LAFD Response Letter

CITY OF LOS ANGELES
INTER-DEPARTMENTAL CORRESPONDENCE

February 10, 2023

To: Eyestone Environmental
Attention: Ashley Wright
2121 Rosecrans Ave, Suite 3355
LA, CA. 90245

From: Los Angeles City Fire Department

Subject: Request for Fire Services Report

CASE NO.: 1811 Sacramento Street Project
PROJECT NAME: 1811 Sacramento Street Project
PROJECT APPLICANT: Eyestone Environmental
PROJECT LOCATION: 1811 Sacramento St. LA CA 90021

PROPOSED PROJECT:

The Project Site is located at 1727, 1731, 1735, 1801, 1805, 1811, 1815, 1817, 1821, 1825, and 1829 East Sacramento Street (Project Site) in the Central City North Community Plan Area in the City of Los Angeles (City).

As summarized in Table 1 on page 2, the Project Site is currently developed with three warehouse buildings comprised of 40,479 square feet of floor area and associated surface parking. The existing buildings are currently used for storage and warehouse purposes. The Project proposes the demolition of the existing warehouse buildings and the development of a commercial office building with restaurant and retail maker space uses. The Project would provide approximately 277,700 square feet of office space inclusive of approximately 232,500 square feet of interior office space and approximately 45,200 square feet of exterior covered office space. The Project also includes 8,000 square feet of restaurant space, and approximately 5,200 square feet of retail space, resulting in a total floor area of approximately 290,900 square feet and a floor area ratio (FAR) of approximately 3.92:1 upon completion of the Project. The proposed uses would be located within a 15-story building (maximum height of 232 feet).

A total of 582 parking spaces would be provided within an above-ground and visually concealed parking garage integrated into levels one through five of the building. The Project would include approximately 41,500 square feet of outdoor open space areas throughout the Project Site. Specifically, the Project would include 25,500 square feet of exterior (uncovered) office space, 2,100 square feet of outdoor dining, 10,900 square feet of outdoor amenity deck (Level 7), and 3,000 square feet of rooftop deck (Level 15). Landscaping elements and outdoor areas would be provided on the ground floor of the proposed office building including outdoor dining areas and an open-air lobby. Vehicular access to the Project Site would be provided via a primary drive off Sacramento Street, with through access to a rear driveway and fire-lane that provides ingress and egress out to Wilson Street. Pedestrian access to the Project Site would be provided via a pedestrian access path along Wilson and Sacramento Street, which would safely pull pedestrians from the adjacent right-of-way into the Project Site. Additionally, the proposed

outdoor lobby would provide multiple access points for pedestrians along Sacramento Street and Wilson Street.

LAFD would provide fire protection services for the proposed uses on the Project Site. Based on employee generation rates included in the City of Los Angeles VMT Calculator Documentation, the uses proposed by the Project would generate approximately 1,153 employees.

The following comments are furnished in response to your request for this Department to review the proposed development:

FIRE FLOW:

The adequacy of fire protection for a given area is based on required fire-flow, response distance from existing fire stations, and this Department's judgment for needs in the area. In general, the required fire-flow is closely related to land use. The quantity of water necessary for fire protection varies with the type of development, life hazard, occupancy, and the degree of fire hazard.

Fire-flow requirements vary from 2,000 gallons per minute (G.P.M.) in low density residential_areas to 12,000 G.P.M. in high-density commercial or industrial areas. A minimum residual water pressure of 20 pounds per square inch (P.S.I.) is to remain in the water system, with the required gallons per minute flowing. The required fire-flow for this project has been set at **12,000 G.P.M. available to any block (where local conditions indicate that consideration must be given to simultaneous fires, and additional 2,000 to 8,000 G.P.M. will be required).**

Improvements to the water system in this area may be required to provide 12,000 G.P.M. fire-flow. The cost of improving the water system may be charged to the developer. For more detailed information regarding water main improvements, the developer shall contact the Water Services Section of the Department of Water and Power.

RESPONSE DISTANCE:

Based on a required fire-flow of 12,000 G.P.M., the first-due Engine Company should be within 3/4 mile(s), the first-due Truck Company within 1 mile(s).

