 Water Facilities: Type _____ MGD _____

Project Issues Discussed in Document:

Aesthetic/Visual Fiscal Recreation/Parks Vegetation
 Agricultural Land Flood Plain/Flooding Schools/Universities Water Quality
 Air Quality Forest Land/Fire Hazard Septic Systems Water Supply/Groundwater
 Archeological/Historical Geologic/Seismic Sewer Capacity Wetland/Riparian
 Biological Resources Minerals Soil Erosion/Compaction/Grading Growth Inducement
 Coastal Zone Noise Solid Waste Land Use
 Drainage/Absorption Population/Housing Balance Toxic/Hazardous Cumulative Effects
 Economic/Jobs Public Services/Facilities Traffic/Circulation Other: Energy, GHG, Tribal, Utilities

Present Land Use/Zoning/General Plan Designation:

Applicable to all land uses/zonez/general plan designations in Hayward

Project Description: *(please use a separate page if necessary)*

The City of Hayward is preparing the CAP as an update to the Hayward 2014 CAP. The CAP includes measures and supportive actions addressing communitywide GHG emissions. The City is committed to a 3.12 metric tons (MT) of carbon dioxide equivalent (CO2e) per capita GHG emissions reduction target (i.e., 40 percent below 1990 levels) by 2030 and a long-term goal of carbon neutrality by 2045. This 2030 GHG emissions goal was selected to be consistent with California Senate Bill 32 State emissions targets, CEQA Guidelines, and the Bay Area Air Quality Management District guidelines for a qualified GHG emissions reduction strategy, and to be achievable by City-supported actions identified in the CAP Update. To achieve the Hayward 2030 GHG emissions target, the City has developed 18 CAP measures related to building energy, transportation, waste, water/wastewater, and carbon sequestration. In addition, the City of Hayward proposes to adopt quantitative CEQA GHG thresholds for use in evaluating whether a plan or project's GHG emissions would result in a potentially significant environmental impact under CEQA for plans or projects with pre-2030 buildout or initial operational years. The CEQA GHG thresholds would be applied to plans or projects that cannot tier from the environmental analysis for the Hayward CAP.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
