Project Title: J-3 Pump Station Electrical Systems Rehabilitation in Union City, Alameda County, Zone 5 Project.

Project Location - Specific: 32000 Union City Blvd, Union City.

Project Location - City: Union City Project Location - County: Alameda

Description of, Nature, and Purpose of Project: The Alameda County Flood Control and Water Conservation District (District) owns and maintains J-3 pump station. The J-3 pump station was constructed in 1975 and serves the J-3 drainage in Union City. In December of 2018, the District prepared a condition assessment for each of its pump stations, which identified various deficiencies. This project address the deficiencies at the J-3 the pump station. This assessment report identified the need for the replacement of the existing diesel generator with a new diesel generator as parts are no longer available for the old generator. The existing fuel tank would also be taken out and disposed of properly and a new belly fuel tank would be installed for the new generator; new motor starters, 30k VA transformer, panelboard, LED lighting and lighting panel will also be replaced. The new electrical systems upgrades at the J-3 pump station would result in more energy efficient operations and extend the service life of the District's flood control pump station.

Name of Public Agency Approving Project: : Alameda County Flood Control & Water Conservation District-F05CB0

Name of Person or Agency Carrying Out Project: Alameda County Flood Control & Water Conservation District

EXEMPT STATUS (check one):

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080 (b)(3); 15269 (a));
