Project Title: Full Belly Farm, Inc., Water Supply Permit

Applicant: Full Belly Farm, Inc.
PO Box 251
Guinda, CA 95637

Owner: Rivers-Muller Living Trust Etal
PO Box 222
Guinda, CA 96637

Project Location: Subject property is located at 16090 County Road 43, approximately two miles north of the unincorporated community of Guinda in the Capay Valley (APN: 060-210-033).

Project Description: Full Belly Farm seeks to obtain a water supply permit for an existing public water system at their farming operations in unincorporated Yolo County, located north of the town of Guinda in the Capay Valley. The water system has one service connection that is supplied by a 40 gpm groundwater well and includes water storage in three 100-gallon pressure tanks. Water is transmitted via piping underground and in buildings to employee faucet locations. The subject parcel is approximately 81.78 acres and is zoned Agricultural Intensive (A-N). A small portion of the property is reserved for employee headquarters and the majority of the parcel is devoted to agricultural crop production, which includes various fields of row crops and orchards.

Pursuant to California Health and Safety Code Section 116275, Full Belly Farm is classified as a non-transient noncommunity water system. Public Water System. A non-transient noncommunity water system is defined in the Health and Safety Code as a "noncommunity water system that regularly serves at least 25 of the same persons over six months per year."

Exempt Status: Categorical Exemption: Section 15301, Existing Facilities.

Reasons why project is exempt: Section 15301 describes the class (Class 1) types for existing facilities, itemized below, where the project involves negligible or no expansion of use beyond that existing at the time of the lead agency's determination. Pursuant to the requirements of CEQA Guidelines, Title 14 California Code of Regulations Section 15022(a)(1)(C), the California Department of Public Health has established a list of activities that are categorically exempt from CEQA. Relying on said list, the County has determined the proposed project is categorically exempt from CEQA for the reasons set forth below (County response in ***bold italics***):

(1) Continued operation and permitting of an existing drinking water supply including constructed water wells and surface water sources.

Full Belly Farm's non-transient noncommunity water system supply source will remain unchanged.

(2) Continued operation and permitting of existing booster pump stations, generators, distribution pipelines, storage tanks and existing water treatment units including filters pumps and chlorinators.

Full Belly Farm's non-transient noncommunity water system will remain unchanged.

(3) Interior and exterior alterations to the above listed appurtenances, which involve the addition, deletion, or modification of mechanical, electrical, hydraulic, monitoring, surveillance, security, remote sensing, and SCADA controls.

Full Belly Farm's non-transient noncommunity water system appurtenances will remain unchanged.

NOV 14 2023

POSTED _____ TO _____

(4) Additions to existing building structures and treatment plants, provided that the addition is within the existing confines of the property and will not result in an increase of more than:

- (a) 50 percent of the floor area of the structure(s) before the addition, or 2,500 square feet, whichever is less; or
- (b) 10,000 square feet

Full Belly Farm's non-transient noncommunity water system will not require any additions.
