Project Title: Hayward Climate Action Plan and CEQA GHG Thresholds

Project Applicant: City of Hayward

Project Location (include county): Hayward, Alameda County, CA

Project Description:

See attached project description

This is to advise that the City of Hayward has approved the above
 Lead Agency or Responsible Agency

described project on 1/30/2024 and has made the following determinations regarding the above
 (date)
 described project.

1. The project [will will not] have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [were were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [was was not] adopted for this project.
5. A statement of Overriding Considerations [was was not] adopted for this project.
6. Findings [were were not] made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

Attachment- Project Description

The City of Hayward prepared the Climate Action Plan (CAP) as an update to the Hayward 2014 CAP. The CAP includes measures and supportive actions addressing communitywide GHG emissions. The City is committed to a 3.12 metric tons (MT) of carbon dioxide equivalent (CO₂e) per capita GHG emissions reduction target (i.e., 40 percent below 1990 levels) by 2030 and a long-term goal of carbon neutrality by 2045. This 2030 GHG emissions goal was selected to be consistent with California Senate Bill 32 State emissions targets, CEQA Guidelines, and the Bay Area Air Quality Management District guidelines for a qualified GHG emissions reduction strategy, and to be achievable by City-supported actions identified in the CAP Update. To achieve the Hayward 2030 GHG emissions target, the City has developed 18 CAP measures related to building energy, transportation, solid waste, water/wastewater, and carbon sequestration. In addition, the City of Hayward has adopted quantitative CEQA GHG thresholds for use in evaluating whether a plan or project's GHG emissions would result in a potentially significant environmental impact under CEQA for plans or projects with pre-2030 buildout or initial operational years. The CEQA GHG thresholds will be applied to plans or projects that cannot tier from the environmental analysis for the Hayward CAP.
