

# Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Irving Middle School Major Modernization Project

Lead Agency: Los Angeles Unified School District

Contact Name: Edward Paek, AICP

Email: edward.paek@lausd.net Phone Number: 213.241.4676

Project Location: Los Angeles Los Angeles  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

The proposed Project involves building replacement and reconfiguration on the Irving MS Campus as part of LAUSD's School Upgrade Program (SUP). The scope consists of the modernization of the Campus to facilitate a safe and secure campus that is better aligned with the current instructional program and meets current Division of the State Architect (DSA) requirements and educational specifications. The proposed Project includes the demolition of the three permanent buildings located directly over an identified earthquake fault (Homemaking Building, Classroom Building, and Administration Building) and the removal of six portable bungalow buildings in the northwest corner of the site. These buildings would be replaced by the construction of one, approximately 56,000-square-foot, two-story building that would house 19 classrooms and support spaces, administration offices, library, and other building service spaces. Additionally, the proposed Project would include a new Maintenance and Operation (M&O) building and one modular building to be used by the City of Angeles Community School. The proposed Project also includes essential upgrades including seismic retrofit of the existing Auditorium Building outside of the earthquake fault, the removal of barriers as well as other accessi

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Draft EIR determined the proposed Project would have a significant and unavoidable impact to Cultural Resources (historic). Even after application of mitigation measure MM-CUL-1, which requires the implementation of a interpretive program, the impact would remain significant. Significant impacts to Air Quality, Greenhouse Gases, Hazards and Hazardous Materials, Noise, Pedestrian Safety, and Transportation and Traffic were determined to be less than significant with application of Standard Conditions and mitigation measures.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None

Provide a list of the responsible or trustee agencies for the project.

Responsible Agencies:

California Department of General Services, Division of State Architect; Los Angeles Regional Water Quality Control Board; City of Los Angeles Public Works Department; City of Los Angeles Fire Department; City of Los Angeles Department of Building & Safety.

Trustee Agencies:
