

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Duncan Hill Treated Water Improvements Project

Lead Agency: Placer County Water Agency

Contact Name: Heather Trejo, Environmental Scientist

Email: htrejo@pcwa.net Phone Number: 530-823-4905

Project Location: Auburn, Placer County
City County

Project Description (Proposed actions, location, and/or consequences).

The proposed Project involves the installation of approximately 1.5 miles of treated pipeline within Millertown Road, Calnick Lane, Voyiatzes Road, Duncan Hill Road, and Ophir Road, and 560 feet of pipeline that would be installed beneath non-native grasslands. Installing the 12-inch ductile iron pipeline would involve open-cut trenching to place new pipe. The width of the impact footprint associated with installing the pipeline would be approximately 10 feet (5 feet on either side of the alignment) (1.93 acres). In addition to the pipeline alignment, the Project includes a proposed staging area (0.34 acres) for equipment and supplies. Additionally, two pressure-reducing stations would be installed along the proposed Project alignment for the system to operate properly. The total footprint for the Project occupies approximately 2.27 acres.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

- MM AIR-1: Construction Dust and Emissions Control Plan
- MM AIR-2: Implement BMPs to Reduce Impacts on Air Quality from Construction Equipment Emissions
- MM BIO-1: Pre-Construction Worker Environmental Awareness Training
- MM BIO-2: Minimize Vegetation Disturbance and Revegetate All Disturbed Areas
- MM BIO-3: Avoid and Minimize Potential Impacts to Foothill Yellow-Legged Frog (
- MM BIO-4: Avoid Disturbance to Nesting Raptors and Other Nesting Migratory Birds
- MM BIO-5: Avoid and Minimize Impacts on Riparian Habitat
- MM BIO-6: Compliance with the PCCP Land Conversion (PCCP General Condition 3, Land Conversion)
- MM CUL-1/TCR-1: Cultural Resource Worker Awareness Training
- MM CUL-2/TCR-2: Discovery of Previously Unknown: Cultural or Tribal Cultural Resources and Unanticipated Discovery of Human Remains, including Halt Work Provisions
- MM CUL-3/TCR-3: Proper Handling of Inadvertent Discovery of Human Remains
- MM PALEO-1: Proper Handling of Inadvertent Discovery of Paleontological Resources
- MM HAZ-1: Develop and Use Spill Prevention Control and Countermeasure Plan
- MM HYDRO-1: Prepare and Implement a SWPPP, MM TRANS-1: Prepare and Implement a Construction Traffic Control

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None.

Provide a list of the responsible or trustee agencies for the project.
