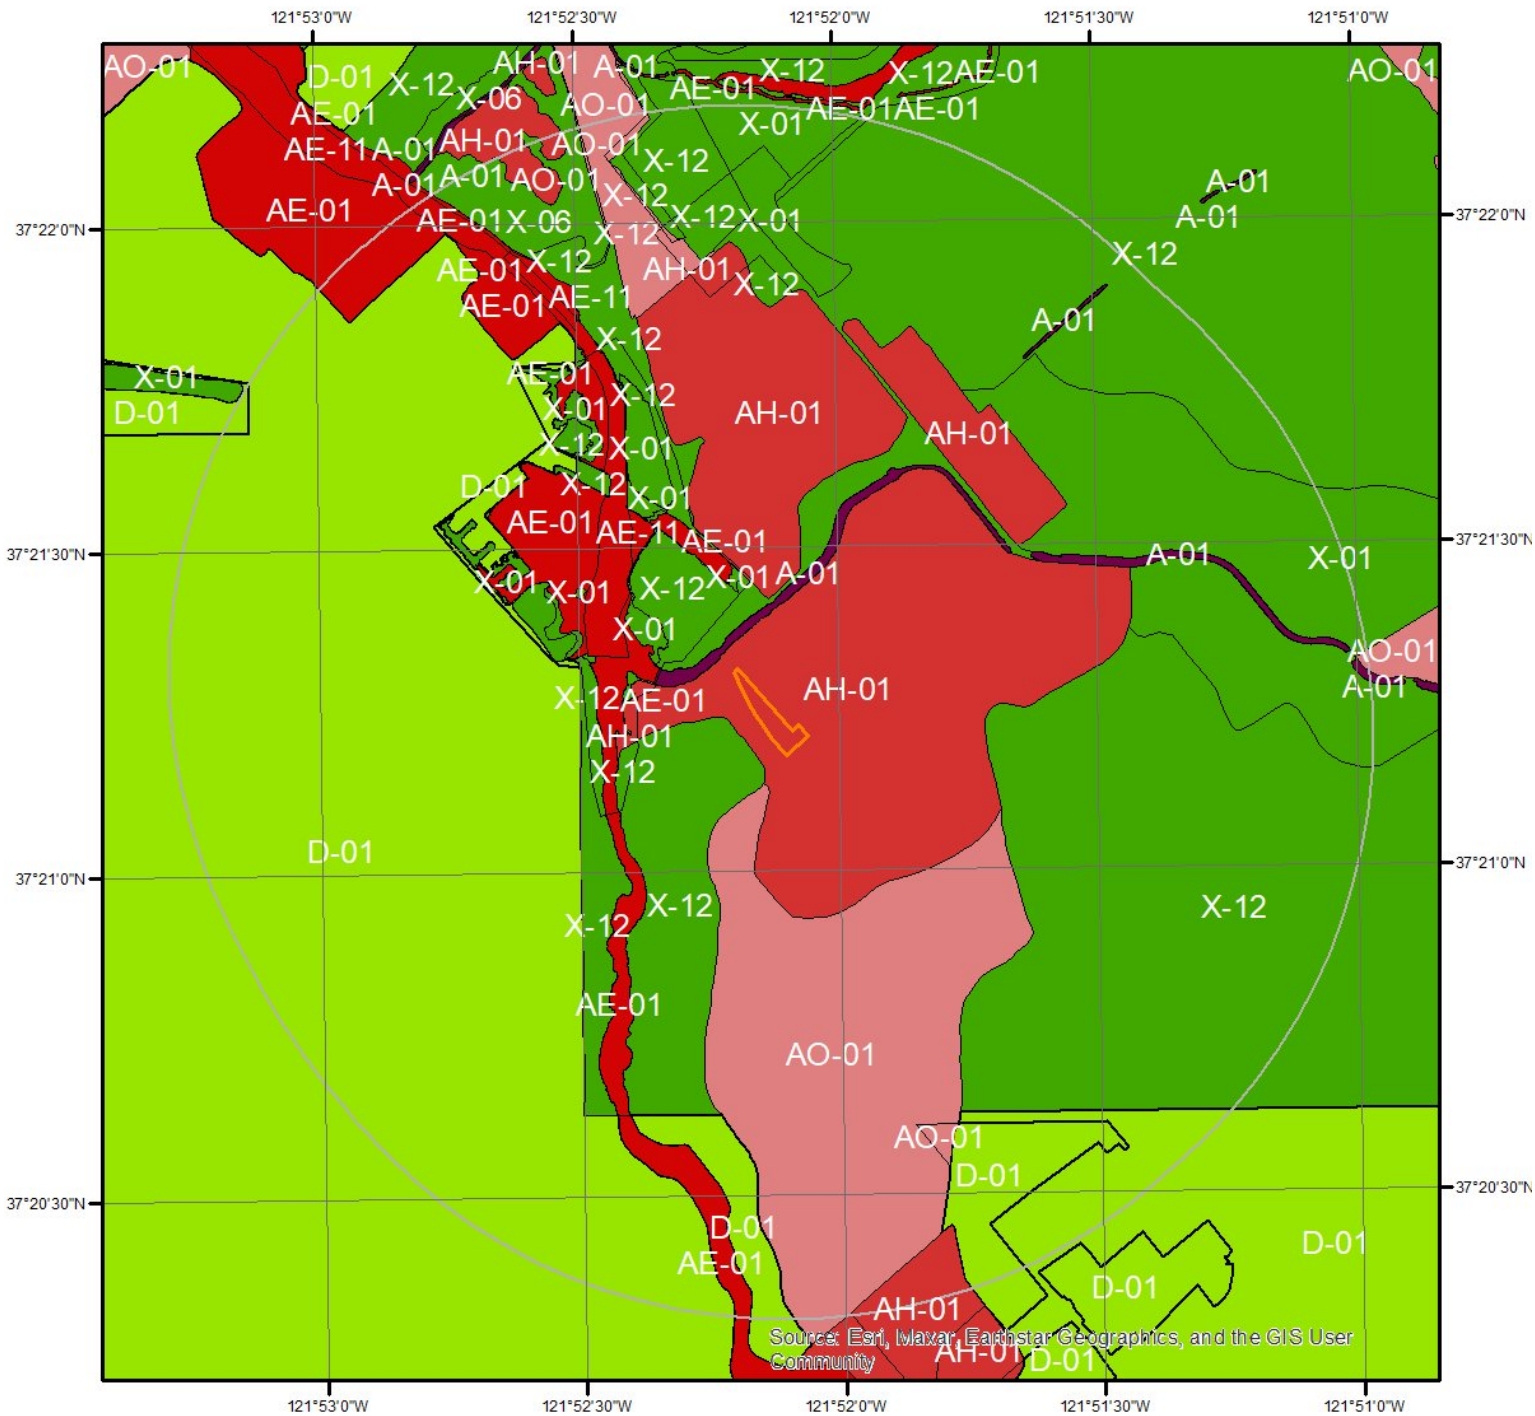

This map shows wetland existence using data from US Fish & Wildlife. Data coverage is shown to the right. Gray indicates no data available in the area.

Geologic Information

Geologic Units

This maps shows geologic units in the area. Please refer to the report for detailed descriptions.

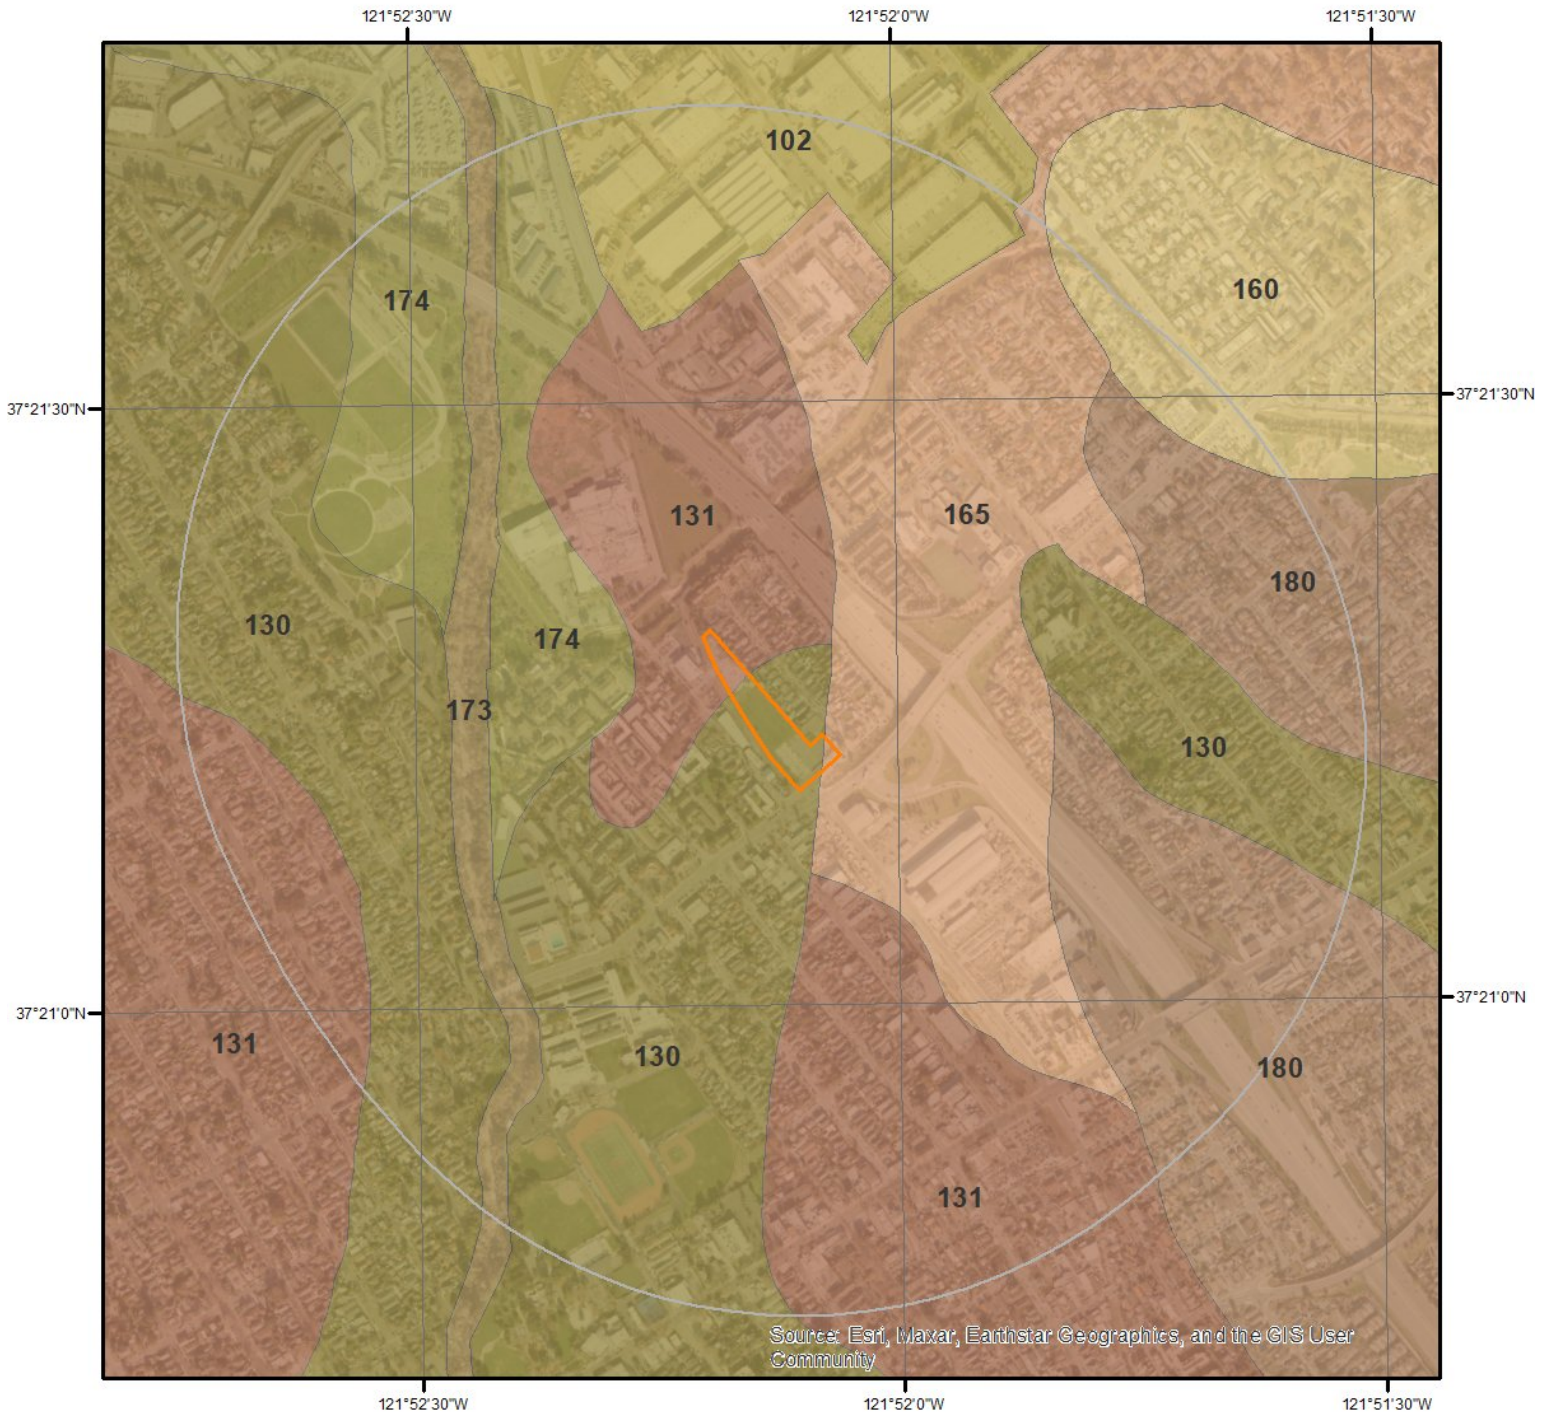

Geologic Information

The previous page shows USGS geology information. Detailed information about each unit is provided below.

