SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108

State Clearinghouse Number: 2023120700

Project Title: Sacramento Area Sewer District Dry Creek Interceptor Relief (Streambed Alteration Agreement EPIMS Notification No. SAC-47234-R2)

Project Location: The project is located at an unnamed tributary (Unnamed Creek) to Dry Creek on 28th Street and at Goat Creek on Scotland, in the town of Rio Linda, County of Sacramento, State of California; Latitude 38.703881, Longitude 121.401508 (WGS 84 datum, decimal degrees) and Latitude 38.708972, Longitude 121.394747; Assessor's Parcel Number 208-0012-002-0000.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Streambed Alteration Agreement EPIMS Notification Number SAC-47234-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Sacramento Area Sewer District.

The project is limited to trenchless crossing under the concrete lined box culvert at Goat Creek, 0.01 acre of culvert repair activities at Unknown Creek that require the dredge of sediment, debris, and trash out of the bottom of the culvert and the placement of fill from culvert invert repairs within Unknown Creek, and the open cut trench under the supported and repaired culverts under Unknown Creek. These project activities are part of a larger project that involves the installation of approximately 9,110 linear feet of 36-inch gravity relief sewer pipeline from the northern end of the existing Dry Creek Interceptor at the Scotland Drive Diversion Structure (near Goat Creek) to the southern end at McClellan Airport property, where the pipeline would connect to the existing Upper Northwest Interceptor with a new junction structure. The proposed pipeline and appurtenant facilities would be located entirely underground and would not be visible following installation. There will be temporary impacts to bed, bank, and channel habitats due to work access and installation of the dewatering structure at the Unknown Creek.

Notice of Determination

This is to advise that CDFW, acting as a Responsible Agency, executed the above-described Lake and Streambed Alteration Agreement on the date signed below and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the mitigated negative declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was not adopted by CDFW for this project.
5. A statement of overriding considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to California Code of Regulations section 15091.

The mitigated negative declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of execution of the above Streambed Alteration Agreement as Responsible Agency is available at CDFW's regional office.
