### Continuation sheet:

#### General:

- Environmental reevaluation will be required if the scope of the project changes to include additional areas or activities, or if previously unknown cultural or other sensitive resources are discovered. Contact the Environmental Office if project changes occur or sensitive resources discovered.

#### Cultural:

- If cultural materials are discovered at the job site, do not disturb the resources and immediately:
  - Stop all work within a 60-foot radius of the discovery
  - Protect the discovery area
  - Notify the Engineer
  - The Department investigates. Do not move cultural materials or take them from the job site. Retain a qualified archaeologist to assess the significance of the find. Do not resume work within the discovery area until authorized.