Geologic Unit Q

Unit Name:	Quaternary alluvium and marine deposits
Unit Age:	Pliocene to Holocene
Primary Rock Type:	alluvium
Secondary Rock Type:	terrace
Unit Description:	Alluvium, lake, playa, and terrace deposits; unconsolidated and semi-consolidated. Mostly nonmarine, but includes marine deposits near the coast.

Soil Information

SSURGO Soils

This maps shows SSURGO soil units around the target property. Please refer to the report for detailed soil descriptions.

Soil Information

The previous page shows a soil map using SSURGO data from USDA Natural Resources Conservation Service. Detailed information about each unit is provided below.

Map Unit 102 (3.21%)

Map Unit Name: Urban land, 0 to 2 percent slopes, alluvial fans

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant:

Hydrologic Group - Dominant:

Major components are printed below

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 102 - Urban land, 0 to 2 percent slopes, alluvial fans

Component: Urban land (98%)

Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Xerorthents (2%)

Generated brief soil descriptions are created for major components. The Xerorthents soil is a minor component.

Map Unit 130 (10.45%)

Map Unit Name: Urban land-Still complex, 0 to 2 percent slopes

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant:

Hydrologic Group - Dominant:

Major components are printed below

Still(25%)

horizon A1(0cm to 4cm)	Sandy loam
horizon A2(4cm to 30cm)	Very fine sandy loam
horizon Bw1(30cm to 50cm)	Silt loam
horizon Bw2(50cm to 83cm)	Silt loam
horizon 2Ab1(83cm to 95cm)	Loam
horizon 2Ab2(95cm to 130cm)	Loam
horizon 2Bwb1(130cm to 158cm)	Loam
horizon 2Bwb2(158cm to 182cm)	Loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 130 - Urban land-Still complex, 0 to 2 percent slopes

Component: Urban land (70%)

Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Still (25%)

The Still component makes up 25 percent of the map unit. Slopes are 0 to 2 percent. This component is on alluvial fans, alluvial plains, flood plains. The parent material consists of alluvium derived from metamorphic and sedimentary rock and/or alluvium derived from metavolcanics. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water

Soil Information

movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is moderate. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 2 percent. Nonirrigated land capability classification is 3s. Irrigated land capability classification is 1 This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface.

Component: Elpaloalto (5%)

Generated brief soil descriptions are created for major components. The Elpaloalto soil is a minor component.

Map Unit 131 (57.25%)

Map Unit Name: Urban land-Elpaloalto complex, 0 to 2 percent slopes

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant:

Hydrologic Group - Dominant:

Major components are printed below

Elpaloalto(23%)

horizon Oi(0cm to 21cm)	Slightly decomposed plant material
horizon A(21cm to 42cm)	Clay loam
horizon Bw1(42cm to 65cm)	Silty clay loam
horizon Bw2(65cm to 90cm)	Silty clay loam
horizon Bw3(90cm to 120cm)	Silty clay loam
horizon Bw4(120cm to 181cm)	Silty clay loam
horizon C(181cm to 240cm)	Silty clay loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 131 - Urban land-Elpaloalto complex, 0 to 2 percent slopes

Component: Urban land (70%)

Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Elpaloalto (23%)

The Elpaloalto component makes up 23 percent of the map unit. Slopes are 0 to 2 percent. This component is on alluvial plains, alluvial fans. The parent material consists of alluvium derived from metamorphic and sedimentary rock and/or alluvium derived from metavolcanics. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is very high. Shrink-swell potential is moderate. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 75 percent. Below this thin organic horizon the organic matter content is about 2 percent. Nonirrigated land capability classification is 3s. Irrigated land capability classification is 1 This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface.

Component: Still (5%)

Generated brief soil descriptions are created for major components. The Still soil is a minor component.

Component: Hangerone (2%)

Generated brief soil descriptions are created for major components. The Hangerone soil is a minor component.

Map Unit 160 (4.99%)

Map Unit Name: Urbanland-Clear Lake complex, 0 to 2 percent slopes

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant:

Hydrologic Group - Dominant:

Soil Information

Major components are printed below

Clear Lake(25%)

horizon Ap1(0cm to 23cm)	Silty clay
horizon Ap2(23cm to 36cm)	Silty clay
horizon Bw(36cm to 82cm)	Silty clay
horizon Bss(82cm to 127cm)	Silty clay
horizon C(127cm to 167cm)	Silty clay

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 160 - Urbanland-Clear Lake complex, 0 to 2 percent slopes

Component: Urban land (65%)

Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Clear Lake (25%)

The Clear Lake component makes up 25 percent of the map unit. Slopes are 0 to 2 percent. This component is on basin floors, basins. The parent material consists of alluvium derived from metamorphic and sedimentary rock and/or alluvium derived from metavolcanics. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is poorly drained. Water movement in the most restrictive layer is moderately low. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is very high. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 2 percent. Nonirrigated land capability classification is 3s. Irrigated land capability classification is 2s. This soil meets hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 2 percent. There are no saline horizons within 30 inches of the soil surface.

Component: Hangerone (5%)

Generated brief soil descriptions are created for major components. The Hangerone soil is a minor component.

Component: Campbell (5%)

Generated brief soil descriptions are created for major components. The Campbell soil is a minor component.

Map Unit 165 (2.83%)

Map Unit Name: Urbanland-Campbell complex, 0 to 2 percent slopes, protected

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant:

Hydrologic Group - Dominant:

Major components are printed below

Campbell(20%)

horizon Ap(0cm to 25cm)	Silt loam
horizon A1(25cm to 60cm)	Silt loam
horizon A2(60cm to 80cm)	Silty clay loam
horizon A3(80cm to 97cm)	Silty clay loam
horizon 2A(97cm to 130cm)	Silty clay loam
horizon 2Bw1(130cm to 180cm)	Silty clay
horizon 2Bw2(180cm to 200cm)	Silty clay

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 165 - Urbanland-Campbell complex, 0 to 2 percent slopes, protected

Component: Urban land (70%)

Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Soil Information

Component: Campbell (20%)

The Campbell, protected component makes up 20 percent of the map unit. Slopes are 0 to 2 percent. This component is on alluvial fans, alluvial plains. The parent material consists of alluvium derived from metamorphic and sedimentary rock and/or alluvium derived from metavolcanics. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is moderately well drained. Water movement in the most restrictive layer is moderately low. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is high. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 3 percent. Nonirrigated land capability classification is 3s. Irrigated land capability classification is 1 This soil does not meet hydric criteria. The soil has a very slightly saline horizon within 30 inches of the soil surface.

Component: Clear Lake (5%)

Generated brief soil descriptions are created for major soil components. The Clear Lake soil is a minor component.

Component: Newpark (5%)

Generated brief soil descriptions are created for major soil components. The Newpark soil is a minor component.

Map Unit 173 (7.32%)

Map Unit Name:	Caninecreek-Elder complex, 0 to 2 percent slopes, rarely flooded
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.

Major components are printed below

Caninecreek(50%)

horizon A1(0cm to 18cm)	Fine sandy loam
horizon A2(18cm to 36cm)	Fine sandy loam
horizon A3(36cm to 47cm)	Fine sandy loam
horizon 2Ab(47cm to 70cm)	Fine sandy loam
horizon 2Cb1(70cm to 91cm)	Fine sandy loam
horizon 2Cb2(91cm to 118cm)	Fine sandy loam
horizon 3C(118cm to 150cm)	Extremely gravelly sandy loam

Elder(40%)

horizon Oi(0cm to 2cm)	Slightly decomposed plant material
horizon A1(2cm to 12cm)	Fine sandy loam
horizon A2(12cm to 46cm)	Fine sandy loam
horizon A3(46cm to 80cm)	Fine sandy loam
horizon A4(80cm to 130cm)	Fine sandy loam
horizon Ab1(130cm to 140cm)	Fine sandy loam
horizon Ab2(140cm to 170cm)	Fine sandy loam
horizon Ab3(170cm to 215cm)	Fine sandy loam
horizon Bw(215cm to 220cm)	Fine sandy loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 173 - Caninecreek-Elder complex, 0 to 2 percent slopes, rarely flooded

Component: Caninecreek (50%)

The Caninecreek, gravelly substratum, rarely flooded component makes up 50 percent of the map unit. Slopes are 0 to 2 percent. This component is on alluvial plains, streams. The parent material consists of alluvium derived from metamorphic and sedimentary rock and/or alluvium derived from metavolcanics. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is moderate. Shrink-swell potential is low. This soil is rarely flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 2 percent. Nonirrigated land capability classification is 3s. Irrigated land capability classification is 2s. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface.

Soil Information

Component: Elder (40%)

The Elder, rarely flooded component makes up 40 percent of the map unit. Slopes are 0 to 2 percent. This component is on alluvial plains, streams. The parent material consists of alluvium derived from metamorphic and sedimentary rock and/or alluvium derived from metavolcanics. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat excessively drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is moderate. Shrink-swell potential is low. This soil is rarely flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 75 percent. Below this thin organic horizon the organic matter content is about 2 percent. Nonirrigated land capability classification is 3s. Irrigated land capability classification is 1 This soil does not meet hydric criteria.

Component: Riverwash (5%)

Generated brief soil descriptions are created for major components. The Riverwash soil is a minor component.

Component: Water (5%)

Generated brief soil descriptions are created for major components. The Water soil is a minor component.

horizon C1(132cm to 160cm)	Fine sandy loam
horizon C2(160cm to 200cm)	Fine sandy loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 180 - Urbanland-Newpark complex, 0 to 2 percent slopes

Component: Urban land (70%)

Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Newpark (20%)

The Newpark component makes up 20 percent of the map unit. Slopes are 0 to 2 percent. This component is on alluvial fans, alluvial plains. The parent material consists of alluvium derived from metamorphic and sedimentary rock and/or alluvium derived from metavolcanics. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is moderately well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is moderate. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 2 percent. Nonirrigated land capability classification is 3s. Irrigated land capability classification is 1 This soil does not meet hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 5 percent. There are no saline horizons within 30 inches of the soil surface.

Component: Still (5%)

Generated brief soil descriptions are created for major components. The Still soil is a minor component.

Component: Elpaloalto (5%)

Generated brief soil descriptions are created for major components. The Elpaloalto soil is a minor component.

Radon Information

This section lists any relevant radon information found for the target property.

Federal EPA Radon Zone for SANTA CLARA County: **2**

Zone 1: Counties with predicted average indoor radon screening levels greater than 4 pCi/L

Zone 2: Counties with predicted average indoor radon screening levels from 2 to 4 pCi/L

Zone 3: Counties with predicted average indoor radon screening levels less than 2 pCi/L

Federal Area Radon Information for SANTA CLARA County

No Measures/Homes:	77
Geometric Mean:	0.7
Arithmetic Mean:	1.4
Median:	1
Standard Deviation:	1.9
Maximum:	9.2
% >4 pCi/L:	9
% >20 pCi/L:	0
Notes on Data Table:	TABLE 1. Screening indoor radon data from the EPA/State Residential Radon Survey of California conducted during 1989-90. Data represent 2-7 day charcoal canister measurements from the lowest level of each home tested.

