**PROJECT TITLE:** Point Mugu State Park Trail System Signage Program

**LOCATION:** Point Mugu State Park

**COUNTY:** Ventura County

**DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT:**

The project proposes installation, replacement, and removal of signs within the existing Point Mugu State Park trail system. The purpose of the project is to keep the trail system and park at-large in a sustainable condition that ensures visitor safety; protects natural and cultural resources; preserves the public investment in the trail system; and provides for public use and visitor convenience. Some of the signs to be installed and replaced were damaged or destroyed in the 2018 Woolsey Fire as well as the 2013 Springs Fire and other due to vandalism, general wear, and UV damage (fading). The project will install common signage to bring continuity to the trail system and make signage easier for users to understand. The project will also serve to keep visitors within the existing trail system and avoid creation of unauthorized trails. Further information regarding the project, as well as measures to be implemented to avoid impacts, may be obtained by contacting the project Environmental Coordinator listed below.
