Description of Nature, Purpose and Beneficiaries of Project:
The California Department of Transportation (Caltrans) proposes a safety project to install high friction surface treatment (HFST) in Calaveras and San Joaquin Counties at various locations. Construction will occur on paved surfaces within Caltrans right of way. The scope of work requires milling the pavement to remove any existing delineation and then applying high friction surface treatment to the roadway areas. Location 2 Connector Overcrossing will have all spails repaired followed by a 1" polyester concrete overlay with new joint seals. Approach slabs will be repaired as determined by structures. All work will be completed with new delineation. The purpose of this project is to prevent roadway collisions under wet pavement conditions. The