FIRE STATIONS:

The Fire Department has existing fire stations at the following locations for initial response into the area of the proposed development: **1811 Sacramento**

DISTANCE	Fire Station No.	EQUIPMENT & SERVICES	STAFF
0.7 miles	Fire Station No. 17 1601 s Santa Fe Los Angeles CA 90021	Assessment Engine and Paramedic Rescue Ambulance	6
1.1	Fire Station No. 9 430 e 7th St Los Angeles, CA 90023	Truck, 2 Assessment Engines, 2 Paramedic Rescue Ambulances and BLS Rescue Ambulance.	19
2.1	Fire Station No. 25 2927 Whittier Bl Los Angeles, CA 90023	Assessment Engine and Paramedic Rescue Ambulance	6
2.3	Fire Station No. 14 3401 s Central Ave. Los Angeles, CA 90011	Assessment Engine, Paramedic Rescue Ambulance, BLS Rescue Ambulance	8
2.5	Fire Station No. 10 1335 S. Olive Street Los Angeles, CA 90015	Assessment Light Force, Engine, Paramedic Rescue Ambulance and BLS Rescue Ambulance	14

Based on these criteria (response distance from existing fire stations), fire protection would be considered **Inadequate**.

At present, there are no immediate plans to increase Fire Department staffing or resources in those areas, which will serve the proposed project.

The Los Angeles Fire Department continually evaluates fire station placement and overall Department services for the entire City, as well as specific areas. The development of this proposed project, along with other approved and planned projects in the immediate area, may result in the need for the following:

1. Increased staffing for existing facilities. (I.E., Paramedic Rescue Ambulance and EMT Rescue Ambulance resources.)
2. Additional fire protection facilities.
3. Relocation of present fire protection facilities.

For additional information, please contact the Fire Development Services Section, Hydrants & Access Unit at **(213) 482-6543**.

Kristin M. Crowley,
 Fire Chief

Karen Bass
Mayor

June 20, 2023

Sophia Kim
Department of City Planning
200 N. Spring Street, Suite 525
Los Angeles CA 90012

Dear Sophi Kim:

[ENV-0000-0000-EIR]

The proposed, "The 1811 Sacramento Street Project," is located at 1811 East Sacramento Street, Los Angeles, CA 90021. This project has additional addresses. The project location is in Reporting District (RD) 1309. This RD falls within the geographical boundaries of the Los Angeles Police Department's (LAPD) Newton Area. A project of this size could have an impact on police services within Newton Area. The Department is available for advisement on crime prevention features appropriate for the design of the properties within the project.

Upon completion of the project, it is encouraged to provide the Commanding Officer of Newton Community Police Station with a diagram copy of each portion of the property. Newton Community Police Station's Commanding Officer is Captain III Jeffrey Bratcher. Newton Community Police Station is located at 3400 South Central Avenue, CA 90011 (RD 1345). Captain Bratcher's phone number is (323) 846-6547. The diagram should include access routes and any additional information that might facilitate police response.

Should you have any further questions, please contact Police Officer III Jeff Nelson at the Public Engagement Section (PES), Office of Operations, Crime Prevention Through Environmental Design (CPTED) at (213) 486-6000 or via e-mail at CPTED@lapd.online.

Respectfully,

MICHEL R. MOORE
Chief of Police

BILLY B. BROCKWAY, Commander
Department Homeless Coordinator
Office of Operations

The following report was prepared for the “The 1811 Sacramento Street Project” in accordance with Section 15083 of the California Environmental Quality Act (CEQA).

Project Location / Description:

The “1811 Sacramento Street Project” site is located at 1727, 1731, 1735, 1801,1805, 1811, 1815, 1817, 1821 1825, and 1829 East Sacramento Street Los Angeles, CA 90012.” This project will be constructed within the boundaries of the City of Los Angeles and located in LAPD’s Newton Area. Some of the communities in this area are, Produce/North-End Business District, Fashion District, South Park District, and Pueblo Del Rio Housing Development. A summarization of this project’s Environmental Impact Report (E.I.R.) is to identify and assess the project’s potential impact on public quality of life issues and concerns. This is in accordance with Section 15083 of the California Environmental Quality Act (CEQA). This E.I.R. will also address the project’s potential impact on police protection services, the resources needed, the resources available and the impact these services and resources will have on the immediate community.