Federal Sources

FEMA National Flood Hazard Layer

FEMA FLOOD

The National Flood Hazard Layer (NFHL) data incorporates Flood Insurance Rate Map (FIRM) databases published by the Federal Emergency Management Agency (FEMA), and any Letters Of Map Revision (LOMRs) that have been issued against those databases since their publication date. The FIRM Database is the digital, geospatial version of the flood hazard information shown on the published paper FIRMs. The FIRM Database depicts flood risk information and supporting data used to develop the risk data. The FIRM Database is derived from Flood Insurance Studies (FISs), previously published FIRMs, flood hazard analyses performed in support of the FISs and FIRMs, and new mapping data, where available.

Indoor Radon Data

INDOOR RADON

Indoor radon measurements tracked by the Environmental Protection Agency(EPA) and the State Residential Radon Survey.

Public Water Systems Violations and Enforcement Data

PWSV

List of drinking water violations and enforcement actions from the Safe Drinking Water Information System (SDWIS) made available by the Drinking Water Protection Division of the US EPA's Office of Groundwater and Drinking Water. Enforcement sensitive actions are not included in the data released by the EPA. Address information provided in SWDIS may correspond either with the physical location of the water system, or with a contact address.

Radon Zone Level

RADON ZONE

Areas showing the level of Radon Zones (level 1, 2 or 3) by county. This data is maintained by the Environmental Protection Agency (EPA).

Safe Drinking Water Information System (SDWIS)

SDWIS

The Safe Drinking Water Information System (SDWIS) contains information about public water systems as reported to US Environmental Protection Agency (EPA) by the states. Addresses may correspond with the location of the water system, or with a contact address.

Soil Survey Geographic database

SSURGO

The Soil Survey Geographic database (SSURGO) contains information about soil as collected by the National Cooperative Soil Survey at the Natural Resources Conservation Service (NRCS). Soil maps outline areas called map units. The map units are linked to soil properties in a database. Each map unit may contain one to three major components and some minor components.

U.S. Fish & Wildlife Service Wetland Data

US WETLAND

The U.S. Fish & Wildlife Service Wetland layer represents the approximate location and type of wetlands and deepwater habitats in the United States.

USGS Current Topo

US TOPO

US Topo topographic maps are produced by the National Geospatial Program of the U.S. Geological Survey (USGS). The project was launched in late 2009, and the term "US Topo" refers specifically to quadrangle topographic maps published in 2009 and later.

USGS Geology

US GEOLOGY

Seamless maps depicting geological information provided by the United States Geological Survey (USGS).

USGS National Water Information System

FED USGS

The U.S. Geological Survey (USGS)'s National Water Information System (NWIS) is the nation's principal repository of water resources data. This database includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data.

Wells from NWIS

FED USGS

The U.S. Geological Survey's National Water Information System (NWIS) is the nation's principal repository of water resources data. The NWIS includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data. This NWIS dataset contains select Site Types from the overall NWIS Sites data, limited to the following Group Site Types only: Groundwater Group Site Types: Well, Collector or Ranney type well, Hyporheic-zone well,

Appendix

Interconnected Wells, Multiple wells; Spring Group Site Type: Spring; and Other Group Site Types: Aggregate groundwater use, Cistern.

State Sources

Oil and Gas Wells

A list of Oil and Gas well locations. This is provided by California's Department of Conservation Division of Oil, Gas and Geothermal Resources.

OGW

Periodic Groundwater Level Measurement Locations

Locations of groundwater level monitoring wells in the Department of Water Resources (DWR)'s Periodic Groundwater Levels dataset. The DWR Periodic Groundwater Levels dataset contains seasonal and long-term groundwater level measurements collected by the Department of Water Resources and cooperating agencies.

MONITOR WELLS

Well Completion Reports

List of wells from the Well Completion Reports data made available by the California Department of Water Resources' (DWR) Online System for Well Completion Reports (OSWCR). Please note that the majority of well completion reports have been spatially registered to the center of the 1x1 mile Public Land Survey System section that the well is located in.

WATER WELLS

Liability Notice

Reliance on information in Report: The Physical Setting Report (PSR) DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a review of environmental databases and physical characteristics for the site or adjacent properties.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS Information Inc. disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. PHASE ONE ENVIRONMENTAL SITE ASSESSMENT

Dear Mr. Ebrahimi:

ENGEO Incorporated is pleased to present our phase one environmental site assessment of the Property, located in San Jose, California. The attached report includes a description of the site assessment activities, along with ENGEO's findings regarding the Property.

We are pleased to be of service to you on this project. If you have any questions concerning the contents of our report, please contact us.

Very truly yours,

ENGEO INCORPORATED

1.0 INTRODUCTION

The subject property (Property) is located at East Julian Street and Wooster Avenue in San Jose, California (Figure 1). The irregular-shaped Property is identified with Assessor's Parcel Numbers (APN) 249-65-058, 249-65-060, 249-65-061, and 249-65-079 and is approximately 5.1 acres in area (Figure 2). The Property is relatively level with an elevation of approximately 90 feet above mean sea level (msl) (Figure 3). The Property is currently used for commercial purposes; current tenants include a fish processor and a drywall facility.

1.1 Executive Summary

ENGEO Incorporated has conducted this Phase I Environmental Site Assessment (ESA) of the Property in accordance with a Proposal for Environmental Services dated June 17, 2005. The Phase I ESA included a review of local, state and federal environmental record sources, standard historical sources, aerial photographs, fire insurance maps and physical setting sources, a reconnaissance of the Property to review site use and current conditions to check for the storage, use, production or disposal of hazardous or potentially hazardous materials and interviews with persons knowledgeable about current and past site activities.

The subject property (Property) is located at East Julian Street and Wooster Avenue in San Jose, California. The irregular-shaped Property is identified with Assessor's Parcel Numbers (APN) 249-65-058, 249-65-060, 249-65-061, and 249-65-079 and covers approximately 5.1 acres in area. The Property is relatively level with an elevation of approximately 90 feet above mean sea level (msl). The Property is currently used for commercial purposes; current tenants include Lusa America Fish Company (a fish processor) and Gypsum Drywall Supply. A railroad track and right-of-way forms the western border of the Property, and is located at the northern boundary of the Property. Surrounding properties are used for residential and commercial purposes.

The site reconnaissance and records review did reveal evidence of environmental concern including documentation and physical evidence of soil and groundwater impairments identified within the Property. A review of regulatory databases maintained by county, state, and federal agencies found documentation of hazardous materials violations or discharge on the Property.

A total of four USTs were removed from the Property in June 1990. Confirmation sampling indicated the presence of elevated concentrations of petroleum hydrocarbons remained in the soil. An additional site investigation was reportedly performed in January 2000. Soils reportedly had detectable levels of TPH and BTEX impact in soils ranging in depth between 15 and 18 feet below the ground surface. Grab groundwater samples exhibited detectable concentrations of several petroleum hydrocarbon target analytes. SCVWD provided site closure to the Property because the residual concentrations of petroleum hydrocarbon concentrations in groundwater did not pose a significant threat to groundwater. However, SCVWD did recommend that the corrective action should be reviewed in the event of a land use change at the Property.

ENGEO has performed a Phase One Environmental Site Assessment of the Property in general conformance with the scope and limitations of ASTM 1527-00. The following Recognized Environmental Conditions have been identified at the Property:

1. Documented evidence of soil and groundwater impacts associated with past releases from former USTs located at the Property.
2. Observation of significant surface soil staining in the northern parking area (situated on APN 249-65-079).
3. The existence of a railroad track and right-of-way that bisects the study area.

Based on the findings of this report, ENGEO recommends a soil and groundwater investigation to delineate and quantify the extent (if any) of environmental impacts to soil and groundwater associated with past use of the Property.

2.0 PURPOSE AND SCOPE

2.1 Purpose of Phase One Environmental Site Assessment

The purpose of this phase one environmental site assessment is to identify recognized environmental conditions associated with the Property. As defined in the American Society for Testing and Materials (ASTM) Standard Practice E 1527-00, a Recognized Environmental Condition (REC) is “the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property”.

2.2 Detailed Scope of Services

The scope of services performed included the following:

- A review of publicly available and practically reviewable standard local, state and federal environmental record sources.
- A review of publicly available and practically reviewable standard historical sources, aerial photographs, fire insurance maps and physical setting sources.
- A reconnaissance of the Property to review site use and current conditions. The reconnaissance was conducted to check for the storage, use, production or disposal of hazardous or potentially hazardous materials.
- Preparation of this report with our findings and conclusions.

2.3 Significant Assumptions

Based on review of background data, the following basic assumptions are valid, reasonable, generally accepted and were made during preparation of this report as well as the opinions and conclusions contained herein:

1. Based on a review of documents associated with underground storage tank (UST) removal performed at the Property, the groundwater table is located at a depth of about 25 feet below the ground surface, and the direction of flow is reportedly in a west-southwest direction.
2. Subsurface soil conditions exist in a generally homogeneous condition.

2.4 Limitations and Exceptions of Assessment

The professional staff at ENGEO Incorporated strives to perform its services in a proper and professional manner with reasonable care and competence but is not infallible. The recommendations and conclusions presented in this report were based on the findings of our study, which were developed solely from the contracted services. The findings of the report are based in part on contracted database research, out-of-house reports and personal communications. ENGEO Incorporated assumes no liability for the validity of the materials relied upon in the preparation of this report.

This document must not be subject to unauthorized reuse; that is, reuse without written authorization of ENGEO Incorporated. Such authorization is essential because it requires ENGEO to evaluate the document's applicability given new circumstances, not the least of which is passage of time. The findings from a phase one environmental site assessment are typically valid for 180 days after completion of the report, particularly with regard to the regulatory database files. In some instances the shelf life of the report can be less.

The field services completed at the site were performed to assess specific soil conditions at the points of collection. The laboratory analyses are not intended to consider concentrations of other

organic or inorganic substances which were not reported. The assessment did not include an asbestos survey, an evaluation of lead-based paint, an inspection of light ballasts for PCBs, or a mold survey.

2.5 Special Terms and Conditions

ENGEO Incorporated has prepared this report for the exclusive use of William Lyon Homes, Inc. (Client). It is recognized and agreed that ENGEO has assumed responsibility only for undertaking the study for the Client. The responsibility for disclosures or reports to a third party and for remedial or mitigative action shall be solely that of the Client.

This phase one environmental site assessment is not intended to represent a complete soil or groundwater characterization. This assessment does not define the depth or extent of soil or groundwater contamination. It is intended to provide an evaluation of potential environmental concerns associated with the use of the Property. A more extensive assessment that would include detailed subsurface exploration with laboratory testing of soil and groundwater samples could provide more definitive information concerning site-specific conditions. If additional assessment activities are considered for the Property and if other entities are retained to provide such services, ENGEO cannot be held responsible for any and all claims arising from or resulting from the performance of such services by other persons or entities, and from any and all claims arising or resulting from clarifications, adjustments, modifications, discrepancies or other changes necessary to reflect changed field or other conditions.

An asbestos survey has been performed as part of this assessment; however, results were not available at the time of report preparation. The assessment did not include an evaluation of lead-based paint, an inspection of light ballasts for PCBs, or a mold survey.

This report is based upon field and other conditions discovered at the time of preparation of ENGEO's work. Visual observations referenced in this report are intended only to represent site conditions at the time of the site visit. ENGEO would not be aware of site contamination, such as dumping and/or accidental spillage that occurred subsequent to the site reconnaissance conducted by ENGEO personnel.

3.0 SITE DESCRIPTION

3.1 Location and Legal Description

The subject property (Property) is located at East Julian Street and Wooster Avenue in San Jose, California (Figure 1). The irregular-shaped Property is identified with Assessor's Parcel Numbers (APN) 249-65-058, 249-65-060, 249-65-061, and 249-65-079 and covers approximately 5.1 acres in area (Figure 2). The Property is relatively level with an elevation of approximately 90 feet above mean sea level (msl) (Figure 3). The Property is currently used for commercial purposes; current tenants include Lusa America Fish Company (a fish processor) and Gypsum Drywall Supply.

3.2 Site and Vicinity Characteristics

The Property is relatively level with an elevation of approximately 90 feet above mean sea level (msl) (Figure 3). The Property is currently used for commercial purposes; current tenants include a fish processor and a drywall facility. A railroad track and right-of-way forms the western border of the Property, and is located at the northern boundary of the Property. Surrounding properties are used for residential and commercial purposes.

The geology of the site is mapped by CDMG (1974) as young alluvial fan deposits. These deposits typically consist of fine-grained sand and silt with minor gravel. The United States Department of Agriculture (USDA) has characterized the site soils as part of the Soil Conservation Service soil survey prepared for the Santa Clara area of California. The USDA has classified the soil at the site as Sorrento loam, which consists of a brown to pale brown neutral loam. These soils have moderate permeability, slow runoff, and a high water holding capacity.

