**Notice of Availability of Draft Initial Study/Environmental Assessment (IS/EA), Notice of Opportunity for Public Hearing, and Notice of Intent to Adopt a Negative Declaration/Finding of No Significant Impact**

The California Department of Transportation (Caltrans) has completed a Draft Initial Study/Environmental Assessment (IS/EA) and Section 4(f) De Minimis Finding. The proposed project would improve operations and safety and upgrade assets to current standards on the Arroyo Seco Parkway (SR 110) in the cities of Los Angeles and South Pasadena, California. The Project consists of two alternatives, one “No Build” Alternative and one “Build Alternative” that will replace N110-N5 Connector Sidehill Viaduct (Bridge No. 53-2225G) and upgrade the bridge railing of Avenue 43 Ramp Bridge (Bridge #53-0985S) and the Arroyo Seco Channel Bridge (Bridge #53-0276).

The purpose of this notice of availability is to solicit comments from public agencies, private entities, and interested individuals on the Draft IS/EA. We want to hear your thoughts and welcome your participation. Further, this is a notice of intent to adopt a Negative Declaration/Finding of No Significant Impact and provide an opportunity for a public hearing.

The Draft IS/EA can be accessed through the following link: <https://dot.ca.gov/caltrans-near-me/district-7/district-7-programs/d7-environmental-docs>