Purpose of Proposed Project:

The proposed “1811 Sacramento Street Project” site is currently developed with three warehouse buildings comprised of 40, 479 square feet of floor area and associated surface parking. The project proposes the demolition of the existing warehouse buildings and the development of a commercial office building with restaurant and retail marker space use. The project would provide approximately 277,700 square feet of office space inclusive of 232,500 square feet of interior office space and approximately 45,200 square feet of exterior covered office space. The project also includes 8,000 square feet of restaurant space and approximately 5,200 square feet of retail space. A total of 582 parking spaces would be provided with an above ground and visually concealed parking garage integrated into levels one through five if the building. The project includes approximately 41,500 square feet if outdoor open space throughout the site.

Project Distance and Times:

The 1811 Sacramento Street Project addresses are approximately 3 miles and 6 minutes from the Newton Community Police Station.

These distances and times were calculated from a departure point starting from the Newton Community Police Station. These arrival times were configured utilizing some traffic delays. Estimated times of arrival can vary depending on divisional call load, time of the day, traffic delays and types of calls being responded to.

The reporting district for Newton Community Police Station is RD 1345. Their phone number is (323) 846-6547.

Divisional Geographic's / Demographics:

Newton Community Police Station's geographical area of patrol is approximately 9 square miles. It consists of approximately 45 Reporting Districts. The service boundaries for Newton Station are as follows:

To the **West** Wadsworth Avenue

To the **North** East 34th Street;

To the **East** Hooper Avenue

To the **South** Martin Luther King Boulevard;

The proposed, "1811 Sacramento Street Project", will be in **RD 1309** (*Los Angeles Police Department's Newton Division*). The borders for **RD 1309** are as follows:

Reporting District 1309

To the **West** South Alameda Street;

To the **North** East 7th Street;

To the **East** South Santa Fe Avenue

To the **South** East 25th Street

Newton Division

Newton Division has approximately 307 sworn personnel and 13 civilian support staff. Newton staffing consists of 2 Captains, 6 Lieutenants, 26 Detectives, 27 Sergeants, 235 Police Officers and 13 Civilian employees.

To the north, Newton Division borders LAPD's Central and Hollenbeck Divisions. To the west is LAPD's Southwest Division. To the south is LAPD's 77th Division. To the east is the city of Bell and Huntington Park.

Some points of interest that Newton area of Los Angeles are Produce/North-End Business District, Fashion District, South Park District

The residential population in the Newton area is estimated at 150,000 people, plus or minus (WIKIPEDIA and Los Angeles Almanac). The officer to resident ratio is 1 officer for every 993 residents (993:1). This is a given residential impact for a 9 square mile area. This population amount does not reflect citizens from outside the area visiting local businesses, churches, residences and educational institutions.

The Los Angeles Police Department

The Los Angeles Police Department currently has 9,011 sworn personnel and 3,335 civilian employees. These city police employees cater to a Los Angeles City population of approximately 3,985,516. This city population amount is current as of October 1, 2021 (according to 2010-2020 American Community Survey and the 2020 US Census for year 2020). Additionally, this amount does not include all residents and non-residents, but only reflects those individuals that responded to the 2020 Census.

This population equates to a resident to officer ratio of 433 residents for every 1 officer (433:1). The 3,985,516-population amount depicts a firm registered value of population for the City of Los Angeles. However, this number can also be fluid.

The ethnic breakdown of the City of Los Angeles, according to the 2010-2020 American Community Survey and Wikipedia is:

- 46.9% Hispanic / Latin
- 28.9% White (Non-Hispanic)
- 11.7% Asian
- 8.3% Black / African American
- 0.73% Native American
- 0.16% Native Hawaiian / Pacific Islander
- 3.4% Other/two or more races

Divisional Support and Communication:

There are many specialized support units, divisions, sections and services available to Newton's Division within the LAPD (i.e., Air Support, Detectives, Bike Unit, K9 and Metro / SWAT) to support any additional policing needs Newton Division may encounter. These services are available to supplement and complement Newton area policing. In utilizing these available resources, the Los Angeles Police Department can meet the demanded needs of police services for the 1811 Sacramento Street Project.

