Project Location: Trona California

Inyo

City

County

Project Description (Proposed actions, location, and/or consequences).

The applicant is applying for a Renewable Energy Permit to construct a 2 Megawatt(MW) photovoltaic solar facility using approximately 4,625 single-axis tracker solar panels. The project site is located on two 5-acre parcels that are largely flat or gently sloped with no structures on the site. There are no above ground water sources of any kind and much of the site is denuded. The project is located on two 5--acre parcels (APN's 038-340-20 and 038-340-21

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Minimization measures will be written into a Mitigation Monitoring Program for the permit and include noise control measures and air quality using dust control measures

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Provide a list of the responsible or trustee agencies for the project.