An UST removal program was executed in 1990. Based on the observations made during the tank removal as well as during subsequent investigations, groundwater was first encountered at a depth of approximately 25 feet below the ground surface. Groundwater flow reportedly occurs in a west-southwest direction.

3.3 Current and Past Use of Property

The Property is currently used for commercial purposes; current tenants include a fish processor and a drywall facility. Development of the Property apparently occurred prior to 1939. Based on a review of historical resources as described below, the site has been used for commercial purposes, primarily for agricultural processing. A steel fabrication facility reportedly occupied the Property during the 1980s.

3.4 Current and Past Use of Adjoining Properties

Parcels adjacent to and in the vicinity of the Property are currently used for residential and commercial purposes. Based on a review of historical resources as described before, development of the area into commercial and residential land uses from agricultural use and open space occurred gradually during the middle 1900s.

4.0 RECORDS REVIEW

4.1 Historical Record Sources

The purpose of the historical record review is to develop a history of the previous uses or occupancies of the Property and surrounding area in order to identify those uses or occupancies that are likely to have led to recognized environmental conditions on the Property.

4.1.1 Chain of Title/Ownership

Recorded land titles detail ownership fees, leases, land contracts, easements, liens, deficiencies, and other encumbrances attached to or recorded against a subject property. However, laws and regulations pertaining to land trusts vary from state to state and the detail of information presented in a Title Report can vary greatly by jurisdiction. As a result, ENGEO utilizes a Title Report, when obtained, as a supplement to other historical record sources. A Preliminary Title Report was provided for review (Appendix A).

The title of the parcel that forms the Property is vested in equal ¼ portions to the following individuals: Guy Gummow, George W. Gummow, Todd A. Gummow, and Cheryl L. Gummow. No liens, encumbrances, exclusions, or exceptions are represented in the reports that would indicate environmental impacts that could impact the Property.

4.1.2 Historical Topographic Maps

Historical U.S. Geological Survey (USGS) 7.5-Minute Topographic San Jose East Quadrangle Maps, dated 1953, 1961, 1968, 1973, and 1980 were reviewed to determine if discernible changes in topography or improvements have occurred on the Property.

1953: The 7.5-Minute map indicates two structures on the Property with no discernable topographic relief. Topography in the immediate vicinity of the Property slopes toward Coyote Creek. The Western Pacific railroad track bisects the Property, and the Bayshore Highway is present to the northeast of the Property. Residences are located to the east and the west of the Property.

1961 through 1980: The conditions of the Property appear similar to those on the 1953 map, with the exception of an apparent expansion of the large structure. The Bayshore Highway appears expanded and renamed the Bayshore Freeway on the 1961 map, and an interchange has been constructed at East Julian Street. Conditions in the vicinity of the Property are generally similar to those depicted on the 1953 map, although some grading and road construction is depicted west of the Property.

4.1.3 Fire Insurance Maps

Environmental Data Resources, Inc. (EDR) prepared a Sanborn Fire insurance map search for the Property and surrounding properties. EDR provided Sanborn maps dated 1915, 1950, and 1969. The maps were reviewed for information regarding past conditions and land use at the Property and in the immediate vicinity. The maps are presented in Appendix B.

No structures or discernible land use is depicted on the 1915 map. The Chevy Chase Company, a fruit and vegetable canner, is depicted at the Property on the 1950 map. Warehouse, cannery, and office facilities are visible on the map. Similar facilities are depicted on the 1969 map; the property is occupied by California Conserving Company, also for fruit and vegetable canning. Warehouse, printing, cold storage, and cannery facilities are depicted on the map.

4.1.4 Aerial Photographs

Aerial photographs, provided by EDR and dated 1939, 1956, 1965, 1974, 1982, 1993, and 1998 were reviewed for information regarding past conditions and land use at the Property and in the immediate vicinity. Aerial photographs are provided in Appendix B.

1939: Small structures are visible on APN 249-65-058, 249-65-060, and 249-65-061. The Western Pacific right-of-way is visible at the Property. APN 249-65-079 exists as undeveloped open space. Mixed residential and agricultural use is visible on nearby properties to the north, south, east, and west.

1956: A large structure is visible on APN 249-65-061. Several nearby properties that were depicted as agricultural use on the 1939 photograph have been developed for residential use. The Bayshore Highway is present east of the Property, and the interchange at East Julian Street is under construction.

1965: Site conditions appear similar to the 1956 photograph, although access to the site via Wooster Street is visible. Bayshore Highway has been expanded as depicted in the photograph. Additional residential development is visible west of the Property, and a large structure with a sign reading Eggo Foods has been constructed to the north of the Property.

1974: Site conditions appear similar to the 1965 photograph.

1982: Site conditions appear similar to the 1965 photograph, although a new structure is present on the property on the other side of the railroad tracks west of the Property.

1993: Site conditions appear similar to the 1965 photograph, although equipment storage is visible on APN 249-65-079.

1998: Site conditions appear similar to the 1993 photograph.

4.1.5 City Directory Search

Environmental Data Resources, Inc. (EDR) prepared a Sanborn Fire insurance map search for the Property and surrounding properties. The Property did not have a listing prior to 1960. In 1960, the Property had been identified as Teasdale Packing Company, and is intermittently identified as a cannery during the 1960s. A listing for U.S. Aqua also appears in 1963. In 1975, a number of listings appear, including Cysco Sales, Firemaster Fire Extinguisher, Royal Foods, Warehouse Kitchen Sales, Western Plastics, Chemical Exhaust Fire Protection, Kosich Wholesale Products, and United States Ceramic Tile. In 1986, the following entries have been identified: GC Enterprises, Royal Foods, Specialty Steel Service, and Xyloid Plastics. In 1991, the following entries have been identified: GG International and Lusa America Foods. The current tenants are identified on a 2000 directory search. Nearby property entries primarily appear to be related to private residences. The search report is presented in Appendix B.

4.2 Previous Environmental Documentation

ENGEO has reviewed publicly available environmental reports regarding exploratory and remedial activities performed at the Property.

Earth Purification Engineering, Inc., Underground Storage Tank Removal, 1325 East Julian, San Jose, California (1990)

A total of four USTs were removed from three different locations across the Property in June 1990. During removal activities, a number of confirmation soil samples were collected from the base of the excavation areas. Trace concentrations of total petroleum hydrocarbons (TPH) and benzene, toluene, ethylbenzene, total xylene(s) (BTEX) were detected in the analyzed

samples within two of the excavation areas. Samples collected from below a former 500-gallon gasoline UST (within Area 2) exhibited detectable concentrations of the following target analytes at 7 feet and 14 feet below the ground surface, respectively; 6,000 and 720 mg/kg TPH-gasoline (TPH-g), 5.8 and 0.12 mg/kg benzene, 31 mg/kg and 3 mg/kg ethylbenzene, 38 mg/kg toluene, and 260 and 15 mg/kg xylene(s). Soils were excavated to a depth of 12 feet below the ground surface in this location, and soils with TPH-g concentrations up to 3,500 mg/kg and benzene concentrations of up to 2.8 mg/kg were left in place. Soils from Area 3 were excavated to a depth of 18 feet below the ground surface; soils with TPH-g concentrations up to 680 mg/kg and benzene concentrations of up to 2.5 mg/kg were left in place. The excavations were reportedly backfilled with clean fill materials. Based on the results of the exploration program, Santa Clara Valley Water District (SCVWD) requested the property owner complete and submit a report summarizing further investigation and remedial activities.

Santa Clara Valley Water District, Fuel Leak Site Case Closure, 1325 East Julian, San Jose, California (July 26, 2000)

SCVWD issued a letter granting case closure for the Property in 2000. The letter provided a summary of an additional investigation performed at the property. An additional site investigation was reportedly performed in January 2000. Soils in the vicinity of Areas 2 and 3 reportedly had detectable levels of TPH and BTEX impact in soil ranging in depth between 15 and 18 feet below the ground surface. Grab groundwater samples in the vicinity Area 3 exhibited the following concentrations of target analytes: 270 µg/l TPH-g, 1,100 µg/l TPH-diesel (TPH-d), 0.61 µg/l benzene, 1.7 µg/l toluene, 7.8 µg/l xylene(s), 21 µg/l ethylbenzene, and 1.7 µg/l MTBE. SCVWD provided site closure to the Property because the residual concentrations of petroleum hydrocarbon concentrations in groundwater did not pose a significant threat to groundwater. However, SCVWD did recommend that the corrective action should be reviewed in the event of a land use change at the Property.

4.3.2 State ASTM Standard and Supplemental Sources

4.3.2.1 Subject Property. The Property is listed on the following databases:

- CORTESE – “Cortese” Hazardous Waste and Substances Sites List – Listed sites are designated by the State Water Resources Control Board (LUST), the Integrated Waste Board (SWF/LF), and the Department of Toxic Substances Control (Cal-Sites).
- LUST – Leaking Underground Storage Tank Information System – Contains an inventory of reported leaking underground storage tank incidents.

4.3.2.2 Other Properties. The following databases include facilities listed within the appropriate ASTM search distance of the Property:

- CHIMRS – California Hazardous Material Incident Report System – Sites are listed for hazardous materials incidents, i.e., accidental releases or spills.

4.3.3 Local ASTM Supplemental Sources

4.3.3.1 Subject Property. The Property is not listed on Local ASTM supplemental databases.

4.3.3.2 Other Properties. No properties within appropriate ASTM distance search criteria were identified on Local ASTM supplemental databases.

The inclusion of the Property on the CORTESE and LUST databases is due to the reported leaking USTs. Several sites are located in the immediate vicinity of the Property; however, the reported incidents and respective databases indicate that these sites do not pose a threat to the Property. The Arco station located 1604 McKee Road has a significant reported maximum MTBE concentration (6,000 µg/l). This site could conceivably affect the Property; however, its distance from the Property (nearly ¼ mile) reduces the likelihood of a significant impact to the Property. Further, testing data for MTBE in the groundwater at the property from 2000 indicate the presence of trace concentrations (1.7 µg/l) for MTBE below regulatory agency action levels. Therefore, none of the properties listed above are likely to pose a threat to the Property.

5.0 SITE RECONNAISSANCE

5.1 Methodology

A reconnaissance of the Property was conducted by ENGEO personnel on June 30, 2005. The Property was viewed for hazardous materials storage, surficial staining or discoloration, debris, stressed vegetation, or other conditions that may be indicative of potential sources of soil or groundwater contamination. The Property was also inspected for fill/ventilation pipes, ground subsidence, or other evidence of existing or preexisting underground storage tanks. Photographs taken during the reconnaissance are provided in Figure 4. A portion of the structure (3rd story) could not be accessed at the time of the reconnaissance.

5.2 General Site Setting

The Property is developed and used for commercial purposes. A fish processor and a drywall merchant are currently tenants at the Property. The site includes one large wood-framed, sheet large structure which includes warehouse and mezzanine office space. Outdoor areas are used for storage and for parking. A fleet of approximately 20 trucks associated with the fish processor were observed on the north side of the Property. The Property is generally flat with a railroad track and a creek forming the western and northern boundaries, respectively. Surrounding properties have residential and commercial uses.

Structures. One main structure is shared by the tenants. The structure includes warehouse and mezzanine office space. Additionally, a separate office structure is located on the south side of the Property.

Hazardous Substances and Petroleum Products in Connection with Identified Uses. Several small and large containers of potentially hazardous materials were observed at the Property

during the reconnaissance. The materials included hydraulic oil, transmission fluid, welding gases, solvent (not containing chlorinated solvents), acrylic lacquer thinner, anti-freeze, motor oil, used oil, and gear oil. Additionally, a parts washer and two hydraulic pumps were observed during the reconnaissance.

Storage Tanks. No conventional style above-ground or underground storage tanks were observed at the Property during the reconnaissance.

Odors. No discernable odors were noted at the Property during the reconnaissance.

Pools of Potentially Hazardous Liquid. No pools of potentially hazardous liquid were observed at the Property during the reconnaissance.

Drums. Several 55-gallon steel drums were observed during the reconnaissance. The drums contained several different products, including hydraulic oil, anti-freeze, and gear oil. Additionally, large containers of waste oil and motor oil were observed during the reconnaissance.

Polychlorinated Biphenyls (PCBs). One pole-mounted transformer was observed on the south side portion of the Property near the drywall facility. No evidence of staining on the transformers or on the soil below the transformers was observed. No other potentially PCB-containing equipment was noted on the Property at the time of the reconnaissance.

