Reasons why project is exempt: The Lead Agency has determined that the project meets the criteria of the CEQA categorical exemptions found in CEQA Guidelines, 14 C.C.R. § 15301 (Existing Facilities), 14 C.C.R. § 15303 (New Construction or Conversion of Small Structures), and 14 C.C.R § 15304 (Minor Alterations to Land), because: the fiber lines will primarily be installed on existing facilities; the project constitutes a utility extension to serve individual customers; and, construction will require only minor trenching and backfilling within existing right of way and any disturbed surface will be restored.
