

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: To be determined

Project Title: South Oxnard Aquatics Center

Lead Agency: City of Oxnard

Contact Name: Reza Bagherzadeh, P.E., Senior Project Manager

Email: reza.bagherzadeh@oxnard.org Phone Number: (805) 271-2280

Project Location: Oxnard Ventura
City *County*

Project Description (Proposed actions, location, and/or consequences).

The South Oxnard Aquatics Center project would include construction of a 57,233 square foot outdoor pool area with four pool areas totaling 23,571 square feet, one slide area totaling 822 square feet, a one-story "L" shaped building totaling 18,342 square feet, a 103-stall parking lot, and ancillary facilities. Pool areas would consist of a 50-meter competition pool, 25-yard instructional pool, splash pad, recreation pool, and slide area. The one-story building would frame the western and northern sides of the pool deck and would be used to house locker rooms, administrative space, utility rooms, a concession stand, and other ancillary facilities. The proposed project includes construction of a natural gas line that would connect to the southwestern corner of the proposed aquatics center, run west along the southern portion of College Park's one-lane ring road, and connect to an existing SoCalGas line in South Rose Avenue.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project's potentially significant impacts and mitigation measures that would reduce potentially significant effects are listed below:

- Construction emissions: Mitigation Measure AQ-1 Construction Reduction Measures
- Toxic air contaminant release during construction: Mitigation Measure AQ-1 Construction Reduction Measures
- Monarch butterfly disturbance: Mitigation Measure BIO-1 Monarch Butterfly Avoidance and Minimization
- Nesting bird disturbance: Mitigation Measure BIO-2 Pre-Construction Nesting Bird Survey
- Archaeological resource disturbance: Mitigation Measure CUL-1 Unanticipated Discovery of Cultural Resources
- Liquefaction risk: Mitigation Measure GEO-1 Liquefaction Risk Minimization
- Hazardous materials and upset conditions: Mitigation Measure HAZ-1 Soil Management Plan
- Hazardous materials near schools: Mitigation Measure HAZ-1 Soil Management Plan
- Construction noise: Mitigation Measure NOI-1 Construction Noise Reduction Plan
- Exposure of non-human species to excessive noise: Mitigation Measures BIO-1 Monarch Butterfly Avoidance and Minimization, BIO-2 Pre-Construction Nesting Bird Survey

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A

Provide a list of the responsible or trustee agencies for the project.