Pits, Ponds and Lagoons. One pond was observed in the southwest corner of the Property during the reconnaissance that appeared to be used for surface water retention and infiltration. Based on review of aerial photographs, the basin was constructed some time between 1984 and 1998.

Stained Soil/Pavement. Heavy oil staining was observed in northernmost area of the northern parking lot during the reconnaissance.

Stressed Vegetation. In general, no stressed vegetation was observed during the reconnaissance.

Solid Waste. No solid waste was noted on the Property at the time of the reconnaissance.

Wastewater. No wastewater conveyance systems were observed during the reconnaissance.

Wells. No wells were observed on the Property at the time of the reconnaissance.

Septic Systems. No evidence of a septic system was observed at the Property during the reconnaissance.

5.3 Asbestos-Containing Materials (ACM) and Lead-Based Paint (LBP)

Given the age of the existing structures, it is conceivable that ACM and LBP materials may be contained within the structures. An ACM and LBP assessment should be performed prior to building demolition.

5.4 Indoor Air Quality

An evaluation of indoor air quality, mold, or radon was not included as part of the contracted scope of services. The USEPA and CAL - EPA have conducted studies of radon risks throughout the state. Results of the studies indicate that average statistical radon concentrations in Santa Clara County are less than the current EPA action level (reported in the County) as less than 4 picocuries per liter [pCi/L]¹).

¹ United States Environmental Protection Agency Indoor Air Quality Website
(<http://www.dhs.ca.gov/ps/ddwem/environmental/radon/radon.htm#A%20Brief%20Explanation%20EPA's%20Map%20of%20Radon%20Zones>).

6.0 INTERVIEWS

An interview was conducted with Mr. Richard Groen during the site reconnaissance. Mr. Groen is the manager of Gypsum Supply Company, one of the two current tenants at the Property. Mr. Groen indicated that the site was occupied by a tomato cannery and a steel fabricator during the 1980s. He also indicated that Gypsum Supply Company first occupied the site in 1987.

Mr. Groen indicated that he believed environmental studies had been conducted at the Property in the past, but he was unaware of the nature or the findings of the studies. Additionally, Mr. Groen indicated that he was unaware of any environmental issues or impacts associated with the Property.

7.0 CONCLUSIONS

ENGEO has performed a Phase One Environmental Site Assessment of the Property in general conformance with the scope and limitations of ASTM 1527-00.

The site reconnaissance and records research did find documentation and physical evidence of soil or groundwater impairments associated with the use of the Property. The following Recognized Environmental Conditions have been identified at the Property:

1. Documented evidence of soil and groundwater impact associated with past releases from former USTs located at the Property.
2. Observation of significant surface soil staining in the northern parking area (situated on the APN 249-65-079 parcel).
3. The existence of a railroad track and right-of-way that bisects the study area.

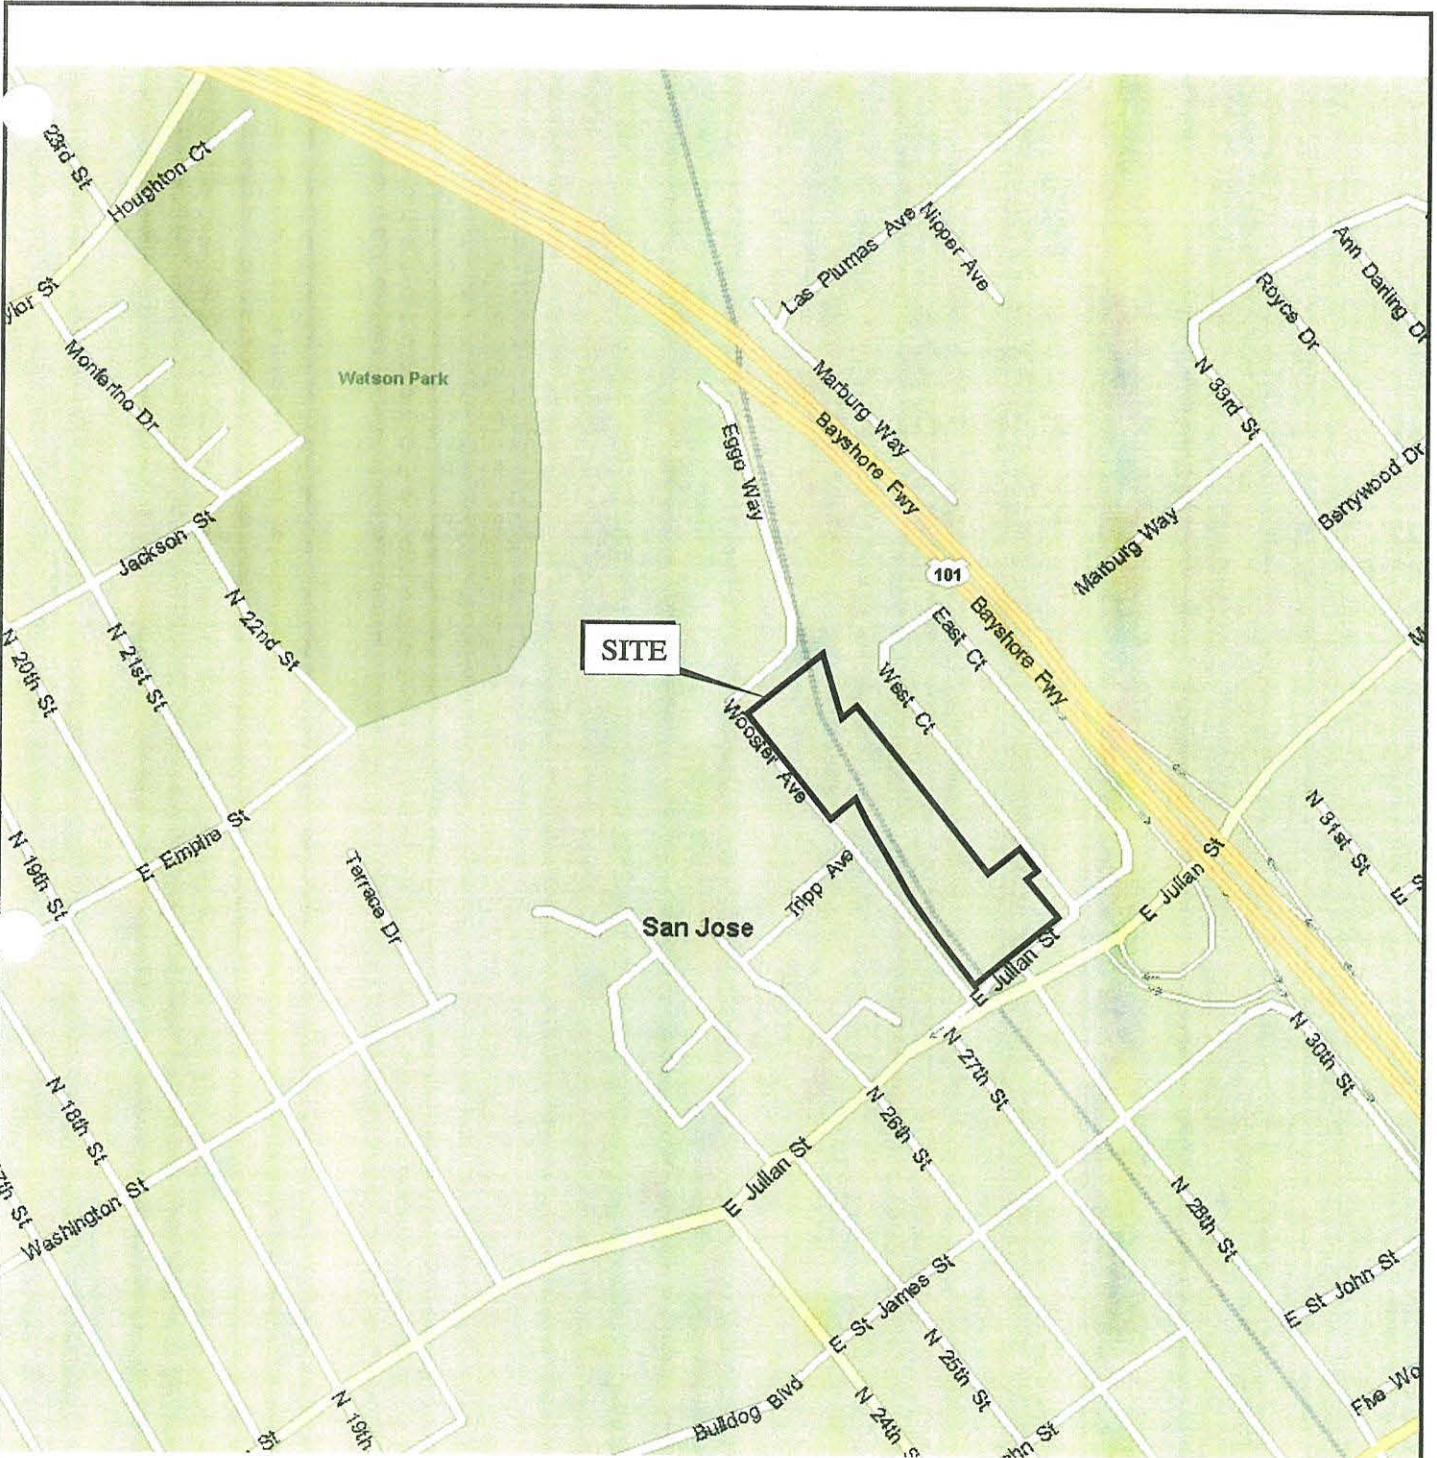

A review of regulatory databases maintained by local, state and federal agencies identified Leaking Underground Storage Tank (LUST) sites with discharges of petroleum product on parcels within one-half mile of the Property. These facilities likely do not pose a threat to the Property.

Based on the findings of this report, ENGEO recommends a soil and groundwater investigation to delineate and quantify the extent (if any) of environmental impacts to soil and groundwater associated with past land use of the Property.

Preliminary Title Report

CHICAGO TITLE COMPANY

PRELIMINARY REPORT

FOURTH AMENDED

Dated as of: June 2, 2005

at 7:30 AM

Order No.: 140875 -

Regarding: 1325 E. Julian St
San Jose, California

CHICAGO TITLE COMPANY hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception in Schedule B or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage of said Policy or Policies are set forth in the attached list. Copies of the Policy forms are available upon request.

Please read the exceptions shown or referred to in Schedule B and the exceptions and exclusions set forth in the attached list of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered. It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

THIS REPORT (AND ANY SUPPLEMENTS OR AMENDMENTS HERETO) IS ISSUED SOLELY FOR THE PURPOSE OF FACILITATING THE ISSUANCE OF A POLICY OF TITLE INSURANCE AND NO LIABILITY IS ASSUMED HEREBY. IF IT IS DESIRED THAT LIABILITY BE ASSUMED PRIOR TO THE ISSUANCE OF A POLICY OF TITLE INSURANCE, A BINDER OR COMMITMENT SHOULD BE REQUESTED.

The form of policy of title insurance contemplated by this report is:
to be determined

SCHEDULE A

Ord No: 140875 KJF

Your Ref:

1. The estate or interest in the land hereinafter described or referred to covered by this report is:

A FEE

2. Title to said estate or interest at the date hereof is vested in:

Guy Gummow, an undivided one-quarter (1/4) interest, as his sole and separate property, George W. Gummow, an undivided one-quarter (1/4) interest, as his sole and separate property, Todd A. Gummow, an undivided one-quarter (1/4) interest, as his sole and separate property, and Cheryl L. Gummow, an undivided one-quarter (1/4) interest, all as tenants in common

3. The land referred to in this report is situated in the State of California, County of SANTA CLARA and is described as follows:

SEE ATTACHED DESCRIPTION

DESCRIPTION

All that certain Real Property in the City of San Jose, County of Santa Clara, State of California, described as follows:

PARCEL ONE:

Lots 16 and 17, Block 1, Map of John R. Chace's Garden Villa Lots, filed February 15, 1926, Book U of Maps, page 40, Santa Clara County Records.

PARCEL TWO:

Part of Lots 25 to 31 inclusive, Map of the Spaulding Garden Tract filed December 10, 1908, Book M of Maps, page 48, Santa Clara County Records, described as follows:

Beginning at the most Northerly corner of said Lot 25; thence from said point of beginning South 49°33' West, along the Northwest line of said Lot 25, 48.70 feet, more or less, to a line parallel with and 30 feet at right angles Easterly from the center line of the main track of the Western Pacific Railway Company; thence along said line on the arc of a curve with a radius of 2835 feet, the chord of which bears South 28°02' East a distance of 523.68 feet to the Southeast line of said Lot 31; thence North 49°29'30" East along said Southeast line 162.41 feet, more or less, to the Easterly corner of said Lot 31, thence North 40°35'30" West along the Northeast line of Lots 25 to 31 inclusive, 510.53 feet to the point of beginning.

