Project Description (Proposed actions, location, and/or consequences).

The City proposes improvements to the project site to allow for operation of a 24/7 site for people who live in their cars and RVs to park. The site would operate for a period of up to 10 years or less based on demand. The site would be operated in accordance with the guidelines in Municipal Code Section 20.80.1675, Conduct of Use.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Ground disturbing activities associated with project implementation may result in impacts to unrecorded subsurface tribal cultural resources. However, these impacts would be reduced to a less than significant level with implementation of mitigation measures.

Activities associated with implementation of the project could expose construction workers to arsenic, cobalt, and nickel contaminated soils. However, these impacts would be reduced to a less than significant level with implementation of mitigation measures.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
