Granada Hills Montessori  
El Oro Way Elementary School  
Robert Frost Middle School

### **PROJECT DESCRIPTION:**

CD-MS (Granada Hills) LLC (Applicant), proposes the Morningstar of Granada Hills Project (Project) on an approximately 5.09 acre site located at 17551, 17563, 17601 W. Rinaldi Street and 11515-11525 N. Shoshone Avenue (Project Site) in the Granada Hills-Knollwood Community Plan Area of the City of Los Angeles (City). The Project proposes redevelopment of the Project Site with a 98-unit eldercare facility, including 65 assisted living units (AL Units), 30 memory care units (MC Units), and 3 independent living units (IL Units). The Project includes demolition of two existing garages and ancillary buildings, preservation of three existing single-family residential structures that would be converted into IL Units, and construction of a 103,873-square-foot building in the central portion of the Project Site to house the 65 AL Units and the 30 MC Units (AL/MC Building). The AL/MC Building would have two stories with a third story in the northern half of the building and would reach a maximum building height of 45 feet. The Project would provide 11,904 square feet of open space, including a 6,562-square-foot courtyard for the AL residents, a 3,942-square-foot courtyard for the MC residents, and 1,400 square feet of open space for the IL residents. The Project would provide a driveway on Shoshone Avenue and on Rinaldi Street, 77 vehicular surface parking spaces, and 35 bicycle parking spaces, including 12 short-term and 23 long-term spaces. The Project includes six retaining walls to accommodate the siting and development of the AL/MC Building while maintaining the existing single-family residential structures. The Project would require the

removal of 129 on-site trees, of which 19 are considered protected trees and 50 are considered “significant trees” as defined by the City Planning Department, while preserving 89 existing on-site trees. In addition, the Project would require the removal of 6 street trees. All removed trees would be replaced in accordance with the City’s tree replacement requirements. Construction of the Project is estimated to take 21 months and would require the export of approximately 5,605 cubic yards of soil.