PARCEL THREE:

Lots 35 and 36, and part of Lot 34, Map of the Spaulding Garden Tract, filed December 10, 1908, Book M of Maps, page 48, Santa Clara County Records, described as follows:

Beginning at the most Easterly corner of said Lot 36; thence from said point of beginning North 40°35'30" West along the Northeast line of said Lot 36, 391.03 feet to the Northerly corner of said Lot 36; thence South 49°29'30" West along the Northwest line of Lots 34, 35 and 36, 162.41 feet; thence South 40°35'30" East 391.03 feet to the Southeast line of said Lot 34; thence North 49°29'30" East along the Southeasterly line of said Lots 34, 35 and 36, 162.41 feet to the point of beginning.

PARCEL FOUR:

Part of 500 acre Lot 27 of the Pueblo Lands of the City of San Jose, described as follows:

BEGINNING in the Northwest line of the Spaulding Garden Tract, according to the Map thereof of record in Book "M" of Maps, page 48, as the Westerly line of the lands and right of way of the Western Pacific Railroad Company; thence from said point of beginning, S. 49°47' W. along said West line, 170 feet, more or less, to a point that is distant thereon N. 49°47' E. 20 feet from the center line of Wooster Avenue North, as shown on said Map; thence N. 40°30' W., along the Northwest prolongation of the Northeast line of said Wooster Avenue North, 211

DESCRIPTION

feet, more or less, to the Southerly high bank of Silver Creek; thence Easterly along said Southerly high bank, 245 feet, more or less, to said Westerly line of the Western Pacific Railroad Company's land and right of way, thence Southerly along said line, 222 feet, more or less, to POINT OF BEGINNING.

EXCEPTING THEREFROM the interest conveyed to the Santa Clara County Flood Control and Water Conservation District, State of California, by Deed recorded October 23, 1957 in Book 3919 of Official Records, page 497.

PARCEL FIVE:

That part of Lots 25, 26, 27 and 28, Map of the Spaulding Garden Tract, filed on December 10, 1908 in Book "M" of Maps, page 48, Santa Clara County Records, lying Southwest of a line drawn parallel with and 30 feet distant measured radially Southwesterly from the center line of the main line of the Western Pacific Railroad, San Jose Branch, described as follows:

BEGINNING on the center line of Wooster Avenue North, distant thereon N. 40°19' W. 660 feet from the Northwest line of East Julian Street, formerly McKee Road, said point of beginning also being the most Westerly corner of the Parcel of land described in the Deed to Thomas Gion, et al, recorded August 6, 1959 in Book 4505 of Official Records, at page 133; thence from said point of beginning, N. 49°27' E., along the Northwest line of said parcel of land, 123.15 feet to a line that is distant 30 feet measured at right angles Southwesterly from the center line of the main line of the Western Pacific Railroad, San Jose Branch; thence Northerly along said parallel line on a curve to the right, having a radius of 2,894.93 feet, for an arc distance of 250.91 feet to the Northwest line of said Lot 25; thence S. 49°32' W. along said line of and the Southwest prolongation thereof, 188.29 feet to the center line of Wooster Avenue North; thence S. 49°19' E., along said center line, 241.90 feet to the POINT OF BEGINNING.

PARCEL SIX:

All of Lots 18 and 19, Block 1, as shown upon that certain Map entitled, "John R. Chuco's Garden Villa Lots", which map was filed for record in the Office of the Recorder of the County of Santa Clara, State of California on February 14, 1926 in Book U of Maps, pages 40 and 41.

SCHEDULE B

Order: 140875 KJF

Your Ref:

At the date hereof exceptions to coverage in addition to the printed Exceptions and Exclusions in the policy form designated on the face page of this Report would be as follows:

- A 1. Taxes for the fiscal year 2005-2006, a lien not yet payable.
- F 2. The Lien of Supplemental Taxes, if any, assessed pursuant to the provisions of Chapter 3.5, (commencing with Section 75) of the Revenue and Taxation Code of the State of California.
- G 3. Any adverse claim based upon the assertion that :
- (A) "Said land or any part thereof is now or at any time has been below the ordinary high water mark of the Silver Creek.
- (B) "Some portion of said land has been created by artificial means or has accreted to such portion so created"
- (C) "Some portion of said land has been brought within the boundaries thereof by an avulsive movement of the Silver Creek, or has been formed by accretion to any such portion."

H Said matter affects: Parcel Four

- I 4. An easement affecting the portion of said land and for the purposes stated herein, and incidental purposes,

In Favor Of: Warren A. Gummow and Rosalie E. Gummow, husband and wife, as community property, as to an undivided one-half interest; Donald A. Kosich and Ljubica Kosich, husband and wife, as community property, as to an undivided one half-interest

For: Road purposes

Recorded: September 1, 1977 in Book D114 at Page 254 Official Records

Affects: As follows:

- J Being a portion of Lot 27, Map of the Spaulding Garden Tract, filed December 10, 1908, in Book M of Maps at Page 48, Santa Clara County Records, being a strip of land of a uniform width of 10.00 feet more particularly described as follows:

COMMENCING at the point of intersection of the center line of Wooster Avenue North with the Northwest line of East Julian Street, formerly McKee Road, running thence along said center line of Wooster Avenue North 40°33' West 660.00 feet; thence at right angles North 49°27' East 20.00 feet to the Northeasterly line of Wooster Avenue; thence along said Northeasterly line North 40°33' West 37.19 feet to the True Point of Beginning; thence along said Northeasterly line of Wooster Avenue North

SCHEDULE B
(continued)

Order 140875 KJF Your Ref:

40°33' West 30.19 feet; thence leaving said line North 42°57' East 123.47 feet more or less to the Point of Intersection with a curved line that is distant 30.00 feet measured radially from the center line of the main line of the Western Pacific Railroad, San Jose Branch; thence Southeasterly along said curved line along the arc of a curve to the left from a tangent which bears South 26°12'50" East having a radius of 2,894.93 feet, a central angle of 0°38'02" an arc distance of 32.03 feet; thence South 42°57' West 115.66 feet to the True Point of Beginning.

K 5. An easement affecting the portion of said land and for the purposes stated herein, and incidental purposes,

In Favor Of: City of San Jose, A Municipal Corporation
For: A temporary construction easement and right of way for the purpose of paving, maintaining and/or improving the Property for traffic circulation, and removal and replacement of a fence and landscaping on the Property and accomplishing all necessary incidents and appurtenances thereto
Recorded: July 23, 2002 as Instrument No. 16378349 Official Records
Affects: As follows:

A portion of Parcel One described in that certain Grant Deed recorded on February 22, 1980 in Book F152 at Pages 83 and 84, Official Records of Santa Clara County, and more particularly described as follows:

Commencing at the point of intersection of the Northwesterly line of Lot 25 and the Northeasterly line of Wooster Avenue, as shown on the Map of Spaulding Garden Tract, recorded in Book M of Maps at Page 48, Official Records of Santa Clara County; thence along the Northwest line of said Lot 25, said line also being the Southeast line of said Parcel One, N 49°47'00" E 11.50 feet to the POINT OF BEGINNING; thence North 40°53'05" W 175.74 feet to the Southeast line of lands conveyed to the Santa Clara Valley Water District, a public corporation, by Grant Deed recorded May 20, 1993 in Book M786 at Page 1278, Official Records of Santa Clara County; thence along said Southeast line of Santa Clara Valley Water District property, N 49°58'44" E 34.68 feet; thence, parallel to and 45.00 feet distant from the Northeasterly line of Wooster Avenue, S 40°30'00" E 90.00 feet; thence S 00°32'27" W 45.69 feet; thence, parallel to and 15.00 feet distant from the Northeasterly line of Wooster Avenue, S 40°30'00" E 51.00 feet to the Northwest line of said Lot 25; thence along said Northwest line, S 49°47'00" West 3.50 feet to the POINT OF BEGINNING.

AI 6. Any Lien for Federal Estate Tax payable by reason of the death of: Troy A. Gummow

AJ 7. Any Lien for California Estate Tax payable by the reason of the death of : Troy A. Gummow

SCHEDULE B
(continued)

Or No: 140875 KJF

Your Ref:

- M 8. The possible community interest of the Spouses, if any, of the Vestees herein.
- AK 9. Other matters of record which do not describe said land, but which, if any exist, may affect the title. The necessary search and examination will be completed when a Statement of Information has been received from vestees.
10. The herein referred to property appears to be free and clear of any Deeds of Trust or Mortgages. Please confirm if this is the case.
- O 11. "If an Alta Policy is requested, this Company will require an Inspection prior to the Close of Escrow."
- P 12. Rights of parties in possession of said land by reason of unrecorded leases, if any.
- Q 13. Any easements not disclosed by those public records which impart constructive notice which are not visible and apparent from an inspection of the surface of said land.
- R 14. Any facts, rights, interest or claims which a correct survey would show.
- S END OF SCHEDULE B
- T NOTE 1 : The land referred to in this Preliminary Report was identified in the order application only by street address or assessor's parcel number. This land has been located on the attached map. The use of a street address or assessor's parcel number creates an uncertainty as to the correct legal description for the land involved in your transaction. Please review the map. Is the correct land located on the map? If your transaction involves other land or more land or less land than that located on the map you should immediately advise your title officer or escrow officer.
- U NOTE 2 : Title of the vestee herein was acquired by deed recorded prior to six months from the date hereof.
- V NOTE 3 : In addition to the County Transfer Tax of \$1.10 per thousand, the land herein is also subject to a City conveyance tax in the amount of \$1.65 per \$500.00 valuation. This City Tax is figured on the full value of the land with no credits for existing loans or bonds.
- W NOTE 4 : Effective March 1, 1979, there will be an additional \$10.00 fee for recording a deed with a legal description other than an entire lot in a recorded final map. If there are any questions, please call your escrow officer or title officer.
- X NOTE 5 : If a 1970 ALTA Owner's or Lender's or 1975 ALTA Leasehold Owner's or Lender's policy form has been requested, the policy, when approved for

issuance, will be endorsed to add the following to the Exclusions From Coverage contained therein:

Loan Policy Exclusion:

Any claim, which arises out of the transaction creating the interest of the mortgage insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:

- (i) the transaction creating the interest of the insured mortgagee being deemed a fraudulent conveyance or fraudulent transfer; or
- (ii) the subordination of the interest of the insured mortgagee as a result of the application of the doctrine of equitable subordination; or
- (iii) the transaction creating the interest of the insured mortgagee being deemed a preferential transfer except where the preferential transfer results from the failure:
 - (a) to timely record the instrument of transfer; or
 - (b) of such recordation to impart notice to a purchaser for value or a judgment or lien creditor.

Owners Policy Exclusion:

Any claim, which arises out of the transaction vesting in the insured, the estate or interest insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:

- (i) the transaction creating the estate or interest by this policy being deemed a fraudulent conveyance or fraudulent transfer; or
- (ii) the transaction creating the estate or interest insured by this policy being deemed a preferential transfer except where the preferential transfer results from the failure:
 - (a) to timely record the instrument of transfer; or
 - (b) of such recordation to impart notice to a purchaser for value or a judgment or lien creditor.

Notice

You may be entitled to receive a \$20.00 discount on escrow services if you purchased, sold or refinanced residential property in California between May 19, 1995 and November 1, 2002. If you had more than one qualifying transaction, you may be entitled to multiple discounts.

If your previous transaction involved the same property that is the subject of your current transaction, you do not have to do anything; the Company will provide the discount, provided you are paying for escrow or title services in this transaction.

If your previous transaction involved property different from the property that is subject of your current transaction, you must inform the Company of the earlier transaction, provide the address of the property involved in the previous transaction, and the date or approximate date that the escrow closed to be eligible for the discount.

Unless you inform the Company of the prior transaction on property that is not the subject of this transaction, the Company has no obligation to conduct an investigation to determine if you qualify for a discount. If you provide the Company information concerning a prior transaction, the Company is required to determine if you qualify for a discount.

CHICAGO TITLE INSURANCE COMPANY

Fidelity National Financial Group of Companies' Privacy Statement

July 1, 2001

We recognize and respect the privacy expectation of today's consumers and the requirements of applicable federal and state privacy laws. We believe that making you aware of how we use your non-public personal information ("Personal Information"), and to whom it is disclosed, will form the basis for a relationship of trust between us and the public that we serve. This Privacy Statement provides that explanation. We reserve the right to change this Privacy Statement from time to time consistent with applicable privacy laws.

