 Drainage/Absorption Population/Housing Balance Toxic/Hazardous Cumulative Effects
 Economic/Jobs Public Services/Facilities Traffic/Circulation Other: Tribal

Present Land Use/Zoning/General Plan Designation:

The project site has a zoning designation of Public Lands and Airport Compatibility (PL:AC)

Project Description: (please use a separate page if necessary)

The Napa Sanitation District (District) owns and operates the Soscol Water Recycling Facility (SWRF). The SWRF is comprised of a wastewater treatment plant (WWTP) that produces recycled water, a recycled water pump station (Soscol Recycled Water Pump Station, or SPS) to distribute recycled water and two recycled water reservoirs to store recycled water post treatment and prior to distribution. The SPS contains three large vertical turbine pumps and a jockey pump to service the distribution system. Upgrades for the SPS are needed to address pressure, reliability, and redundancy issues while maintaining separation between two distribution branches to the north and south. A lack of redundancy exists because peak demands can occur on the two distribution branches simultaneously, which requires all pumps at the SPS to operate in the summer months. The redundancy issue is exacerbated when one of the facility's pumps is out of service. During a large pump outage, the SPS has less capacity, which limits its ability to meet customers' needs. Due to the complexity of completing repairs at the SPS, outages can last longer than customers are able to sustain. The proposed project would replace the existing jockey pump within the SPS, add an additional jockey pump and an additional vertical turbine pump, and would include the addition of a pump bay. These new components at the SPS would also prolong the life of the current vertical turbine pumps and conserve energy during periods of lesser demand. Overall, the proposed project would benefit the District's recycled water customers and provide additional drought resiliency by increasing the dependability of recycled water delivery.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