Newton Community Police Station's emergency response system is directly linked to the Los Angeles Police Department's Communication and Dispatch Center. Communication Division has the responsibility to staff this Dispatch Center. The staff are incident trained personnel that will respond to radioed and telephoned calls for service. They would then dispatch these requests to the proper emergency and non-emergency personnel required or requested. Then they would provide the city personnel involved with the necessary information to execute their duties for any given incident.

These operations are performed on a 24 hour a day, 7 days a week, 365 days a year basis. This includes 911 emergency calls (police, fire and medical). In referencing Communication Division, their main area of concentration is the dispatching and follow-up of police calls for service. Communication Division's "Emergency Operations Center" (EOC / DOC), also works in concert with the Los Angeles Fire Department's (LAFD) "Metropolitan Fire Communications Center" (MFC). Additional emergency response entities that Communication Division interacts with are, but not limited to, is the Los Angeles County Fire Department (LACoFD), the Los Angeles County Sheriff's Department (LASD) and other regional city police and fire agencies. This interaction is

performed to ensure coordinated responses to all emergencies and incidents that occur, will occur or have occurred in Los Angeles City and Los Angeles County regions.

Divisional and Citywide Response Times:

According to the Los Angeles Police Department’s Computer Statistics (COMPSTAT) Division, the average police response time to emergency, high priority calls in the Newton Area (Code 3 calls) was 4.7 minutes. This was done with a dispatch median time of 1.7 minutes. The medium high priority response time (Code 2) was 21.2 minutes. This was done with a dispatch median time of 6.4 minutes. Low priority, non-emergency response times, was 48.3 minutes. These low priority calls had a dispatch median time of 20.7 minutes.

Citywide response times during this same 4-week period was 4.5 minutes for emergency, high priority calls. The dispatch median time was 1.5 minutes. The medium high (Code 2 calls) priority response times were 15.7 minutes with a dispatch time of 4.3 minutes. Low priority response times were 31.9 minutes with a dispatch time of 13.1 minutes.

These response times were taken from the statistics submitted by Newton Division to “COMPSTAT”, for a 4-week period between May 14, 2023 through June 10, 2023. During this same 4-week period, Newton Division answered 420 emergency calls for service, 1,486 medium high priority calls and 980 low priority calls.

Citywide, for the same 4-week period, the Los Angeles Police Department answered 7,212 emergency calls for service, 27,198 medium high priority calls and 20,680 low priority calls. The response times stated are adequate performance times for this police division.

Statistics:

The following is one month of crime statistics for RD 1309 (1811 Sacramento Street Project) and Newton Division 5-year crime statistics for the years 2019-2022. Also included are Citywide crime statistics, broken down by month for the same period.

Newton Division Crime YTD and 5-year totals	2023	2022	2021	2020	2019	Crime in RD 1309 05-14-2023 / 06-10-2023

PART 1 CRIMES BY WATCH REPORT

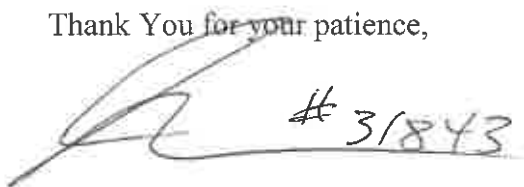

There are no planned improvements to the Newton Area Community Police Station and or it's protection facilities currently. These planned project improvements and or non-planned improvements are intended only for the service areas of the "1811 Sacramento Street Project" site.

Additionally, at this time, there are no special police protection requirements needed by law enforcement because of the specific attributes of the 1811 Sacramento Street site.

The 1811 Sacramento Street Project, individually or combined with other past or present projects, will not result in the need for new or altered police facilities.

This concludes the 1811 Sacramento Street Project, Environmental Impact Report. If there are any further questions regarding this report, please email them to CPTED@lapd.online for the fastest response time.

Thank You for your patience,

Prepared by:

Officer Jeff Nelson, CPD
Los Angeles Police Department
Public Engagement Section
Crime Prevention Through Environmental Design

100 West 1st Street, RM 250
Los Angeles, CA. 90012