In the course of our business, we may collect Personal Information about you from the following sources:

- * From applications or other forms we receive from you or your authorized representative;
- * From your transactions with, or from the services being performed by, us, our affiliates, or others;
- * From our internet web sites;
- * From the public records maintained by governmental entities that we either obtain directly from those entities, or from our affiliates or others; and
- * From consumer or other reporting agencies.

Our Policies Regarding The Protection Of The Confidentiality And Security Of Your Personal Information

We maintain physical, electronic and procedural safeguards to protect your Personal Information from unauthorized access or intrusion. We limit access to the Personal Information only to those employees who need such access in connection with providing products or services to you or for other legitimate business purposes.

Our Policies and Practices Regarding the Sharing of Your Personal Information

We may share your Personal Information with our affiliates, such as insurance companies, agents, and other real estate settlement service providers. We may also disclose your Personal Information:

- * to agents, brokers or representatives to provide you with services you have requested;
- * to third-party contractors or service providers who provide services or perform marketing or other functions on our behalf; and
- * to others with whom we enter into joint marketing agreements for products or services that we believe you may find of interest.

In addition, we will disclose your Personal Information when you direct or give us permission, when we are required by law to do so, or when we suspect fraudulent or criminal activities. We also may disclose your Personal Information when otherwise permitted by applicable privacy laws such as, for example, when disclosure is needed to enforce our rights arising out of any agreement, transaction or relationship with you.

One of the important responsibilities of some of our affiliated companies is to record documents in the public domain. Such documents may contain your Personal Information.

Right To Access Your Personal Information And Ability To Correct Errors Or Request Change Or Deletion

Certain states afford you the right to access your Personal Information and, under certain circumstances, to find out to whom your Personal Information has been disclosed. Also, certain states afford you the right to request correction, amendment or deletion of your Personal Information. We reserve the right, where permitted by law, to charge a reasonable fee to cover the costs incurred in responding to such requests.

All requests must be made in writing to the following address:

Privacy Compliance Officer
Fidelity National Financial, Inc.
601 Riverside Drive
Jacksonville, FL 32204

Multiple Products or Services:

If we provide you with more than one financial product or service, you may receive more than one privacy notice from us. We apologize for any inconvenience this may cause you.

Environmental Data Resources, Inc. (the client) is permitted to make up to THREE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its client. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OF REVENUE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT. Purchaser accepts this Report AS IS. Any analyses, estimates, ratings, or other information provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts or opinions regarding the environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

Environmental Data Resources, Inc. City Directory Abstract

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist professionals in evaluating potential liability on a target property resulting from past activities. ASTM E 1527-00, Section 7.3 on Historical Use Information, identifies the prior use requirements for a Phase I environmental site assessment. The ASTM standard requires a review of *reasonably ascertainable standard historical sources*. *Reasonably ascertainable means information that is publicly available, obtainable from a source with reasonable time and cost constraints, and practically reviewable.*

To meet the prior use requirements of ASTM E 1527-00, Section 7.3.4, the following *standard historical sources* may be used: aerial photographs, fire insurance maps, property tax files, land title records (although these cannot be the sole historical source consulted), topographic maps, city directories, building department records, or zoning/land use records. ASTM E 1527-00 requires "*All obvious uses of the property shall be identified from the present, back to the property's obvious first developed use, or back to 1940, whichever is earlier. This task requires reviewing only as many of the standard historical sources as are necessary, and that are reasonably ascertainable and likely to be useful.*" (ASTM E 1527-00, Section 7.3.2, page 12.)

EDR's City Directory Abstract includes a search and abstract of available city directory data.

City Directories

City directories have been published for cities and towns across the U.S. since the 1700s. Originally a list of residents, the city directory developed into a sophisticated tool for locating individuals and businesses in a particular urban or suburban area. Twentieth century directories are generally divided into three sections: a business index, a list of resident names and addresses, and a street index. With each address, the directory lists the name of the resident or, if a business is operated from this address, the name and type of business (if unclear from the name). While city directory coverage is comprehensive for major cities, it may be spotty for rural areas and small towns. ASTM E 1527-00 specifies that a "*review of city directories (standard historical sources) at less than approximately five year intervals is not required by this practice.*" (ASTM E 1527-00, Section 7.3.2.1, page 12.)

NAICS (North American Industry Classification System) Codes

NAICS is a unique, all-new system for classifying business establishments. Adopted in 1997 to replace the prior Standard Industry Classification (SIC) system, it is the system used by the statistical agencies of the United States. It is the first economic classification system to be constructed based on a single economic concept. To learn more about the background, the development and difference between NAICS and SIC, visit the following Census website: <http://www.census.gov/epcd/www/naicsdev.htm>.

4. SUMMARY

- *City Directories:*

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2001. (These years are not necessarily inclusive.) A summary of the information obtained is provided in the text of this report.

This report compiles information by geocoding the subject properties (that is, plotting the latitude and longitude for such subject properties and obtaining data concerning properties within 1/8 of a mile of the subject properties). There is no warranty or guarantee that geocoding will report or list all properties within the specified radius of the subject properties and any such warranty or guarantee is expressly disclaimed. Accordingly, some properties within the aforementioned radius and the information concerning those properties may not be referenced in this report.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc. (EDR). The report meets the government records search requirements of ASTM Standard Practice for Environmental Site Assessments, E 1527-00. Search distances are per ASTM standard or custom distances requested by the user.

TARGET PROPERTY INFORMATION

ADDRESS

1325 E. JULIAN STREET
SAN JOSE, CA 95116

COORDINATES

Latitude (North): 37.354300 - 37° 21' 15.5"
Longitude (West): 121.869000 - 121° 52' 8.4"
Universal Tranverse Mercator: Zone 10
UTM X (Meters): 600167.3
UTM Y (Meters): 4134573.0
Elevation: 88 ft. above sea level

EDR PROPRIETARY HISTORICAL DATABASES

See the EDR Proprietary Historical Database Section for details

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in *bold italics* are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

FEDERAL ASTM STANDARD

CERCLIS-NFRAP: As of February 1995, CERCLIS sites designated "No Further Remedial Action Planned" (NFRAP) have been removed from CERCLIS. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund Action or NPL consideration. EPA has removed approximately 25,000 NFRAP sites to lift the unintended barriers to the redevelopment of these properties and has archived them as historical records so EPA does not needlessly repeat the investigations in the future. This policy change is part of the EPA's Brownfields Redevelopment Program to help cities, states, private investors and affected citizens to promote economic redevelopment of unproductive urban sites.

A review of the CERC-NFRAP list, as provided by EDR, and dated 03/22/2005 has revealed that there is 1 CERC-NFRAP site within approximately 0.375 miles of the target property.

RCRAInfo: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System(RCRIS). The database includes selective

EXECUTIVE SUMMARY

information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month. Large quantity generators generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-SQG list, as provided by EDR, and dated 05/20/2005 has revealed that there are 6 RCRA-SQG sites within approximately 0.375 miles of the target property.

CORTESE: This database identifies public drinking water wells with detectable levels of contamination, hazardous substance sites selected for remedial action, sites with known toxic material identified through the abandoned site assessment program, sites with USTs having a reportable release and all solid waste disposal facilities from which there is known migration. The source is the California Environmental Protection Agency/Office of Emergency Information.

A review of the Cortese list, as provided by EDR, has revealed that there are 20 Cortese sites within approximately 0.625 miles of the target property.

HAZNET: The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency

A review of the HAZNET list, as provided by EDR, and dated 12/31/2002 has revealed that there are 4 HAZNET sites within approximately 0.125 miles of the target property.

 Background Info : The Dap site was built in 1963. Prior to 1963 the area was
 Background Info : used for agricultural purposes. Dap, Inc manufactured a variety
 Background Info : of caulking and glazing compounds. When Dap operated the
 Background Info : facility they handled and stored numerous chemicals, solvents
 Background Info : and gasoline. Dap, Inc ceased manufacturing in 1993 and
 Background Info : continued to use the facility to store chemical products from
 Background Info : 1993 to 1997.
 Background Info : Not reported
 Background Info : In August 1986 while transferring solvent from one subsurface
 Background Info : underground tank to another, about 260 gallons solvent (Hi Sol
 Background Info : #10) spill occurred in the underground storage tank farm.
 Background Info : The subsequent investigation found levels of total hydrocarbons
 Background Info : in the soil (7600 ppm) at the site and in the groundwater
 Background Info : (56 ppb) below the site. San Francisco Bay Regional Water Quality
 Background Info : Control Board (RWQCB) issued Cleanup and Abatement Order (CAO)
 Background Info : No. 87-004 to Dap. Starting in August 1988 seven underground
 Background Info : storage tanks and contaminated soils were removed. The soil
 Background Info : analyses results showed ethyl benzene (5 to 14 ppb), 1,4
 Background Info : dichlorobenzene (15 ppb), toluene (0.8 to 20 ppb) and xylene
 Background Info : (15 to 150 ppb). In March 1997 Dap removed five
 Background Info : underground storage tanks and four aboveground storage
 Background Info : tanks. Post removed soil samples results showed TPH-g of 0.5
 Background Info : mg/kg and VOC of 0.005 mg/kg. Groundwater results showed
 Background Info : 1-trichloroethane (TCA) of 16 ug/l and dichlorodifluoromethane

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Elapsed ASTM days: Provides confirmation that this EDR report meets or exceeds the 90-day updating requirement of the ASTM standard.

FEDERAL ASTM STANDARD RECORDS

NPL: National Priority List

Source: EPA

Telephone: N/A

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 04/28/05
Date Made Active at EDR: 05/16/05
Database Release Frequency: Quarterly

Date of Data Arrival at EDR: 05/04/05
Elapsed ASTM days: 12
Date of Last EDR Contact: 05/04/05

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

Source: EPA

Telephone: 703-413-0223

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/15/05
Date Made Active at EDR: 04/06/05
Database Release Frequency: Quarterly

Date of Last EDR Contact: 03/22/05

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Source: EPA

Telephone: 703-413-0223

As of February 1995, CERCLIS sites designated "No Further Remedial Action Planned" (NFRAP) have been removed from CERCLIS. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund action or NPL consideration. EPA has removed approximately 25,000 NFRAP sites to lift the unintended barriers to the redevelopment of these properties and has archived them as historical records so EPA does not needlessly repeat the investigations in the future. This policy change is part of the EPA's Brownfields Redevelopment Program to help cities, states, private investors and affected citizens to promote economic redevelopment of unproductive urban sites.

RCRA: Resource Conservation and Recovery Act Information

Source: EPA
Telephone: 800-424-9346

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS). The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month. Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. Transporters are individuals or entities that move hazardous waste from the generator off-site to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 05/20/05

DOD: Department of Defense Sites

Source: USGS
Telephone: 703-692-8801

This data set consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

Date of Government Version: 10/01/03
Database Release Frequency: Semi-Annually

Date of Last EDR Contact: 02/08/05
Date of Next Scheduled EDR Contact: 05/09/05

UMTRA: Uranium Mill Tailings Sites

Source: Department of Energy
Telephone: 505-845-0011

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized. In 1978, 24 inactive uranium mill tailings sites in Oregon, Idaho, Wyoming, Utah, Colorado, New Mexico, Texas, North Dakota, South Dakota, Pennsylvania, and on Navajo and Hopi tribal lands, were targeted for cleanup by the Department of Energy.

RAATS: RCRA Administrative Action Tracking System

Source: EPA

Telephone: 202-564-4104

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/95
Database Release Frequency: No Update Planned

Date of Last EDR Contact: 03/07/05
Date of Next Scheduled EDR Contact: 06/06/05

TRIS: Toxic Chemical Release Inventory System

Source: EPA

Telephone: 202-566-0250

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

DEED: Deed Restriction Listing

Source: Department of Toxic Substances Control
Telephone: 916-323-3400

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

HAZNET: Facility and Manifest Data
Source: California Environmental Protection Agency
Telephone: 916-255-1136

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method.

EDR PROPRIETARY HISTORICAL DATABASES

EDR Historical Gas Station and Dry Cleaners: EDR has searched select national collections of business directories and has collected listings of potential dry cleaner and gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning and gas station/filling station/service station establishments. The categories reviewed included, but were not limited to: *gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, dry cleaner, cleaners, laundry, laundromat, cleaning/laundry, wash & dry, etc.*

This information is meant to assist and complement environmental professionals in their conduct of environmental site assessments, and is not meant to be a substitute for a full historical investigation as defined in ASTM E1527. The information provided in this proprietary database may or may not be complete; i.e., the absence of a dry cleaner or gas station/filling station/service station site does not necessarily mean that such a site did not exist in the area covered by this report.

(A note on "dry cleaning" sites: it is not possible for EDR to differentiate between establishments that use PERC on-site as a cleaning solvent and sites that function simply as drop-off and pick-up locations or that are traditional wet cleaning/laundry facilities. Therefore, it is essential for environmental professionals to incorporate professional judgment in the evaluation of each site.)

Former Manufactured Gas (Coal Gas) Sites: The existence and location of Coal Gas sites is provided exclusively to EDR by Real Property Scan, Inc. ©Copyright 1993 Real Property Scan, Inc. For a technical description of the types of hazards which may be found at such sites, contact your EDR customer service representative.

Disclaimer Provided by Real Property Scan, Inc.

The information contained in this report has predominantly been obtained from publicly available sources produced by entities other than Real Property Scan. While reasonable steps have been taken to insure the accuracy of this report, Real Property Scan does not guarantee the accuracy of this report. Any liability on the part of Real Property Scan is strictly limited to a refund of the amount paid. No claim is made for the actual existence of toxins at any site. This report does not constitute a legal opinion.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

BROWNFIELDS DATABASES

VCP: Voluntary Cleanup Program Properties

Source: Department of Toxic Substances Control

Telephone: 916-323-3400

Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

Date of Government Version: 02/07/05

Database Release Frequency: Quarterly

Date of Last EDR Contact: 03/01/05

Date of Next Scheduled EDR Contact: 05/30/05

US BROWNFIELDS: A Listing of Brownfields Sites

Source: Environmental Protection Agency

Telephone: 202-566-2777

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

Date of Government Version: 01/10/05

Database Release Frequency: Semi-Annually

Date of Last EDR Contact: 03/14/05

Date of Next Scheduled EDR Contact: 06/13/05

US INST CONTROL: Sites with Institutional Controls

Source: Environmental Protection Agency

Telephone: 703-603-8867

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 01/10/05

Database Release Frequency: Varies

Date of Last EDR Contact: 04/04/05

Date of Next Scheduled EDR Contact: 07/04/05

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data

Source: PennWell Corporation

Telephone: (800) 823-6277

This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Licensed Facilities

Source: Department of Social Services

Telephone: 916-657-4041

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 from the U.S. Fish and Wildlife Service.

GEOCHECK® - PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

GYPSUM DRYWALL SUPPLY
1325 E. JULIAN STREET
SAN JOSE, CA 95116

TARGET PROPERTY COORDINATES

Latitude (North):	37.354301 - 37° 21' 15.5"
Longitude (West):	121.869003 - 121° 52' 8.4"
Universal Transverse Mercator:	Zone 10
UTM X (Meters):	600167.3
UTM Y (Meters):	4134573.0
Elevation:	88 ft. above sea level

EDR's GeoCheck Physical Setting Source Addendum has been developed to assist the environmental professional with the collection of physical setting source information in accordance with ASTM 1527-00, Section 7.2.3. Section 7.2.3 requires that a current USGS 7.5 Minute Topographic Map (or equivalent, such as the USGS Digital Elevation Model) be reviewed. It also requires that one or more additional physical setting sources be sought when (1) conditions have been identified in which hazardous substances or petroleum products are likely to migrate to or from the property, and (2) more information than is provided in the current USGS 7.5 Minute Topographic Map (or equivalent) is generally obtained, pursuant to local good commercial or customary practice, to assess the impact of migration of recognized environmental conditions in connection with the property. Such additional physical setting sources generally include information about the topographic, hydrologic, hydrogeologic, and geologic characteristics of a site, and wells in the area.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata. EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

USGS Topographic Map: 37121-C7 SAN JOSE EAST, CA
General Topographic Gradient: General WNW
Source: USGS 7.5 min quad index

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Target Property County</u> SANTA CLARA, CA	FEMA Flood <u>Electronic Data</u> YES - refer to the Overview Map and Detail Map
Flood Plain Panel at Target Property:	0603490019E
Additional Panels in search area:	0603490020E 0603370255E 0603370235E 0603490026D 0603490025D

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u> SAN JOSE EAST	NWI Electronic <u>Data Coverage</u> YES - refer to the Overview Map and Detail Map
---	--

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data:*

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

GEOLOGIC AGE IDENTIFICATION

Era:	Cenozoic	Category:	Stratified Sequence
System:	Quaternary		
Series:	Quaternary		
Code:	Q (decoded above as Era, System & Series)		

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	BOTELLA
Soil Surface Texture:	clay loam
Hydrologic Group:	Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.
Soil Drainage Class:	Not reported
Hydric Status:	Soil does not meet the requirements for a hydric soil.
Corrosion Potential - Uncoated Steel:	MODERATE
Depth to Bedrock Min:	> 60 inches
Depth to Bedrock Max:	> 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	9 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.60 Min: 0.20	Max: 7.30 Min: 5.60
2	9 inches	41 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.60 Min: 0.20	Max: 7.80 Min: 5.60
3	41 inches	76 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 0.60 Min: 0.20	Max: 7.80 Min: 5.60

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: No Other Soil Types

Surficial Soil Types: No Other Soil Types

Shallow Soil Types: No Other Soil Types

Deeper Soil Types: No Other Soil Types

ADDITIONAL ENVIRONMENTAL RECORD SOURCES

According to ASTM E 1527-00, Section 7.2.2, "one or more additional state or local sources of environmental records may be checked, in the discretion of the environmental professional, to enhance and supplement federal and state sources... Factors to consider in determining which local or additional state records, if any, should be checked include (1) whether they are reasonably ascertainable, (2) whether they are sufficiently useful, accurate, and complete in light of the objective of the records review (see 7.1.1), and (3) whether they are obtained, pursuant to local, good commercial or customary practice." One of the record sources listed in Section 7.2.2 is water well information. Water well information can be used to assist the environmental professional in assessing sources that may impact groundwater flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

GEOCHECK® - PHYSICAL SETTING SOURCE MAP FINDINGS

Water System Information:

Prime Station Code:	07S/01E-09D08 M	User ID:	HEN
FRDS Number:	4310011093	County:	Santa Clara
District Number:	05	Station Type:	WELL/AMBNT/MUN/INTAKE/SUPPLY
Water Type:	Well/Groundwater	Well Status:	Active Untreated
Source Lat/Long:	372100.0 1215200.0	Precision:	Undefined
Source Name:	SEVENTEENTH ST. WELL 11		
System Number:	4310011		
System Name:	San Jose Water Company		
Organization That Operates System:	1221 S. Bascom Avenue San Jose, CA 95128		
Pop Served:	944000	Connections:	206890
Area Served:	SAN JOSE VICINITY		

Sample Information: * Only Findings Above Detection Level Are Listed

Sample Collected:	10/20/1980	Findings:	16.000 C
Chemical:	SOURCE TEMPERATURE C		
Sample Collected:	10/20/1980	Findings:	2.000 UNITS
Chemical:	COLOR		
Sample Collected:	10/20/1980	Findings:	605.000 UMHO
Chemical:	SPECIFIC CONDUCTANCE		
Sample Collected:	10/20/1980	Findings:	7.940
Chemical:	PH (LABORATORY)		
Sample Collected:	10/20/1980	Findings:	200.000 MG/L

Water System Information:

Prime Station Code:	07S/01E-09D09 M	User ID:	HEN
FRDS Number:	4310011094	County:	Santa Clara
District Number:	05	Station Type:	WELL/AMBNT/MUN/INTAKE/SUPPLY
Water Type:	Well/Groundwater	Well Status:	Active Untreated
Source Lat/Long:	372100.0 1215200.0	Precision:	0.5 Mile (30 Seconds)
Source Name:	SEVENTEENTH ST. WELL 12		
System Number:	4310011		
System Name:	San Jose Water Company		
Organization That Operates System:	1221 S. Bascom Avenue San Jose, CA 95128		
Pop Served:	944000	Connections:	206890
Area Served:	SAN JOSE VICINITY		

Sample Information: * Only Findings Above Detection Level Are Listed

Sample Collected:	02/05/1980	Findings:	18.000 C
Chemical:	SOURCE TEMPERATURE C		
Sample Collected:	02/05/1980	Findings:	590.000 UMHO
Chemical:	SPECIFIC CONDUCTANCE		
Sample Collected:	02/05/1980	Findings:	7.790
Chemical:	PH (LABORATORY)		
Sample Collected:	02/05/1980	Findings:	207.000 MG/L
Chemical:	TOTAL ALKALINITY (AS CaCO3)		
Sample Collected:	02/05/1980	Findings:	250.000 MG/L
Chemical:	BICARBONATE ALKALINITY		
Sample Collected:	02/05/1980	Findings:	1.000 MG/L
Chemical:	CARBONATE ALKALINITY		
Sample Collected:	02/05/1980	Findings:	.160 UG/L
Chemical:	PHOSPHATE		
Sample Collected:	02/05/1980	Findings:	180.000 MG/L
Chemical:	TOTAL HARDNESS (AS CaCO3)		
Sample Collected:	02/05/1980	Findings:	47.000 MG/L
Chemical:	CALCIUM		
Sample Collected:	02/05/1980	Findings:	15.000 MG/L
Chemical:	MAGNESIUM		
Sample Collected:	02/05/1980	Findings:	53.000 MG/L
Chemical:	SODIUM		
Sample Collected:	02/05/1980	Findings:	1.720
Chemical:	SODIUM ABSORPTION RATIO		
Sample Collected:	02/05/1980	Findings:	1.200 MG/L
Chemical:	POTASSIUM

Water System Information:

Prime Station Code:	07S/01E-09D03 M	User ID:	HEN
FRDS Number:	4310011088	County:	Santa Clara
District Number:	05	Station Type:	WELL/AMBNT/MUN/INTAKE/SUPPLY
Water Type:	Well/Groundwater	Well Status:	Active Untreated
Source Lat/Long:	372100.0 1215200.0	Precision:	0.5 Mile (30 Seconds)
Source Name:	SEVENTEENTH ST. WELL 03		
System Number:	4310011		
System Name:	San Jose Water Company		
Organization That Operates System:	1221 S. Bascom Avenue San Jose, CA 95128		
Pop Served:	944000	Connections:	206890
Area Served:	SAN JOSE VICINITY		

Sample Information: * Only Findings Above Detection Level Are Listed

Sample Collected:	08/28/1985	Findings:	865.000 UMHO
Chemical:	SPECIFIC CONDUCTANCE		
Sample Collected:	08/28/1985	Findings:	7.790

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002. 7.5-Minute DEMs correspond to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

ADDITIONAL ENVIRONMENTAL RECORD SOURCES

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

STATE RECORDS

California Drinking Water Quality Database

Source: Department of Health Services

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations for District 2, 3, 5 and 6

Source: Department of Conservation

Telephone: 916-323-1779

RADON

State Database: CA Radon

Source: Department of Health Services

Telephone: 916-324-2208

Radon Database for California

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRRA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities

Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater

Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

Environmental Data Resources, Inc. Aerial Photography Print Service

Environmental Data Resources, Inc.'s (EDR) Aerial Photography Print Service is a screening tool designed to assist professionals in evaluating potential liability on a target property resulting from past activities. ASTM E 1527-00, Section 7.3 on Historical Use Information, identifies the prior use requirements for a Phase I environmental site assessment. The ASTM standard requires a review of *reasonably ascertainable standard historical sources*. *Reasonably ascertainable means information that is publicly available, obtainable from a source with reasonable time and cost constraints, and practically reviewable.*

To meet the prior use requirements of ASTM E 1527-00, Section 7.3.4, the following *standard historical sources* may be used: aerial photographs, fire insurance maps, property tax files, land title records (although these cannot be the sole historical source consulted), topographic maps, city directories, building department records, or zoning/land use records. ASTM E 1527-00 requires *"All obvious uses of the property shall be identified from the present, back to the property's obvious first developed use, or back to 1940, whichever is earlier. This task requires reviewing only as many of the standard historical sources as are necessary, and that are reasonably ascertainable and likely to be useful."* (ASTM E 1527-00, Section 7.3.2, page 12.)

Aerial Photographs

When delivered electronically by EDR, the aerial photo images included with this report are for ONE TIME USE ONLY. Further reproduction of these aerial photo images is prohibited without permission from EDR. For more information contact your EDR Account Executive.

Aerial photographs are a valuable historical resource for documenting past land use and can be particularly helpful when other historical sources (such as city directories or fire insurance maps) are not reasonably ascertainable. The EDR Aerial Photography Print Service includes a search of local aerial photograph collections flown by public and private agencies. EDR's professional field-based researchers provide digitally reproduced historical aerial photographs at ten year intervals.

Please call Environmental Data Resources, Inc. Nationwide Customer Service at
1-800-352-0050 (8am-8pm ET)
with questions or comments about your report.
Thank you for your business!
